

UNIVERSITY OF ILLINOIS URBANA-CHAMPAIGN SENATE
COMMITTEE ON EDUCATIONAL POLICY
(Final; Information)

EP.24.095 Report of Administrative Approvals through April 15, 2024

In accordance with Part B.9.a of the Senate *Bylaws*, “Senate committees are authorized to act for and in the name of the Senate on minor matters. Such actions shall be reported promptly to the Senate...” Below is a listing of items categorized as administrative approvals and approved by the Senate Committee on Educational Policy in the name of the Senate. For each program listing, there is no change to the total hours required. Additional information for each approval is attached.

A. **Undergraduate Programs**

1. **Revise the Concentration in Educational Equality & Cultural Understanding in the Bachelor of Science in Learning & Education Studies in the College of Education** – embeds the graduation requirements, university requirements, and general education requirements into the program of study table; embeds the major coursework into the program of study table; moves EDUC 101 into the College Requirements section, removes PSYC 100, removes the basic statistical methods general education requirement, removes EPSY 236, adds “May count toward both the Core and Concentration requirements” for several courses and adds “May count toward the Core or Concentration requirement only” for a few courses for greater clarification and transparency of degree requirements, removes EPOL 350 from the major, removes EPOL 325 from the concentration in the program of study table; and revises a learning outcome.
2. **Revise the Concentration in Workplace Training & Development in the Bachelor of Science in Learning & Education Studies in the College of Education** – embeds the graduation requirements, university requirements, and general education requirements into the program of study table; embeds the major coursework into the program of study table; moves EDUC 101 into the College Requirements section, removes PSYC 100, removes the basic statistical methods general education requirement, removes EPSY 236, adds “May count toward both the Core and Concentration requirements” for several courses and adds “May count toward the Core or Concentration requirement only” for a few courses for greater clarification and transparency of degree requirements, removes EPOL 350 from the major in the program of study table; and revises a learning outcome.
3. **Revise the Concentration in Art Undeclared in the College of Fine and Applied Arts** – embeds general education requirements, university requirements, and graduation requirements text into Program of Study table; removes the 2D, 3D, and 4D categories in the first-year requirements, adding Design I and Design 2, and shifting concentration requirements into the concentration section (moving 3 hours) rather than calling them out as concentration requirements in the first-year curricula; adds a table of major options to allow

- students to click on major requirements for the major they will move into after the Art Undeclared program; and removes deactivated program from list of Corresponding Programs.
4. **Revise the Bachelor of Fine Arts in Graphic Design in the College of Fine and Applied Arts** – embeds general education requirements, university requirements, and graduation requirements text into Program of Study table; embeds the first-year curriculum (Art Undeclared), which includes the current revisions of removing the 2D, 3D, and 4D categories, adding Design I and Design 2, and shifting major requirements into the major requirement section (ARTD 151 specifically for this program).
 5. **Revise the Bachelor of Arts in Studio Art in Studio Art in the College of Fine and Applied Arts** – embeds general education requirements, university requirements, and graduation requirements text into Program of Study table; embeds the first-year curriculum (Art Undeclared), which includes the current revisions of removing the 2D, 3D, and 4D categories, adding Design I and Design 2, and removes 3 credit hours from the BASA course requirements.
 6. **Revise the Bachelor of Fine Arts in Art and Art History in the College of Fine and Applied Arts** – embeds general education requirements, university requirements, and graduation requirements text into Program of Study table; updates the first-year curriculum (Art Undeclared), which includes the current revisions of removing the 2D, 3D, and 4D categories, adding Design I and Design 2, and shifting major requirements into the major requirement section (one of the ARTS/ARTD electives at any level specifically for this program); adds summary of credits box with advanced hours statement; and revises/adds standardized headers in POS.
 7. **Revise the Bachelor of Fine Arts in Industrial Design in the College of Fine and Applied Arts** – embeds general education requirements, university requirements, and graduation requirements text into Program of Study table; embeds the first-year curriculum (Art Undeclared), which includes the current revisions of removing the 2D, 3D, and 4D categories, adding Design I and Design 2, and shifting major requirements into the major requirement section (ARTD 101 specifically for this program); reorganizing major requirements; and removing temporary suspension of admissions for Fall 2025 applicants. The suspension was intended to be for one year and the unit plans to have the BFA ID available on the undergrad application again for Fall 2025.
 8. **Revise the Concentration in Painting in the Bachelor of Fine Arts in Studio Art in Studio Art in the College of Fine and Applied Arts** – embeds general education requirements, university requirements, and graduation requirements text into Program of Study table; embeds the first-year curriculum (Art Undeclared), which includes the current revisions of removing the 2D, 3D, and 4D categories, adding Design I and Design 2, and shifting concentration requirements into the concentration section (ARTS 251 specifically for this concentration); embeds the BFASA Studio Art major requirements into the Program of Study for clarity; removes footnotes for accessibility; and reorganizes concentration requirements to provide more access to ARTS courses by level, rather than from a specific list.
 9. **Revise the Concentration in Photography in the Bachelor of Fine Arts in Studio Art in Studio Art in the College of Fine and Applied Arts** – embeds general education requirements, university requirements, and graduation requirements text into Program of Study table;

embeds the first-year curriculum (Art Undeclared), which includes the current revisions of removing the 2D, 3D, and 4D categories, adding Design I and Design 2, and shifting concentration requirements into the concentration section (ARTS 264 specifically for this concentration); embeds the BFASA Studio Art major requirements into the Program of Study for clarity; removes footnotes for accessibility; and reorganizes concentration requirements to provide more access to ARTS courses by level, rather than from a specific list.

- 10. Revise the Concentration in Printmaking in the Bachelor of Fine Arts in Studio Art in Studio Art in the College of Fine and Applied Arts** – embeds general education requirements, university requirements, and graduation requirements text into Program of Study table; embeds the first-year curriculum (Art Undeclared), which includes the current revisions of removing the 2D, 3D, and 4D categories, adding Design I and Design 2, and shifting concentration requirements into the concentration section (ARTS 205 specifically for this concentration); embeds the BFASA Studio Art major requirements into the Program of Study for clarity; removes footnotes for accessibility; reorganizes concentration requirements to provide more access to ARTS courses by level, rather than from a specific list; and increases the requirement for one course from 6 hours to 9 hours while removing two courses to provide further skills in the concentration area and remove an advanced drawing or painting requirement.
- 11. Revise the Concentration in Sculpture in the Bachelor of Fine Arts in Studio Art in Studio Art in the College of Fine and Applied Arts** – embeds general education requirements, university requirements, and graduation requirements text into Program of Study table; embeds the first-year curriculum (Art Undeclared), which includes the current revisions of removing the 2D, 3D, and 4D categories, adding Design I and Design 2, and shifting concentration requirements into the concentration section (ARTS 280 specifically for this concentration); embeds the BFASA Studio Art major requirements into the Program of Study for clarity; removes footnotes for accessibility; and reorganizes concentration requirements to provide more access to ARTS courses by level, rather than from a specific list.
- 12. Revise the Concentration in New Media in the Bachelor of Fine Arts in Studio Art in Studio Art in the College of Fine and Applied Arts** – embeds general education requirements, university requirements, and graduation requirements text into Program of Study table; embeds the first-year curriculum (Art Undeclared), which includes the current revisions of removing the 2D, 3D, and 4D categories, adding Design I and Design 2, and shifting concentration requirements into the concentration section (moves 3 hours of how the 4D requirement of ARTS 241/243/244 is counting specifically for this concentration); embeds the BFASA Studio Art major requirements into the Program of Study for clarity; removes footnotes for accessibility; and reorganizes concentration requirements to provide more access to ARTS courses by level, rather than from a specific list.
- 13. Revise the Concentration in Fashion in the Bachelor of Fine Arts in Studio Art in Studio Art in the College of Fine and Applied Arts** – embeds general education requirements, university requirements, and graduation requirements text into Program of Study table; embeds the first-year curriculum (Art Undeclared), which includes the current revisions of removing the 2D, 3D, and 4D categories, adding Design I and Design 2, and shifting concentration

requirements into the concentration section (ARTS 221 for this concentration); embeds the BFASA Studio Art major requirements into the Program of Study for clarity; removes footnotes for accessibility; and reorganizes concentration requirements to provide more access to ARTS courses by level, rather than from a specific list and clarifies the theatre options as costume courses with two additional options.

- 14. Revise the Bachelor of Fine Arts in Art Education in the College of Fine and Applied Arts** – embeds general education requirements, university requirements, and graduation requirements text into Program of Study table; embeds the first-year curriculum (Art Undeclared), which includes the current revisions of removing the 2D, 3D, and 4D categories, adding Design I and Design 2, and shifting major requirements into the major requirement section (ARTS 251 specifically for this program); explains the 3D/4D requirement in the major; removes PSYC 100 from Professional Education category; creates degree summary table; and adds GPA requirement for licensure.
- 15. Eliminate the Business Core CIM P record in the Gies College of Business** - Per campus guidance, moves the Business Core coursework into the 8 Business undergraduate non-data science programs for transparency and accessibility. As such, this CIM P record is no longer needed. Eliminating the Business Core CIM P record and moving the Business Core coursework into the declared non-data science majors will increase transparency and accessibility. The program code will be moved and continue to exist on the Business Undeclared CIM-P record (key 1234). There is no impact on enrollment, as this Business Core coursework is moving into existing programs.
- 16. Establish Business Undeclared in the Gies College of Business** - Displaying the Business Undeclared major in the academic catalog aligns with campus' goals for transparency for students as they pursue their undergraduate degree. All first-year students entering Gies College of Business are admitted to the Business Undeclared Program. Students are then able to work towards completing the Business Core courses, as well as General Education requirements before selecting a major in the college. Students must select a major by the beginning of their third year (5th semester), but have the option to select a major as early as their first semester if they so choose. Moving the BUS Core coursework from Business Core CIM-P record (key 558), which is being deactivated, to the Business Undeclared record (key 1234). The following minor revisions are simultaneously being made to the business core coursework:
 1. Fixes error in Business Core from a 2021 revision, which was to add a requirement, Business Core Math. The MATH and STAT courses that comprise the Business Core Math are approved as Quantitative Reasoning courses within the General Education program. While it appears that the total hours for the Business Core are increasing, since the course list being added can be counted towards the Quantitative Reasoning Gen Ed requirement, the net sum change of total hours for the program is zero (total hours remain unchanged for the degree program). Letters of support from MATH and STAT Departments are attached.
 2. Removes footnotes from the program of study to align with campus accessibility principles.
 3. Revises the General Education structure in Gies College of Business Undergraduate programs to align with the campus structure for General Education Requirements. As such, we removed the specific behavioral science course requirement to fulfill the Social & Behavioral Science requirements. This now

allows students to complete the Social & Behavioral Science requirements with the required ECON 102 and ECON 103 coursework. We also removed the additional 200 level course requirement and the requirement for a course to be taken in each sub-category in the Humanities & the Arts. This now allows for students to complete the Humanities & the Arts requirement with just 2 courses that satisfy this general education category at any level and in either Humanities & the Arts sub-category. Letters of support from the colleges most likely to be affected are attached. We have included letters of support from the College of ACES, College of AHS, College of Education, College of Media, College of FAA, and College of LAS. In reviewing Gies students course selection for the additional Behavioral Science Gen Ed and Humanities Gen Ed in our current structure, these colleges would be most impacted by the removal of these requirements that are above and beyond what campus requires for general education.

- 17. Revise the Bachelor of Science in Accountancy in the Gies College of Business** –adds the Business Core CIM P record requirements, which included the University Composition Requirements, General Education Requirements, and Business Core Requirements, into the major record; fixes error in Business Core from a 2021 revision, which was to add a requirement, Business Core Math. The MATH and STAT courses that comprise the Business Core Math are approved as Quantitative Reasoning courses within the General Education program. While it appears that the total hours for the Business Core are increasing, since the course list being added can be counted towards the Quantitative Reasoning Gen Ed requirement, the net sum change of total hours for the program is zero (total hours remain unchanged for the degree program); removes the footnotes; revises the General Education structure in Gies College of Business Undergraduate programs to align with the campus structure for General Education Requirements. As such, we removed the specific behavioral science course requirement to fulfill the Social & Behavioral Science requirements. This now allows students to complete the Social & Behavioral Science requirements with the required ECON 102 and ECON 103 coursework. We also removed the additional 200 level course requirement and the requirement for a course to be taken in each sub-category in the Humanities & the Arts. This now allows for students to complete the Humanities & the Arts requirement with just 2 courses that satisfy this general education category at any level and in either Humanities & the Arts sub-category. We have included letters of support from the College of ACES, College of AHS, College of Education, College of Media, College of FAA, and College of LAS. In reviewing Gies students course selection for the additional Behavioral Science Gen Ed and Humanities Gen Ed in our current structure, these colleges would be most impacted by the removal of these requirements that are above and beyond what campus requires for general education; removes duplicative and outdated language from the degree requirements page in the Course Catalog. Content removed is as follows: "Accountancy courses (both required and elective) to be applied toward the 124-hour requirement for the Bachelor of Science Degree in Accountancy may not be taken on a credit/no-credit basis. In addition, a limit of 33 hours of accountancy courses (including ACCY 201 and ACCY 202) may be counted toward the 124 total hour requirement."
- 18. Revise the Bachelor of Science in Finance in the Gies College of Business** – adds the Business Core CIM P record requirements, which included the University Composition Requirements,

General Education Requirements, and Business Core Requirements, into the major record; fixes error in Business Core from a 2021 revision, which was to add a requirement, Business Core Math. The MATH and STAT courses that comprise the Business Core Math are approved as Quantitative Reasoning courses within the General Education program. While it appears that the total hours for the Business Core are increasing, since the course list being added can be counted towards the Quantitative Reasoning Gen Ed requirement, the net sum change of total hours for the program is zero (total hours remain unchanged for the degree program); removes the footnotes; revises the General Education structure in Gies College of Business Undergraduate programs to align with campus structure for General Education Requirements. As such, we removed the specific behavioral science course requirement to fulfill the Social & Behavioral Science requirements. This now allows students to complete the Social & Behavioral Science requirements with the required ECON 102 and ECON 103 coursework. We also removed the additional 200 level course requirement and the requirement for a course to be taken in each sub-category in the Humanities & the Arts. This now allows for students to complete the Humanities & the Arts requirement with just 2 courses that satisfy this general education category at any level and in either Humanities & the Arts sub-category. We have included letters of support from the College of ACES, College of AHS, College of Media, College of FAA, and College of LAS. In reviewing Gies students course selection for the additional Behavioral Science Gen Ed and Humanities Gen Ed in our current structure, these colleges would be most impacted by the removal of these requirements that are above and beyond what campus requires for general education; removes course list "For Students Admitted Prior to Fall 2016."; adds the ability for a student to use one 3-credit FIN 490 toward their degree.

19. **Revise the Bachelor of Science in Marketing in the Gies College of Business** – adds the Business Core CIM P record requirements, which included the University Composition Requirements, General Education Requirements, and Business Core Requirements, into the major record; fixes error in Business Core from a 2021 revision, which was to add a requirement, Business Core Math. The MATH and STAT courses that comprise the Business Core Math are approved as Quantitative Reasoning courses within the General Education program. While it appears that the total hours for the Business Core are increasing, since the course list being added can be counted towards the Quantitative Reasoning Gen Ed requirement, the net sum change of total hours for the program is zero (total hours remain unchanged for the degree program); removes the footnotes; revises the General Education structure in Gies College of Business Undergraduate programs to align with the campus structure for General Education Requirements. As such, we removed the specific behavioral science course requirement to fulfill the Social & Behavioral Science requirements. This now allows students to complete the Social & Behavioral Science requirements with the required ECON 102 and ECON 103 coursework. We also removed the additional 200 level course requirement and the requirement for a course to be taken in each sub-category in the Humanities & the Arts. This now allows for students to complete the Humanities & the Arts requirement with just 2 courses that satisfy this general education category at any level and in either Humanities & the Arts sub-category. We have included letters of support from the College of ACES, College of AHS, College of Education, College of Media, College of FAA, and College of LAS. In reviewing Gies students course selection

for the additional Behavioral Science Gen Ed and Humanities Gen Ed in our current structure, these colleges would be most impacted by the removal of these requirements that are above and beyond what campus requires for general education; removes comments regarding prerequisites next to several major courses; revises GEOG 440 course to new course rubric, as the department rubric changed from GEOG to GIS (no letter of support necessary due to renaming).

20. **Revise the Bachelor of Science in Supply Chain Management in the Gies College of Business** – adds the Business Core CIM P record requirements, which included the University Composition Requirements, General Education Requirements, and Business Core Requirements, into the major record; fixes error in Business Core from a 2021 revision, which was to add a requirement, Business Core Math. The MATH and STAT courses that comprise the Business Core Math are approved as Quantitative Reasoning courses within the General Education program. While it appears that the total hours for the Business Core are increasing, since the course list being added can be counted towards the Quantitative Reasoning Gen Ed requirement, the net sum change of total hours for the program is zero (total hours remain unchanged for the degree program); removes the footnotes; revises the General Education structure in Gies College of Business Undergraduate programs to align with the campus structure for General Education Requirements. As such, we removed the specific behavioral science course requirement to fulfill the Social & Behavioral Science requirements. This now allows students to complete the Social & Behavioral Science requirements with the required ECON 102 and ECON 103 coursework. We also removed the additional 200 level course requirement and the requirement for a course to be taken in each sub-category in the Humanities & the Arts. This now allows for students to complete the Humanities & the Arts requirement with just 2 courses that satisfy this general education category at any level and in either Humanities & the Arts sub-category. We have included letters of support from the College of ACES, College of AHS, College of Education, College of Media, College of FAA, and College of LAS. In reviewing Gies students course selection for the additional Behavioral Science Gen Ed and Humanities Gen Ed in our current structure, these colleges would be most impacted by the removal of these requirements that are above and beyond what campus requires for general education; revises minimum program hours in Program Features to be 124. This is not a change of the total credit hours, but a clean-up of the CIM-P system; removes comments regarding prerequisites next to several major courses.
21. **Revise the Bachelor of Science in Management in the Gies College of Business** – adds the Business Core CIM P record requirements, which included the University Composition Requirements, General Education Requirements, and Business Core Requirements, into the major record; fixes error in Business Core from a 2021 revision, which was to add a requirement, Business Core Math. The MATH and STAT courses that comprise the Business Core Math are approved as Quantitative Reasoning courses within the General Education program. While it appears that the total hours for the Business Core are increasing, since the course list being added can be counted towards the Quantitative Reasoning Gen Ed requirement, the net sum change of total hours for the program is zero (total hours remain unchanged for the degree program); removes the footnotes; revises the General Education structure in Gies College of Business Undergraduate programs to align with the campus structure for General Education

Requirements. As such, we removed the specific behavioral science course requirement to fulfill the Social & Behavioral Science requirements. This now allows students to complete the Social & Behavioral Science requirements with the required ECON 102 and ECON 103 coursework. We also removed the additional 200 level course requirement and the requirement for a course to be taken in each sub-category in the Humanities & the Arts. This now allows for students to complete the Humanities & the Arts requirement with just 2 courses that satisfy this general education category at any level and in either Humanities & the Arts sub-category. We have included letters of support from the College of ACES, College of AHS, College of Education, College of Media, College of FAA, and College of LAS. In reviewing Gies students course selection for the additional Behavioral Science Gen Ed and Humanities Gen Ed in our current structure, these colleges would be most impacted by the removal of these requirements that are above and beyond what campus requires for general education; removes comments regarding prerequisites next to several major courses; revises minimum program hours in Program Features to be 124. This is not a change of the total credit hours, but a clean-up of the CIM-P system.

22. **Revise the Bachelor of Science in Information Systems in the Gies College of Business** – adds the Business Core CIM P record requirements, which included the University Composition Requirements, General Education Requirements, and Business Core Requirements, into the major record; fixes error in Business Core from a 2021 revision, which was to add a requirement, Business Core Math. The MATH and STAT courses that comprise the Business Core Math are approved as Quantitative Reasoning courses within the General Education program. While it appears that the total hours for the Business Core are increasing, since the course list being added can be counted towards the Quantitative Reasoning Gen Ed requirement, the net sum change of total hours for the program is zero (total hours remain unchanged for the degree program); removes the footnotes; revises the General Education structure in Gies College of Business Undergraduate programs to align with the campus structure for General Education Requirements. As such, we removed the specific behavioral science course requirement to fulfill the Social & Behavioral Science requirements. This now allows students to complete the Social & Behavioral Science requirements with the required ECON 102 and ECON 103 coursework. We also removed the additional 200 level course requirement and the requirement for a course to be taken in each sub-category in the Humanities & the Arts. This now allows for students to complete the Humanities & the Arts requirement with just 2 courses that satisfy this general education category at any level and in either Humanities & the Arts sub-category. We have included letters of support from the College of ACES, College of AHS, College of Education, College of Media, College of FAA, and College of LAS. In reviewing Gies students course selection for the additional Behavioral Science Gen Ed and Humanities Gen Ed in our current structure, these colleges would be most impacted by the removal of these requirements that are above and beyond what campus requires for general education; removes comments regarding prerequisites next to several major courses; deletes BADM 395 Sec. ID because it no longer exists; changes course numbers for BADM 395 Secs. BDI, ISM, and IOP with updated permanent numbers BADM 358, 370, and 372, respectively.

- 23. Revise the Bachelor of Science in Operations Management in the Gies College of Business** – adds the Business Core CIM P record requirements, which included the University Composition Requirements, General Education Requirements, and Business Core Requirements, into the major record; fixes error in Business Core from a 2021 revision, which was to add a requirement, Business Core Math. The MATH and STAT courses that comprise the Business Core Math are approved as Quantitative Reasoning courses within the General Education program. While it appears that the total hours for the Business Core are increasing, since the course list being added can be counted towards the Quantitative Reasoning Gen Ed requirement, the net sum change of total hours for the program is zero (total hours remain unchanged for the degree program); removes the footnotes; revises the General Education structure in Gies College of Business Undergraduate programs to align with the campus structure for General Education Requirements. As such, we removed the specific behavioral science course requirement to fulfill the Social & Behavioral Science requirements. This now allows students to complete the Social & Behavioral Science requirements with the required ECON 102 and ECON 103 coursework. We also removed the additional 200 level course requirement and the requirement for a course to be taken in each sub-category in the Humanities & the Arts. This now allows for students to complete the Humanities & the Arts requirement with just 2 courses that satisfy this general education category at any level and in either Humanities & the Arts sub-category. We have included letters of support from the College of ACES, College of AHS, College of Education, College of Media, College of FAA, and College of LAS. In reviewing Gies students course selection for the additional Behavioral Science Gen Ed and Humanities Gen Ed in our current structure, these colleges would be most impacted by the removal of these requirements that are above and beyond what campus requires for general education; removes comments regarding prerequisites next to several major courses.
- 24. Revise the Bachelor of Science in Strategy, Innovation, and Entrepreneurship in the Gies College of Business** – adds the Business Core CIM P record requirements, which included the University Composition Requirements, General Education Requirements, and Business Core Requirements, into the major record; fixes error in Business Core from a 2021 revision, which was to add a requirement, Business Core Math. The MATH and STAT courses that comprise the Business Core Math are approved as Quantitative Reasoning courses within the General Education program. While it appears that the total hours for the Business Core are increasing, since the course list being added can be counted towards the Quantitative Reasoning Gen Ed requirement, the net sum change of total hours for the program is zero (total hours remain unchanged for the degree program); removes the footnotes; revises the General Education structure in Gies College of Business Undergraduate programs to align with the campus structure for General Education Requirements. As such, we removed the specific behavioral science course requirement to fulfill the Social & Behavioral Science requirements. This now allows students to complete the Social & Behavioral Science requirements with the required ECON 102 and ECON 103 coursework. We also removed the additional 200 level course requirement and the requirement for a course to be taken in each sub-category in the Humanities & the Arts. This now allows for students to complete the Humanities & the Arts requirement with just 2 courses that satisfy this general education category at any level and in

either Humanities & the Arts sub-category. We have included letters of support from the College of ACES, College of AHS, College of Education, College of Media, College of FAA, and College of LAS. In reviewing Gies students course selection for the additional Behavioral Science Gen Ed and Humanities Gen Ed in our current structure, these colleges would be most impacted by the removal of these requirements that are above and beyond what campus requires for general education; revises SOCW and DTX courses to new course numbers, as the departments renumbered the courses from SOCW 375 to SOCW 445 and DTX 251 to DTX 451(no letters of support necessary due to renumbering); removes BADM 395 from the Skill-Building Elective Choices list; revises minimum program hours in Program Features to be 124. This is not a change of the total credit hours, but a clean-up of the CIM-P system.

- 25. Revise the Bachelor of Arts in Teaching of German in the College of Liberal Arts and Sciences** – adds Core Professional Education coursework directly into the Program of Study table instead of a website link to an Academic Catalog page; and modifies the formatting of the Program of Study table and additional text (e.g., graduation requirements, university requirements, and general education requirements) in addition to the Student Learning Objectives.
- 26. Revise the Bachelor of Science in Physics in the Grainger College of Engineering** – updates two track course requirements to move several required courses to a choose from list and thus reduces the minimum number of credit hours in the track lists; revises the credit hours on each track from a range to minimum number required; updates the free elective credit hours; updates the sample sequence; revises the Program Tracks credit hour range; and modifies the formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements).
- 27. Revise the Bachelor of Science in Architectural Studies in the College of Fine and Applied Arts** – adds General Education template and moves coursework that didn't already appear in the major into a newly added subcategory in the major; adds ARCH 101; removes ARCH 413; adds an additional advanced Arch History course requirement; removes ARCH 418 from Arch Hist list; clarifies professional free electives; removes ARCH 222 and ARCH 314 general education comments in parentheses; and updates summary table and total hours due to course credit hour changes.

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

Does this program have inter-departmental administration?
No

Proposal Title

Term

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Concentration in Educational Equality & Cultural Understanding in the Bachelor of Science in Learning & Education Studies in the College of Education

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This Concentration in Educational Equality & Cultural Understanding (key 769) is related to the Learning & Education Studies, BS proposal (key 108) and subsequent Learning & Education Studies Concentrations in Workplace Training & Development (key 770) and Educational Technology (key 771).

Program Justification

Provide a brief description of what changes are being made to the program.

The formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) has been modified per the Office of the Provost and campus guidance for transparency. Additionally, per campus guidelines, the LES Core has been added to the concentration POS.

More specifically, program revisions include:

1. The LES core coursework has been added to the POS.
2. The EDUC 101 Orientation Seminar course has been moved to the "College Requirements" section of the POS.
3. PSYC 100 has been removed under "Social & Behavioral Sciences."
4. The basic statistical methods Gen Ed requirement (e.g., SOC 280, PSYC 235, or STAT 100) has been removed.
5. EPSY 236 has been removed from POS.
6. The first learning outcome was modified from "Students will acquire deep knowledge of content in the workplace" to "Students will acquire deep knowledge of content relevant to the workplace."
7. In parenthesis, we added "May count toward both the Core and Concentration requirements" for CI 210, EPOL 403, EPOL 473, and EPOL 474.
8. In parenthesis, we added "May count toward the Core or Concentration requirement only" for EDUC 202 and EPOL 402.
9. EPOL 325 has been removed from the concentration.
10. EPOL 350 has been removed from the POS.

Please note: Concentration requirements have not changed, except for the deactivation of EPOL 325. Total degree hours have remained the same (120 hours).

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021

No

Why are these changes necessary?

The College of Education seeks to follow CIM system best practices and recommendations provided by the Office of the Provost and/or the Office of the Registrar to best articulate all requirements.

1. LES core coursework was added to POS for greater transparency.
2. The EDUC 101 course was moved to the appropriate section, as it is a College requirement, not a Gen Ed requirement.
3. PSYC 100 was removed because we may no longer require specific Gen Eds not listed in the program of study (or major requirements).
4. The basic statistical methods Gen Ed requirement (e.g., SOC 280, PSYC 235, or STAT 100) was removed because we may no longer require specific Gen Eds not listed in the program of study (or major requirements).
5. Per the dept chair, EPSY 236 has not been offered since Spring 2017, and the dept does not have the capacity to resurrect it (per EPSY 236 & 491 attached doc).
6. To address the rollback comment from Liv T. Davila (key 771) dated 4/11/23, requesting to clarify the learning objective. The learning outcome language is now more aligned with the program's desired outcome.
7. Added text for greater clarification and transparency of degree requirements.
8. Added text for greater clarification and transparency of degree requirements.
9. EPOL 325 is being deactivated, as the course has not been taught since Spring 2016.
10. EPOL 350 is being deactivated, as it has never been offered.

Upper-division/advanced coursework breakdown:

Learning & Education Studies Core: Choose six courses with at least two in each area (18-20 hours); 8 out of 12 course options are upper-division. At least 9 hours must be upper-division: [CI 415, EPSY 400, EPSY 401, EPOL 310, EPOL 402, EPOL 403, EPOL 473, EPOL 474].

Educational Equality & Cultural Understanding Concentration: (24 hours); 9 out of 12 course options are upper-division. At least 15 hours must be upper-division: [EPOL 380, EPOL 401, EPOL 405, EPOL 402, EPOL 410, EPOL 403, EPOL 407, EPOL 409, EPOL 412].

A minimum of 24 hours must be upper-division. At a maximum, all hours (44 hours) could be upper-division. Even if the student only gets 24 hours of upper-division courses from required courses, the sample sequence allows for 26 hours of electives that could be used to provide the remaining 16 hours of upper-division courses.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

- [1. Students will acquire deep knowledge of content relevant to the workplace.](#)
- [2. Students will effectively learn the skills and disposition to develop, plan, and implement culturally relevant and responsive outcomes in their respective professions and civic engagements.](#)
- [3. Students will use data to drive decisions and solve problems in their professional careers.](#)
- [4. Students will display the expectations of professionalism related to success in the field of education and beyond \(fairness, commitment to collaboration, community, reflective practice, and attention to 21st century skills and practices\).](#) **See Attachment.**~~The change is in the rubric naming only~~

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Good morning, Dr. Benjamin—and happy Monday!

I am writing on behalf of the College of Education, requesting a letter of acknowledgment (or email reply; see p. 2 of the attached PDF) for the **removal of PSYC 100**, which is currently a required Social & Behavioral Science Gen Ed for the Learning & Education Studies program.

Per new best practices and recommendations from the Office of the Provost, we shall not require a Gen Ed if it is not a required major course. Thus, we intend to remove PSYC 100 from the curriculum. Once the revision is approved, PSYC 100 will not appear in the curriculum.

Thank you,
Kelli

Subject: Notice re: plans to remove PSYC 100 from Learning & Education Studies, BS program

Greetings, Dr. Aaron Benjamin. I hope the start of the semester is treating you well and that you are staying warm this week!

I am writing to inform you that the College of Education plans **to remove the PSYC 100 Gen Ed requirement** from our Learning & Education Studies, BS program of study. The course is not required to complete the major, per se, but PSYC 100 is currently listed as a Social & Behavioral Science Gen Ed requirement.

Per new best practices and recommendations from the Office of the Provost, we shall not be requiring a Gen Ed if it is not a required major course. Thus, we intend to remove PSYC 100 from the Learning & Education Studies, BS degree program.

Sincerely,
Kelli

Subject: Seeking acknowledgment for the removal of PSYC 235 from Learning & Education Studies degree program

Hi again, Aaron. I have one more request and want to thank you in advance for your time *and* consideration.

I am writing on behalf of the College of Education to request a letter of acknowledgment (or email reply) for the **removal of PSYC 235 from the Learning & Education Studies bachelor's degree program**. The course is currently listed under the Quantitative Reasoning subheading, instructing students to choose from "An approved basic course in statistical methods, such as STAT 100, SOC 280, or PSYC 235."

Per new best practices and recommendations from the Office of the Provost, we shall not require a Gen Ed if it is not a required major course. Thus, we intend to remove PSYC 235 from the curriculum. Once the revision is approved, PSYC 235 will not appear in the curriculum.

Sincerely,
Kelli

Friday, February 2, 2024 at 14:53:29 Central Standard Time

Subject: Re: REQUEST for a letter of acknowledgment for removing EPSY 491 from LES DELTA curriculum
Date: Monday, February 27, 2023 at 2:57:54 PM Central Standard Time
From: Lindgren, Robb W
To: Halfman, Kelli A, Christianson, Kiel, McCarthey, Sarah Jane
CC: Kellogg, Julie Ann, Dorsey Ackerman, Rayme, Napolitano, Chris
Attachments: image001.png, image002.png, image003.png, image004.png

Thanks Kiel for bringing EPSY 236 to our attention. It's good to know there are no plans to teach it anytime soon.

EPSY 236 is actually listed in the Ed Foundations Core Requirements of the LES program. So it's not just part of the DELTA concentration but the whole LES degree. It should get removed for sure, but probably better done as part of the full curriculum revision of the LES program (we're working on this currently but isn't likely to go live til 2025). The change that Kelli is referring to is renaming the DELTA concentration to Educational Technology, so we're just making a few small changes for that concentration we can get away with now.

Does that make sense? I will definitely be consulting with you about the bigger changes we're going to make to LES and what courses from EPSY we should include. CI430 sounds like a good option.

cc'ing Chris as he was kind enough to respond to this issue earlier today.

Robb

Subject: Re: REQUEST for a letter of acknowledgment for removing EPSY 491 from LES DELTA curriculum

Thank you for your prompt and thoughtful response, Kiel.
I'll let [@McCarthey, Sarah Jane](#) and [@Lindgren, Robb W](#) weigh in on their thoughts before we proceed.

Sincerely,
Kelli

KELLI HALFMAN (she/her) 
Assistant to the Associate Dean

Subject: Re: REQUEST for a letter of acknowledgment for removing EPSY 491 from LES DELTA curriculum

Hi Kelli,

I'm OK with removing 491 from the concentration requirements.

I do see, however, that EPSY 236 is one of the Education Foundations options in the DELTA BS. This appears to be another instance where a course was added that is not currently being taught. 236 hasn't been taught since 2017. We don't currently have the capacity to resurrect it. I would recommend substituting EPSY 430 (adolescent development) as it does take a life-span view.

I'm curious to hear Sarah's and Robb's thoughts on this...

kiel

 Struckthrough text has been moved to a new section of the POS.

Current Program of Study	
A minimum of 120 semester hours is necessary for graduation in the Learning and Education Studies program. Students will spend much of the first two years with general education courses, achieving a solid preparation in the humanities, social and natural sciences, technology and mathematics. In the final two years of the major, students will take a set of core courses, as well as coursework in one of the concentrations.	
Orientation Seminar EDUC 104	Education Orientation Seminar 4
The following degree requirements also meet general education course requirements and must be selected from the campus general education course list. Selections of core requirements courses should be made in consultation with the adviser.	
Composition	4-6
Composition I	3-4
Advanced Composition	3-4
Quantitative Reasoning	3-4
An approved basic course in statistical methods such as STAT 100, SOC 280, or PSYC 235	
From approved campus list	
Natural Sciences and Technology	3
From approved campus list	
Humanities and the Arts	6
From approved campus list	
Social and Behavioral Sciences	6
From approved campus list (must include PSYC 100)	
Cultural Studies	
From Western Culture(s) approved campus list	3
From U.S. Minority Culture(s) approved campus list	3
From Non-Western Culture(s) approved campus list	3
Language other than English	3
Three years of one language other than English in high school or completion of the third semester of college-level language	0-12
Core Requirements	
Choose 2 from the following Education Foundations:	6-7
EDUC 201	Identity and Difference in Education
or EPOL 201	Foundations of Education
or EPOL 202	Foundations of Education-ACP
EPSY 220	Career Theory and Practice
EPSY 236	Child Development in Education
SPED 117	The Culture of Disability
Choose 6 from the following, with at least 2 in each area:	18-20
Learning and Instruction:	
CI 210	Introduction to Digital Learning Environments
CI 415	Language Varieties, Cultures and Learning
EPOL 350	Social Learning and Knowledge
EPSY 201	Educational Psychology
EPSY 400	Psychology of Learning in Education
EPSY 401	Child Language and Education
Leadership in a Diverse Global Economy:	
EDUC 202	Social Justice, School and Society (May not be counted toward both the Core and Concentration requirements)
EPOL 310	Race and Cultural Diversity
EPOL 402	Asian American Education (May not be counted toward both the Core and Concentration requirements)
EPOL 403	Historical and Social Barriers
EPOL 473	Facilitation Skills
EPOL 474	Diversity in the Workplace
Educational Equality & Cultural Understanding Concentration	
The following courses are required for this concentration. Changes/additions to this list can be obtained from the College office. Approvals for substitution must be submitted by petition to the College office for approval by the Assistant Dean for Academic Affairs.	
Choose 3 from Social Foundations area:	9
EDUC 202	Social Justice, School and Society (Can be counted in the Core requirement or the Concentration requirement but not both)
EPOL 380	Education and Social Justice
EPOL 401	History of American Education
Choose 2 from the following Cultural Understanding area:	6
EPOL 325	Social Media and Global Change
EPOL 402	Asian American Education (Can be counted in the Core requirement or the Concentration requirement but not both)
EPOL 410	Racial and Ethnic Families
EPSY 202	Exploring Cultural Diversity
Choose 2 from the following Educational Equality area:	6
EPOL 403	Historical and Social Barriers
EPOL 407	Critical Thinking in Education
EPOL 409	Sociology of Education
EPOL 412	Politics of Education
Elective class from GWS, LLS, AAS, AFRO, AIS, or GLBL	3
Total Hours	24

Revised Program of Study	
Graduation Requirements	
Minimum hours required for graduation: 120 hours	
University Requirements	
Minimum hours required for graduation: Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.	
The University and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.	
General Education Requirements	
Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in the program.	
The following degree requirements also meet general education course requirements and must be selected from the campus general education course list. Selections of core requirements courses should be made in consultation with the adviser.	
Composition I	4-6
Advanced Composition	3
Quantitative Reasoning (2 courses, at least one must be Quantitative Reasoning I)	6-10
Natural Sciences & Technology (6 hours)	6
Humanities & the Arts (6 hours)	6
Social & Behavioral Sciences (6 hours)	6
Cultural Studies: Western/Comparative Cultures (1 course)	3
Cultural Studies: Non-Western Cultures (1 course)	3
Cultural Studies: US Minority Cultures (1 course)	3
Language Requirement (Completion of the third semester or equivalent of a language other than English is required).	0-15
College of Education Requirements	
EDUC 101	Education Orientation Seminar
EDUC 101	Education Orientation Seminar
EDUC 101	Education Orientation Seminar
EDUC 201	Identity and Difference in Education
or EPOL 201	Foundations of Education
or EPOL 202	Foundations of Education-ACP
EPSY 220	Career Theory and Practice
EPSY 236	Child Development in Education
SPED 117	The Culture of Disability
Choose six courses from the following, with at least two in each area:	18-20
Learning & Instruction:	
CI 210	Introduction to Digital Learning Environments
CI 415	Language Varieties, Cultures and Learning
EPOL 350	Social Learning and Knowledge
EPSY 201	Educational Psychology
EPSY 400	Psychology of Learning in Education
EPSY 401	Child Language and Education
Leadership in a Diverse Global Economy:

No

Proposal Title

Term

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Concentration in Workplace Training & Development in the Bachelor of Science in Learning & Education Studies in the College of Education

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This Concentration in Workplace Training & Development (key 770) is related to the Learning & Education Studies, BS proposal (key 108) and subsequent Learning & Education Studies Concentrations in Educational Equality & Cultural Understanding (key 769) and Educational Technology (key 771).

Program Justification

Provide a brief description of what changes are being made to the program.

The formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) has been modified per the Office of the Provost and campus guidance for transparency. Additionally, per campus guidelines, the LES Core has been added to the concentration POS.

More specifically, program revisions include:

1. The LES core coursework has been added to the POS.
2. The EDUC 101 Orientation Seminar course has been moved to the "College Requirements" section of the POS.
3. PSYC 100 has been removed under "Social & Behavioral Sciences."
4. The basic statistical methods Gen Ed requirement (e.g., SOC 280, PSYC 235, or STAT 100) has been removed.
5. EPSY 236 has been removed from POS.
6. The first learning outcome was modified from "Students will acquire deep knowledge of content in the workplace" to "Students will acquire deep knowledge of content relevant to the workplace."
7. In parenthesis, we added "May count toward both the Core and Concentration requirements" for CI 210, EPOL 403, EPOL 473, and EPOL 474.
8. In parenthesis, we added "May count toward the Core or Concentration requirement only" for EDUC 202 and EPOL 402.
9. EPOL 350 has been removed from the POS.

Please note: Total degree hours have remained the same (120 hours); Concentration requirements have not changed, but please note that EPOL 477 under the "Human Resource Development Applications" area was reordered for numerical purposes.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

The College of Education seeks to follow CIM system best practices and recommendations provided by the Office of the Provost and/or the Office of the Registrar to best articulate all requirements.

1. LES core coursework was added to POS for greater transparency.
2. The EDUC 101 course was moved to the appropriate section, as it is a College requirement, not a Gen Ed requirement.
3. PSYC 100 was removed because we may no longer require specific Gen Eds not listed in the program of study (or major requirements).
4. The basic statistical methods Gen Ed requirement (e.g., SOC 280, PSYC 235, or STAT 100) was removed because we may no longer require specific Gen Eds not listed in the program of study (or major requirements).
5. Per the dept chair, EPSY 236 has not been offered since Spring 2017, and the dept does not have the capacity to resurrect it (per EPSY 236 & 491 attached doc).
6. To address the rollback comment from Liv T. Davila (key 771) dated 4/11/23, requesting to clarify the learning objective. The learning outcome language is now more aligned with the program's desired outcome.
7. Added text for greater clarification and transparency of degree requirements.
8. Added text for greater clarification and transparency of degree requirements.
9. EPOL 350 is being deactivated, as it has never been offered.

Upper-division/advanced coursework breakdown:

Learning & Education Studies Core: Choose six courses with at least two in each area (18-20 hours); 8 out of 12 course options are upper-division. At least 9 hours must be upper-division: [CI 415, EPSY 400, EPSY 401, EPOL 310, EPOL 402, EPOL 403, EPOL 473, EPOL 474].

Workplace Training & Development Concentration: (24 hours); All 12 course options are upper-division. All 24 hours will be upper-division: [EPOL 470, EPOL 471, EPOL 472, EPOL 473, EPOL 474, EPOL 475, EPOL 476, EPOL 477, EPOL 482, EPOL 483, EPOL 485]

A minimum of 24 hours must be upper-division. At a maximum, all hours (44 hours) could be upper-division. Even if the student only gets 24 hours of upper-division courses from required courses, the sample sequence allows for 30 hours of electives that could be used to provide the remaining 16 hours of upper-division courses.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

Yes

Courses outside
of the sponsoring
department/interdisciplinary

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

1. Students will acquire deep knowledge of content relevant to the workplace.
2. Students will effectively learn the skills and disposition to develop, plan, and implement culturally relevant and responsive outcomes in their respective professions and civic engagements.
3. Students will use data to drive decisions and solve problems in their professional careers.
4. Students will display the expectations of professionalism related to success in the field of education and beyond (fairness, commitment to collaboration, community, reflective practice, and attention to 21st century skills and practices). **See Attachment. The change is in the rubric naming only**

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Good morning, Dr. Benjamin—and happy Monday!

I am writing on behalf of the College of Education, requesting a letter of acknowledgment (or email reply; see p. 2 of the attached PDF) for the **removal of PSYC 100**, which is currently a required Social & Behavioral Science Gen Ed for the Learning & Education Studies program.

Per new best practices and recommendations from the Office of the Provost, we shall not require a Gen Ed if it is not a required major course. Thus, we intend to remove PSYC 100 from the curriculum. Once the revision is approved, PSYC 100 will not appear in the curriculum.

Thank you,
Kelli

Subject: Notice re: plans to remove PSYC 100 from Learning & Education Studies, BS program

Greetings, Dr. Aaron Benjamin. I hope the start of the semester is treating you well and that you are staying warm this week!

I am writing to inform you that the College of Education plans **to remove the PSYC 100 Gen Ed requirement** from our Learning & Education Studies, BS program of study. The course is not required to complete the major, per se, but PSYC 100 is currently listed as a Social & Behavioral Science Gen Ed requirement.

Per new best practices and recommendations from the Office of the Provost, we shall not be requiring a Gen Ed if it is not a required major course. Thus, we intend to remove PSYC 100 from the Learning & Education Studies, BS degree program.

Sincerely,
Kelli

Subject: Seeking acknowledgment for the removal of PSYC 235 from Learning & Education Studies degree program

Hi again, Aaron. I have one more request and want to thank you in advance for your time *and* consideration.

I am writing on behalf of the College of Education to request a letter of acknowledgment (or email reply) for the **removal of PSYC 235 from the Learning & Education Studies bachelor's degree program**. The course is currently listed under the Quantitative Reasoning subheading, instructing students to choose from "An approved basic course in statistical methods, such as STAT 100, SOC 280, or PSYC 235."

Per new best practices and recommendations from the Office of the Provost, we shall not require a Gen Ed if it is not a required major course. Thus, we intend to remove PSYC 235 from the curriculum. Once the revision is approved, PSYC 235 will not appear in the curriculum.

Sincerely,
Kelli

Subject: Re: REQUEST for a letter of acknowledgment for removing EPSY 491 from LES DELTA curriculum
Date: Monday, February 27, 2023 at 2:57:54 PM Central Standard Time
From: Lindgren, Robb W
To: Halfman, Kelli A, Christianson, Kiel, McCarthey, Sarah Jane
CC: Kellogg, Julie Ann, Dorsey Ackerman, Rayme, Napolitano, Chris
Attachments: image001.png, image002.png, image003.png, image004.png

Thanks Kiel for bringing EPSY 236 to our attention. It's good to know there are no plans to teach it anytime soon.

EPSY 236 is actually listed in the Ed Foundations Core Requirements of the LES program. So it's not just part of the DELTA concentration but the whole LES degree. It should get removed for sure, but probably better done as part of the full curriculum revision of the LES program (we're working on this currently but isn't likely to go live til 2025). The change that Kelli is referring to is renaming the DELTA concentration to Educational Technology, so we're just making a few small changes for that concentration we can get away with now.

Does that make sense? I will definitely be consulting with you about the bigger changes we're going to make to LES and what courses from EPSY we should include. CI430 sounds like a good option.

cc'ing Chris as he was kind enough to respond to this issue earlier today.

Subject: Re: REQUEST for a letter of acknowledgment for removing EPSY 491 from LES DELTA curriculum

Hi Kelli,

I'm OK with removing 491 from the concentration requirements.

I do see, however, that EPSY 236 is one of the Education Foundations options in the DELTA BS. This appears to be another instance where a course was added that is not currently being taught. 236 hasn't been taught since 2017. We don't currently have the capacity to resurrect it. I would recommend substituting EPSY 430 (adolescent development) as it does take a life-span view.

I'm curious to hear Sarah's and Robb's thoughts on this...

Program of Study (To appear in Academic Catalog upon approval)	
Graduation Requirements	
Minimum hours required for graduation: 120 hours.	
University Requirements	
Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.	
The University and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.	
General Education Requirements	
Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in the program.	
Composition I	4-6
Advanced Composition	3
Humanities & Arts (6 hours)	6
Natural Science & Technology (6 hours)	6
Social & Behavioral Sciences (6 hours)	6
Cultural Studies: Non-Western Cultures (1 course)	3
Cultural Studies: US Minority Cultures (1 course)	3
Cultural Studies: Western/Comparative Cultures (1 course)	3
Quantitative Reasoning (2 courses, at least one course must be Quantitative Reasoning I)	6-10
Language Requirement (Completion of the third semester or equivalent of a language other than English is required)	0-15
College of Education Requirements	
EDUC 101 Education Orientation Seminar	1
Learning & Education Studies Core	24-27
Choose two courses from the following Education Foundations:	6-7
EDUC 201 Identity and Difference in Education	6-7
or EPOL 201 Foundations of Education	6-7
or EPOL 202 Foundations of Education-ACP	6-7
EPOL 220 Career Theory and Practice	6-7
SPED 117 The Culture of Disability	6-7
Choose six courses from the following, with at least two in each area:	18-20
Learning & Instruction:	18-20
CI 210 Introduction to Digital Learning Environments (May count toward both the Core and Concentration requirements)	18-20
CI 415 Language Varieties, Cultures and Learning	18-20
EPOL 201 Educational Psychology	18-20
EPOL 400 Psychology of Learning in Education	18-20
EPOL 401 Child Language and Education	18-20
Leadership in a Diverse Global Economy: (only)	18-20
EPOL 310 Race and Cultural Diversity	18-20
EPOL 402 Asian American Education (May count toward the Core or Concentration requirement only)	18-20
EPOL 403 Historical and Social Barriers (May count toward both the Core and Concentration requirements)	18-20
EPOL 473 Facilitation Skills (May count toward both the Core and Concentration requirements)	18-20
EPOL 474 Diversity in the Workplace (May count toward both the Core and Concentration requirements)	18-20
Workplace Training & Development Concentration	24
Human Resource Development Foundations area:	6
EPOL 470 Principles of Human Resource Education	6
EPOL 471 Business Principles for Human Resource Development	6
Choose six courses from the Human Resource Development Applications area:	18
EPOL 472 Instructional and Training System Design	18
EPOL 473 Facilitation Skills	18
EPOL 474 Diversity in the Workplace	18
EPOL 475 Work Analysis	18
EPOL 476 Project Management Principles and Applications	18
EPOL 477 Issues and Development in Human Resource Development	18
EPOL 482 Design and Development of eLearning Systems	18
EPOL 483 Learning Technologies	18
EPOL 485 Introduction to eLearning	18

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

KR Dean

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Concentration in Art Undeclared in the College of Fine and Applied Arts

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

The Art Undeclared program (key 863) is related to the following proposals:

BFASA major proposal (key 640), New Media concentration proposal (key 641), Painting Concentration proposal (key 642), Illustration Concentration proposal (key 1188), Photography Concentration proposal (key 955), Printmaking Concentration proposal (key 643), Sculpture Concentration proposal (key 644), Interdisc Practice Concentration proposal (key 645), and Fashion Concentration proposal (key 951). Additionally, the BFA Industrial Design (key 141), BFA Graphic Design (key 140), BFA Art & Art History (key 137), BASA Studio Art (key 665) and BFA Art Education (key 537) are related.

Program Justification

Provide a brief description of what changes are being made to the program. (1) Embed gen ed new template in CIM-P and (2) revise first-year requirements for school of art & design. (3) Added a table of major options (4) Remove Photography BFA from the list of Corresponding Programs

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1-Inputting new campus gen ed requirement template per office of the provost initiative.

2- The first-year curriculum is currently its own CIM-P page (Art Undeclared, key 863) and academic catalog page solely as the first-year curriculum. Students are admitted only into Art Undeclared for their first year in the school of art and design. The revisions to the first-year curricula remove the 2D, 3D, 4D category (-9 hours), add Design I and Design 2 (+6 hours, currently existing courses in ARTF), and shift any concentration requirements into the concentration section (moving 3 hours) rather than calling them out as concentration requirements in the first-year curricula, which was confusing for students and challenging to manage in the degree audit correctly. These changes to the first-year curricula were developed after an ad hoc first-year curriculum committee assessed and reviewed the first-year curriculum and determined that the 2D, 3D, 4D discipline-based categories were not delivering the requisite shared learning outcomes needed for our students to successfully move into their majors. The committee proposed a return to Design I and Design II (last taught in 2017-2018) as a method for delivering consistent shared foundational learning outcomes to all our first-year students.

(3) Table of major options allows students to click on the major requirements for the major they will move into after the Art Undeclared program

(4) - The Photography BFA was removed from the list of Corresponding Programs because it was deactivated effective FA 23 and no incoming students into Art Undeclared will be able to earn this degree.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

By the end of the First Year Experience Art and Design students will have:

Gained exposure to a wide variety of art making processes, materials, methods, and presentation strategies.

Been introduced to critical thinking and knowledge of contemporary issues in art and design.

Developed a verbal vocabulary that allows for informed criticism and debate in the critique process.

Gained an ability to use the investigative process to generate new solutions in their work and demonstrates the ability to problem solve using iterative strategies to complete projects.

An ability to recognize and use various forms of visual organization in their studio work.

Gained a knowledge of how to generate meaning in a variety of forms.

An ability to use design and drawing principles such as: (balance, symmetry/rhythm, space/perspective, sequence/time, eye movement, scale/proportion, unity/variety.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

~~Alan Mette 143 Art and Design Building, 408 East Peabody, ChampaignPH:(217) 333-0855 http://art.illinois.edu The School of Art and Design offers bachelor of fine arts degrees in art & art history, art education, graphic design, industrial design, and photography. A bachelor of arts degree is offered in studio art with one of five concentrations: general studio art, new media, painting, printmaking, or sculpture. A bachelor of fine arts in studio art degree is offered with one of five concentrations: general studio art, new media, painting, printmaking, or sculpture. All major's first year experience will include courses in drawing, 2D, 3D, and 4D practices. Specialization begins in the second year. Courses in the history and appreciation of art and certain courses in studio work are open to students from other colleges of the University. A field of concentration in art history is also offered in the College of Liberal Arts and Sciences. The school occupies studios, computing labs, workshops, classrooms, and offices in several different University buildings. A portfolio review is required for admission to the School of Art and Design.~~

This first year curriculum is shared across all majors and serves as the temporary major declaration for those who enter as "undeclared."

The School of Art & Design offers bachelor of fine arts degrees in art & art history, art education, graphic design, industrial design, and studio art (with concentrations in fashion, illustration, interdisciplinary practice, new media, painting, photography, printmaking, and sculpture), and a bachelor of arts degree in studio art. Undeclared students will declare their Art & Design major December 1 of their first year of study. Contact: Mark Avery Coordinator of Undergraduate Academic Affairs School Office: 140 Art and Design Building, Champaign, 333-6632, mavery@illinois.edu

Statement for

Programs of
Study Catalog

Graduation Requirements

Minimum hours required for graduation: Students may not graduate from Art Undeclared. Majors Students in the School of Art & Design require between 122 and 130 hours. must complete the Campus General Education requirements.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in Art and Design.

Program Features

Academic Level Undergraduate

Is This a Teacher Certification Program?

No

Will specialized accreditation be sought for this program?

No

Additional concentration notes (e.g., estimated enrollment, advising plans, etc.)

~~Enrollments in these courses will be capped at 20.~~

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

No impact.

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

Will the unit need to seek campus or other external resources?

No

Attach letters of support

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

An ad hoc first-year curriculum committee assessed and reviewed the first-year curriculum and examined current faculty and teaching assistant portfolios. Each program area within the school of art and design has reviewed the methods needed to deliver Design I and Design II and move away from the 2D/3D/4D courses for all students and determined that the current resources are sufficient and can be maneuvered to accommodate the benefit of the revised curriculum.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this first-year program revision.

KR Dean

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Fine Arts in Graphic Design in the College of Fine and Applied Arts

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This BFA proposal (key 140) is related to the Art Undeclared proposal (key 863).

Program Justification

Provide a brief description of what changes are being made to the program. (1) Embed gen ed and (2) first-year curricula into the major in CIM-P. (3) Reorganizing major requirements.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1-Inputting new campus gen ed requirement template per office of the provost initiative.

2- The first-year curriculum is currently its own CIM-P page (Art Undeclared, key 863) which previously has been administratively pasted into each major page in the academic catalog. This revision embeds the first-year curriculum, including the new revisions, directly into each major page in CIM-P and subsequently their respective academic catalog pages. The Art Undeclared page will remain in CIM-P and the academic catalog solely as the first-year curriculum.

3- The new first-year curricula revisions remove the 2D, 3D, 4D category (-9 hours), add Design I and Design 2 (+6 hours, currently existing courses in ARTF), and shift any major requirements into the major requirements (moving 3 hours of ARTD 151 for the GD major) rather than calling them out as a requirement in the first-year curricula, which was confusing for students and challenging to manage in the degree audit correctly. These changes to the first-year curricula were developed after an ad hoc first-year curriculum committee assessed and reviewed the first-year curriculum and determined that the 2D, 3D, 4D discipline-based categories were not delivering the requisite shared learning outcomes needed for our students to successfully move into their majors. The committee proposed a return to Design I and Design II (last taught in 2017-2018) as a method for delivering consistent shared foundational learning outcomes to all our first-year students. Created summary of credits box with advanced hours statement

No changes to total hours in the 122-hour degree. The changes in hours occur in the first-year curriculum (previously 20 now 17, -3 hours) and major requirements (previously 34 now 37, +3 hours)

40 hour upper division/advanced course requirement

ARTD 318 - 2 hrs

ARTD 333 - 3 hrs

ARTD 351 - 4 hrs

ARTD 371 - 3 hrs

ARTD 418 - 3 hrs

ARTD 444 - 3 hrs

ARTD 451 - 4 hrs

ARTD 471 - 2 hrs

16 hours of Art History, Art & Design Electives, or free electives

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

- 1-Understand typography as a system and produce readable, legible, and meaningful visual communication pieces for digital and print media.
- 2-Develop a professional understanding of effective relationships between image and typography to communicate engaging messages.
- 3-Identify, research, organize, and visualize design ideas through an iterative reflective process of prototyping, refinement, and implementation, that articulates criticism of the field of graphic design.
- 4-Identify and use the evolving research methods, frameworks, and industry-standard tools and technologies of the graphic design and user experience disciplines to generate, reproduce, and distribute visual messages that create positive change in their communities.
- 5-Apply knowledge of perception, cognition, and bodily experience to create visual communication systems that deliver engaging messages through digital, print, experiential, and speculative media.
- 6-Develop a critical and reflective orientation toward the diverse professional, social, environmental, and ethical implications of the graphic design discipline in order to respond to societal challenges.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

[A portfolio review is required for admission to the School of Art and Design.](#)

[The curriculum in graphic design requires 122 credit hours and prepares the student for entrance into the professional practice of design visual communications. Studio work addresses graphic design fundamentals \(typography and image making\), design history and contemporary practices, research methods, user experience, and social responsibility. Students engage with complex problems and are asked to identify opportunities where design can intervene. In addition, students have the opportunity to develop their personal interests by taking advantage of a highly interdisciplinary selection of elective courses offered by the School of Art + Design, including photography, video, traditional printmaking, sustainability, and advanced interaction design.](#)

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Arts in Studio Art in Studio Art in the College of Fine and Applied Arts

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This BASA proposal (key 665) is related to Art Undeclared (key 863), BFASA major proposal (key 640), BFASA Sculpture concentration proposal (key 644), BFASA Painting Concentration proposal (key 642), BFASA Illustration Concentration proposal (key 1188), BFASA Photography Concentration proposal (key 955), BFASA Printmaking Concentration proposal (key 643), BFASA New Media Concentration proposal (key 641), BFASA Interdisc Practice Concentration proposal (key 645), and BFASA Fashion Concentration proposal (key 951).

Program Justification

Provide a brief description of what changes are

(1) Embed the gen ed template and (2) first year curriculum including new revisions directly into the major.

being made to the program.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1- Inputting new campus gen ed requirement template per office of the provost initiative.

2- The new first-year curricula revisions remove the 2D, 3D, 4D category (-9 hours), add Design I and Design 2 (+6 hours, currently existing courses in ARTF). These changes to the first-year curricula were developed after an ad hoc first-year curriculum committee assessed and reviewed the first-year curriculum and determined that the 2D, 3D, 4D discipline-based categories were not delivering the requisite shared learning outcomes needed for our students to successfully move into their majors. The committee proposed a return to Design I and Design II (last taught in 2017-2018) as a method for delivering consistent shared foundational learning outcomes to all our first-year students. This change removes 3 credit hours from the BASA course requirements.

No changes to total degree hours.

40 ADVANCED HOURS (300/400 LEVEL) ARE:

300-level ARTS course (3 hours)

ARTS 392 (3 hours)

400-level ARTS course (3 hours)

ARTS 448 (4 hours)

27 hours of ARTH or free electives

Note: This program includes 39 amount of free electives in the sample schedule.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Upon completion of the BASA:

1. Students will understand and be able to apply basic principles of visual and material communication, including two-dimensional pictorial concepts, three-dimensional formal and spatial concepts, and a wide variety of media and formats for artistic production, and possess the ability to apply them to a specific aesthetic intent.
2. Students will demonstrate an ability and willingness to experiment and explore the expressive possibilities of various media, and artistic and creative strategies for self-directed artmaking and investigate the diverse activities and conceptual modes available to the contemporary artist, including work that directly addresses or engages with recent developments in the field of fine art as well as broader social questions and challenges. Students are trained in the production and critique of artworks that explore forms and technologies identified as new or emerging.
3. Students will gain knowledge of, understand, and be able to apply concepts of visual rhetoric in the development of content, and be able to recognize and critically analyze an evolving variety of communicative practices in art and visual culture, including those that represent diverse cultures and sociopolitical positions, and to demonstrate openness to new social possibilities and a critical empathy towards both audiences and culture producers of differing histories, origins and identities.
4. Students will be willing and able to investigate and accommodate broad-ranging types of knowledge and artistic strategies for the purpose of synthesizing diverse and even disparate ideas to create sophisticated, unique works of art, participate in new types of collaboration, and to make innovative statements and hypotheses, or propose creative solutions to social, organizational, and societal problems using aesthetic strategies.
5. Students will develop an innovative, imaginative, and entrepreneurial self-directed studio practice, will gain a deep understanding of their own creativity, be able to apply it in any context, and will learn to independently generate thematic investigation and implementation of research in a broad variety of social locations, including art and educational institutions, activist forums, and cyberspace. Students in the BASA will produce web and print based documents that serve to market and promote their practice as independent makers.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Student learning outcomes for the sophomore and junior years are assessed primarily via successful completion of art and design coursework. All courses in the school of art and design studio art program provide syllabi with stated learning goals and outcomes. Successful completion of these goals is determined through individual and group critiques following each assigned project. Individual student performance will be used to evaluate students' achievement of the course goals and will be evaluated by course instructors at the end of each term. The senior year culminates in a capstone course that requires the completion of a portfolio of work, as well as a written statement that adequately identifies the works intent and positions the work within the broader context of historical and current art practices. BASA students exhibit their work in a group exhibition, which provides an additional assessment mechanism of individual and group levels of achievement.

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Course grades, exhibition of artwork, and student feedback are used by program faculty to review and assess the attainment of program student learning outcomes and our last scheduled program meeting each May

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

All programs within the School of Art and Design assess student learning outcomes on an annual basis, in response to the CLOA annual update prompt. Program assessment is led by program chairs, who share assessment plans each fall with the Executive Associate Director and the Program Chairs Committee, followed by a report on plan outcomes and potential impact on program courses and curriculum each spring. The School also has a standing Committee on Outcomes and Assessment who have oversight of shared school-wide courses, curricula, and learning outcomes. Program standards are further assessed by the National Association of Schools of Art and Design, the primary accrediting organization for colleges, schools, and universities in the United States.

Attach a revised Sample Sequence (for undergraduate program)

or college-level forms.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

The Bachelor of Arts in Studio Art (BASA) focuses on the study of art, design, and art history in the context of a broader program of general study offered through the diverse research and teaching activities across the University of Illinois, Urbana/Champaign campus. The BASA degree is intended for those students who have strong interests in blending the study of art and creative practices with coursework in other academic areas. It differs from the Bachelor of Fine Arts in that it offers students rigorous education in studio art for students who plan to pursue dual majors, minors, or advanced degrees in non-art fields, while integrating a studio art experience into their undergraduate studies.

First year courses for the BA in Studio Art introduce basic materials and conceptual approaches to making art, using traditional media including drawing and painting, printmaking, clay, plaster, wood and metal, to code, digital imaging, interactive media, and time-based applications.

~~By incorporating new and traditional strategies and technologies students will understand visual organization and communication in 2D (artworks in two dimensions, such as drawing, painting or printmaking), 3D (artworks in three dimensions, such as sculpture and installation), and 4D (artworks of a time-based nature, such as coding, video, sound and performance).~~ The advanced BA Studio Art student can look forward to a changing menu of courses on a variety of studio practices and topics, taught by a diverse faculty with expertise in a wide variety of conceptual, material and technical strategies for making art. The BA Studio Art's curriculum offerings are designed to reflect an increasingly dynamic culture and provide students with experiences and skills that promote adaptability after graduation.

BA Studio Art students are provided with studio spaces housed in a communal studio building, where they pursue a self-determined studio practice. The communal studio configuration provides the geography for a strong, vibrant community of student-artists working together as they establish their focus and participate in exhibitions, performances, and critiques.

Students in the School of Art and Design must complete the Campus General Education requirements. Some Art and Design courses will also apply toward the General Education requirements.

A portfolio review is required for admission to the School of Art and Design.

College Budget Officer Email gnanders@illinois.edu

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

KR Dean

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Fine Arts in Art and Art History in the College of Fine and Applied Arts

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This BFA proposal (key 137) is related to the Art Undeclared proposal (key 863).

Program Justification

Provide a brief description of what changes are being made to the program. (1) Embed gen ed into the major in CIM-P. (2) Updating first-year curricula. (3) Adding summary table of degree requirements. (4) Revised/added headers.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1-Inputting new campus gen ed requirement template per office of the provost initiative.

2- The new first-year curricula revisions remove the 2D, 3D, 4D category (-9 hours), add Design I and Design 2 (+6 hours, currently existing courses in ARTF), and only list any major requirements in the major requirements (one of the ARTS/ARTD electives at any level for the Art & Art History major) rather than calling them out as a requirement in the first-year curricula, which was confusing for students and challenging to manage in the degree audit correctly. These changes to the first-year curricula were developed after an ad hoc first-year curriculum committee assessed and reviewed the first-year curriculum and determined that the 2D, 3D, 4D discipline-based categories were not delivering the requisite shared learning outcomes needed for our students to successfully move into their majors. The committee proposed a return to Design I and Design II (last taught in 2017-2018) as a method for delivering consistent shared foundational learning outcomes to all our first-year students.

3-Created summary of credits box with advanced hours statement

4-Revised/added/standardized headers in POS to standardize.

No changes to total hours in the 122-hour degree. The changes in hours occur in the first-year curriculum (previously 20 now 17, -3 hours although the one ARTS/ARTD course at any level was counting in both places in practice).

40 hour upper division/advanced course requirement

One advanced art history course (300 or 400 level) not used elsewhere: 3 hours

ARTH 495: 6 hours

31 hours of other major courses, general education courses, or free electives

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student

performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

1. Students will develop art historical knowledge and skills in tandem with their development of a studio or design practice.
2. Students will be able to demonstrate familiarity with key artistic monuments and modes of art production from various global contexts.
3. Students will be able to analyze and interpret works of art and architecture situated in a variety of historical and social contexts, and in comparative perspective.
4. Students will be able to use visual and verbal primary sources, secondary sources, and core critical frameworks of art historical analysis to develop and articulate persuasive arguments about works of art and the cultures that produced them.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Revised programs [Art & Art History sample schedule 2724.docx](#)

Attach a revised Sample Sequence (for undergraduate program) or college-level forms.

Statement for
Programs of
Study Catalog

Graduation Requirements

Minimum hours required for graduation: 122 hours.

University Requirements

~~Minimum required major and supporting course work: Minimum hours for graduation is 122, to include a minimum of 40 hours of upper-division coursework, coursework generally at the 300- or 400-level, and 400-level. These hours can be drawn from all elements of the degree. Twelve (12) hours of 300- and 400-level courses in the major must be taken on this campus.~~ These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in Art and Design.

Course List		
Code	Title	Hours

Art History

Course List

Code	Title	Hours
6 courses at the 200-400 level (3 credit hours each)		18

Students must take at least one course in three of the following areas: 1) Africa and the Middle East; 2) Asia; 3) the Americas; 4) Europe; Students must also take at least one course that covers material before 1700 and one course must cover material after 1700.

Though students must take a total of 6 courses, some courses may count toward the fulfillment of more than one area and period requirement. For instance, a course in 20th century African art could count as a class covering both Africa and the Middle East and material after 1700.

With an advisor's approval, up to 6 credit hours of courses in the history of architecture or landscape architecture at the 200-400 may be taken towards the fulfillment of these required hours.

Other courses may be approved in consultation with the advisor.

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

KR Dean

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Fine Arts in Industrial Design in the College of Fine and Applied Arts

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This BFA proposal (key 141) is related to the Art Undeclared proposal (key 863).

Program Justification

Provide a brief description of what changes are being made to the program. Embed gen ed and first-year curricula into the major in CIM-P. Reorganizing major requirements. Removing temporary suspension.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1-Inputting new campus gen ed requirement template per office of the provost initiative.

2- The first-year curriculum is currently its own CIM-P page (Art Undeclared, key 863) which previously has been administratively pasted into each major page in the academic catalog. This revision embeds the first-year curriculum, including the new revisions, directly into each major page in CIM-P and subsequently their respective academic catalog pages. The Art Undeclared page will remain in CIM-P and the academic catalog solely as the first-year curriculum.

3- The new first-year curricula revisions remove the 2D, 3D, 4D category (-9 hours), add Design I and Design 2 (+6 hours, currently existing courses in ARTF), and shift any major requirements into the major requirements (moving 3 hours of ARTD 101 for the ID major) rather than calling them out as a requirement in the first-year curricula, which was confusing for students and challenging to manage in the degree audit correctly. These changes to the first-year curricula were developed after an ad hoc first-year curriculum committee assessed and reviewed the first-year curriculum and determined that the 2D, 3D, 4D discipline-based categories were not delivering the requisite shared learning outcomes needed for our students to successfully move into their majors. The committee proposed a return to Design I and Design II (last taught in 2017-2018) as a method for delivering consistent shared foundational learning outcomes to all our first-year students.

4- No changes to total hours in the 122-hour degree. The changes in hours occur in the first-year curriculum (previously 20 now 17, -3 hours) and major requirements (previously 42 now 45, +3 hours).

5-Created summary of credits box with advanced hours statement

6- The School of Art & Design and Industrial Design program are ready to remove the temporary suspension for Fall 2025 applicants to the BFA in ID, as of 2.6.24. The suspension was intended to be for one year and the unit plans to have the BFA ID available on the undergrad application again for Fall 2025.

40 hour upper division/advanced course requirement

ARTD 301 & 302 - 8 hrs

ARTD 401 & 402 - 8 hrs

ARTD 326 - 3 hrs

ARTD 328 - 3 hrs

ARTD 426 - 3 hrs

ARTD 448 - 3 hrs

12 hours of Art History, Art & Design Electives, or free electives

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

Does this new program/proposed change result in the replacement of another program?

No

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

1. Research...the ability to select and use appropriate research and experimental methods, to access existing data sources or to generate new data, to analyze and draw insights for future work, with particular emphasis on identifying human needs
2. Creative synthesis...the ability to produce creative proposals from investigation, or in response to identified opportunities or requirements, using appropriate thinking, modeling and making strategies, taking account of users, audience, market needs, makers, producers or exhibitors as appropriate
3. Production...the ability to select and use appropriate making and manufacturing processes in your own work, with an understanding of the potential of new technologies
4. Organization....the ability to plan and implement action, identifying targets and organizing resources, effectively managing self and collaborations with others
5. Communication...the ability to use various forms of communication as appropriate to elicit information, to explain, to debate and persuade, adapting to audience and situations
6. Conceptualization...the ability to realize an idea through an iterative creative making process of refinement
7. Understanding impacts...of the diverse professional, social, and ethical effects of the industrial design discipline
8. Contextualization...the ability to understand the multiple contexts of design practice, including the historical, theoretical, critical, professional, cultural, environmental and technological
9. Learning...the ability to carry out independent learning as a basis for academic study, lifelong learning and for personal professional development including the ability to independently evaluate your own work with the aim of improving and developing your own practice

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Attach a revised Sample Sequence (for undergraduate program) or college-level forms.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

[The Industrial Design program is not accepting applications for academic year 2024-2025 but is currently expected to reopen for applicants for Fall 2025 admission.](#)

[A portfolio review is required for admission to the School of Art and Design.](#)

[The Industrial design program focuses on a human centered approach to identify opportunities to design new products and services. The studio courses emphasize learning through problem-solving, understanding user experience, market demand, materials, and production processes. Students can develop their interest, and engage in creating intuitive, innovative products and services, that are in visual harmony with their environment. Designs that satisfy the consumer desire while being responsive to changes in technology and culture benefit society.](#)

[The curriculum in Industrial Design requires 122 credit hours.](#)

Program Features

Academic Level Undergraduate

Does this major have transcripted concentrations? No

What is the typical time to completion of this program?
4 years

What are the minimum Total Credit Hours required for this program?

122 hours

CIP Code 110105 - Human-Centered Technology Design.

Is This a Teacher Certification Program?

No

Will specialized accreditation be sought for this program?

No

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Admission Requirements

Desired Effective Admissions Term

Is this revision a change to the admission status of the program?

Yes

Please describe the admission status change, whether suspension or resumption of the admission status:

Temporary suspension of admissions: The Industrial Design program is not accepting applications for academic year 2024-2025 but is currently expected to reopen for applicants for Fall 2025 admission. ~~We are requesting a temporary suspension of admissions to this program.~~

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

No impact.

Estimated Annual Number of Degrees Awarded

Year One Estimate

5th Year Estimate (or when fully implemented)

What is the matriculation term for this Fall

program?

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

Will the unit need to seek campus or other external resources?

No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

[FAA Differential](#)

Are you seeking a change in the tuition rate or differential for this program?

No

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

No impact.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this major revision.

KR Dean

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Concentration in Painting in the Bachelor of Fine Arts in Studio Art in Studio Art in the College of Fine and Applied Arts

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This BFASA Painting concentration proposal (key 642) is related to the BFASA major proposal (key 640), Illustration Concentration proposal (key 1188), Photography Concentration proposal (key 955), Printmaking Concentration proposal (key 643), Sculpture Concentration proposal (key 644), New Media Concentration proposal (key 641), Interdisc Practice Concentration proposal (key 645), and Fashion Concentration proposal (key 951).

Program Justification

Provide a brief description of what changes are being made to the program. (1) Embed gen ed, (2) first-year curricula, and (3) major requirements into the concentration in CIM-P. (4) Reorganizing painting concentration requirements.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1-Inputting new campus gen ed requirement template per office of the provost initiative.

2- The first-year curriculum is currently its own CIM-P page (Art Undeclared, key 863) which previously has been administratively pasted into each major page in the academic catalog. This revision embeds the first-year curriculum, including the new revisions, directly into each major or concentration page in CIM-P and subsequently their respective academic catalog pages. The Art Undeclared page will remain in CIM-P and the academic catalog solely as the first-year curriculum.

2- The new first-year curricula revisions remove the 2D, 3D, 4D category (-9 hours), add Design I and Design 2 (+6 hours, currently existing courses in ARTF), and shift any concentration requirements into the concentration section (moving 3 hours of ARTS 251 for the painting concentration) rather than calling them out as concentration requirements in the first-year curricula, which was confusing for students and challenging to manage in the degree audit correctly. These changes to the first-year curricula were developed after an ad hoc first-year curriculum committee assessed and reviewed the first-year curriculum and determined that the 2D, 3D, 4D discipline-based categories were not delivering the requisite shared learning outcomes needed for our students to successfully move into their majors. The committee proposed a return to Design I and Design II (last taught in 2017-2018) as a method for delivering consistent shared foundational learning outcomes to all our first-year students.

3- Embed the BFASA Studio Art major requirements into this concentration page in CIM-P for clarity. This includes the art history requirements, capstone requirements, statement regarding number of concentrations allowed, and total credits table and also removes the footnote for accessibility.

4- The painting requirements were previously embedded as comments throughout the studio art requirements. ARTS 251/250/354/454/455/499 all remain required, but are listed more explicitly rather than in a long list with parentheses. The remaining concentration requirements provides more access to ARTS courses by level, rather than from a specific list.

No changes to total hours in the 122-hour degree. The changes in hours occur in the first-year curriculum (previously 20 now 17, -3 hours) and concentration requirements (previously 43-46 now 48, +2-5 hours).

40 hour upper division/advanced course requirement

ARTS 354 - 3 hrs

ARTS 454 - 3 hrs

ARTS 455 - 6 hrs

ARTS 499 - 3 hrs

Addtl 300- and 400-level ARTS courses - 18 hours

ARTS 392 - 3 hrs

ARTS 451 - 4 hrs

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

BFASA Studio Art:

1-Students will understand and be able to apply basic principles of visual and material communication, including two-dimensional pictorial concepts, three-dimensional formal and spatial concepts, and a wide variety of media and formats for artistic production, and possess the ability to apply them to a specific aesthetic intent.

2-Students will demonstrate an ability and willingness to experiment and explore the expressive possibilities of various media, and artistic and creative strategies for self-directed art-making, and investigate the diverse activities and conceptual modes available to the contemporary artist, including work that directly addresses or engages with recent developments in the field of fine art as well as broader social questions and challenges. Students are trained in the production and critique of artworks that explore forms and technologies identified as new or emerging.

3-Students will gain knowledge of, understand, and be able to apply concepts of visual rhetoric in the development of content, and be able to recognize and critically analyze an evolving variety of communicative practices in art and visual culture, including those that represent diverse cultures and sociopolitical positions, and to demonstrate openness to new social possibilities and a critical empathy towards both audiences and culture producers of differing histories, origins and identities.

4-Students will develop an innovative, imaginative, and entrepreneurial self-directed studio practice, will gain a deep understanding of their own creativity, be able to apply it in any context, and will learn to independently generate thematic investigation and implementation of research in a broad variety of social locations, including art and educational institutions, activist forums, and cyberspace.

5-Students will be willing and able to investigate and accommodate broad-ranging types of knowledge and artistic strategies for the purpose of synthesizing diverse and even disparate ideas in order to create sophisticated, unique works of art, participate in new types of collaboration, and to make innovative statements and hypotheses, or propose creative solutions to social, organizational and societal problems using aesthetic strategies.

6-While pursuing a BFASA, students prepare for work as artists at a time when artists are employed in a variety of spheres: artistic direction, project management, education, research, fine art, curation, performance, non-profit work, activism, advertising, and many others. As digital medias evolve, our graduates will be flexible, able to understand the best use of emerging technologies while crafting new economic and social connections.

7-Students will produce an integrated, cohesive, critically informed body of work for a thesis exhibition, supported by a written thesis document that serves to position their artistic practice within the broader sphere of contemporary art practices, exhibition strategies, audiences, and economies.

In addition, each concentration has discipline specific learning outcomes:

Painting Concentration:

1-Students concentrating in Painting attain a functional knowledge of the traditions, conventions, and evolutions of the discipline as related to issues of representation, illusion, and meaning.

2-Students concentrating in Painting understand and utilize the diverse conceptual modes available to the painter. This may deal with direct observational painting strategies or with alternative approaches to the making of traditional or innovative two- and, at times, three-dimensional images.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

A portfolio review is required for admission to the School of Art and Design.

Students in the BFASA who choose the concentration in Painting pursue a course of study that begins with rigorous instruction in traditional drawing and painting materials, methods, techniques, and concepts, and proceeds to encourage a diversity of experimental and multi-disciplinary approaches to painting as a field with a complex and culturally influential history. Students are guided in the understanding of mark-making, color theory, composition, pictorial analysis, and visual perception as they develop their individual interests. At the advanced levels, students may choose to focus on Painting as a distinct genre with an important place in contemporary art, or to explore the expanding set of drawing- and painting-related practices, such as comix and graphic novels, character development, and 2D public and community-based art, among other topics, both established and developing. Specialized courses taught by Painting faculty, as well as electives across the School of Art and Design and across campus, permit students to enrich their educational experiences, seek out knowledge and expertise in a vast variety of fields, and develop their unique artistic identities and vision.

Statement for

Programs of
Study Catalog

Graduation Requirements

Minimum hours required for graduation: 122 hours.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in Art and Design.

Program Features

Academic Level Undergraduate

Is This a Teacher Certification Program?

No

Will specialized accreditation be sought for this program?

No

Additional concentration notes (e.g., estimated enrollment, advising plans, etc.)

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

No impact.

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

Will the unit need to seek campus or other external resources?

No

Attach letters of support

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

No impact.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this concentration revision.

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Concentration in Photography in the Bachelor of Fine Arts in Studio Art in Studio Art in the College of Fine and Applied Arts

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This BFASA Photography concentration proposal (key 955) is related to the BFASA major proposal (key 640), Painting Concentration proposal (key 642), Illustration Concentration proposal (key 1188), Printmaking Concentration proposal (key 643), Sculpture Concentration proposal (key 644), New Media Concentration proposal (key 641), Interdisc Practice Concentration proposal (key 645), and Fashion Concentration proposal (key 951).

Program Justification

Provide a brief description of what changes are being made to the program. (1) Embed gen ed, (2) first-year curricula, and (3) major requirements into the concentration in CIM-P. (4) Reorganizing photography concentration requirements.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1-Inputting new campus gen ed requirement template per office of the provost initiative.

2- The first-year curriculum is currently its own CIM-P page (Art Undeclared, key 863) which previously has been administratively pasted into each major page in the academic catalog. This revision embeds the first-year curriculum, including the new revisions, directly into each major or concentration page in CIM-P and subsequently their respective academic catalog pages. The Art Undeclared page will remain in CIM-P and the academic catalog solely as the first-year curriculum.

The new first-year curricula revisions remove the 2D, 3D, 4D category (-9 hours), add Design I and Design 2 (+6 hours, currently existing courses in ARTF), and shift any concentration requirements into the concentration section (moving 3 hours of ARTS 264 for the photography concentration) rather than calling them out as concentration requirements in the first-year curricula, which was confusing for students and challenging to manage in the degree audit correctly. These changes to the first-year curricula were developed after an ad hoc first-year curriculum committee assessed and reviewed the first-year curriculum and determined that the 2D, 3D, 4D discipline-based categories were not delivering the requisite shared learning outcomes needed for our students to successfully move into their majors. The committee proposed a return to Design I and Design II (last taught in 2017-2018) as a method for delivering consistent shared foundational learning outcomes to all our first-year students.

3- Embed the BFASA Studio Art major requirements into this concentration page in CIM-P for clarity. This includes the art history requirements, capstone requirements, statement regarding number of concentrations allowed, and total credits table and also removes the footnote for accessibility.

4- The photography requirements were previously embedded as comments throughout the studio art requirements. ARTS 264/265/266/364/394/461 all remain required, but are listed more explicitly rather than in a long list with parentheses. The remaining concentration requirements provides more access to ARTS courses by level, rather than from a specific list.

No changes to total hours in the 122-hour degree. The changes in hours occur in the first-year curriculum (previously 20 now 17, -3 hours) and concentration requirements (previously 43-46 now 48, +2-5 hours).

40 hour upper division/advanced course requirement

ARTS 364 - 3 hrs

ARTS 394 - 3 hrs

ARTS 461 - 6 hrs

Addtl 300- and 400-level ARTS courses - 21 hours

ARTS 392 - 3 hrs

ARTS 451 - 4 hrs

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

BFASA Studio Art:

~~Student Learning Outcomes/Studio BFASA (Photography Concentration) These 7 student learning outcomes are shared across all BFASA Studio Art concentrations. These were developed as part of the original 2017 assessment process reports. These were expanded and adapted as part of the IBHE and NASAD reviews of our new BFA in Studio Art degree. The photography concentrations has additional learning outcomes, listed individually below.~~

~~1.1-Students~~ 1-1-Students Students will understand and be able to apply basic principles of visual and material communication, including two-dimensional pictorial concepts, three-dimensional formal and spatial concepts, and a wide variety of media and formats for artistic production, and possess the ability to apply them to a specific aesthetic intent.

~~2.2-Students~~ 2-2-Students Students will demonstrate an ability and willingness to experiment and explore the expressive possibilities of various media, and artistic and creative strategies for self-directed art-making, and investigate the diverse activities and conceptual modes available to the contemporary artist, including work that directly addresses or engages with recent developments in the field of fine art as well as broader social questions and challenges. Students are trained in the production and critique of artworks that explore forms and technologies identified as new or emerging.

~~3.3-Students~~ 3-3-Students Students will gain knowledge of, understand, and be able to apply concepts of visual rhetoric in the development of content, and be able to recognize and critically analyze an evolving variety of communicative practices in art and visual culture, including those that represent diverse cultures and sociopolitical positions, and to demonstrate openness to new social possibilities and a critical empathy towards both audiences and culture producers of differing histories, origins and identities.

~~4.4-Students~~ 4-4-Students Students will develop an innovative, imaginative, and entrepreneurial self-directed studio practice, will gain a deep understanding of their own creativity, be able to apply it in any context, and will learn to independently generate thematic investigation and implementation of research in a broad variety of social locations, including art and educational institutions, activist forums, and cyberspace.

~~5.5-Students~~ 5-5-Students Students will be willing and able to investigate and accommodate broad-ranging types of knowledge and artistic strategies for the purpose of synthesizing diverse and even disparate ideas in order to create sophisticated, unique works of art, participate in new types of collaboration, and to make innovative statements and hypotheses, or propose creative solutions to social, organizational and societal problems using aesthetic strategies.

~~6.6-While~~ 6-6-While While pursuing a BFASA, students prepare for work as artists at a time when artists are employed in a variety of spheres: spheres—artistic direction, project management, education, research, fine art, curation, performance, non-profit work, activism, advertising, and many others. artistic direction, project management, education, research, fine art, curation, performance, non-profit work, activism, advertising, and many others. As digital medias evolve, our graduates will be flexible, able to understand the best use of emerging technologies while crafting new economic and social connections.

~~7.7-Students~~ 7-7-Students Students will produce an integrated, cohesive, critically informed body of work for a thesis exhibition, supported by a written thesis document that serves to position their artistic practice within the broader sphere of contemporary art practices, exhibition strategies, audiences, and economies.

In addition, each concentration has discipline specific learning outcomes:

Photography:

~~Fashion Concentration: 8. Students will have fluency in their own personal apparel design process, including a strong working knowledge of the various modes of research, ideation, and design sketching. 9. Students will be able to effectively communicate their design philosophy and personal aesthetic visually; through portfolio quality two-dimensional representations of developed fashion collections and three-dimensional constructed mini collections and verbally; through presentations, critique response and in a post-academic professional fashion industry context. 10. Students will be able to demonstrate apparel construction and pattern making skills through the design and construction of three-dimensional ensembles. They will have a knowledge of materiality, fibers and textiles in relationship to apparel production. 11. Students will be able to communicate their design philosophy within the context of the history of fashion and the theoretical underpinnings that drive fashion and contemporary culture. 12. Students will understand the various aspects of the business of fashion, from design and production through manufacturing, promotion~~

~~and sales.~~ Photography Concentration: 8.1-Students Students in the photography ~~Photography~~ concentration will acquire ~~have acquired~~ the ability to control the procedural construct of an image via camera, software and darkroom techniques.

9.2-Students Students in the photography ~~Photography~~ concentration will have an understanding of and an ability to employ photography's ~~photography's~~ unique narrative structure.

10.3-Students Students in the photography ~~Photography~~ concentration will acquire ~~have acquired~~ a critical appreciation of the historical and social influences of the photographic medium and the ability to evaluate their own work as well that of others via this construct.

11.4-Students Students in the photography ~~Photography~~ concentration will develop ~~have developed~~ a cohesive body of work demonstrating technical competency ~~of an array of photographic processes~~ and ~~historical~~ conceptual awareness of photography's varied histories and applications. ~~the discipline.~~

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program
Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

[A portfolio review is required for admission to the School of Art and Design.](#)

Students in the ~~BASA~~ and BFASA who choose a Photography concentration will focus on creating works of art that use photographic imagery. Faculty in the Photography program are committed to continually redefining fine art photography in an expansive and openly creative way. The ability to understand and employ photography's unique narrative potential is emphasized alongside technical considerations. Our classes provide a balance of practice and theory, which assures the understanding and appreciation of both the interdependence and integration of creativity, production, and research.

Our photography faculty has international exhibition records and work in numerous museum and private collections. Their photographs, installations, books, films, and videos have won critical acclaim in the form of national reviews and grants ranging from the National Endowment for the Arts to the Illinois Arts Council. Faculty members have lectured on their work throughout the United States and abroad.

Collectively the faculty has a wide range of skills, and they use them to teach fine black and white printing, studio lighting, color photography, digital photography, video, installation art, the history of photography, and critical theory. Graduates of our program apply their knowledge in a variety of ways, as fine artists, commercial photographers, designers, gallery and museum professionals, or any field that requires visual literacy and creative thinking.

Academic Level Undergraduate

Is This a Teacher Certification Program?

No

Will specialized accreditation be sought for this program?

Yes

Describe the plans for seeking specialized accreditation:

Already accredited by the ~~This new concentration will be submitted to our~~ national accreditation body, NASAD (National Association of Schools of Art and Design). ~~Design), for New Plan Approval review. NASAD reviews new plan proposals twice a year, in October and March. Once all internal review processes are approved, the School will prepare the NASAD New Plan Approval document, for the October 2020 review. If approved, the School will implement the new concentration and admit freshmen starting in Fall 2021.~~

Additional concentration notes (e.g., estimated enrollment, advising plans, etc.)

~~Admission will begin for Fall 2021, after accreditation of the concentration has been approved. We anticipate approximately 10 students enrolled in year one, and 30 total students by year five. Student advising will be supported by our Undergraduate Academic Affairs staff for the first two years, with juniors and seniors advised by the Studio Program Chair.~~

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

No impact.

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

~~We are currently able to staff all required courses, no new budget is required.~~

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

~~No new financial support needed at this time pending significant growth in majors within the photo concentration, in both the BASA and BFASA degrees.~~

Will the unit need to seek campus or other external resources?

No

Attach letters of support

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

No impact.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this concentration revision.

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Concentration in Printmaking in the Bachelor of Fine Arts in Studio Art in Studio Art in the College of Fine and Applied Arts

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This BFASA Printmaking concentration proposal (key 643) is related to the BFASA major proposal (key 640), Painting Concentration proposal (key 642), Illustration Concentration proposal (key 1188), Photography Concentration proposal (key 955), Sculpture Concentration proposal (key 644), New Media Concentration proposal (key 641), Interdisc Practice Concentration proposal (key 645), and Fashion Concentration proposal (key 951).

Program Justification

Provide a brief description of what changes are being made to the program. (1) Embed gen ed, (2) first-year curricula, and (3) major requirements into the concentration in CIM-P. (4) Reorganizing printmaking concentration requirements.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1-Inputting new campus gen ed requirement template per office of the provost initiative.

2- The first-year curriculum is currently its own CIM-P page (Art Undeclared, key 863) which previously has been administratively pasted into each major page in the academic catalog. This revision embeds the first-year curriculum, including the new revisions, directly into each major or concentration page in CIM-P and subsequently their respective academic catalog pages. The Art Undeclared page will remain in CIM-P and the academic catalog solely as the first-year curriculum.

The new first-year curricula revisions remove the 2D, 3D, 4D category (-9 hours), add Design I and Design 2 (+6 hours, currently existing courses in ARTF), and shift any concentration requirements into the concentration section (moving 3 hours of ARTS 205 for the printmaking concentration) rather than calling them out as concentration requirements in the first-year curricula, which was confusing for students and challenging to manage in the degree audit correctly. These changes to the first-year curricula were developed after an ad hoc first-year curriculum committee assessed and reviewed the first-year curriculum and determined that the 2D, 3D, 4D discipline-based categories were not delivering the requisite shared learning outcomes needed for our students to successfully move into their majors. The committee proposed a return to Design I and Design II (last taught in 2017-2018) as a method for delivering consistent shared foundational learning outcomes to all our first-year students.

3- Embed the BFASA Studio Art major requirements into this concentration page in CIM-P for clarity. This includes the art history requirements, capstone requirements, statement regarding number of concentrations allowed, and total credits table and also removes the footnote for accessibility.

4- The printmaking requirements were previously embedded as comments throughout the studio art requirements. ARTS 205/250/405 all remain required, but are listed more explicitly rather than in a long list with parentheses. Additionally, ARTS 405 was previously required for 6 hours and is now required for 9 hours (+3 hours). However, previously ARTS 454 or ARTS 455 were required and now are not (-3 hours). The purpose of this change was to remove an advanced drawing or painting requirement in order to add an additional semester of special topics in printmaking, to provide further skills in the concentration area. The remaining concentration requirements provides more access to ARTS courses by level, rather than from a specific list.

No changes to total hours in the 122-hour degree. The changes in hours occur in the first-year curriculum (previously 20 now 17, -3 hours) and concentration requirements (previously 43-46 now 48, +2-5 hours).

40 hour upper division/advanced course requirement

ARTS 405 - 9 hrs

Addtl 300- and 400-level ARTS courses - 24 hours

ARTS 392 - 3 hrs

ARTS 451 - 4 hrs

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

BFASA Studio Art:

1-Students will understand and be able to apply basic principles of visual and material communication, including two-dimensional pictorial concepts, three-dimensional formal and spatial concepts, and a wide variety of media and formats for artistic production, and possess the ability to apply them to a specific aesthetic intent.

2-Students will demonstrate an ability and willingness to experiment and explore the expressive possibilities of various media, and artistic and creative strategies for self-directed art-making, and investigate the diverse activities and conceptual modes available to the contemporary artist, including work that directly addresses or engages with recent developments in the field of fine art as well as broader social questions and challenges. Students are trained in the production and critique of artworks that explore forms and technologies identified as new or emerging.

3-Students will gain knowledge of, understand, and be able to apply concepts of visual rhetoric in the development of content, and be able to recognize and critically analyze an evolving variety of communicative practices in art and visual culture, including those that represent diverse cultures and sociopolitical positions, and to demonstrate openness to new social possibilities and a critical empathy towards both audiences and culture producers of differing histories, origins and identities.

4-Students will develop an innovative, imaginative, and entrepreneurial self-directed studio practice, will gain a deep understanding of their own creativity, be able to apply it in any context, and will learn to independently generate thematic investigation and implementation of research in a broad variety of social locations, including art and educational institutions, activist forums, and cyberspace.

5-Students will be willing and able to investigate and accommodate broad-ranging types of knowledge and artistic strategies for the purpose of synthesizing diverse and even disparate ideas in order to create sophisticated, unique works of art, participate in new types of collaboration, and to make innovative statements and hypotheses, or propose creative solutions to social, organizational and societal problems using aesthetic strategies.

6-While pursuing a BFASA, students prepare for work as artists at a time when artists are employed in a variety of spheres: artistic direction, project management, education, research, fine art, curation, performance, non-profit work, activism, advertising, and many others. As digital medias evolve, our graduates will be flexible, able to understand the best use of emerging technologies while crafting new economic and social connections.

7-Students will produce an integrated, cohesive, critically informed body of work for a thesis exhibition, supported by a written thesis document that serves to position their artistic practice within the broader sphere of contemporary art practices, exhibition strategies, audiences, and economies.

In addition, each concentration has discipline specific learning outcomes:

Printmaking Concentration:

1-Knowledge and skills in the use of basic tools, techniques, and processes sufficient to work from concept to finished product. This includes knowledge of basic materials and technical procedures such as intaglio, relief, lithography, silkscreen, and digital processes.

2-Mastery of at least one printmaking technique, including the ability both to experiment with technical innovation and to explore and develop personal concepts and imagery.

3-Students concentration in Printmaking will attain a functional knowledge of the history of printmaking.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Revised programs [Studio Art Printmaking, BFASA sample schedule.docx](#)

Attach a revised Sample Sequence (for undergraduate program) or college-level forms.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

A portfolio review is required for admission to the School of Art and Design.

The concentration in Printmaking offers students in the BFASA the opportunity to study a wide range of traditional, photographic, and digital printmaking methods that engage with contemporary art and design fields. Courses provide instruction in screenprint, letterpress, comics and zines, relief printing, intaglio, lithography, and other rotating special topics.

Instruction begins with a focus on mark-making, color theory, composition, and the unique role of the printed image in visual culture, from its invention to present-day. At every level, students are challenged to develop critical thinking skills, visual and cultural literacy, and a familiarity with current art theory and practice. At the intermediate and advanced levels, students are introduced to the laser cutter, CNC router, and Risograph printer as a means to incorporate digital typography and design elements into their studio work alongside traditional drawing practices.

Interdisciplinarity is encouraged as students hone their conceptual interests and develop a personal body of creative work. Students may focus in contemporary fine art printmaking, or related areas within the expanded field of print media such as poster design, print as sculpture/installation/performance, book arts, comics, community engagement, and more. Individual research interests are supported by access to elective courses across campus. Ongoing instruction, and the option to participate in national and regional printmaking conferences and events through the Noble Print Club, teach students the professional skills and habits to establish a unique, self-directed studio practice.

Statement for
Programs of
Study Catalog

Graduation Requirements

Minimum hours required for graduation: 122 hours.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in Art and Design.

KR Dean

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Concentration in Sculpture in the Bachelor of Fine Arts in Studio Art in Studio Art in the College of Fine and Applied Arts

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This BFASA Sculpture concentration proposal (key 644) is related to the BFASA major proposal (key 640), Painting Concentration proposal (key 642), Illustration Concentration proposal (key 1188), Photography Concentration proposal (key 955), Printmaking Concentration proposal (key 643), New Media Concentration proposal (key 641), Interdisc Practice Concentration proposal (key 645), and Fashion Concentration proposal (key 951).

Program Justification

Provide a brief description of what changes are being made to the program. (1) Embed gen ed, (2) first-year curricula, and (3) major requirements into the concentration in CIM-P. (4) Reorganizing sculpture concentration requirements.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1-Inputting new campus gen ed requirement template per office of the provost initiative.

2- The first-year curriculum is currently its own CIM-P page (Art Undeclared, key 863) which previously has been administratively pasted into each major page in the academic catalog. This revision embeds the first-year curriculum, including the new revisions, directly into each major or concentration page in CIM-P and subsequently their respective academic catalog pages. The Art Undeclared page will remain in CIM-P and the academic catalog solely as the first-year curriculum.

The new first-year curricula revisions remove the 2D, 3D, 4D category (-9 hours), add Design I and Design 2 (+6 hours, currently existing courses in ARTF), and shift any concentration requirements into the concentration section (moving 3 hours of ARTS 280 for the sculpture concentration) rather than calling them out as concentration requirements in the first-year curricula, which was confusing for students and challenging to manage in the degree audit correctly. These changes to the first-year curricula were developed after an ad hoc first-year curriculum committee assessed and reviewed the first-year curriculum and determined that the 2D, 3D, 4D discipline-based categories were not delivering the requisite shared learning outcomes needed for our students to successfully move into their majors. The committee proposed a return to Design I and Design II (last taught in 2017-2018) as a method for delivering consistent shared foundational learning outcomes to all our first-year students.

3- Embed the BFASA Studio Art major requirements into this concentration page in CIM-P for clarity. This includes the art history requirements, capstone requirements, statement regarding number of concentrations allowed, and total credits table and also removes the footnote for accessibility.

4- The sculpture requirements were previously embedded as comments throughout the studio art requirements. ARTS 280, ARTS 210 or 252, ARTS 310 or 457, ARTS 381, and ARTS 456 all remain required, but are listed more explicitly rather than in a long list with parentheses. The remaining concentration requirements provides more access to ARTS courses by level, rather than from a specific list.

No changes to total hours in the 122-hour degree. The changes in hours occur in the first-year curriculum (previously 20 now 17, -3 hours) and concentration requirements (previously 43-46 now 48, +2-5 hours).

40 hour upper division/advanced course requirement

ARTS 310 or 457 - 3 hrs

ARTS 381 - 3 hrs

ARTS 456 -3 hrs

Addtl 300- and 400-level ARTS courses - 24 hours

ARTS 392 - 3 hrs

ARTS 451 - 4 hrs

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

BFASA Studio Art:

1-Students will understand and be able to apply basic principles of visual and material communication, including two-dimensional pictorial concepts, three-dimensional formal and spatial concepts, and a wide variety of media and formats for artistic production, and possess the ability to apply them to a specific aesthetic intent.

2-Students will demonstrate an ability and willingness to experiment and explore the expressive possibilities of various media, and artistic and creative strategies for self-directed art-making, and investigate the diverse activities and conceptual modes available to the contemporary artist, including work that directly addresses or engages with recent developments in the field of fine art as well as broader social questions and challenges. Students are trained in the production and critique of artworks that explore forms and technologies identified as new or emerging.

3-Students will gain knowledge of, understand, and be able to apply concepts of visual rhetoric in the development of content, and be able to recognize and critically analyze an evolving variety of communicative practices in art and visual culture, including those that represent diverse cultures and sociopolitical positions, and to demonstrate openness to new social possibilities and a critical empathy towards both audiences and culture producers of differing histories, origins and identities.

4-Students will develop an innovative, imaginative, and entrepreneurial self-directed studio practice, will gain a deep understanding of their own creativity, be able to apply it in any context, and will learn to independently generate thematic investigation and implementation of research in a broad variety of social locations, including art and educational institutions, activist forums, and cyberspace.

5-Students will be willing and able to investigate and accommodate broad-ranging types of knowledge and artistic strategies for the purpose of synthesizing diverse and even disparate ideas in order to create sophisticated, unique works of art, participate in new types of collaboration, and to make innovative statements and hypotheses, or propose creative solutions to social, organizational and societal problems using aesthetic strategies.

6-While pursuing a BFASA, students prepare for work as artists at a time when artists are employed in a variety of spheres: artistic direction, project management, education, research, fine art, curation, performance, non-profit work, activism, advertising, and many others. As digital medias evolve, our graduates will be flexible, able to understand the best use of emerging technologies while crafting new economic and social connections.

7-Students will produce an integrated, cohesive, critically informed body of work for a thesis exhibition, supported by a written thesis document that serves to position their artistic practice within the broader sphere of contemporary art practices, exhibition strategies, audiences, and economies.

In addition, each concentration has discipline specific learning outcomes:

Sculpture Concentration:

1-Students concentrating in Sculpture have knowledge and skills in the use of basic tools, techniques, and processes to work from concept to finished product, leading to preparation of three-dimensional objects and installations using the broadest possible range of techniques and concepts.

2-Students concentrating in Sculpture will demonstrate mastery in one or more sculptural media, processes and presentational strategies.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Revised programs [Studio Art Sculpture, BFASA sample schedule.docx](#)

Attach a revised Sample Sequence (for undergraduate program) or college-level forms.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

A portfolio review is required for admission to the School of Art and Design.

Students in the BFASA who choose the concentration in Sculpture will focus on methods and concepts related to three-dimensional art, form-making, and expanded spatial practices. Contemporary sculpture practice is informed by multiple modes of ideation, making and fabrication, and utilizes a dynamic and ever-expanding set of tools, materials, techniques and approaches. The outcomes are endlessly varied, from the most traditional to the wildly experimental, in scope, scale and content. The Sculpture concentration allows students to explore the multitude of art making options available, by encouraging individual growth, collaborative engagement, and collective accomplishments.

Courses in sculpture introduce students to a variety of materials and fabrication methods with explorations in three dimensional form, concepts and ideation, including wood fabrication, mold making and casting, and metal fabrication and welding. Advanced courses allow for more independent practice, and encourage a more singular approach to the use of materials and methodologies, ensuring students develop their own unique path via elective courses in ceramics, fiber and soft sculpture, experimental fashion, time-based practices, video, photography, and special topic courses and seminars. We offer experiences in a variety of classrooms and shops designed to support an expansive material practice, including well-equipped wood-shops, ceramic studios, plaster and casting rooms, welding and cold metal fabrication, small-scale foundry, sewing and fiber, and digital output technologies including 3D printers, water jet and laser cutting, CNC machining, vacuum-forming, digital imaging, and sound and video editing.

Statement for
Programs of
Study Catalog

Graduation Requirements

Minimum hours required for graduation: 122 hours.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in Art and Design.

	Course List

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Concentration in New Media in the Bachelor of Fine Arts in Studio Art in Studio Art in the College of Fine and Applied Arts

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This BFASA New Media concentration proposal (key 641) is related to the BFASA major proposal (key 640), Painting Concentration proposal (key 642), Illustration Concentration proposal (key 1188), Photography Concentration proposal (key 955), Printmaking Concentration proposal (key 643), Sculpture Concentration proposal (key 644), Interdisc Practice Concentration proposal (key 645), and Fashion Concentration proposal (key 951).

Program Justification

Provide a brief description of what changes are being made to the program.

Embed gen ed, first-year curricula, and major requirements into the concentration in CIM-P. Reorganizing new media concentration requirements.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

Why are these changes necessary?

1- The first-year curriculum is currently its own CIM-P page (Art Undeclared, key 863) which previously has been administratively pasted into each major page in the academic catalog. This revision embeds the first-year curriculum, including the new revisions, directly into each major or concentration page in CIM-P and subsequently their respective academic catalog pages. The Art Undeclared page will remain in CIM-P and the academic catalog solely as the first-year curriculum.

2- The new first-year curricula revisions remove the 2D, 3D, 4D category (-9 hours), add Design I and Design 2 (+6 hours, currently existing courses in ARTF), and shift any concentration requirements into the concentration section (moving 3 hours of how the 4D requirement of ARTS 241 or 243 or 244 is counting) rather than calling them out as concentration requirements in the first-year curricula, which was confusing for students and challenging to manage in the degree audit correctly. These changes to the first-year curricula were developed after an ad hoc first-year curriculum committee assessed and reviewed the first-year curriculum and determined that the 2D, 3D, 4D discipline-based categories were not delivering the requisite shared learning outcomes needed for our students to successfully move into their majors. The committee proposed a return to Design I and Design II (last taught in 2017-2018) as a method for delivering consistent shared foundational learning outcomes to all our first-year students.

3- Embed the BFASA Studio Art major requirements into this concentration page in CIM-P for clarity. This includes the art history requirements, capstone requirements, statement regarding number of concentrations allowed, and total credits table and also removes the footnote for accessibility.

3- The new media requirements were previously embedded as comments throughout the studio art requirements. ARTS 241/243/244/443/444 all remain required, but are listed more explicitly rather than in a long list with parentheses. The remaining concentration requirements provides more access to ARTS courses by level, rather than from a specific list.

4- No changes to total hours in the 122-hour degree. The changes in hours occur in the first-year curriculum (previously 20 now 17, -3 hours) and concentration requirements (previously 43-46 now 48, +2-5 hours).

5-Inputting new campus gen ed requirement template per office of the provost initiative.

40 hour upper division/advanced course requirement

ARTS 443 - 3 hrs

ARTS 444 - 3 hrs

Addtl 300- and 400-level ARTS courses - 27 hours

ARTS 392 - 3 hrs

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

BFASA Studio Art:

1-Students will understand and be able to apply basic principles of visual and material communication, including two-dimensional pictorial concepts, three-dimensional formal and spatial concepts, and a wide variety of media and formats for artistic production, and possess the ability to apply them to a specific aesthetic intent.

2-Students will demonstrate an ability and willingness to experiment and explore the expressive possibilities of various media, and artistic and creative strategies for self-directed art-making, and investigate the diverse activities and conceptual modes available to the contemporary artist, including work that directly addresses or engages with recent developments in the field of fine art as well as broader social questions and challenges. Students are trained in the production and critique of artworks that explore forms and technologies identified as new or emerging.

3-Students will gain knowledge of, understand, and be able to apply concepts of visual rhetoric in the development of content, and be able to recognize and critically analyze an evolving variety of communicative practices in art and visual culture, including those that represent diverse cultures and sociopolitical positions, and to demonstrate openness to new social possibilities and a critical empathy towards both audiences and culture producers of differing histories, origins and identities.

4-Students will develop an innovative, imaginative, and entrepreneurial self-directed studio practice, will gain a deep understanding of their own creativity, be able to apply it in any context, and will learn to independently generate thematic investigation and implementation of research in a broad variety of social locations, including art and educational institutions, activist forums, and cyberspace.

5-Students will be willing and able to investigate and accommodate broad-ranging types of knowledge and artistic strategies for the purpose of synthesizing diverse and even disparate ideas in order to create sophisticated, unique works of art, participate in new types of collaboration, and to make innovative statements and hypotheses, or propose creative solutions to social, organizational and societal problems using aesthetic strategies.

6-While pursuing a BFASA, students prepare for work as artists at a time when artists are employed in a variety of spheres: artistic direction, project management, education, research, fine art, curation, performance, non-profit work, activism, advertising, and many others. As digital medias evolve, our graduates will be flexible, able to understand the best use of emerging technologies while crafting new economic and social connections.

7-Students will produce an integrated, cohesive, critically informed body of work for a thesis exhibition, supported by a written thesis document that serves to position their artistic practice within the broader sphere of contemporary art practices, exhibition strategies, audiences, and economies.

In addition, each concentration has discipline specific learning outcomes:

New Media Concentration:

1-Students concentrating in New Media are trained in the production and critique of artworks that explore forms and technologies identified as new or emerging. Students concentrating in New Media create work for the new disciplinary mechanisms

that have arisen to evaluate and promote artwork in digital media, but also for traditional institutional mechanisms of art distribution and art critique. As in Contemporary Art, work in New Media may take the form of performance, sound and radio broadcast, gallery exhibition, curation, public art, cinema and video, a networked event, publication, or even scientific research.

2-Students concentrating in New Media are able to analyze and synthesize relevant aspects of human interaction in various contexts (physical, cognitive, cultural, social, political, and economic) and with respect to technologically- mediated communication, objects, and environments. Junior and Senior years see students working with critics/professors across the School to develop a portfolio of works in time-based, interactive, physical, networked or performative media. In the process of generating a body of work around a subject and form of their choice, students receive instruction in technical execution, formal composition, and theoretical framing.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Attach a revised Sample Sequence (for undergraduate program)
or college-level forms.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

A portfolio review is required for admission to the School of Art and Design.

The Studio Art concentration in New Media provides an opportunity for students in the BFASA degree program to pursue sustained study in art forms that include time-based media, performance, digital imaging, and coding-based practices.

New Media courses incorporate established and emerging technologies in the service of art-making that looks to the history of art as well as to contemporary intersections between art, design and community engagement. Students can expect to gain working knowledge in a core set of forms that include digital imaging, video, coding, and interactive technologies, along with an understanding of the conceptual and historical context in which these forms exist. As students advance, they will build on this core knowledge by developing and following individual interests in advanced courses that include both technical instruction and topic-focused explorations. Students will be able to take courses across the School of Art & Design and the broader campus to further pursue experiences in other disciplines and areas of inquiry that can contribute to a personal artistic trajectory.

Statement for

Programs of
Study Catalog

Graduation Requirements

Minimum hours required for graduation: 122 hours.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in Art and Design.

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Concentration in Fashion in the Bachelor of Fine Arts in Studio Art in Studio Art in the College of Fine and Applied Arts

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This BFASA Fashion concentration proposal (key 951) is related to the BFASA major proposal (key 640), Painting Concentration proposal (key 642), Illustration Concentration proposal (key 1188), Photography Concentration proposal (key 955), Printmaking Concentration proposal (key 643), New Media Concentration proposal (key 641), Interdisc Practice Concentration proposal (key 645), and Sculpture Concentration proposal (key 644).

Program Justification

Provide a brief description of what changes are being made to the program. (1) Embed gen ed, (2) first-year curricula and (3) major requirements into the concentration in CIM-P. (4) Reorganizing and revising fashion concentration requirements.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

[No](#)

Why are these changes necessary?

1-Inputting new campus gen ed requirement template per office of the provost initiative.

2- The first-year curriculum is currently its own CIM-P page (Art Undeclared, key 863) which previously has been administratively pasted into each major page in the academic catalog. This revision embeds the first-year curriculum, including the new revisions, directly into each major or concentration page in CIM-P and subsequently their respective academic catalog pages. The Art Undeclared page will remain in CIM-P and the academic catalog solely as the first-year curriculum.

The new first-year curricula revisions remove the 2D, 3D, 4D category (-9 hours), add Design I and Design 2 (+6 hours, currently existing courses in ARTF), and shift any concentration requirements into the concentration section (moving 3 hours of ARTS 221 for the fashion concentration) rather than calling them out as concentration requirements in the first-year curricula, which was confusing for students and challenging to manage in the degree audit correctly. These changes to the first-year curricula were developed after an ad hoc first-year curriculum committee assessed and reviewed the first-year curriculum and determined that the 2D, 3D, 4D discipline-based categories were not delivering the requisite shared learning outcomes needed for our students to successfully move into their majors. The committee proposed a return to Design I and Design II (last taught in 2017-2018) as a method for delivering consistent shared foundational learning outcomes to all our first-year students.

3- Embed the BFASA Studio Art major requirements into this concentration page in CIM-P for clarity. This includes the art history requirements, capstone requirements, statement regarding number of concentrations allowed, and total credits table and also removes the footnote for accessibility.

4- The fashion requirements were previously embedded as comments throughout the studio art requirements. ARTS 221/220/223/320/321/420 all remain required, but are listed more explicitly rather than in a long list with parentheses. The remaining concentration requirements provide more access to ARTS courses by level and clarifies the theatre options as costume courses with two additional options- letter from THEA attached.

No changes to total hours in the 122-hour degree. The changes in hours occur in the first-year curriculum (previously 20 now 17, -3 hours) and concentration requirements (previously 43-46 now 48, +2-5 hours).

40 hour upper division/advanced course requirement

ARTS 320 - 3 hrs

ARTS 321 - 3 hrs

ARTS 420 - 3 hrs

THEA concentration courses - 15 hrs

Addtl 300- and 400-level ARTS courses - 9 hours

ARTS 392 - 3 hrs

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

BFASA Studio Art:

~~Student Learning Outcomes/Studio BFASA (Fashion Concentration) These 7 student learning outcomes are shared across all BFA Studio Art concentrations. These were developed as part of the original 2017 assessment process reports prepared by New Media and Painting and Sculpture. These were expanded and adapted as part of the IBHE and NASAD reviews of our new BFA in Studio Art degree. Printmaking is also a concentration choice, as is General Studio. These concentrations have 2-4 additional learning outcomes, listed individually.~~ 1.1-Students Students will understand and be able to apply basic principles of visual and material communication, including two-dimensional pictorial concepts, three-dimensional formal and spatial concepts, and a wide variety of media and formats for artistic production, and possess the ability to apply them to a specific aesthetic intent.

2.2-Students Students will demonstrate an ability and willingness to experiment and explore the expressive possibilities of various media, and artistic and creative strategies for self-directed art-making, and investigate the diverse activities and conceptual modes available to the contemporary artist, including work that directly addresses or engages with recent developments in the field of fine art as well as broader social questions and challenges. Students are trained in the production and critique of artworks that explore forms and technologies identified as new or emerging.

3.3-Students Students will gain knowledge of, understand, and be able to apply concepts of visual rhetoric in the development of content, and be able to recognize and critically analyze an evolving variety of communicative practices in art and visual culture, including those that represent diverse cultures and sociopolitical positions, and to demonstrate openness to new social possibilities and a critical empathy towards both audiences and culture producers of differing histories, origins and identities.

4.4-Students Students will develop an innovative, imaginative, and entrepreneurial self-directed studio practice, will gain a deep understanding of their own creativity, be able to apply it in any context, and will learn to independently generate thematic investigation and implementation of research in a broad variety of social locations, including art and educational institutions, activist forums, and cyberspace.

5.5-Students Students will be willing and able to investigate and accommodate broad-ranging types of knowledge and artistic strategies for the purpose of synthesizing diverse and even disparate ideas in order to create sophisticated, unique works of art, participate in new types of collaboration, and to make innovative statements and hypotheses, or propose creative solutions to social, organizational and societal problems using aesthetic strategies.

6.6-While While pursuing a BFASA, students prepare for work as artists at a time when artists are employed in a variety of spheres: spheres—artistic direction, project management, education, research, fine art, curation, performance, non-profit work, activism, advertising, and many others. artistic direction, project management, education, research, fine art, curation, performance, non-profit work, activism, advertising, and many others. As digital medias evolve, our graduates will be flexible, able to understand the best use of emerging technologies while crafting new economic and social connections.

7.7-Students Students will produce an integrated, cohesive, critically informed body of work for a thesis exhibition, supported by a written thesis document that serves to position their artistic practice within the broader sphere of contemporary art practices,

exhibition strategies, audiences, and economies.

In addition, each concentration has discipline specific learning outcomes:

Fashion:

Fashion Concentration: 8.1-Students in the fashion concentration Students will have fluency ~~in~~ in their own personal apparel design process, including a strong working knowledge of ~~the~~ the various modes of research, ideation, and design sketching.

9.2-Students in the fashion concentration Students will be able to effectively communicate their design philosophy and personal aesthetic visually; through portfolio quality two dimensional ~~two-dimensional~~ representations of developed fashion ~~fashion~~ collections and ~~three-dimensional-constructed-mini-collections-and~~ verbally; through presentations, critique response and ~~in~~ in a post academic professional fashion ~~fashion~~ industry context.

~~10.Students will be able to demonstrate apparel construction and pattern-making skills through the design and construction of three-dimensional ensembles.They will have a knowledge of materiality, fibers and textiles in relationship to~~

apparel production.11.3-Students in the fashion concentration Students will be able to communicate their design philosophy within ~~the~~ the context of ~~the~~ the history of fashion and the ~~fashion-and-the~~ theoretical underpinnings that drive fashion and ~~fashion-and~~ contemporary culture.

4-Students in the fashion concentration Students ~~will be able to~~ demonstrate skills appropriate for designing apparel construction and researching within the fashion industry. pattern-making skills through the design and construction of three-dimensional ensembles.

12.5-Students in ~~Students will understand~~ the fashion concentration will understand ~~various aspects of~~ the various aspects of fashion industry, business of fashion, from design and production through manufacturing, promotion and sales.

6-Students in the fashion concentration will be able to demonstrate construction and pattern making skills. They will have a knowledge of materiality, fibers and textiles in relationship to apparel production.

7-Students in the fashion concentration will be prepared for professional careers by developing technical competency, creative/independent problem solving and conceptual understanding necessary for the challenges of a career in the creative industries.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Attach a revised Sample Sequence (for undergraduate program)
or college-level forms.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

Students in the ~~BASA~~ and BFASA who choose a concentration in Fashion will focus on developing their own unique apparel design process with an emphasis on sustainable practices while becoming familiar with the various aspects of the fashion industry from concept to consumer. Students will be introduced to various modes of research and ideation, gaining the tools to be able to effectively communicate and produce their two- and three-dimensional designs within the context of the history of fashion and the theoretical underpinnings that drive fashion and contemporary culture.

Introductory courses in Fashion give students an overview of the industry from customer development, design and production through manufacturing, promotion and sales. Students are introduced to the fundamentals of textiles and clothing design, and the basics of creating a fashion collection through the use of hand and digital illustration techniques. Further courses focus on the exploration of experimental design, patternmaking, and sewing skills while encouraging the development of the designer's personal creative vision within the context of fashion history and the consumer market. Additional courses bring a greater understanding of how to enact knowledge gained in an educational setting within the fashion industry, through sustainable fashion collection development and branding. Students are given the unique opportunity to showcase their constructed ensembles and mini-collections on the runway in the Re-Fashioned fashion show presented each spring. We offer experiences in a variety of classrooms designed to support explorations in bringing two-dimensional materials to three-dimensional forms, access to computer labs, digital output technologies including 3D printers, sewing and embroidery machines, and dress forms.

[A portfolio review is required for admission to the School of Art and Design.](#)

Statement for
Programs of

Graduation Requirements

Study Catalog Minimum hours required for graduation: 122 hours.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in Art and Design.

Program Relationships

Corresponding

Program(s):

Corresponding Program(s)

Studio Art, BFASA

Program Features

Academic Level Undergraduate

Is This a Teacher Certification Program?

No

Will specialized accreditation be sought for this program?

Yes

Describe the plans for seeking specialized accreditation:

~~Already accredited by NASAD This new concentration will be submitted to our national accreditation body, NASAD (National Association of Schools of Art and Design), for New Plan Approval review. NASAD reviews new plan proposals twice a year, in October and March. Once all internal review processes are approved, the School will prepare the NASAD New Plan Approval document, for the October 2020 review. If approved, the School will implement the new concentration and admit freshmen starting in Fall 2021.~~

Additional concentration notes (e.g., estimated enrollment, advising plans, etc.)

~~Admission will begin for Fall 2021, after accreditation of the concentration has been approved. We anticipate approximately 5 students enrolled in year one and 20 total students by year five. Student advising will be supported by our Undergraduate Academic Affairs staff for the first two years, with juniors and seniors advised by the Studio Program Chair.~~

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

No impact.

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available? No

Additional Budget Information

NA

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

~~No new financial support is required. We see this as a growth opportunity, and a popular option for incoming students, with the potential to generate new revenue for the School.~~

Will the unit need to seek campus or other external resources?

No

Attach letters of support

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

No impact.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this concentration revision.

Thank you again Dean Turner-

I should have known that revision would already be in place- I wasn't sure exactly who might have needed to guide that.

With that clarified- will this work:

After consultation with and the confirmation of inclusion from area specific faculty, on behalf of the Department of Theatre I support the inclusion of THEA 441 and 489 in the THEA costume course category for the undergraduate concentration in Fashion for the BFASA Studio Art major.

Hello Dean Turner-

Since there is revised language and the original request was for 447 (not the current description of 489) are there revisions needed in the nextcourse proposal draft that need to be complete before we can agree to the inclusion of these courses?

I offer this in case those revisions are not needed:

On behalf of the Department of Theatre I support the inclusion of THEA 441 and 489 in the THEA costume course category for the undergraduate concentration in Fashion for the BFASA Studio Art major.

Subject: RE: Approval Requested: Letter for Fashion concentration in Studio Art

Hello all,

Just did a quick couple of phone calls with Susan and Binky Donley to confirm all logistics are in order.

Susan and I will be replacing THEA 447 (Costume Rendering taught by Kim Curtis) with THEA 489 (Leatherworking taught by Binky Donley).

I've checked with Binky about adding 489 and she approves. Therefore the language should read:

On behalf of the Department of Theatre I support the inclusion of THEA 441 and 489 in the THEA costume course category for the undergraduate concentration in Fashion for the BFASA Studio Art major.

JW, I'm presuming I will get with Corey to get the registration restrictions changed for these before registration opens for Fall 2024. Make sense?

Let me know if there is anything else needed.

Subject: RE: Approval Requested: Letter for Fashion concentration in Studio Art

Hello,

I'm looping back to inquire if we are ready to move forward with the letter from Theatre for the fashion concentration in the BFASA?

For us to proceed with the approval of the revision to the fashion concentration, I am asking for a letter of support from Valleri or JW to allow us to include the THEA new course additions and costume category requirement. An example letter could be a reply to this email which states: *On behalf of the Department of Theatre I support the inclusion of THEA 441 and 447 and the THEA costume course category for the undergraduate concentration in Fashion for the BFASA Studio Art major.*

Best,
Nicole

Hello all,

I'm jumping back in (after a week in Sayulita, Mexico) to see how the conversations have progressed. If the technicalities have been sorted out and the proposal looks good, if JW or Valleri could respond to me with:

On behalf of the Department of Theatre I support the inclusion of THEA 441 and 447 and the THEA costume course category for the undergraduate concentration in Fashion for the BFASA Studio Art major.

Or we can discuss any changes needed to the proposal.

Best,
Nicole

Subject: Re: Approval Requested: Letter for Fashion concentration in Studio Art

My small two cents - we are very intertwined programs that feed off each other. Our students consistently every year take fashion rendering classes taught by Chiara and Susan's experimental design class, as well inviting fashion program instructors to our costume

students' thesis committees. We are a true synergy teams utilizing and sharing resources to both benefit students' education and maximize our teaching load to the benefit of both programs .

If needed I can elaborate with examples I had gathered over the past 8 years

Warmly

Olga

Subject: Re: Approval Requested: Letter for Fashion concentration in Studio Art

Hello Rose-

So the two easiest questions you've already answered which is what we would need to adjust for the 441 and 447 courses- simply adding the restriction to include the Fashion majors.

The other questions regarding the elective(s) and the impact from such changes are really something you and Susan would need to clarify between the needs and capabilities of the programs. I think you have the correct next steps in talking with Susan and with Kim Curtis to

decide the parameters.

I've copied Dean Turner back into this loop so the college is aware of where this request currently stands and, just in case, there is a way for you (Rose) to be granted access to the proposal. Dr. Robinson is also copied here just so she is aware of the current status as we sort through.

Thanks all-

Subject: RE: Approval Requested: Letter for Fashion concentration in Studio Art

Hi JW,

Yes, Susan Becker and I discussed these changes, *I've added her to this email to hopefully expedite discussion, (Susan, see italics)*

Beyond our own costume specific program changes, I am less familiar with all of the other avenues required for approval to curriculum agreements between departments so this email is going to be very helpful! Comments here

From your questions:

- This is the first I'm hearing of this so maybe it has been in process with the curriculum committee and costume area already?

I've only worked with getting our costume specific program changes through our theatre department curriculum committee. Was there a proposal for this I needed to submit to our committee for approval? Tell me more about what that needs to look like or if we want to schedule an in real time discussion.

- I see 441 has both a pre-req and both this class and the pre-req are closed for only theatre majors.

THEA 441 is Advanced Costume Construction – the pre-req is correct, but registration restrictions would need to be adapted. Catalog currently reads

“Prerequisite: [THEA 242](#) is required for undergraduates. For MFA Costume Technology and MFA Costume Design majors. BFA Costume Design and Technology majors may be admitted with junior standing.”

We would need to change the Restriction language to match the THEA 242 language which is copied below from the catalog in the next line and does include “Studio Arts or Fashion majors(s) or minors(s)”

Restriction(s) Restricted to Theatre or Studio Arts or Fashion major(s) or minor(s).

All of this is fine with me – THEA 441 is not usually a large class, and the intent here is to get Fashion students the opportunity for some more actual sewing skills.

- 447 is closed for only theatre majors.

THEA 447 is Costume Rendering. *I need Susan here so she can help me remember this part of our discussion as I can't quite remember our rationale here.* Some of my thoughts today... I am planning on revising our BFA Costume curriculum (have sent that information over to Cindy, currently on hold waiting for the Acting Program to submit their revised curriculum). This class will continue to be required by all of our BFA and MFA students. I'd like to talk to Kim Curtis to find out more about what the current numbers look like for her and if we add this to the Fashion options, can she accommodate 1-3 more students per semester. Once this is a “go” we would simply change the Restrictions language to match that of THEA 242.

From Nicole's email:

- The proposal requests the addition of THEA 441 and 447 to the list of elective options for fashion concentration students. It also specifically calls out 15 hours of costume electives from THEA, whereas previously students completed 31 hours from a list of both ARTS and THEA courses. You can see the proposal draft at <https://nextcourses.illinois.edu/programadmin/?key=951>.

We already have a good handful of our courses listed in their elective options:
<http://catalog.illinois.edu/undergraduate/faa/studio-art-bfasa/fashion/#degreerequirementstext> **Totaling 27 credits**

I need Susan here again, because I don't recall discussing the strategy of requiring a split of their electives and requiring half of them to be from the Costume Program. With the current options and possibly adding the other two classes the new total we'd be agreeing to is **34 credits**. This would force an increase in the number of students in our classes which we are already having a tough time accommodating in the current spaces. *Susan, how many majors/minors do you currently have?* Changing that elective requirement would mean we would see more of the Fashion Majors added to our suite of classes – which in the current situation could make our classes too large. In the end it would be up to the advising and the students to plan their pathway into our courses since these are all electives. Space may not be guaranteed if our courses are capped at 8 students and our costume students fill the classes.

I don't have access to the draft proposal so can't give it a gander.

This email is so long, I'd be happy to discuss more in person as I'm sure I'm not thinking of all of the possible scenarios.

Both the BFA Costume Concentration and BFA SA Fashion Concentration kicked off together at about the same time in 2019 so here we are about 5 years later seeing the increasing student numbers and learning to adapt accordingly as we offer these degrees at the University.

Let me know what you think.

Best

Hello Costumes Folks-

Please see the email below BUT- I was wondering if you all had been aware of the proposed changes?

This is the first I'm hearing of this so maybe it has been in process with the curriculum committee and costume area already?

I see 441 has both a pre-req and both this class and the pre-req are closed for only theatre majors.

447 is closed for only theatre majors.

Maybe I'm just coming late to this party but approving these changes would also require some updates of our own and I wanted to make sure we had your blessings before just agreeing to something without thought.

Happy New Year!

I am writing to request a letter of support on behalf of a proposed revision to the BFASA Studio Art major, concentration in Fashion.

The proposal requests the addition of THEA 441 and 447 to the list of elective options for fashion concentration students. It also specifically calls out 15 hours of costume electives from THEA, whereas previously students completed 31 hours from a list of both ARTS and THEA courses. You can see the proposal draft at <https://nextcourses.illinois.edu/programadmin/?key=951>.

For us to proceed with the approval of the revision to the fashion concentration, I am asking for a letter of support from Valleri or JW to allow us to include the THEA new course additions and costume category requirement. An example letter could be a reply to this email which states: *On behalf of the Department of Theatre I support the inclusion of THEA 441 and 447 and the THEA costume course category for the undergraduate concentration in Fashion for the BFASA Studio Art major.*

If you have any questions or would like additional information, please do not hesitate to contact me. Thank you!

Best,

Nicole

Nicole Turner, Ph.D.

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

KR Dean

Does this program have inter-departmental administration?

No

Proposal Title

Term

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Fine Arts in Art Education in the College of Fine and Applied Arts

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This BFA proposal (key 137) is related to the Art Undeclared proposal (key 863).

Program Justification

Provide a brief description of what changes are being made to the program. (1) Embed gen ed into the major in CIM-P. (2) Updating first-year curricula. (3) Explain 3D/4D requirement in major (4) Remove PSYC 100, 4 credit hours, from Professional Education category (5) Created degree summary table (6) Add GPA requirement for licensure

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1-Inputting new campus gen ed requirement template per office of the provost initiative.

2- The new first-year curricula revisions remove the 2D, 3D, 4D category (-9 hours), add Design I and Design 2 (+6 hours, currently existing courses in ARTF), and only list any major requirements in the major requirements (3 hours of ARTS 251 for the Art Ed major) rather than calling them out as a requirement in the first-year curricula, which was confusing for students and challenging to manage in the degree audit correctly. These changes to the first-year curricula were developed after an ad hoc first-year curriculum committee assessed and reviewed the first-year curriculum and determined that the 2D, 3D, 4D discipline-based categories were not delivering the requisite shared learning outcomes needed for our students to successfully move into their majors. The committee proposed a return to Design I and Design II (last taught in 2017-2018) as a method for delivering consistent shared foundational learning outcomes to all our first-year students.

3-Students in Art Education are asked to select one 200-level+ course in 3D practices, and one 200-level+ course in 4D practices. The course selections are made in consultation with our academic advisor and/or the Art Ed program advisor, who meets with juniors and seniors. Choosing any 200 level or above art and design studio-based course dealing with 3D fabrication, materials, modeling, studio methodology, and a 4D course focusing on time-based practices of sequencing, narrative practices, or performance allows art education majors to select coursework that will support their future K-12 teaching skills. Individual choice is informed by personal practice and faculty guidance, as well as by expected skills development typical to most K-12 art programs.

4- PSYC 100 is no longer a prerequisite course for EPSY 201. While EPSY 201 is required for education licensure, PSYC 100 is not and can be removed from the Professional Education section. This leads to an additional 3 hours of general education and 1 hour of free elective in the sample schedule.

5- Created summary of credits box with advanced hours statement

6- The GPA requirement for licensure is currently in the academic catalog text and it is being added in POS so that the degree audits are updated correctly.

No changes to total hours in the 130-hour degree. The changes in hours occur in the first-year curriculum (previously 20 now 17, -3 hours although ARTS 251 was counting in both places in practice and -4 hours for removing PSYC 100).

40 hour upper division/advanced course requirement

ARTE 301, 302, 393 - 9 hours

SPED 405, CI 473 - 6 hours

ARTE 401, EDPR 438, EDPR 442 - 14 hours

200 level Art Education- Art & Design category requirements, which must be completed

after the 17 hours of First Year Curriculum coursework- 11 hours

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Students graduating with the BFA in Art Education should be able to:

Understand the diverse characteristics and abilities of their students and how individuals develop and learn within the context of their social, economic, cultural, linguistic, and academic experiences. Our graduates are prepared to use these experiences to create instructional opportunities that maximize student learning in diverse art education settings such as schools, museums, and community centers. Understand content area knowledge in fine art and visual culture that includes central concepts, methods of inquiry, structures of the disciplines, and content area literacy. Our graduates are prepared to create meaningful learning experiences for students through both content area and pedagogical knowledge.

Plan and design instruction for diverse art education settings based upon content area knowledge, diverse student characteristics, student performance data, curriculum goals, and the community context.

Create safe and healthy art education learning environments that facilitate cultural and linguistic responsiveness, emotional well-being, self-efficacy, positive social interaction, mutual respect, active engagement, academic risk-taking, self-motivation, and personal goal-setting.

Differentiate instruction by using a variety of strategies that support critical and creative thinking, problem-solving, and continuous growth and learning. Our graduates understand that art education settings are dynamic, thus requiring ongoing modification of instruction to enhance learning for each student.

Enact critical and humanizing expressions of art education that redress and challenge systemic injustices that relate to social identities associated with race, class, gender, sexuality, immigrant origin, religion, age, mental and physical disabilities, and mental and physical illnesses.

Possess foundational knowledge of reading, writing, and oral communication within art education (e.g. curriculum and lesson planning, assessment tools, etc.) and recognizes and addresses how student reading, writing, and oral communication facilitate the acquisition of knowledge in art education.

Understand the purposes, characteristics, and limitations of different types of assessments in art education, including standardized assessments, universal screening, curriculum-based assessment, and progress monitoring tools.

Build and maintain collaborative relationships with colleagues, students, parents, and community members to foster cognitive, linguistic, physical, and social and emotional development of their students.

Exhibit ethical, reflective, and professional practices, while providing leadership in their educational settings and advocating for students, parents or guardians, and the profession.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Subject: Response Requested: Removing PSYC 100 from BFA Art Education

To:

Department of Psychology

Joshua Gulley, Associate Head and Director of Undergraduate Studies, Professor

Diane Beck, Professor

I am writing on behalf of the BFA in Art Education (key 137 in CIM-P), which is undergoing a program revision. Now that PSYC 100 is no longer a prerequisite course for EPOL 201 or 202, the BFA in Art Education is proposing to remove it from the degree requirements. While EPOL 201 or 202 is required for education licensure, PSYC 100 is not and can be removed from the Professional Education section.

For us to proceed with our curricular changes, I am asking for a letter of support to remove this course requirement. For the letter, you can simply reply to this email and state that you support the program revision.

If you have any questions or would like additional information, please do not hesitate to contact me. Thank you for your time and consideration.

Best,
Nicole

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Eliminate the Business Core CIM P record in the Gies College of Business

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This proposal (key 558) is related to the Accountancy, BS (key 98), Finance, BS (key 103), Marketing, BS (key 101), Supply Chain Management, BS (key 102), Management, BS (key 100), Information Systems, BS (key 99), Operations Management, BS (key 461), Strategy, Innovation, and Entrepreneurship, BS (key 517), and Business Undeclared (key 1234)

Program Justification

Provide a brief description of what changes are being made to the program.

Per campus guidance, moving the Business Core coursework into the 8 Business undergraduate non-data science programs for transparency and accessibility. As such, this CIM P record is no longer needed.

Why are these changes necessary?

Eliminating the Business Core CIM P record and moving the Business Core coursework into the declared non-data science majors will increase transparency and accessibility. The program code will be moved and continue to exist on the Business Undeclared CIM-P record (key 1234). There is no impact on enrollment, as this Business Core coursework is moving into existing programs.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

N/A

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

1

For a list of the specific courses that meet this requirement, see the college Office of Undergraduate Affairs in 1055 Business Instructional Facility or see the Course Explorer for a list of approved general education courses.

2

[BUS 101](#), [BUS 201](#), [BUS 301](#) and [BUS 401](#) are required for all Gies College of Business students. Students who enter the College their first year take each sequential course every fall.

Inter-College transfer students take [BUS 301](#) and [BUS 401](#) in their sophomore year. Off-campus transfer students take [BUS 101](#) and [BUS 201](#) in their junior year.

4

Three courses in the Humanities & the Arts area are required and students must complete at least one course in the Literature & the Arts and Historical & Perspectives subcategories. At least one of the courses must be a 200 or higher level course.

5

Two courses in the Natural Sciences & Technology area are required. It is strongly recommended that students complete one course in the Physical Sciences and Life Sciences subcategories.

6

This course includes limited voluntary participation as a subject in experiments.

7

[CS 105](#) fulfills a Quantitative Reasoning I requirement.

Corresponding Degree [NONE None Associated](#) ~~BS Bachelor of Science~~

Budget Narrative

Fiscal and Personnel Resources

Illinois Administrative Code: 1050.30(a)(5): A) The financial commitments to support the unit of instruction, research or public service are sufficient to ensure that the faculty and staff and support services necessary to offer the unit of instruction, research or public service can be acquired and maintained; B) Projections of revenues necessary to support the unit of instruction, research or public service are based on supportable estimates of state appropriations, local tax support, student tuition and fees, private gifts, and/or governmental grants and contracts.

Budget Rationale

Provide financial data that document the university's capacity to implement and sustain the proposed program and describe the program's sources of funding.

Is the unit's (Department, College, School) current budget adequate to support the program when fully implemented? If new resources are to be provided to the unit to support the program, what will be the source(s) of these funds? Is the program requesting new state funds? (During recent years, no new funds have been available from the state (IBHE) to support new degree programs).

Faculty Resources

Will current faculty be adequate to provide instruction for the new program or will additional faculty need to be hired? If additional hires will be made, please elaborate.

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

No impact

Describe how the unit will support student advising, including job placement and/or admission to advanced studies. Will current staff be adequate to implement and maintain the new program or will additional staff be hired? Will current advising staff be adequate to provide student support and advisement, including job placement and or admission to advanced studies? If additional hires will be made, please elaborate.

Are the unit's current facilities adequate to support the program when fully implemented? Will there need to be facility renovation or new construction to house the program?

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

There is no impact to library resources, collections, and services.

Facilities and Equipment

Illinois Administrative Code: 1050.30(a)(4): A) Facilities, equipment and instructional resources (e.g., laboratory supplies and equipment, instructional materials, computational equipment) necessary to support high quality academic work in the unit of instruction, research or public service are available and maintained;

B) Clinical sites necessary to meet the objectives of the unit of instruction, research or public service;

C) Library holdings and acquisitions, owned or contracted for by the institution, that are necessary to support high quality instruction and scholarship in the unit of instruction, research and public service, are conveniently available and accessible, and can be maintained.

Describe the facilities and equipment that are available, or that will be available, to develop and maintain high quality in this program. Summarize information about buildings, classrooms, office space, laboratories and equipment, and other instructional technologies for the program.

Will the program require new or additional facilities or significant improvements to already existing facilities?

No

Will the program need additional technology beyond what is currently available for the unit?

No

Are there other costs associated with implementing the program?

Facilities and Equipment Attachments

Faculty and Staff

Illinois Administrative Code: 1050.30(a)(3): A) The academic preparation and experience of faculty and staff ensure that the objectives of the unit of instruction, research or public service are met; B) The academic preparation and experience of faculty and staff, as evidenced by level of degrees held, professional experience in the field of study and demonstrated knowledge of the field, ensure that they are able to fulfill their academic responsibilities; C) The involvement of faculty in the unit of instruction, research or public service is sufficient to cover the various fields of knowledge encompassed by the unit, to sustain scholarship appropriate to the unit, and to assure curricular continuity and consistency in student evaluation; D) Support personnel, including but not limited to counselors, administrators, clinical supervisors, and technical staff, which are directly assigned to the unit of instruction, research or public service, have the educational background and experience necessary to carry out their assigned responsibilities.

Describe the personnel resources available to develop and maintain a high quality program, including faculty (full- and part-time, current and new), staff (full- and part-time, current and new), and the administrative structure that will be in place to oversee the program. Also include a description of faculty qualifications, the faculty evaluation and reward structure, and student support services that will be provided by faculty and staff.

Summarize the major accomplishments of each key faculty member, including research/scholarship, publications, grant awards, honors and awards, etc. Include an abbreviated curriculum vitae or a short description.

No

Proposal Title

Effective Catalog Term

Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberal Arts and Sciences, include the Graduate College for Grad Programs)

Establish Business Undeclared in the Gies College of Business

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This proposal key (1234) is related to the Business Core key (558).

Program Justification

Provide a brief justification of the program, including highlights of the program objectives, and the careers, occupations, or further educational opportunities for which the program will prepare graduates, when appropriate.

Displaying the Business Undeclared major in the academic catalog aligns with campus' goals for transparency for students as they pursue their undergraduate degree. All first-year students entering Gies College of Business are admitted to the Business Undeclared Program. Students are then able to work towards completing the Business Core courses, as well as General Education requirements before selecting a major in the college. Students must select a major by the beginning of their third year (5th semester), but have the option to select a major as early as their first semester if they so choose.

Moving the BUS Core coursework from Business Core CIM-P record (key 558), which is being deactivated, to the Business Undeclared record (key 1234). The following minor revisions are simultaneously being made to the business core coursework:

1. Fixed error in Business Core from a 2021 revision, which was to add a requirement, Business Core Math. The MATH and STAT courses that comprise the Business Core Math are approved as Quantitative Reasoning courses within the General Education program. While it appears that the total hours for the Business Core are increasing, since the course list being added can be counted towards the Quantitative Reasoning Gen Ed requirement, the net sum change of total hours for the program is zero (total hours remain unchanged for the degree program). Letters of support from MATH and STAT Departments are attached.
2. Removed footnotes from the program of study to align with campus accessibility principles.
3. Revised the General Education structure in Gies College of Business Undergraduate programs to align with the campus structure for General Education Requirements. As such, we removed the specific behavioral science course requirement to fulfill the Social & Behavioral Science requirements. This now allows students to complete the Social & Behavioral Science requirements with the required ECON 102 and ECON 103 coursework. We also removed the additional 200 level course requirement and the requirement for a course to be taken in each sub-category in the Humanities & the Arts. This now allows for students to complete the Humanities & the Arts requirement with just 2 courses that satisfy this general education category at any level and in either Humanities & the Arts sub-category. Letters of support from the colleges most likely to be affected are attached. We have included letters of support from the College of ACES, College of AHS, College of Education, College of Media, College of FAA, and College of LAS. In reviewing Gies students course selection for the additional Behavioral Science Gen Ed and Humanities Gen Ed in our current structure, these colleges would be most impacted by the removal of these requirements that are above and beyond what campus requires for general education.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a

result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

First-year students admitted to Gies College of Business are admitted into the Business Undeclared program. Students will work with an advisor in the Office of Undergraduate Programs, to select coursework that works towards requirements in the Business Core as well as General Education requirements. Students are able to stay in Business Undeclared for their first two years, but may declare a major within Gies at any time.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Since we are moving BUS Core coursework from Business Core CIM-P record key (558) to this Business Undeclared record key (1234), this is already in place and included with declared majors in Gies College of Business.

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Since we are moving BUS Core coursework from Business Core CIM-P record key (558) to this Business Undeclared record key (1234), this is already in place and included with declared majors in Gies College of Business.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Since we are moving BUS Core coursework from Business Core CIM-P record key (558) to this Business Undeclared record key (1234), this is already in place and included with declared majors in Gies College of Business.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

All first-year students admitted to the Gies College of Business begin in our Business Undeclared program. Students can explore all areas of study while working towards completing coursework in the Business Core Requirements, as well as General Education Requirements. The Business Core is a group of required coursework that all students in Gies College of Business must complete. Business Undeclared students do not need to complete the entire Business Core prior to declaring a major. After students find the best fit major for them, they will declare a major by no later than the end of their sophomore year. Once students declare a major, they will complete all remaining General Education and Business Core requirements, as well as the specific requirements for that major.

The General Education requirements reflect the most recent revisions for all Gies Business Programs which aligns with the campus grid/structure for general education requirements.

Statement for
Programs of
Study Catalog

Graduation Requirements

Minimum hours required for graduation: Students may not graduate from Business Undeclared. Majors students declare in the Gies College of Business require 124 credits to graduate. Business Undeclared students should take coursework to satisfy General Education, Business Core Requirements, and other areas of interest. Business Undeclared students are not required to complete all requirements listed below prior to declaring a major.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The University and residency requirements can be found in the [Student Code](#) (§ 3-801) and in the [Academic Catalog](#).

General Education Requirements

Follows the [campus General Education \(Gen Ed\) requirements](#). Some Gen Ed requirements may be met by courses required and/or electives in the program.

Degree Program Title and Overview

What is the specific title of the proposed degree program as it would be listed in the IBHE Program Inventory? The name should be what typically is used for similar programs nationally. Provide a short description of the program, including highlights of the program objectives, and the careers, occupations, or further educational opportunities for which the program will prepare graduates.

NA

Illinois Administrative Code: 1050.30(a)(1): A) The objectives of the unit of instruction, research or public service are consistent with the mission of the college or university; B) The objectives of the unit of instruction, research or public service are consistent with what the unit title implies.

Institutional Context

University of Illinois at Urbana-Champaign

Describe the historical and university context of the program's development. Include a short summary of any existing program(s) upon which this program will be built.

Explain the nature and degree of overlap with existing programs and, if such overlap exists, document consultation with the impacted program's home department(s).

NA

University of Illinois

Briefly describe how this program will support the University's mission, focus and/or current priorities. Demonstrate the program's consistency with and centrality to that mission.

NA

Discuss projected future employment and/or additional educational opportunities for graduates of this program. Compare estimated demand with the estimated supply of graduates from this program and existing similar programs in the state. Where appropriate, provide documentation by citing data from such sources as employer surveys, current labor market analyses, and future workforce projections. (Whenever possible, use state and national labor data, such as that from the Illinois Department of Employment Security at <http://lmi.ides.state.il.us/> and/or the U.S. Bureau for Labor Statistics at <http://www.bls.gov/>).

NA

What resources will be provided to assist students with job placement?

NA

A Thriving Illinois: Higher Education Paths to Equity, Sustainability, and Growth

IBHE is charged to develop a strategic plan to address the present and future aims and needs and requirements of higher education in Illinois (110 ILCS 205/6) (from Ch. 144, par. 186) Sec. 6). Illinois Administrative Code:

1050.30(a)(6): A) The unit of instruction, research or public service is educationally and economically justified based on the educational priorities and needs of the citizens of Illinois Respond to the following questions about how the proposed program will support the three goals of A Thriving Illinois: Higher Education Paths to Equity, Sustainability, and Growth Strategic Plan.

Equity

Describe institutional-level plans to close equity gaps in access, progression, completion, and attainment and the implications for the proposed program. More specifically, provide institutional-level plans for attracting, recruiting, retaining, and completing a diverse group of students including working adults, students of color, transfer and low-income students and implications for the proposed program. Explain how progress will be monitored.

NA

Describe program and institution-based high-impact practices and wrap-around student support services ensuring equitable access and success for students enrolled in the proposed program.

NA

Explain institutional strategies being implemented to increase and retain faculty, staff, and administrators of color and the implications for the proposed program. Explain how progress will be monitored.

NA

Sustainability

Describe strategies and initiatives the institution plans to implement that makes the proposed program and college more generally affordable for students and their families, including those who have been historically underserved.

NA

Provide tuition cost analysis for comparable programs and institutions in Illinois.

NA

Growth

Provide a supply and demand analysis for the proposed program that, at minimum, does the following: a) Provides evidence of student interest in the proposed program including any strategies to incentivize students to stay in Illinois. b) Identifies and provides evidence of a high-quality credential with viability for future careers.

NA

Explain how the program engaged with business and industry in its development and how it will spur the state's economy by leveraging partnerships with local, regional, and state industry, business leaders and employers.

NA

Describe how the proposed program will expand access and opportunities for students through high-impact practices including research opportunities, internships, apprenticeships, career pathways, and other field experiences.

NA

Explain how the proposed program will expand its models of teaching and learning, research, and/or public service and outreach that provide opportunity for students to succeed in the work of the future.

NA

Beyond workforce need, describe how the program broadly addresses societal needs (e.g., cultural or liberal arts contribution, lifelong learning of Illinois residents, or civic participation).

Program Description and Requirements

Illinois Administrative Code:

1050.30(b)(1) A) The caliber and content to the curriculum assure that the objectives of the unit of instruction will be achieved; B) The breadth and depth of the curriculum are consistent with what the title of the unit of instruction implies; C) The admission and graduation requirements for the unit of instruction are consistent with the stated objectives of the unit of instruction.

1050.30(b)(3): Appropriate steps shall be taken to assure that professional accreditation needed for licensure or entry into a profession as specified in the objectives of the unit of instruction is maintained or will be granted in a reasonable period of time.

1050.50 (a)(2)(C) Requirement for Programs in which State Licensure is Required for Employment in the Field: In the case of a program in which State licensure is required for employment in the field, a program can be found to be in good standing if the institution is able to provide evidence that program graduates are eligible to take the appropriate licensure examination and pass rates are maintained as specified in the objectives of the unit of instruction. If there is no such evidence, the institution shall report the program as flagged for review.

Program Description

Provide a description of the proposed program and its curriculum, including a list of the required core courses and short ("catalog") descriptions of each one. (This list should identify all courses newly developed for the program).

Provide Program Description here:

NA

Attach Program
Description Files if

Budget Narrative

Fiscal and Personnel Resources

Illinois Administrative Code: 1050.30(a)(5): A) The financial commitments to support the unit of instruction, research or public service are sufficient to ensure that the faculty and staff and support services necessary to offer the unit of instruction, research or public service can be acquired and maintained; B) Projections of revenues necessary to support the unit of instruction, research or public service are based on supportable estimates of state appropriations, local tax support, student tuition and fees, private gifts, and/or governmental grants and contracts.

Budget Rationale

Provide financial data that document the university's capacity to implement and sustain the proposed program and describe the program's sources of funding.

Is the unit's (Department, College, School) current budget adequate to support the program when fully implemented? If new resources are to be provided to the unit to support the program, what will be the source(s) of these funds? Is the program requesting new state funds? (During recent years, no new funds have been available from the state (IBHE) to support new degree programs).

NA

Faculty Resources

Will current faculty be adequate to provide instruction for the new program or will additional faculty need to be hired? If additional hires will be made, please elaborate.

NA

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

NA

Describe how the unit will support student advising, including job placement and/or admission to advanced studies. Will current staff be adequate to implement and maintain the new program or will additional staff be hired? Will current advising staff be adequate to provide student support and advisement, including job placement and or admission to advanced studies? If additional hires will be made, please elaborate.

NA

Are the unit's current facilities adequate to support the program when fully implemented? Will there need to be facility renovation or new construction to house the program?

NA

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this proposal. Since we are moving BUS Core coursework from Business Core CIM-P record key (558) to this Business Undeclared record key (1234), the existing library collections, resources and services are sufficient.

Summarize information about library resources for the program, including a list of key textbooks, a list of key text and electronic journals that will support this program, and a short summary of general library resources of the University that will be used by the program's faculty, students, and staff.

NA

Are any sources of funding temporary (e.g., grant funding)? If so, how will the program be sustained once these funds are exhausted?

Facilities and Equipment

Illinois Administrative Code: 1050.30(a)(4): A) Facilities, equipment and instructional resources (e.g., laboratory supplies and equipment, instructional materials, computational equipment) necessary to support high quality academic work in the unit of instruction, research or public service are available and maintained;

B) Clinical sites necessary to meet the objectives of the unit of instruction, research or public service;

C) Library holdings and acquisitions, owned or contracted for by the institution, that are necessary to support high quality instruction and scholarship in the unit of instruction, research and public service, are conveniently available and accessible, and can be maintained.

Describe the facilities and equipment that are available, or that will be available, to develop and maintain high quality in this program. Summarize information about buildings, classrooms, office space, laboratories and equipment, and other instructional technologies for the program.

NA

Will the program require new or additional facilities or significant improvements to already existing facilities?

No

Will the program need additional technology beyond what is currently available for the unit?

No

Are there other costs associated with implementing the program?
Facilities and Equipment Attachments

No

Faculty and Staff

Illinois Administrative Code: 1050.30(a)(3): A) The academic preparation and experience of faculty and staff ensure that the objectives of the unit of instruction, research or public service are met; B) The academic preparation and experience of faculty and staff, as evidenced by level of degrees held, professional experience in the field of study and demonstrated knowledge of the field, ensure that they are able to fulfill their academic responsibilities; C) The involvement of faculty in the unit of instruction, research or public service is sufficient to cover the various fields of knowledge encompassed by the unit, to sustain scholarship appropriate to the unit, and to assure curricular continuity and consistency in student evaluation; D) Support personnel, including but not limited to counselors, administrators, clinical supervisors, and technical staff, which are directly assigned to the unit of instruction, research or public service, have the educational background and experience necessary to carry out their assigned responsibilities.

Describe the personnel resources available to develop and maintain a high quality program, including faculty (full- and part-time, current and new), staff (full- and part-time, current and new), and the administrative structure that will be in place to oversee the program. Also include a description of faculty qualifications, the faculty evaluation and reward structure, and student support services that will be provided by faculty and staff.

NA

Summarize the major accomplishments of each key faculty member, including research/scholarship, publications, grant awards, honors and awards, etc. Include an abbreviated curriculum vitae or a short description.

Appendix 1

In consultation with the Department of Mathematics and the Department of Statistics, Gies College of Business will maintain a list of courses that are appropriate for Quantitative Reasoning requirements.

All Gies College of Business students are required to take CS 105 – Introduction to Computing: Non-Technical, which satisfies the Quantitative Reasoning (QR) 1 requirement. Students may choose from the list below to fulfill the second QR requirement. Students with AP, IB, or A-level credit, or dual enrollment transfer credit for an equivalent course, will not need to take an additional QR course.

List of Courses:

- MATH 115 – Preparation for Calculus
- MATH 220 – Calculus
- MATH 221 – Calculus I
- MATH 231 – Calculus II
- MATH 234 – Calculus for Business (recommended for all students with an ALEKS score 65 or higher)
- STAT 100 – Statistics

Cc: Lithgow, Jana <jlithgow@illinois.edu>
Subject: Reply Required for Curriculum Modification Impacting your Department

Dear Dr. Tyson,

The Gies College of Business seeks to modify the core curriculum in order to increase access and equity for our students. As part of our proposal, we no longer are requiring the MATH 234 course, but instead are requiring two quantitative reasoning courses similar to most other colleges. One quantitative reasoning requirement can be met through CS 105, a business core requirement. For the second QR requirement, students will select from among the courses included in Appendix 1, attached. We will recommend that students take the math course that they are placed into via the ALEKS placement test, which means that many students will still take MATH 234 in the spring semester of their freshman year. Requiring quantitative reasoning courses aligns Gies requirements with other colleges' requirements and allows us to reduce the adverse impact on students from high schools with fewer resources and who do not need calculus as a prerequisite for any other course.

We are unsure what impact the change will have on enrollment for the 2021/2022 academic year, as we expect many students to be placed in MATH 234 by their ALEKS placement test. In order for the modification to proceed, we need an indication from your department that you are aware of the changes. Would you please provide that in a response to this email?

Thank you for your prompt attention to this matter.

Sincerely,
Kevin Jackson

Subject: BUS Core Math revision

Good Morning Professor Li and Professor Douglas,

I hope this message finds you well and that the Fall semester is running smoothly for you and the STAT department!

I'm writing to you in hopes that you may be able to help me with a project that I am working on with Brooke Newell, Director of Educational Programs in the Provost Office. As you may be aware, Gies College of Business revised our Business Core Curriculum effective FA21. This revision including expanding the offerings of courses to satisfy the Business Core Math requirement from Calculus or Business Calculus to include Pre-Calculus and STAT 100. Unfortunately, at the time this revision was approved, there was a mistake in not editing the necessary pages in the CIM/P system, so we are now trying to do that now.

In looking through all of the documents that were included with this past revision, we could not find any letter of support from the STAT Department Head for this revision. We were able to find one from the MATH Department that I've attached to this email. I've also included the Core Revision Appendix that indicates that the MATH and STAT department were consulted about this revision.

Would it be possible to receive a letter of support from the STAT Department that we can use as we try to rectify this oversight that occurred at the time of approval back in FA21? This could simply be a reply to this email or could be a letter on your STAT Department letterhead.

If you have any questions, please do not hesitate to contact me.

Take care,

Cory

RE: Gies College of Business Undergraduate General Education Requirements Structure

Dear Dr. Scott and Cory,

Thank you for informing us of the proposed changes your college is making to the structure of your general education requirements. I understand that this proposal's purpose is to align the college structure of general education requirements with the current campus structure. Specifically, this proposal will make it so that Gies Undergraduate Students are no longer required to take a third humanities general education course at the 200 level or above and an additional behavioral science general education beyond the six hours of Social & Behavioral Sciences general education coursework required for Gies Undergraduate Students through the Business Core (Microeconomics and Macroeconomics). Gies Undergraduate Students will still be required to complete all campus general education requirements, and we welcome your students in Gies to complete the required general education categories through the courses offered in our college.

Sincerely,

A handwritten signature in black ink that reads 'Carla Santos'.

Carla Santos, Ph.D.

February 16, 2024

FAA Letter of Support- Gies General Education Proposal

I write on behalf of the College of Fine and Applied Arts to offer our support for the proposed changes to the Gies General Education requirements, effective Fall 2024.

The revisions to eliminate the two additional general education courses beyond the campus requirement clearly serves the intended purposes of alignment and access. Removing one Humanities & the Arts course and one Behavioral Science course from the business major requirements will have a minimal impact on the College of Fine and Applied Arts. We also would support the opportunity for business majors to have additional flexibility to seek out campus minors of interests.

Therefore, we have no concerns with the proposal and offer our support for the elimination of additional general education requirements for business majors.

Sincerely,

Nicole Turner, Ph.D.

From: Dean Venetria K. Patton, LAS

RE: Gies College of Business Undergraduate General Education Requirements Structure

Dear Nehemiah and Cory,

Thank you for informing us of the proposed changes your college is making to the structure of your general education requirements. I understand that this proposal's purpose is to align the college structure of general education requirements with the current campus structure. Your proposal will make it so that Gies Undergraduate Students are no longer required to take a course from the Behavioral Sciences subcategory. To continue to satisfy the campus Social & Behavioral Sciences requirement (6 hours), students will be taking ECON 102 and ECON 103 as part of the Business Core Requirements. These two social science courses are essential to your business core structure and their inclusion in your programs of study attests to this. Your proposal also brings in alignment your Humanities & the Arts general education requirement with that of campus, requiring 6 hours in this category instead of three course (9 hours) representing both Literature & the Arts and Historical & Philosophical Perspectives subcategories, of which one course in either subcategory must be at the 200-level or above. Gies Undergraduate Students will still be required to complete all campus general education requirements, and we welcome your students to complete the required general education categories through the courses offered in our college.

Sincerely,

Venetria K. Patton

Cory Ohms, Assistant Dean of Academic Affairs, Office of Undergraduate Programs, Gies College of Business

From: Sarah McCarthy, Undergraduate Programs, College of Education

RE: Gies College of Business Undergraduate General Education Requirements Structure

Dear Dr. Scott and Cory,

Thank you for informing us of the proposed changes your college is making to the structure of your general education requirements. I understand that this proposal's purpose is to align the college structure of general education requirements with the current campus structure. Specifically, this proposal will make it so that Gies Undergraduate Students are no longer required to take a third humanities general education course at the 200 level or above and an additional behavioral science general education beyond the six hours of Social & Behavioral Sciences general education coursework required for Gies Undergraduate Students through our Business Core (Microeconomics and Macroeconomics). Gies Undergraduate Students will still be required to complete all campus general education requirements, and we welcome your students in Gies to complete the required general education categories through the courses offered in the College of Education.

Sincerely,

A handwritten signature in black ink that reads 'Sarah J. McCarthy'.

Proposal Title

Effective Catalog Fall 2024
Term

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Science in Accountancy in the Gies College of Business

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This proposal (key 98) is related to the Business Core (key 558).

Program Justification

Provide a brief description of what changes are being made to the program.

1. Added the Business Core CIM P record requirements, which included the University Composition Requirements, General Education Requirements, and Business Core Requirements, into the major record.
2. Fixed error in Business Core from a 2021 revision, which was to add a requirement, Business Core Math. The MATH and STAT courses that comprise the Business Core Math are approved as Quantitative Reasoning courses within the General Education program. While it appears that the total hours for the Business Core are increasing, since the course list being added can be counted towards the Quantitative Reasoning Gen Ed requirement, the net sum change of total hours for the program is zero (total hours remain unchanged for the degree program).
3. Removed the footnotes.
4. Revised the General Education structure in Gies College of Business Undergraduate programs to align with the campus structure for General Education Requirements. As such, we removed the specific behavioral science course requirement to fulfill the Social & Behavioral Science requirements. This now allows students to complete the

Social & Behavioral Science requirements with the required ECON 102 and ECON 103 coursework. We also removed the additional 200 level course requirement and the requirement for a course to be taken in each sub-category in the Humanities & the Arts. This now allows for students to complete the Humanities & the Arts requirement with just 2 courses that satisfy this general education category at any level and in either Humanities & the Arts sub-category. We have included letters of support from the College of ACES, College of AHS, College of Education, College of Media, College of FAA, and College of LAS. In reviewing Gies students course selection for the additional Behavioral Science Gen Ed and Humanities Gen Ed in our current structure, these colleges would be most impacted by the removal of these requirements that are above and beyond what campus requires for general education.

5. Removed duplicative and outdated language from the degree requirements page in the Course Catalog. Content removed is as follows: "Accountancy courses (both required and elective) to be applied toward the 124-hour requirement for the Bachelor of Science Degree in Accountancy may not be taken on a credit/no-credit basis. In addition, a limit of 33 hours of accountancy courses (including ACCY 201 and ACCY 202) may be counted toward the 124 total hour requirement."

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. For increased transparency, clarity, and overall aesthetic in the Academic Catalog, we added the Business Core CIM P record requirements into the major.

2. In Spring 2021, as part of the CIM P Business Core revision, we added additional course options to the Business Core Math instead of just requiring MATH 234. The letter of support from MATH was attached in the EP documentation section in the historical CIM P record for the Business Core CIM P [EP.21.056], along with an Appendix that included the courses to be added to the Program of Study. However, in error, we didn't add the courses to the Program of Study itself and thus it appeared as if we were removing the Business Core Math requirement. We are now correcting that error to add in the Business Core Math requirement. We have attached the letter of support from MATH from that 2021 revision, as well as a letter of support from STAT that we didn't originally have at the time of the 2021 revision.

3. We removed the footnotes for accessibility, per campus request. By removing the footnotes, we have provided additional clarity to the program of study table itself. Since the Business Core Math requirement includes courses that have Quantitative Reasoning General Education certification, we wanted to ensure that was obvious to the students.

4. We revised the general education requirements to be aligned with the campus requirements. As campus the campus general education requirements evolved and were changed (ex. 2017 revision), Gies College of Business did not change all of our requirements to be aligned with the new structure and expectations. For example, Gies College of Business currently requires students to take a behavioral science general education course, despite two courses in the Business Core requirements being coded as social sciences general education (ECON 102 and ECON 103). Since campus requires only 2 courses (6 hours) in the Social & Behavioral Science category, with no restrictions on which sub-categories (Social Science or Behavioral Science) to be used to satisfy the 2 courses, we are removing the need for Gies students to complete a Behavioral Science requirement and allowing the Business Core courses to satisfy the Social & Behavioral Science Gen Ed Category. The other category that is not aligned with the campus structure and expectations for general education is in the Humanities & the Arts Category. The campus structure for this category is students must complete 2 courses (6 hours) of Humanities & the Arts general education courses with no restrictions on which sub-categories (Literature and the Arts and Historical Philosophical Perspectives) or level of class (100 – 400 level) need to be selected to satisfy the category. Currently, Gies requires students to complete 3 courses in the Humanities & the Arts Gen Ed category, with 1 course in both sub-categories (Literature & the Arts and Historical Philosophical Perspectives) and 1 course at the 200-level or above. We are removing the 200-level requirement and allowing students to complete the Humanities & the Arts Gen Ed category with 2 courses from either sub-category, which will align with the campus expectation.

5. By removing the two sentences currently listed in the catalog we increase clarity. The first sentence is already covered in the Course Catalog (Degree Requirements section under the "Core Curriculum" heading). As for the second sentence, the department no longer limits students to 33 hours of accountancy to courses to count

toward the 124 total hour requirement.

6. Breakout of how a student gets 40 hours of 300-, 400- level coursework and/or 200 level with 2 or more preq

a. All Gies UG students have:

i. ACCY 202 – prereq of ACCY 201 which has a prereq of ECON 102/103 – 3 hours

ii. BUS 301 – 3 hours

iii. BUS 401 – 3 hours

iv. BADM 300 – 3 hours

v. BADM 310 – 3 hours

vi. BADM 320 – 3 hours

vii. BADM 449 – 3 hours

b. The Accountancy major has an additional 21 hours of required upper division courses.

i. ACCY 301 - 3 hours

ii. ACCY 302 - 3 hours

iii. ACCY 303 - 3 hours

iv. ACCY 304 - 3 hours

v. ACCY 312 - 3 hours

vi. ACCY 405 - 3 hours

vii. Select one of the following: ACCY 410 or ACCY 451 - 3 hours

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

[Disciplinary Competence: Students will have sufficient knowledge of accounting and data analytic concepts to solve structured and unstructured business problems.](#)

[Written and Verbal Communication Competency: Students will be able to effectively communicate, both verbally and in writing. This competency will extend to communication in individual and team settings.](#)

[Professional Responsibility: Students will develop an inclusive, team-oriented mindset that recognizes the value of diversity and belonging, and emphasizes professional responsibilities to themselves, their peers, and their community.](#) ~~We plan to continue with our existing metrics to assess and improve student learning. The proposed change will not affect how we assess the program.~~

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Champaign, IL 61820

Appendix 1

In consultation with the Department of Mathematics and the Department of Statistics, Gies College of Business will maintain a list of courses that are appropriate for Quantitative Reasoning requirements.

All Gies College of Business students are required to take CS 105 – Introduction to Computing: Non-Technical, which satisfies the Quantitative Reasoning (QR) 1 requirement. Students may choose from the list below to fulfill the second QR requirement. Students with AP, IB, or A-level credit, or dual enrollment transfer credit for an equivalent course, will not need to take an additional QR course.

List of Courses:

- MATH 115 – Preparation for Calculus
- MATH 220 – Calculus
- MATH 221 – Calculus I
- MATH 231 – Calculus II
- MATH 234 – Calculus for Business (recommended for all students with an ALEKS score 65 or higher)
- STAT 100 – Statistics

Subject: BUS Core Math revision

Good Morning Professor Li and Professor Douglas,

I hope this message finds you well and that the Fall semester is running smoothly for you and the STAT department!

I'm writing to you in hopes that you may be able to help me with a project that I am working on with Brooke Newell, Director of Educational Programs in the Provost Office. As you may be aware, Gies College of Business revised our Business Core Curriculum effective FA21. This revision including expanding the offerings of courses to satisfy the Business Core Math requirement from Calculus or Business Calculus to include Pre-Calculus and STAT 100. Unfortunately, at the time this revision was approved, there was a mistake in not editing the necessary pages in the CIM/P system, so we are now trying to do that now.

In looking through all of the documents that were included with this past revision, we could not find any letter of support from the STAT Department Head for this revision. We were able to find one from the MATH Department that I've attached to this email. I've also included the Core Revision Appendix that indicates that the MATH and STAT department were consulted about this revision.

Would it be possible to receive a letter of support from the STAT Department that we can use as we try to rectify this oversight that occurred at the time of approval back in FA21? This could simply be a reply to this email or could be a letter on your STAT Department letterhead.

If you have any questions, please do not hesitate to contact me.

Take care,

Cory

Subject: Reply Required for Curriculum Modification Impacting your Department

Dear Dr. Tyson,

The Gies College of Business seeks to modify the core curriculum in order to increase access and equity for our students. As part of our proposal, we no longer are requiring the MATH 234 course, but instead are requiring two quantitative reasoning courses similar to most other colleges. One quantitative reasoning requirement can be met through CS 105, a business core requirement. For the second QR requirement, students will select from among the courses included in Appendix 1, attached. We will recommend that students take the math course that they are placed into via the ALEKS placement test, which means that many students will still take MATH 234 in the spring semester of their freshman year. Requiring quantitative reasoning courses aligns Gies requirements with other colleges' requirements and allows us to reduce the adverse impact on students from high schools with fewer resources and who do not need calculus as a prerequisite for any other course.

We are unsure what impact the change will have on enrollment for the 2021/2022 academic year, as we expect many students to be placed in MATH 234 by their ALEKS placement test. In order for the modification to proceed, we need an indication from your department that you are aware of the changes. Would you please provide that in a response to this email?

Thank you for your prompt attention to this matter.

Sincerely,
Kevin Jackson

February 16, 2024

FAA Letter of Support- Gies General Education Proposal

I write on behalf of the College of Fine and Applied Arts to offer our support for the proposed changes to the Gies General Education requirements, effective Fall 2024.

The revisions to eliminate the two additional general education courses beyond the campus requirement clearly serves the intended purposes of alignment and access. Removing one Humanities & the Arts course and one Behavioral Science course from the business major requirements will have a minimal impact on the College of Fine and Applied Arts. We also would support the opportunity for business majors to have additional flexibility to seek out campus minors of interests.

Therefore, we have no concerns with the proposal and offer our support for the elimination of additional general education requirements for business majors.

Sincerely,

Nicole Turner, Ph.D.

RE: Gies College of Business Undergraduate General Education Requirements Structure

Dear Dr. Scott and Cory,

Thank you for informing us of the proposed changes your college is making to the structure of your general education requirements. I understand that this proposal's purpose is to align the college structure of general education requirements with the current campus structure. Specifically, this proposal will make it so that Gies Undergraduate Students are no longer required to take a third humanities general education course at the 200 level or above and an additional behavioral science general education beyond the six hours of Social & Behavioral Sciences general education coursework required for Gies Undergraduate Students through our Business Core (Microeconomics and Macroeconomics). Gies Undergraduate Students will still be required to complete all campus general education requirements, and we welcome your students in Gies to complete the required general education categories through the courses offered in our college.

Sincerely,

A handwritten signature in black ink that reads "Kathryn E. Clark".

From: Dean Venetria K. Patton, LAS

RE: Gies College of Business Undergraduate General Education Requirements Structure

Dear Nehemiah and Cory,

Thank you for informing us of the proposed changes your college is making to the structure of your general education requirements. I understand that this proposal's purpose is to align the college structure of general education requirements with the current campus structure. Your proposal will make it so that Gies Undergraduate Students are no longer required to take a course from the Behavioral Sciences subcategory. To continue to satisfy the campus Social & Behavioral Sciences requirement (6 hours), students will be taking ECON 102 and ECON 103 as part of the Business Core Requirements. These two social science courses are essential to your business core structure and their inclusion in your programs of study attests to this. Your proposal also brings in alignment your Humanities & the Arts general education requirement with that of campus, requiring 6 hours in this category instead of three course (9 hours) representing both Literature & the Arts and Historical & Philosophical Perspectives subcategories, of which one course in either subcategory must be at the 200-level or above. Gies Undergraduate Students will still be required to complete all campus general education requirements, and we welcome your students to complete the required general education categories through the courses offered in our college.

Sincerely,

Venetria K. Patton
Harry E. Preble Dean

Program Description and Justification

Justification for proposal change:

The Gies College of Business seeks to modify the core curriculum in order to increase access and equity for our students. The Language Other than English requirement was originally established to create basic language proficiency for Gies graduates as a competitive edge in an increasingly global marketplace. However, advances in technology have resulted in less need for increased language proficiency. Additionally, students who attend high schools with fewer resources are most adversely impacted by this requirement, as they are not able to complete their language requirements in high school. They are also less likely to enter the university with AP or dual enrollment credits. In alignment with all other colleges outside of LAS, we would like to reduce our language requirement to the third level of a single language (see <http://catalog.illinois.edu/general-information/degree-general-education-requirements/>).

The other revision in this proposal is removal of the specific MATH 234 course and instead requiring two quantitative reasoning courses. One quantitative reasoning requirement can be met through CS 105, a business core requirement. The second quantitative reasoning requirement will be met through a list of courses maintained by the Office of Undergraduate Affairs in consultation with the affected departments (see attached). Requiring quantitative reasoning courses aligns Gies requirements with other colleges' requirements and allows us to reduce the adverse impact

on students from high schools with fewer resources and who do not need calculus as a prerequisite for any other course. By maintaining a list of approved courses with the Office of Undergraduate Affairs, we can meet this objective and give the affected departments more certainty about possible Gies student course enrollments. The Math Department has approved this plan (see attached email from Dr. Jeremy Tyson of February 24, 2021 in EP Documentation section).

The Office of Undergraduate Affairs has worked in partnership with the three Gies academic departments: Accountancy, Business Administration, and Finance, as well as by Dean Jeffrey Brown, to move forward with this proposal. The heads of all three departments and Dean Brown have approved these proposed changes.

MATH 234	Calculus for Business I ³	4
Total Hours		54

- 1 For a list of the specific courses that meet this requirement, see the college Office of Undergraduate Affairs in 1055 Business Instructional Facility or see the Course Explorer for a list of approved general education courses.
- 2 BUS 101, BUS 201, BUS 301 and BUS 401 are required for all Gies College of Business students. Students who enter the College their first year take each sequential course every fall. Inter-College transfer students take BUS 301 and BUS 401 in their sophomore year. Off-campus transfer students take BUS 101 and BUS 201 in their junior year.
- 3 MATH 220 or MATH 221 may be substituted for MATH 234. (See college mathematics requirement above.)
- 4 Three courses in the Humanities & the Arts area are required and students must complete at least one course in the Literature & the Arts and Historical & Perspectives subcategories. At least one of the courses must be a 200 or higher level course.
- 5 Two courses in the Natural Sciences & Technology area are required. It is strongly recommended that students complete one course in the Physical Sciences and Life Sciences subcategories.
- 6 This course includes limited voluntary participation as a subject in experiments.
- 7 CS 105 fulfills a Quantitative Reasoning I requirement.

Champaign, IL 61820

Appendix 1

In consultation with the Department of Mathematics and the Department of Statistics, Gies College of Business will maintain a list of courses that are appropriate for Quantitative Reasoning requirements.

All Gies College of Business students are required to take CS 105 – Introduction to Computing: Non-Technical, which satisfies the Quantitative Reasoning (QR) 1 requirement. Students may choose from the list below to fulfill the second QR requirement. Students with AP, IB, or A-level credit, or dual enrollment transfer credit for an equivalent course, will not need to take an additional QR course.

List of Courses:

- MATH 115 – Preparation for Calculus
- MATH 220 – Calculus
- MATH 221 – Calculus I
- MATH 231 – Calculus II
- MATH 234 – Calculus for Business (recommended for all students with an ALEKS score 65 or higher)
- STAT 100 – Statistics

Subject: Reply Required for Curriculum Modification Impacting your Department

Dear Dr. Tyson,

The Gies College of Business seeks to modify the core curriculum in order to increase access and equity for our students. As part of our proposal, we no longer are requiring the MATH 234 course, but instead are requiring two quantitative reasoning courses similar to most other colleges. One quantitative reasoning requirement can be met through CS 105, a business core requirement. For the second QR requirement, students will select from among the courses included in Appendix 1, attached. We will recommend that students take the math course that they are placed into via the ALEKS placement test, which means that many students will still take MATH 234 in the spring semester of their freshman year. Requiring quantitative reasoning courses aligns Gies requirements with other colleges' requirements and allows us to reduce the adverse impact on students from high schools with fewer resources and who do not need calculus as a prerequisite for any other course.

We are unsure what impact the change will have on enrollment for the 2021/2022 academic year, as we expect many students to be placed in MATH 234 by their ALEKS placement test. In order for the modification to proceed, we need an indication from your department that you are aware of the changes. Would you please provide that in a response to this email?

Thank you for your prompt attention to this matter.

Sincerely,
Kevin Jackson

Subject: RE: Questions about EP 21.054

Hi Jenny,

Thanks for the follow up – I was unexpectedly out of the office late last week and will be out this entire week as well. I apologize for the delay in response. I’ve added comments below your points, and I thank you for your feedback on this proposal. Please let me know if you need anything else from me besides the edits/feedback mentioned below.

Elements that we had concerns about that would benefit from discussion or documentation

- We did not see a letter from Math. The changes impact math both in a reduction of students taking Math 234 and a projected increase in students taking other Math courses. Can you provide documentation (a letter or email) with discussion and approval from math?

I was told that we were not likely to need a letter from Math for this change, so this conversation has not yet happened. I will initiate this soon – I will be inaccessible tomorrow and Tuesday ([REDACTED]) but will work on this as I’m able this week.

- Are there any admissions ramifications due to this change and does that need to be noted in the proposal? For instance, MATH 234 may have been required for inter-college or off-campus transfer students.

It is my understanding that, based on the last several rounds of core curriculum changes, our Admissions team works with campus and the community colleges to update requirements and grandfather in students who have completed prior requirements. MATH 234 will still meet our new core curriculum requirements (as proposed) and will not cause any student harm.

Minor notes/corrections that can be made quickly for resubmission

- Footnote 2: This seems like it should be updated to include BUS 301 and 401
- Footnote 5 has a spelling error: one instead of on

I will ask Deb Forgacs to assist me with these revisions, as she assisted me with the

proposal input in the first place. I've copied her so that she knows about this feedback.

- The last sentence of the first paragraph of the section on "Justification for Proposal Change" reads "In alignment with all other colleges outside of LAS, we would like to reduce our language requirement to the third level of a single language. " Can you clarify "the third level"? Perhaps rewording to something like "three successive semesters of" or completion of at least one 200 level course... or whatever is appropriate.

The "third level" language is mirroring the Catalog here:

<http://catalog.illinois.edu/general-information/degree-general-education-requirements/>

and we could link to that page instead. The semesters do not need to be successive but the levels do, so the wording gets tricky very quickly. 200 level courses are also not specifically required by any college for general education requirements.

- Maybe consider adding a note in the catalog that CS 105 fulfills one of the QR requirements, since it is mentioned in the proposal?

I can also ask Deb to assist me with this one.

Subject: Questions about EP 21.054

Kevin and Jana

I am reaching out to you on behalf of Education Policy Committee. I am the sub-committee chair in charge of reviewing your proposal.

Overall, we are very supportive of the proposal and it appears well written. My sub-committee had a few questions that came up when reviewing your proposal. I have summarized them below

Elements that we had concerns about that would benefit from discussion or documentation

- We did not see a letter from Math. The changes impact math both in a reduction of students taking Math 234 and a projected increase in students taking other Math courses. Can you provide documentation (a letter or email) with discussion and approval from math?
- Are there any admissions ramifications due to this change and does that need to be noted in the proposal? For instance, MATH 234 may have been required for inter-college or off-campus transfer students.

Minor notes/corrections that can be made quickly for resubmission

- Footnote 2: This seems like it should be updated to include BUS 301 and 401
- Footnote 5 has a spelling error: one instead of on
- The last sentence of the first paragraph of the section on "Justification for Proposal Change" reads "In alignment with all other colleges outside of LAS, we would like to reduce our language requirement to the third level of a single language. " Can you clarify "the third level"? Perhaps rewording to something like "three successive semesters of" or completion of at least one 200 level course... or whatever is appropriate.
- Maybe consider adding a note in the catalog that CS 105 fulfills one of the QR requirements, since it is mentioned in the proposal?

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Science in Finance in the Gies College of Business

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This proposal 103 is related to the Business Core (Key 558).

Program Justification

Provide a brief description of what changes are being made to the program.

1. Added the Business Core CIM P record requirements, which included the University Composition Requirements, General Education Requirements, and Business Core Requirements, into the major record.
2. Fixed error in Business Core from a 2021 revision, which was to add a requirement, Business Core Math. The MATH and STAT courses that comprise the Business Core Math are approved as Quantitative Reasoning courses within the General Education program. While it appears that the total hours for the Business Core are increasing, since the course list being added can be counted towards the Quantitative Reasoning Gen Ed requirement, the net sum change of total hours for the program is zero (total

hours remain unchanged for the degree program).

3. Removed the footnotes.

4. Revised the General Education structure in Gies College of Business Undergraduate programs to align with campus structure for General Education Requirements. As such, we removed the specific behavioral science course requirement to fulfill the Social & Behavioral Science requirements. This now allows students to complete the Social & Behavioral Science requirements with the required ECON 102 and ECON 103 coursework. We also removed the additional 200 level course requirement and the requirement for a course to be taken in each sub-category in the Humanities & the Arts. This now allows for students to complete the Humanities & the Arts requirement with just 2 courses that satisfy this general education category at any level and in either Humanities & the Arts sub-category. We have included letters of support from the College of ACES, College of AHS, College of Media, College of FAA, and College of LAS. In reviewing Gies students course selection for the additional Behavioral Science Gen Ed and Humanities Gen Ed in our current structure, these colleges would be most impacted by the removal of these requirements that are above and beyond what campus requires for general education.

5. Removed course list "For Students Admitted Prior to Fall 2016."

6. Added the ability for a student to use one 3-credit FIN 490 toward their degree.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. For increased transparency, clarity, and overall aesthetic in the Academic Catalog, we added the Business Core CIM P record requirements into the major.
2. In Spring 2021, as part of the CIM P Business Core revision, we added additional course options to the Business Core Math instead of just requiring MATH 234. The letter of support from MATH was attached in the EP documentation section in the historical CIM P record for the Business Core CIM P [EP.21.056], along with an Appendix that included the courses to be added to the Program of Study. However, in error, we didn't add the courses to the Program of Study itself and thus it appeared as if we were removing the Business Core Math requirement. We are now correcting that error to add in the Business Core Math requirement. We have attached the letter of support from MATH from that 2021 revision, as well as a letter of support from STAT that we didn't originally have at the time of the 2021 revision.
3. We removed the footnotes for accessibility, per campus request. By removing the footnotes, we have provided additional clarity to the program of study table itself. Since the Business Core Math requirement includes courses that have Quantitative Reasoning General Education certification, we wanted to ensure that was obvious to the students.
4. We revised the general education requirements to be aligned with the campus requirements. As campus the campus general education requirements evolved and were changed (ex. 2017 revision), Gies College of Business did not change all of our requirements to be aligned with the new structure and expectations. For example, Gies College of Business currently requires students to take a behavioral science general education course, despite two courses in the Business Core requirements being coded as social sciences general education (ECON 102 and ECON 103). Since campus requires only 2 courses (6 hours) in the Social & Behavioral Science category, with no restrictions on which sub-categories (Social Science or Behavioral Science) to be used to satisfy the 2 courses, we are removing the need for Gies students to complete a Behavioral Science requirement and allowing the Business Core courses to satisfy the Social & Behavioral Science Gen Ed Category. The other category that is not aligned with the campus structure and expectations for general education is in the Humanities & the Arts Category. The campus structure for this category is students must complete 2 courses (6 hours) of Humanities & the Arts general education courses with no restrictions on which sub-categories (Literature and the Arts and Historical Philosophical Perspectives) or level of class (100 – 400 level) need to be selected to satisfy the category. Currently, Gies requires students to complete 3 courses in the Humanities & the Arts Gen Ed category, with 1 course in both sub-categories (Literature & the Arts and Historical Philosophical Perspectives) and 1 course at the 200-level or above. We are removing the 200-level requirement and allowing students to complete the Humanities & the Arts Gen Ed category with 2 courses from either sub-category, which will align with the campus expectation.

5. Students will follow the catalog year in which they are admitted and as such, this information isn't needed in this program of study.

6. Under previous guidelines, students could not use FIN 490 (Special Topics) as credit toward their degree. The Finance Department uses FIN 490 to pilot important courses to determine if they should be permanent offerings. However, without credit available, students are not enrolling in these special topics courses. The ability to count one 3-hour FIN 490 towards their degree program will encourage enrollment in these important courses.

Breakout of how a student gets 40 hours of 300, 400 level coursework and/or 200 level with 2 or more preq

a. All Gies UG students have 21 required upper division hours in the business core:

i. ACCY 202 – prereq of ACCY 201 which has a prereq of ECON 102/103 – 3 hours

ii. BUS 301 – 3 hours

iii. BUS 401 – 3 hours

iv. BADM 300 – 3 hours

v. BADM 310 – 3 hours

vi. BADM 320 – 3 hours

vii. BADM 449 – 3 hours

b. The Finance major has an additional 21 hours of required upper division courses.

i. FIN 300 - 3 hours

ii. FIN 321 - 3 hours

iii. FIN 411 - 3 hours

iv. Four FIN electives at the 400 level - 12 hours.

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

1. Discipline-based competency: Students will acquire sufficient discipline based competency to address current and future corporate and investment finance problems. Such competency includes using finance knowledge and tools necessary to value real and financial assets, analyze a company's financial performance, and identify risk factors underlying such valuations or analysis.

2. Written and verbal communication competency: Students will be able to effectively integrate information into a coherent, well-organized, professional report.

3. Proficiency in the tools of the trade: Students should be able to demonstrate proficiency in the tools of the trade. First and foremost is Excel, but proficiency in Bloomberg, Morningstar, Capital IQ and the other tools of our trade.

4. Professional practice and ethics: Students should be familiar with professional practice and demonstrate consistent ethical behavior.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

1055 Business Instructional Facility
515 E. Gregory
Champaign, IL 61820

Appendix 1

In consultation with the Department of Mathematics and the Department of Statistics, Gies College of Business will maintain a list of courses that are appropriate for Quantitative Reasoning requirements.

All Gies College of Business students are required to take CS 105 – Introduction to Computing: Non-Technical, which satisfies the Quantitative Reasoning (QR) 1 requirement. Students may choose from the list below to fulfill the second QR requirement. Students with AP, IB, or A-level credit, or dual enrollment transfer credit for an equivalent course, will not need to take an additional QR course.

List of Courses:

- MATH 115 – Preparation for Calculus
- MATH 220 – Calculus
- MATH 221 – Calculus I
- MATH 231 – Calculus II
- MATH 234 – Calculus for Business (recommended for all students with an ALEKS score 65 or higher)
- STAT 100 – Statistics

Dear Associate Dean Jackson,

Thank you for your message. I am writing to confirm that the Department of Mathematics is aware of this proposed change to the College of Business undergraduate curriculum.

Sincerely,

Jeremy Tyson
Professor and Chair
Department of Mathematics
University of Illinois at Urbana-Champaign

Subject: Reply Required for Curriculum Modification Impacting your Department

Dear Dr. Tyson,

The Gies College of Business seeks to modify the core curriculum in order to increase access and equity for our students. As part of our proposal, we no longer are requiring the MATH 234 course, but instead are requiring two quantitative reasoning courses similar to most other colleges. One quantitative reasoning requirement can be met through CS 105, a business core requirement. For the second QR requirement, students will select from among the courses included in Appendix 1, attached. We will recommend that students take the math course that they are placed into via the ALEKS placement test, which means that many students will still take MATH 234 in the spring semester of their freshman year. Requiring quantitative reasoning courses aligns Gies requirements with other colleges' requirements and allows us to reduce the adverse impact on students from high schools with fewer resources and who do not need calculus as a prerequisite for any other course.

We are unsure what impact the change will have on enrollment for the 2021/2022 academic year, as we expect many students to be placed in MATH 234 by their ALEKS placement test. In order for the modification to proceed, we need an indication from your department that you are aware of the changes. Would you please provide that in a response to this email?

Thank you for your prompt attention to this matter.

Sincerely,
Kevin Jackson

Subject: BUS Core Math revision

Good Morning Professor Li and Professor Douglas,

I hope this message finds you well and that the Fall semester is running smoothly for you and the STAT department!

I'm writing to you in hopes that you may be able to help me with a project that I am working on with Brooke Newell, Director of Educational Programs in the Provost Office. As you may be aware, Gies College of Business revised our Business Core Curriculum effective FA21. This revision including expanding the offerings of courses to satisfy the Business Core Math requirement from Calculus or Business Calculus to include Pre-Calculus and STAT 100. Unfortunately, at the time this revision was approved, there was a mistake in not editing the necessary pages in the CIM/P system, so we are now trying to do that now.

In looking through all of the documents that were included with this past revision, we could not find any letter of support from the STAT Department Head for this revision. We were able to find one from the MATH Department that I've attached to this email. I've also included the Core Revision Appendix that indicates that the MATH and STAT department were consulted about this revision.

Would it be possible to receive a letter of support from the STAT Department that we can use as we try to rectify this oversight that occurred at the time of approval back in FA21? This could simply be a reply to this email or could be a letter on your STAT Department letterhead.

If you have any questions, please do not hesitate to contact me.

Take care,

Cory

FAA Letter of Support- Gies General Education Proposal

I write on behalf of the College of Fine and Applied Arts to offer our support for the proposed changes to the Gies General Education requirements, effective Fall 2024.

The revisions to eliminate the two additional general education courses beyond the campus requirement clearly serves the intended purposes of alignment and access. Removing one Humanities & the Arts course and one Behavioral Science course from the business major requirements will have a minimal impact on the College of Fine and Applied Arts. We also would support the opportunity for business majors to have additional flexibility to seek out campus minors of interests.

Therefore, we have no concerns with the proposal and offer our support for the elimination of additional general education requirements for business majors.

Sincerely,

Nicole Turner, Ph.D.

RE: Gies College of Business Undergraduate General Education Requirements Structure

Dear Dr. Scott and Cory,

Thank you for informing us of the proposed changes your college is making to the structure of your general education requirements. I understand that this proposal's purpose is to align the college structure of general education requirements with the current campus structure. Specifically, this proposal will make it so that Gies Undergraduate Students are no longer required to take a third humanities general education course at the 200 level or above and an additional behavioral science general education beyond the six hours of Social & Behavioral Sciences general education coursework required for Gies Undergraduate Students through the Business Core (Microeconomics and Macroeconomics). Gies Undergraduate Students will still be required to complete all campus general education requirements, and we welcome your students in Gies to complete the required general education categories through the courses offered in our college.

Sincerely,

RE: Gies College of Business Undergraduate General Education Requirements Structure

Dear Nehemiah and Cory,

Thank you for informing us of the proposed changes your college is making to the structure of your general education requirements. I understand that this proposal's purpose is to align the college structure of general education requirements with the current campus structure. Your proposal will make it so that Gies Undergraduate Students are no longer required to take a course from the Behavioral Sciences subcategory. To continue to satisfy the campus Social & Behavioral Sciences requirement (6 hours), students will be taking ECON 102 and ECON 103 as part of the Business Core Requirements. These two social science courses are essential to your business core structure and their inclusion in your programs of study attests to this. Your proposal also brings in alignment your Humanities & the Arts general education requirement with that of campus, requiring 6 hours in this category instead of three course (9 hours) representing both Literature & the Arts and Historical & Philosophical Perspectives subcategories, of which one course in either subcategory must be at the 200-level or above. Gies Undergraduate Students will still be required to complete all campus general education requirements, and we welcome your students to complete the required general education categories through the courses offered in our college.

Sincerely,

Venetria K. Patton

Program Description and Justification

Justification for proposal change:

The Gies College of Business seeks to modify the core curriculum in order to increase access and equity for our students. The Language Other than English requirement was originally established to create basic language proficiency for Gies graduates as a competitive edge in an increasingly global marketplace. However, advances in technology have resulted in less need for increased language proficiency. Additionally, students who attend high schools with fewer resources are most adversely impacted by this requirement, as they are not able to complete their language requirements in high school. They are also less likely to enter the university with AP or dual enrollment credits. In alignment with all other colleges outside of LAS, we would like to reduce our language requirement to the third level of a single language (see <http://catalog.illinois.edu/general-information/degree-general-education-requirements/>).

The other revision in this proposal is removal of the specific MATH 234 course and instead requiring two quantitative reasoning courses. One quantitative reasoning requirement can be met through CS 105, a business core requirement. The second quantitative reasoning requirement will be met through a list of courses maintained by the Office of Undergraduate Affairs in consultation with the affected departments (see attached). Requiring quantitative reasoning courses aligns Gies requirements with other colleges' requirements and allows us to reduce the adverse impact

on students from high schools with fewer resources and who do not need calculus as a prerequisite for any other course. By maintaining a list of approved courses with the Office of Undergraduate Affairs, we can meet this objective and give the affected departments more certainty about possible Gies student course enrollments. The Math Department has approved this plan (see attached email from Dr. Jeremy Tyson of February 24, 2021 in EP Documentation section).

The Office of Undergraduate Affairs has worked in partnership with the three Gies academic departments: Accountancy, Business Administration, and Finance, as well as by Dean Jeffrey Brown, to move forward with this proposal. The heads of all three departments and Dean Brown have approved these proposed changes.

Champaign, IL 61820

Appendix 1

In consultation with the Department of Mathematics and the Department of Statistics, Gies College of Business will maintain a list of courses that are appropriate for Quantitative Reasoning requirements.

All Gies College of Business students are required to take CS 105 – Introduction to Computing: Non-Technical, which satisfies the Quantitative Reasoning (QR) 1 requirement. Students may choose from the list below to fulfill the second QR requirement. Students with AP, IB, or A-level credit, or dual enrollment transfer credit for an equivalent course, will not need to take an additional QR course.

List of Courses:

- MATH 115 – Preparation for Calculus
- MATH 220 – Calculus
- MATH 221 – Calculus I
- MATH 231 – Calculus II
- MATH 234 – Calculus for Business (recommended for all students with an ALEKS score 65 or higher)
- STAT 100 – Statistics

Cc: Lithgow, Jana <jlithgow@illinois.edu>
Subject: Reply Required for Curriculum Modification Impacting your Department

Dear Dr. Tyson,

The Gies College of Business seeks to modify the core curriculum in order to increase access and equity for our students. As part of our proposal, we no longer are requiring the MATH 234 course, but instead are requiring two quantitative reasoning courses similar to most other colleges. One quantitative reasoning requirement can be met through CS 105, a business core requirement. For the second QR requirement, students will select from among the courses included in Appendix 1, attached. We will recommend that students take the math course that they are placed into via the ALEKS placement test, which means that many students will still take MATH 234 in the spring semester of their freshman year. Requiring quantitative reasoning courses aligns Gies requirements with other colleges' requirements and allows us to reduce the adverse impact on students from high schools with fewer resources and who do not need calculus as a prerequisite for any other course.

We are unsure what impact the change will have on enrollment for the 2021/2022 academic year, as we expect many students to be placed in MATH 234 by their ALEKS placement test. In order for the modification to proceed, we need an indication from your department that you are aware of the changes. Would you please provide that in a response to this email?

Thank you for your prompt attention to this matter.

Sincerely,
Kevin Jackson

Jenny and Kathy,

Nolan Miller suggested that we provide the attached comparison table to illustrate the changes we are proposing to the core curriculum. Kathy, could you please attach this to the proposal?

Thanks so much,
Jana

Subject: RE: Questions about EP 21.054

Hi Jenny,

Thanks for the follow up – I was unexpectedly out of the office late last week and will be out this entire week as well. I apologize for the delay in response. I've added comments below your points, and I thank you for your feedback on this proposal. Please let me know if you need anything else from me besides the edits/feedback mentioned below.

Elements that we had concerns about that would benefit from discussion or documentation

- We did not see a letter from Math. The changes impact math both in a reduction of students taking Math 234 and a projected increase in students taking other Math courses. Can you provide documentation (a letter or email) with discussion and approval from math?

I was told that we were not likely to need a letter from Math for this change, so this conversation has not yet happened. I will initiate this soon – I will be inaccessible tomorrow and Tuesday ([REDACTED]) but will work on this as I'm able this week.

- Are there any admissions ramifications due to this change and does that need to be noted in the proposal? For instance, MATH 234 may have been required for inter-college or off-campus transfer students.

It is my understanding that, based on the last several rounds of core curriculum changes, our Admissions team works with campus and the community colleges to update requirements and grandfather in students who have completed prior requirements. MATH 234 will still meet our new core curriculum requirements (as proposed) and will not cause any student harm.

Minor notes/corrections that can be made quickly for resubmission

- Footnote 2: This seems like it should be updated to include BUS 301 and 401
- Footnote 5 has a spelling error: one instead of on

I will ask Deb Forgacs to assist me with these revisions, as she assisted me with the

proposal input in the first place. I've copied her so that she knows about this feedback.

- The last sentence of the first paragraph of the section on "Justification for Proposal Change" reads "In alignment with all other colleges outside of LAS, we would like to reduce our language requirement to the third level of a single language. " Can you clarify "the third level"? Perhaps rewording to something like "three successive semesters of" or completion of at least one 200 level course... or whatever is appropriate.

The "third level" language is mirroring the Catalog here:

<http://catalog.illinois.edu/general-information/degree-general-education-requirements/>

and we could link to that page instead. The semesters do not need to be successive but the levels do, so the wording gets tricky very quickly. 200 level courses are also not specifically required by any college for general education requirements.

- Maybe consider adding a note in the catalog that CS 105 fulfills one of the QR requirements, since it is mentioned in the proposal?

I can also ask Deb to assist me with this one.

Subject: Questions about EP 21.054

Kevin and Jana

I am reaching out to you on behalf of Education Policy Committee. I am the sub-committee chair in charge of reviewing your proposal.

Overall, we are very supportive of the proposal and it appears well written. My sub-committee had a few questions that came up when reviewing your proposal. I have summarized them below

Elements that we had concerns about that would benefit from discussion or documentation

- We did not see a letter from Math. The changes impact math both in a reduction of students taking Math 234 and a projected increase in students taking other Math courses. Can you provide documentation (a letter or email) with discussion and approval from math?
- Are there any admissions ramifications due to this change and does that need to be noted in the proposal? For instance, MATH 234 may have been required for inter-college or off-campus transfer students.

Minor notes/corrections that can be made quickly for resubmission

- Footnote 2: This seems like it should be updated to include BUS 301 and 401
- Footnote 5 has a spelling error: one instead of on
- The last sentence of the first paragraph of the section on "Justification for Proposal Change" reads "In alignment with all other colleges outside of LAS, we would like to reduce our language requirement to the third level of a single language. " Can you clarify "the third level"? Perhaps rewording to something like "three successive semesters of" or completion of at least one 200 level course... or whatever is appropriate.
- Maybe consider adding a note in the catalog that CS 105 fulfills one of the QR requirements, since it is mentioned in the proposal?

Graduation Requirements

Minimum hours required for graduation: 124 hours.

University Composition Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The University and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in the program.

Minimum Total Hours		57

¹ For a list of specific courses that meet this requirement, see the college Office of Undergraduate Affairs in 1055 Business Instructional Facility or see the Course Explorer for a list of approved general education courses.

² BUS 101, BUS 201, BUS 301 and BUS 401 are required for all Gies College of Business students. Students who enter the College their first year take each sequential course every fall. Inter-College transfer students take BUS 301 and BUS 401 in their sophomore year. Off-campus transfer students take BUS 101 and BUS 201 in their junior year.

⁴ Three courses in the Humanities & the Arts area are required and students must complete at least one course in the Literature & the Arts and Historical & Perspectives subcategories. At least one of the courses must be a 200 or higher level course.

⁵ Two courses in the Natural Sciences & Technology area are required. It is strongly recommended that students complete one course in the Physical Sciences and Life Sciences subcategories.

⁶ This course includes limited voluntary participation as a subject in experiments.

⁷ CS 105 fulfills a Quantitative Reasoning I requirement.

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Science in Marketing in the Gies College of Business

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This proposal (key 101) is related to the Business Core (Key 558).

Program Justification

Provide a brief description of

1. Added the Business Core CIM P record requirements, which included the University Composition Requirements, General Education Requirements, and Business Core

what changes are being made to the program.

Requirements, into the major record.

2. Fixed error in Business Core from a 2021 revision, which was to add a requirement, Business Core Math. The MATH and STAT courses that comprise the Business Core Math are approved as Quantitative Reasoning courses within the General Education program. While it appears that the total hours for the Business Core are increasing, since the course list being added can be counted towards the Quantitative Reasoning Gen Ed requirement, the net sum change of total hours for the program is zero (total hours remain unchanged for the degree program).

3. Removed the footnotes.

4. Revised the General Education structure in Gies College of Business Undergraduate programs to align with the campus structure for General Education Requirements. As such, we removed the specific behavioral science course requirement to fulfill the Social & Behavioral Science requirements. This now allows students to complete the Social & Behavioral Science requirements with the required ECON 102 and ECON 103 coursework. We also removed the additional 200 level course requirement and the requirement for a course to be taken in each sub-category in the Humanities & the Arts. This now allows for students to complete the Humanities & the Arts requirement with just 2 courses that satisfy this general education category at any level and in either Humanities & the Arts sub-category. We have included letters of support from the College of ACES, College of AHS, College of Education, College of Media, College of FAA, and College of LAS. In reviewing Gies students course selection for the additional Behavioral Science Gen Ed and Humanities Gen Ed in our current structure, these colleges would be most impacted by the removal of these requirements that are above and beyond what campus requires for general education.

5. Removed comments regarding prerequisites next to several major courses.

6. Revising GEOG 440 course to new course rubric, as the department rubric changed from GEOG to GIS (no letter of support necessary due to renaming).

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. For increased transparency, clarity, and overall aesthetic in the Academic Catalog, we added the Business Core CIM P record requirements into the major.
2. In Spring 2021, as part of the CIM P Business Core revision, we added additional course options to the Business Core Math instead of just requiring MATH 234. The letter of support from MATH was attached in the EP documentation section in the historical CIM P record for the Business Core CIM P [EP.21.056], along with an Appendix that included the courses to be added to the Program of Study. However, in error, we didn't add the courses to the Program of Study itself and thus it appeared as if we were removing the Business Core Math requirement. We are now correcting that error to add in the Business Core Math requirement. We have attached the letter of support from MATH from that 2021 revision, as well as a letter of support from STAT that we didn't originally have at the time of the 2021 revision.
3. We removed the footnotes for accessibility, per campus request. By removing the footnotes, we have provided additional clarity to the program of study table itself. Since the Business Core Math requirement includes courses that have Quantitative Reasoning General Education certification, we wanted to ensure that was obvious to the students.
4. We revised the general education requirements to be aligned with the campus requirements. As campus the campus general education requirements evolved and were changed (ex. 2017 revision), Gies College of Business did not change all of our requirements to be aligned with the new structure and expectations. For example, Gies College of Business currently requires students to take a behavioral science general education course, despite two courses in the Business Core requirements being coded as social sciences general education (ECON 102 and ECON 103). Since campus requires only 2 courses (6 hours) in the Social & Behavioral Science category, with no restrictions on which sub-categories (Social Science or Behavioral Science) to be used to satisfy the 2 courses, we are removing the need for Gies students to complete a Behavioral Science requirement and allowing the Business Core courses to satisfy the Social & Behavioral Science Gen Ed Category. The other category that is not aligned with the campus structure and expectations for general education is in the Humanities & the Arts Category. The campus structure for this category is students must complete 2 courses (6 hours) of Humanities & the Arts general education courses with no restrictions on which sub-categories (Literature and the Arts and Historical Philosophical Perspectives) or level of class (100 – 400 level) need to be selected to satisfy the category. Currently, Gies requires students to complete 3 courses in the Humanities & the Arts Gen Ed category, with 1 course in both sub-categories (Literature & the Arts and Historical Philosophical Perspectives) and 1 course at the 200-level or above. We are removing the 200-level requirement and allowing students to complete the Humanities & the Arts Gen Ed category with 2 courses from either sub-category, which will align with the campus expectation.
5. The comments regarding prerequisites were removed because it isn't in line with campus standards, as students can click on the courses in the Academic Catalog to view any course specific information such as prerequisites.
6. Revising GEOG 440 course to new course rubric, as the department rubric changed from GEOG to GIS (no letter of support necessary due to renaming).

Breakout of how a student gets 40 hours of 300-, 400- level coursework and/or 200 level with 2 or more preq

- a. All Gies UG students have 24 required upper division hours in the business core:
 - i. ACCY 202 – prereq of ACCY 201 which has a prereq of ECON 102/103 – 3 hours
 - ii. BADM 211 – prereqs of CS105 and BADM 210 - 3 hours
 - iii. BUS 301 – 3 hours
 - iv. BUS 401 – 3 hours
 - v. BADM 300 – 3 hours
 - vi. BADM 310 – 3 hours
 - vii. BADM 320 – 3 hours
 - viii. BADM 449 – 3 hours
- b. The Marketing major has an additional 27 hours of required upper division courses.
 - i. BADM 322 - 3hours
 - ii. BADM 325 - 3 hours
 - iii. BADM 420 - 3 hours
 - iv. Six BADM major electives at 300- level or GGIS 400- level coursework - 18 hours

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Master core concepts that pertain to contemporary marketing practices and technologies.

Demonstrate the ability to analyze real-world marketing problems, develop alternative solutions, evaluate the strengths and weaknesses of these solutions and choose and implement a solution.

Demonstrate the ability ~~Traditional course and program metrics currently used in our Marketing major will be used~~ to collaborate and problem-solve in teams, assess and to collaborate with team members and clients across business functions and disciplines. improve student performance.

Cultivate a global mindset – an appreciation, curiosity, and empathy toward other cultures, and a capacity to develop innovative solutions to global as well as local marketing problems.

Communicate effectively in writing and orally across all modalities – written, oral, and digital. ~~These include student satisfaction and hiring/placement statistics.~~

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

The Marketing student studies business activities directly related to the process of developing, deciding, and placing meaningful assortments of goods and services in the hands of the consumer. The Marketing major is concerned with the efficient and effective performance of marketing activities and coordinating with the other operations of the firm. In addition to the Marketing Major's requirements, Business Administration students must also fulfill the Urbana-Champaign campus's General Education requirements and the Gies College of Business's Core Courses requirements (for more detail, refer to the Gies College of Business Undergraduate Section).

Statement for

Programs of
Study Catalog

Graduation Requirements

Minimum hours required for graduation: 124 hours.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in the program.

Dear Cory,

Thank you for your message. I am writing to confirm that the Department of Statistics is aware of this proposed change to the College of Business undergraduate curriculum.

Please let me know if you need anything else from us.

Best,

Bo

Subject: BUS Core Math revision

Good Morning Professor Li and Professor Douglas,

I hope this message finds you well and that the Fall semester is running smoothly for you and the STAT department!

I'm writing to you in hopes that you may be able to help me with a project that I am working on with Brooke Newell, Director of Educational Programs in the Provost Office. As you may be aware, Gies College of Business revised our Business Core Curriculum effective FA21. This revision including expanding the offerings of courses to satisfy the Business Core Math requirement from Calculus or Business Calculus to include Pre-Calculus and STAT 100. Unfortunately, at the time this revision was approved, there was a mistake in not editing the necessary pages in the CIM/P system, so we are now trying to do that now.

In looking through all of the documents that were included with this past revision, we could not find any letter of support from the STAT Department Head for this revision. We were able to find one from the MATH Department that I've attached to this email. I've also included the Core Revision Appendix that indicates that the MATH and STAT department were consulted about this revision.

Would it be possible to receive a letter of support from the STAT Department that we can use as we try to rectify this oversight that occurred at the time of approval back in FA21? This could simply be a reply to this email or could be a letter on your STAT Department letterhead.

If you have any questions, please do not hesitate to contact me.

Take care,

Cory

Appendix 1

In consultation with the Department of Mathematics and the Department of Statistics, Gies College of Business will maintain a list of courses that are appropriate for Quantitative Reasoning requirements.

All Gies College of Business students are required to take CS 105 – Introduction to Computing: Non-Technical, which satisfies the Quantitative Reasoning (QR) 1 requirement. Students may choose from the list below to fulfill the second QR requirement. Students with AP, IB, or A-level credit, or dual enrollment transfer credit for an equivalent course, will not need to take an additional QR course.

List of Courses:

- MATH 115 – Preparation for Calculus
- MATH 220 – Calculus
- MATH 221 – Calculus I
- MATH 231 – Calculus II
- MATH 234 – Calculus for Business (recommended for all students with an ALEKS score 65 or higher)
- STAT 100 – Statistics

Subject: Reply Required for Curriculum Modification Impacting your Department

Dear Dr. Tyson,

The Gies College of Business seeks to modify the core curriculum in order to increase access and equity for our students. As part of our proposal, we no longer are requiring the MATH 234 course, but instead are requiring two quantitative reasoning courses similar to most other colleges. One quantitative reasoning requirement can be met through CS 105, a business core requirement. For the second QR requirement, students will select from among the courses included in Appendix 1, attached. We will recommend that students take the math course that they are placed into via the ALEKS placement test, which means that many students will still take MATH 234 in the spring semester of their freshman year. Requiring quantitative reasoning courses aligns Gies requirements with other colleges' requirements and allows us to reduce the adverse impact on students from high schools with fewer resources and who do not need calculus as a prerequisite for any other course.

We are unsure what impact the change will have on enrollment for the 2021/2022 academic year, as we expect many students to be placed in MATH 234 by their ALEKS placement test. In order for the modification to proceed, we need an indication from your department that you are aware of the changes. Would you please provide that in a response to this email?

Thank you for your prompt attention to this matter.

Sincerely,
Kevin Jackson

RE: Gies College of Business Undergraduate General Education Requirements Structure

Dear Dr. Scott and Cory,

Thank you for informing us of the proposed changes your college is making to the structure of your general education requirements. I understand that this proposal's purpose is to align the college structure of general education requirements with the current campus structure. Specifically, this proposal will make it so that Gies Undergraduate Students are no longer required to take a third humanities general education course at the 200 level or above and an additional behavioral science general education beyond the six hours of Social & Behavioral Sciences general education coursework required for Gies Undergraduate Students through our Business Core (Microeconomics and Macroeconomics). Gies Undergraduate Students will still be required to complete all campus general education requirements, and we welcome your students in Gies to complete the required general education categories through the courses offered in the College of Education.

Sincerely,

RE: Gies College of Business Undergraduate General Education Requirements Structure

Dear Nehemiah and Cory,

Thank you for informing us of the proposed changes your college is making to the structure of your general education requirements. I understand that this proposal's purpose is to align the college structure of general education requirements with the current campus structure. Your proposal will make it so that Gies Undergraduate Students are no longer required to take a course from the Behavioral Sciences subcategory. To continue to satisfy the campus Social & Behavioral Sciences requirement (6 hours), students will be taking ECON 102 and ECON 103 as part of the Business Core Requirements. These two social science courses are essential to your business core structure and their inclusion in your programs of study attests to this. Your proposal also brings in alignment your Humanities & the Arts general education requirement with that of campus, requiring 6 hours in this category instead of three course (9 hours) representing both Literature & the Arts and Historical & Philosophical Perspectives subcategories, of which one course in either subcategory must be at the 200-level or above. Gies Undergraduate Students will still be required to complete all campus general education requirements, and we welcome your students to complete the required general education categories through the courses offered in our college.

Sincerely,

Venetria K. Patton

FAA Letter of Support- Gies General Education Proposal

I write on behalf of the College of Fine and Applied Arts to offer our support for the proposed changes to the Gies General Education requirements, effective Fall 2024.

The revisions to eliminate the two additional general education courses beyond the campus requirement clearly serves the intended purposes of alignment and access. Removing one Humanities & the Arts course and one Behavioral Science course from the business major requirements will have a minimal impact on the College of Fine and Applied Arts. We also would support the opportunity for business majors to have additional flexibility to seek out campus minors of interests.

Therefore, we have no concerns with the proposal and offer our support for the elimination of additional general education requirements for business majors.

Sincerely,

Nicole Turner, Ph.D.

Program Description and Justification

Justification for proposal change:

The Gies College of Business seeks to modify the core curriculum in order to increase access and equity for our students. The Language Other than English requirement was originally established to create basic language proficiency for Gies graduates as a competitive edge in an increasingly global marketplace. However, advances in technology have resulted in less need for increased language proficiency. Additionally, students who attend high schools with fewer resources are most adversely impacted by this requirement, as they are not able to complete their language requirements in high school. They are also less likely to enter the university with AP or dual enrollment credits. In alignment with all other colleges outside of LAS, we would like to reduce our language requirement to the third level of a single language (see <http://catalog.illinois.edu/general-information/degree-general-education-requirements/>).

The other revision in this proposal is removal of the specific MATH 234 course and instead requiring two quantitative reasoning courses. One quantitative reasoning requirement can be met through CS 105, a business core requirement. The second quantitative reasoning requirement will be met through a list of courses maintained by the Office of Undergraduate Affairs in consultation with the affected departments (see attached). Requiring quantitative reasoning courses aligns Gies requirements with other colleges' requirements and allows us to reduce the adverse impact

on students from high schools with fewer resources and who do not need calculus as a prerequisite for any other course. By maintaining a list of approved courses with the Office of Undergraduate Affairs, we can meet this objective and give the affected departments more certainty about possible Gies student course enrollments. The Math Department has approved this plan (see attached email from Dr. Jeremy Tyson of February 24, 2021 in EP Documentation section).

The Office of Undergraduate Affairs has worked in partnership with the three Gies academic departments: Accountancy, Business Administration, and Finance, as well as by Dean Jeffrey Brown, to move forward with this proposal. The heads of all three departments and Dean Brown have approved these proposed changes.

Delivery Method

Is this program available on campus and online?

No

This program is available:

On Campus

Budget

Are there budgetary implications for this revision?

No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Resource Implications

Facilities

Will the program require new or additional facilities or significant improvements to already existing facilities?

No

Technology

Will the program need additional technology beyond what is currently available for the unit?

No

Non-Technical Resources

Will the program require additional supplies, services or equipment (non-technical)?

No

Resources

For each of these items, be sure to include in the response if the proposed new program or change will result in replacement of another program(s). If so, which program(s), what is the anticipated impact on faculty, students, and instructional resources? Please attach any letters of support/ acknowledgement from faculty, students, and/or other impacted units as appropriate.

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc. Describe how the unit will support student advising, including job placement and/or admission to advanced studies.

N/A

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

N/A

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does the program include other courses/subjects impacted by the creation/revision of this program?

No

Financial Resources

How does the unit intend to financially support this proposal?

N/A

Will the unit need to seek campus or other external resources?

No

Are you seeking a change in the tuition rate or differential for this program?

No

Program Regulation and Assessment

Briefly describe the plan to assess and improve student learning, including the program's learning objectives; when, how, and where these learning objectives will be assessed; what metrics will be used to signify student's achievement of the stated learning objectives; and the process to ensure assessment results are used to improve student learning. (Describe how the program is aligned with or meets licensure, certification, and/or entitlement requirements, if applicable).

N/A

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

"Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PrivateAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

All proposals must attach the new or revised version of the Academic Catalog program of study entry. Contact your college office if you have questions.

Revised programs

Core Revision Comparison Table_.pdf

Attach a side-by-side comparison with the existing program AND, if the revision references or adds “chosed-from” lists of courses students can select from to fulfill requirements, a listing of these courses, including the course rubric, number, title, and number of credit hours.

Catalog Page Text

Statement for Programs of Study Catalog

Minimum hours required for graduation:120 hours.

University Composition Requirements

Code	Title	Hours
	Composition I: Principles of Composition ¹	4-7
	Advanced Composition	3

General Education Requirements

Code	Title	Hours
	A minimum of six courses is required, as follows:	18
	Humanities & the Arts: Literature & the Arts (1-2 courses) ⁴	
	Humanities & the Arts: Historical & Philosophical Perspectives (1-2 courses) ⁴	
	Natural Sciences & Technology: Physical Sciences (0-2 courses) ⁵	
	Natural Sciences & Technology: Life Sciences (0-2 courses) ⁵	
	Behavioral Sciences (1 course)	
	Cultural Studies: Non-Western Cultures (1 course)	
	Cultural Studies: U.S. Minorities Cultures (1 course)	
	Cultural Studies: Western/Comparative Cultures (1 course)	
	Quantitative Reasoning (2 courses) ⁷	

Language Other Than English

Code	Title	Hours
	Completion of the fourth semester or equivalent of a non-primary language is required. Completion of four years of a single language in high school satisfies this requirement. A student may also meet this requirement by completing two non-primary languages to the third level.	0-12
	Completion of the third semester or equivalent of a language other than English is required. Completion of three years of a single language in high school satisfies this requirement.	0-15

Business Core Requirements

Code	Title	Hours
ACCY 201 & ACCY 202	Accounting and Accountancy I and Accounting and Accountancy II	6

Kathy Martensen (kmartens) (Tue, 09 Feb 2021 15:43:57 GMT):Rollback: Per email of 2/92/1 RE: QR requirement updates.

Key: 558

Office of Undergraduate Affairs
1055 Business Instructional Facility
515 E. Gregory
Champaign, IL 61820

Appendix 1

In consultation with the Department of Mathematics and the Department of Statistics, Gies College of Business will maintain a list of courses that are appropriate for Quantitative Reasoning requirements.

All Gies College of Business students are required to take CS 105 – Introduction to Computing: Non-Technical, which satisfies the Quantitative Reasoning (QR) 1 requirement. Students may choose from the list below to fulfill the second QR requirement. Students with AP, IB, or A-level credit, or dual enrollment transfer credit for an equivalent course, will not need to take an additional QR course.

List of Courses:

- MATH 115 – Preparation for Calculus
- MATH 220 – Calculus
- MATH 221 – Calculus I
- MATH 231 – Calculus II
- MATH 234 – Calculus for Business (recommended for all students with an ALEKS score 65 or higher)
- STAT 100 – Statistics

Cc: Lithgow, Jana <jlithgow@illinois.edu>
Subject: Reply Required for Curriculum Modification Impacting your Department

Dear Dr. Tyson,

The Gies College of Business seeks to modify the core curriculum in order to increase access and equity for our students. As part of our proposal, we no longer are requiring the MATH 234 course, but instead are requiring two quantitative reasoning courses similar to most other colleges. One quantitative reasoning requirement can be met through CS 105, a business core requirement. For the second QR requirement, students will select from among the courses included in Appendix 1, attached. We will recommend that students take the math course that they are placed into via the ALEKS placement test, which means that many students will still take MATH 234 in the spring semester of their freshman year. Requiring quantitative reasoning courses aligns Gies requirements with other colleges' requirements and allows us to reduce the adverse impact on students from high schools with fewer resources and who do not need calculus as a prerequisite for any other course.

We are unsure what impact the change will have on enrollment for the 2021/2022 academic year, as we expect many students to be placed in MATH 234 by their ALEKS placement test. In order for the modification to proceed, we need an indication from your department that you are aware of the changes. Would you please provide that in a response to this email?

Thank you for your prompt attention to this matter.

Sincerely,
Kevin Jackson

Subject: RE: Questions about EP 21.054

Hi Jenny,

Thanks for the follow up – I was unexpectedly out of the office late last week and will be out this entire week as well. I apologize for the delay in response. I’ve added comments below your points, and I thank you for your feedback on this proposal. Please let me know if you need anything else from me besides the edits/feedback mentioned below.

Elements that we had concerns about that would benefit from discussion or documentation

- We did not see a letter from Math. The changes impact math both in a reduction of students taking Math 234 and a projected increase in students taking other Math courses. Can you provide documentation (a letter or email) with discussion and approval from math?

I was told that we were not likely to need a letter from Math for this change, so this conversation has not yet happened. I will initiate this soon – I will be inaccessible tomorrow and Tuesday ([REDACTED]) but will work on this as I’m able this week.

- Are there any admissions ramifications due to this change and does that need to be noted in the proposal? For instance, MATH 234 may have been required for inter-college or off-campus transfer students.

It is my understanding that, based on the last several rounds of core curriculum changes, our Admissions team works with campus and the community colleges to update requirements and grandfather in students who have completed prior requirements. MATH 234 will still meet our new core curriculum requirements (as proposed) and will not cause any student harm.

Minor notes/corrections that can be made quickly for resubmission

- Footnote 2: This seems like it should be updated to include BUS 301 and 401
- Footnote 5 has a spelling error: one instead of on

I will ask Deb Forgacs to assist me with these revisions, as she assisted me with the

proposal input in the first place. I've copied her so that she knows about this feedback.

- The last sentence of the first paragraph of the section on "Justification for Proposal Change" reads "In alignment with all other colleges outside of LAS, we would like to reduce our language requirement to the third level of a single language. " Can you clarify "the third level"? Perhaps rewording to something like "three successive semesters of" or completion of at least one 200 level course... or whatever is appropriate.

The "third level" language is mirroring the Catalog here:

<http://catalog.illinois.edu/general-information/degree-general-education-requirements/>

and we could link to that page instead. The semesters do not need to be successive but the levels do, so the wording gets tricky very quickly. 200 level courses are also not specifically required by any college for general education requirements.

- Maybe consider adding a note in the catalog that CS 105 fulfills one of the QR requirements, since it is mentioned in the proposal?

I can also ask Deb to assist me with this one.

Subject: Questions about EP 21.054

Kevin and Jana

I am reaching out to you on behalf of Education Policy Committee. I am the sub-committee chair in charge of reviewing your proposal.

Overall, we are very supportive of the proposal and it appears well written. My sub-committee had a few questions that came up when reviewing your proposal. I have summarized them below

Elements that we had concerns about that would benefit from discussion or documentation

- We did not see a letter from Math. The changes impact math both in a reduction of students taking Math 234 and a projected increase in students taking other Math courses. Can you provide documentation (a letter or email) with discussion and approval from math?
- Are there any admissions ramifications due to this change and does that need to be noted in the proposal? For instance, MATH 234 may have been required for inter-college or off-campus transfer students.

Minor notes/corrections that can be made quickly for resubmission

- Footnote 2: This seems like it should be updated to include BUS 301 and 401
- Footnote 5 has a spelling error: one instead of on
- The last sentence of the first paragraph of the section on "Justification for Proposal Change" reads "In alignment with all other colleges outside of LAS, we would like to reduce our language requirement to the third level of a single language. " Can you clarify "the third level"? Perhaps rewording to something like "three successive semesters of" or completion of at least one 200 level course... or whatever is appropriate.
- Maybe consider adding a note in the catalog that CS 105 fulfills one of the QR requirements, since it is mentioned in the proposal?

Does this program have inter-departmental administration?
No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Science in Supply Chain Management in the Gies College of Business

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This proposal (key 102) is related to the Business Core (Key 558).

Program Justification

Provide a brief description of what changes are being made to the program.

1. Added the Business Core CIM P record requirements, which included the University Composition Requirements, General Education Requirements, and Business Core Requirements, into the major record.
2. Fixed error in Business Core from a 2021 revision, which was to add a requirement, Business Core Math. The MATH and STAT courses that comprise the Business Core Math are approved as Quantitative Reasoning courses within the General Education program. While it appears that the total hours for the Business Core are increasing, since the course list being added can be counted towards the Quantitative Reasoning Gen Ed requirement, the net sum change of total hours for the program is zero (total hours remain unchanged for the degree program).
3. Removed the footnotes.
4. Revised the General Education structure in Gies College of Business Undergraduate programs to align with the campus structure for General Education Requirements. As such, we removed the specific behavioral science course requirement to fulfill the Social & Behavioral Science requirements. This now allows students to complete the Social & Behavioral Science requirements with the required ECON 102 and ECON 103 coursework. We also removed the additional 200 level course requirement and the requirement for a course to be taken in each sub-category in the Humanities & the Arts. This now allows for students to complete the Humanities & the Arts requirement with just 2 courses that satisfy this general education category at any level and in either Humanities & the Arts sub-category. We have included letters of support from the College of ACES, College of AHS, College of Education, College of Media, College of FAA, and College of LAS. In reviewing Gies students course selection for the additional Behavioral Science Gen Ed and Humanities Gen Ed in our current structure, these colleges would be most impacted by the removal of these requirements that are above and beyond what campus requires for general education.
5. Revised minimum program hours in Program Features to be 124. This is not a change of the the total credit hours, but a clean-up of the CIM-P system.
6. Removed comments regarding prerequisites next to several major courses.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. For increased transparency, clarity, and overall aesthetic in the Academic Catalog, we added the Business Core CIM P record requirements into the major.
2. In Spring 2021, as part of the CIM P Business Core revision, we added additional course options to the Business Core Math instead of just requiring MATH 234. The letter of support from MATH was attached in the EP documentation section in the historical CIM P record for the Business Core CIM P [EP.21.056], along with an Appendix that included the courses to be added to the Program of Study. However, in error, we didn't add the courses to the Program of Study itself and thus it appeared as if we were removing the Business Core Math requirement. We are now correcting that error to add in the Business Core Math requirement. We have attached the letter of support from MATH from that 2021 revision, as well as a letter of support from STAT that we didn't originally have at the time of the 2021 revision.
3. We removed the footnotes for accessibility, per campus request. By removing the footnotes, we have provided additional clarity to the program of study table itself. Since the Business Core Math requirement includes courses that have Quantitative Reasoning General Education certification, we wanted to ensure that was obvious to the students.
4. We revised the general education requirements to be aligned with the campus requirements. As campus the campus general education requirements evolved and were changed (ex. 2017 revision), Gies College of Business did not change all of our requirements to be aligned with the new structure and expectations. For example, Gies College of Business currently requires students to take a behavioral science general education course, despite two courses in the Business Core requirements being coded as social sciences general education (ECON 102 and ECON 103). Since campus requires only 2 courses (6 hours) in the Social & Behavioral Science category, with no restrictions on which sub-categories (Social Science or Behavioral Science) to be used to satisfy the 2 courses, we are removing the need for Gies students to complete a Behavioral Science requirement and allowing the Business Core courses to satisfy the Social & Behavioral Science Gen Ed Category. The other category that is not aligned with the campus structure and expectations for general education is in the Humanities & the Arts Category. The campus structure for this category is students must complete 2 courses (6 hours) of Humanities & the Arts general education courses with no restrictions on which sub-categories (Literature and the Arts and Historical Philosophical Perspectives) or level of class (100 – 400 level) need to be selected to satisfy the category. Currently, Gies requires students to complete 3 courses in the Humanities & the Arts Gen Ed category, with 1 course in both sub-categories (Literature & the Arts and Historical Philosophical Perspectives) and 1 course at the 200-level or above. We are removing the 200-level requirement and allowing students to complete the Humanities & the Arts Gen Ed category with 2 courses from either sub-category, which will align with the campus expectation.
5. Revised minimum program hours in Program Features to be 124. This is not a change of the the total credit hours, but a clean-up of the CIM-P system.
6. The comments regarding prerequisites were removed because it isn't in line with campus standards, as students can click on the courses in the Academic Catalog to view any course specific information such as prerequisites.

Breakout of how a student gets 40 hours of 300-, 400- level coursework and/or 200 level with 2 or more preq

- a. All Gies UG students have 24 required upper division hours in the business core:
 - i. ACCY 202 – prereq of ACCY 201 which has a prereq of ECON 102/103 – 3 hours
 - ii. BUS 301 – 3 hours
 - iii. BUS 401 – 3 hours

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Disciplinary Competence: Gain an understanding of the structure of supply chains, the fundamental principles of managing them, and their interactions with other business functions.

~~Disciplinary Competence and Critical Thinking: o These new elective courses will now become a part of the our annual submission of the Learning Outcomes Assessment Progress Report submitted to the Council for Learning Outcomes Assessment (C-LOA) at the University of Illinois. The learning objectives related to student learning outcomes includes supply chain competence, critical thinking, group work, communication. Demonstrate the~~ These outcomes are mapped to questions concerning student ability to analyze, model use data analytics and evaluate different parts of a problem solving to effectively understand real-world supply chain through appropriate quantitative issues, problem analysis and qualitative methods. ~~articulating conclusions, assuming leadership roles, grasp of international complexities effect global supply chains and etc.~~

Critical Thinking: Develop an ability to critically evaluate real-world supply-chain problems and apply theory and models to create practically implementable solutions.

Group Work: Demonstrate the ability to collaborate as an effective team member in varying roles in diverse groups/environments.

Communication: Develop the ability to effectively and professionally tell a persuasive story through oral and written presentations.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Statement for

Programs of

Study Catalog

Graduation Requirements

Minimum hours required for graduation: 124 hours.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in the program.

Champaign, IL 61820

Appendix 1

In consultation with the Department of Mathematics and the Department of Statistics, Gies College of Business will maintain a list of courses that are appropriate for Quantitative Reasoning requirements.

All Gies College of Business students are required to take CS 105 – Introduction to Computing: Non-Technical, which satisfies the Quantitative Reasoning (QR) 1 requirement. Students may choose from the list below to fulfill the second QR requirement. Students with AP, IB, or A-level credit, or dual enrollment transfer credit for an equivalent course, will not need to take an additional QR course.

List of Courses:

- MATH 115 – Preparation for Calculus
- MATH 220 – Calculus
- MATH 221 – Calculus I
- MATH 231 – Calculus II
- MATH 234 – Calculus for Business (recommended for all students with an ALEKS score 65 or higher)
- STAT 100 – Statistics

Dear Associate Dean Jackson,

Thank you for your message. I am writing to confirm that the Department of Mathematics is aware of this proposed change to the College of Business undergraduate curriculum.

Sincerely,

Jeremy Tyson
Professor and Chair
Department of Mathematics
University of Illinois at Urbana-Champaign

From: Jackson, Kevin <kjack@illinois.edu>
Sent: Tuesday, February 23, 2021 9:39 AM

Cc: Lithgow, Jana <jlithgow@illinois.edu>
Subject: Reply Required for Curriculum Modification Impacting your Department

Dear Dr. Tyson,

The Gies College of Business seeks to modify the core curriculum in order to increase access and equity for our students. As part of our proposal, we no longer are requiring the MATH 234 course, but instead are requiring two quantitative reasoning courses similar to most other colleges. One quantitative reasoning requirement can be met through CS 105, a business core requirement. For the second QR requirement, students will select from among the courses included in Appendix 1, attached. We will recommend that students take the math course that they are placed into via the ALEKS placement test, which means that many students will still take MATH 234 in the spring semester of their freshman year. Requiring quantitative reasoning courses aligns Gies requirements with other colleges' requirements and allows us to reduce the adverse impact on students from high schools with fewer resources and who do not need calculus as a prerequisite for any other course.

We are unsure what impact the change will have on enrollment for the 2021/2022 academic year, as we expect many students to be placed in MATH 234 by their ALEKS placement test. In order for the modification to proceed, we need an indication from your department that you are aware of the changes. Would you please provide that in a response to this email?

Thank you for your prompt attention to this matter.

Sincerely,
Kevin Jackson

Subject: BUS Core Math revision

Good Morning Professor Li and Professor Douglas,

I hope this message finds you well and that the Fall semester is running smoothly for you and the STAT department!

I'm writing to you in hopes that you may be able to help me with a project that I am working on with Brooke Newell, Director of Educational Programs in the Provost Office. As you may be aware, Gies College of Business revised our Business Core Curriculum effective FA21. This revision including expanding the offerings of courses to satisfy the Business Core Math requirement from Calculus or Business Calculus to include Pre-Calculus and STAT 100. Unfortunately, at the time this revision was approved, there was a mistake in not editing the necessary pages in the CIM/P system, so we are now trying to do that now.

In looking through all of the documents that were included with this past revision, we could not find any letter of support from the STAT Department Head for this revision. We were able to find one from the MATH Department that I've attached to this email. I've also included the Core Revision Appendix that indicates that the MATH and STAT department were consulted about this revision.

Would it be possible to receive a letter of support from the STAT Department that we can use as we try to rectify this oversight that occurred at the time of approval back in FA21? This could simply be a reply to this email or could be a letter on your STAT Department letterhead.

If you have any questions, please do not hesitate to contact me.

Take care,

Cory

RE: Gies College of Business Undergraduate General Education Requirements Structure

Dear Dr. Scott and Cory,

Thank you for informing us of the proposed changes your college is making to the structure of your general education requirements. I understand that this proposal's purpose is to align the college structure of general education requirements with the current campus structure. Specifically, this proposal will make it so that Gies Undergraduate Students are no longer required to take a third humanities general education course at the 200 level or above and an additional behavioral science general education beyond the six hours of Social & Behavioral Sciences general education coursework required for Gies Undergraduate Students through our Business Core (Microeconomics and Macroeconomics). Gies Undergraduate Students will still be required to complete all campus general education requirements, and we welcome your students in Gies to complete the required general education categories through the courses offered in the College of Education.

Sincerely,

A handwritten signature in black ink that reads 'Sarah J. McCarthy'.

RE: Gies College of Business Undergraduate General Education Requirements Structure

Dear Nehemiah and Cory,

Thank you for informing us of the proposed changes your college is making to the structure of your general education requirements. I understand that this proposal's purpose is to align the college structure of general education requirements with the current campus structure. Your proposal will make it so that Gies Undergraduate Students are no longer required to take a course from the Behavioral Sciences subcategory. To continue to satisfy the campus Social & Behavioral Sciences requirement (6 hours), students will be taking ECON 102 and ECON 103 as part of the Business Core Requirements. These two social science courses are essential to your business core structure and their inclusion in your programs of study attests to this. Your proposal also brings in alignment your Humanities & the Arts general education requirement with that of campus, requiring 6 hours in this category instead of three course (9 hours) representing both Literature & the Arts and Historical & Philosophical Perspectives subcategories, of which one course in either subcategory must be at the 200-level or above. Gies Undergraduate Students will still be required to complete all campus general education requirements, and we welcome your students to complete the required general education categories through the courses offered in our college.

Sincerely,

Venetria K. Patton

FAA Letter of Support- Gies General Education Proposal

I write on behalf of the College of Fine and Applied Arts to offer our support for the proposed changes to the Gies General Education requirements, effective Fall 2024.

The revisions to eliminate the two additional general education courses beyond the campus requirement clearly serves the intended purposes of alignment and access. Removing one Humanities & the Arts course and one Behavioral Science course from the business major requirements will have a minimal impact on the College of Fine and Applied Arts. We also would support the opportunity for business majors to have additional flexibility to seek out campus minors of interests.

Therefore, we have no concerns with the proposal and offer our support for the elimination of additional general education requirements for business majors.

Sincerely,

Nicole Turner, Ph.D.

Program Description and Justification

Justification for proposal change:

The Gies College of Business seeks to modify the core curriculum in order to increase access and equity for our students. The Language Other than English requirement was originally established to create basic language proficiency for Gies graduates as a competitive edge in an increasingly global marketplace. However, advances in technology have resulted in less need for increased language proficiency. Additionally, students who attend high schools with fewer resources are most adversely impacted by this requirement, as they are not able to complete their language requirements in high school. They are also less likely to enter the university with AP or dual enrollment credits. In alignment with all other colleges outside of LAS, we would like to reduce our language requirement to the third level of a single language (see <http://catalog.illinois.edu/general-information/degree-general-education-requirements/>).

The other revision in this proposal is removal of the specific MATH 234 course and instead requiring two quantitative reasoning courses. One quantitative reasoning requirement can be met through CS 105, a business core requirement. The second quantitative reasoning requirement will be met through a list of courses maintained by the Office of Undergraduate Affairs in consultation with the affected departments (see attached). Requiring quantitative reasoning courses aligns Gies requirements with other colleges' requirements and allows us to reduce the adverse impact

on students from high schools with fewer resources and who do not need calculus as a prerequisite for any other course. By maintaining a list of approved courses with the Office of Undergraduate Affairs, we can meet this objective and give the affected departments more certainty about possible Gies student course enrollments. The Math Department has approved this plan (see attached email from Dr. Jeremy Tyson of February 24, 2021 in EP Documentation section).

The Office of Undergraduate Affairs has worked in partnership with the three Gies academic departments: Accountancy, Business Administration, and Finance, as well as by Dean Jeffrey Brown, to move forward with this proposal. The heads of all three departments and Dean Brown have approved these proposed changes.

Office of Undergraduate Affairs
1055 Business Instructional Facility
515 E. Gregory
Champaign, IL 61820

Appendix 1

In consultation with the Department of Mathematics and the Department of Statistics, Gies College of Business will maintain a list of courses that are appropriate for Quantitative Reasoning requirements.

All Gies College of Business students are required to take CS 105 – Introduction to Computing: Non-Technical, which satisfies the Quantitative Reasoning (QR) 1 requirement. Students may choose from the list below to fulfill the second QR requirement. Students with AP, IB, or A-level credit, or dual enrollment transfer credit for an equivalent course, will not need to take an additional QR course.

List of Courses:

- MATH 115 – Preparation for Calculus
- MATH 220 – Calculus
- MATH 221 – Calculus I
- MATH 231 – Calculus II
- MATH 234 – Calculus for Business (recommended for all students with an ALEKS score 65 or higher)
- STAT 100 – Statistics

Cc: Lithgow, Jana <jlithgow@illinois.edu>
Subject: Reply Required for Curriculum Modification Impacting your Department

Dear Dr. Tyson,

The Gies College of Business seeks to modify the core curriculum in order to increase access and equity for our students. As part of our proposal, we no longer are requiring the MATH 234 course, but instead are requiring two quantitative reasoning courses similar to most other colleges. One quantitative reasoning requirement can be met through CS 105, a business core requirement. For the second QR requirement, students will select from among the courses included in Appendix 1, attached. We will recommend that students take the math course that they are placed into via the ALEKS placement test, which means that many students will still take MATH 234 in the spring semester of their freshman year. Requiring quantitative reasoning courses aligns Gies requirements with other colleges' requirements and allows us to reduce the adverse impact on students from high schools with fewer resources and who do not need calculus as a prerequisite for any other course.

We are unsure what impact the change will have on enrollment for the 2021/2022 academic year, as we expect many students to be placed in MATH 234 by their ALEKS placement test. In order for the modification to proceed, we need an indication from your department that you are aware of the changes. Would you please provide that in a response to this email?

Thank you for your prompt attention to this matter.

Sincerely,
Kevin Jackson

Subject: RE: Questions about EP 21.054

Hi Jenny,

Thanks for the follow up – I was unexpectedly out of the office late last week and will be out this entire week as well. I apologize for the delay in response. I've added comments below your points, and I thank you for your feedback on this proposal. Please let me know if you need anything else from me besides the edits/feedback mentioned below.

Elements that we had concerns about that would benefit from discussion or documentation

- We did not see a letter from Math. The changes impact math both in a reduction of students taking Math 234 and a projected increase in students taking other Math courses. Can you provide documentation (a letter or email) with discussion and approval from math?

I was told that we were not likely to need a letter from Math for this change, so this conversation has not yet happened. I will initiate this soon – I will be inaccessible tomorrow and Tuesday ([REDACTED]) but will work on this as I'm able this week.

- Are there any admissions ramifications due to this change and does that need to be noted in the proposal? For instance, MATH 234 may have been required for inter-college or off-campus transfer students.

It is my understanding that, based on the last several rounds of core curriculum changes, our Admissions team works with campus and the community colleges to update requirements and grandfather in students who have completed prior requirements. MATH 234 will still meet our new core curriculum requirements (as proposed) and will not cause any student harm.

Minor notes/corrections that can be made quickly for resubmission

- Footnote 2: This seems like it should be updated to include BUS 301 and 401
- Footnote 5 has a spelling error: one instead of on

I will ask Deb Forgacs to assist me with these revisions, as she assisted me with the

proposal input in the first place. I've copied her so that she knows about this feedback.

- The last sentence of the first paragraph of the section on "Justification for Proposal Change" reads "In alignment with all other colleges outside of LAS, we would like to reduce our language requirement to the third level of a single language. " Can you clarify "the third level"? Perhaps rewording to something like "three successive semesters of" or completion of at least one 200 level course... or whatever is appropriate.

The "third level" language is mirroring the Catalog here:

<http://catalog.illinois.edu/general-information/degree-general-education-requirements/>

and we could link to that page instead. The semesters do not need to be successive but the levels do, so the wording gets tricky very quickly. 200 level courses are also not specifically required by any college for general education requirements.

- Maybe consider adding a note in the catalog that CS 105 fulfills one of the QR requirements, since it is mentioned in the proposal?

I can also ask Deb to assist me with this one.

Subject: Questions about EP 21.054

Kevin and Jana

I am reaching out to you on behalf of Education Policy Committee. I am the sub-committee chair in charge of reviewing your proposal.

Overall, we are very supportive of the proposal and it appears well written. My sub-committee had a few questions that came up when reviewing your proposal. I have summarized them below

Elements that we had concerns about that would benefit from discussion or documentation

- We did not see a letter from Math. The changes impact math both in a reduction of students taking Math 234 and a projected increase in students taking other Math courses. Can you provide documentation (a letter or email) with discussion and approval from math?
- Are there any admissions ramifications due to this change and does that need to be noted in the proposal? For instance, MATH 234 may have been required for inter-college or off-campus transfer students.

Minor notes/corrections that can be made quickly for resubmission

- Footnote 2: This seems like it should be updated to include BUS 301 and 401
- Footnote 5 has a spelling error: one instead of on
- The last sentence of the first paragraph of the section on "Justification for Proposal Change" reads "In alignment with all other colleges outside of LAS, we would like to reduce our language requirement to the third level of a single language. " Can you clarify "the third level"? Perhaps rewording to something like "three successive semesters of" or completion of at least one 200 level course... or whatever is appropriate.
- Maybe consider adding a note in the catalog that CS 105 fulfills one of the QR requirements, since it is mentioned in the proposal?

Best,

JENNY AMOS, PHD

¹ For a list of specific courses that meet this requirement, see the college Office of Undergraduate Affairs in 1055 Business Instructional Facility or see the Course Explorer for a list of approved general education courses.

² BUS 101, BUS 201, BUS 301 and BUS 401 are required for all Gies College of Business students. Students who enter the College their first year take each sequential course every fall. Inter-College transfer students take BUS 301 and BUS 401 in their sophomore year. Off-campus transfer students take BUS 101 and BUS 201 in their junior year.

⁴ Three courses in the Humanities & the Arts area are required and students must complete at least one course in the Literature & the Arts and Historical & Perspectives subcategories. At least one of the courses must be a 200 or higher level course.

⁵ Two courses in the Natural Sciences & Technology area are required. It is strongly recommended that students complete one course in the Physical Sciences and Life Sciences subcategories.

⁶ This course includes limited voluntary participation as a subject in experiments.

⁷ CS 105 fulfills a Quantitative Reasoning I requirement.

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Science in Management in the Gies College of Business

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This proposal (key 100) is related to the Business Core (Key 558).

Program Justification

Provide a brief description of what changes are being made to the program.

1. Added the Business Core CIM P record requirements, which included the University Composition Requirements, General Education Requirements, and Business Core Requirements, into the major record.
2. Fixed error in Business Core from a 2021 revision, which was to add a requirement, Business Core Math. The MATH and STAT courses that comprise the Business Core Math are approved as Quantitative Reasoning courses within the General Education program. While it appears that the total hours for the Business Core are increasing, since the course list being added can be counted towards the Quantitative Reasoning Gen Ed requirement, the net sum change of total hours for the program is zero (total hours remain unchanged for the degree program).

3. Removed the footnotes.

4. Revised the General Education structure in Gies College of Business Undergraduate programs to align with the campus structure for General Education Requirements. As such, we removed the specific behavioral science course requirement to fulfill the Social & Behavioral Science requirements. This now allows students to complete the Social & Behavioral Science requirements with the required ECON 102 and ECON 103 coursework. We also removed the additional 200 level course requirement and the requirement for a course to be taken in each sub-category in the Humanities & the Arts. This now allows for students to complete the Humanities & the Arts requirement with just 2 courses that satisfy this general education category at any level and in either Humanities & the Arts sub-category. We have included letters of support from the College of ACES, College of AHS, College of Education, College of Media, College of FAA, and College of LAS. In reviewing Gies students course selection for the additional Behavioral Science Gen Ed and Humanities Gen Ed in our current structure, these colleges would be most impacted by the removal of these requirements that are above and beyond what campus requires for general education.

5. Removed comments regarding prerequisites next to several major courses.

6. Revised minimum program hours in Program Features to be 124. This is not a change of the the total credit hours, but a clean-up of the CIM-P system.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. For increased transparency, clarity, and overall aesthetic in the Academic Catalog, we added the Business Core CIM P record requirements into the major.
2. In Spring 2021, as part of the CIM P Business Core revision, we added additional course options to the Business Core Math instead of just requiring MATH 234. The letter of support from MATH was attached in the EP documentation section in the historical CIM P record for the Business Core CIM P [EP.21.056], along with an Appendix that included the courses to be added to the Program of Study. However, in error, we didn't add the courses to the Program of Study itself and thus it appeared as if we were removing the Business Core Math requirement. We are now correcting that error to add in the Business Core Math requirement. We have attached the letter of support from MATH from that 2021 revision, as well as a letter of support from STAT that we didn't originally have at the time of the 2021 revision.
3. We removed the footnotes for accessibility, per campus request. By removing the footnotes, we have provided additional clarity to the program of study table itself. Since the Business Core Math requirement includes courses that have Quantitative Reasoning General Education certification, we wanted to ensure that was obvious to the students.
4. We revised the general education requirements to be aligned with the campus requirements. As campus the campus general education requirements evolved and were changed (ex. 2017 revision), Gies College of Business did not change all of our requirements to be aligned with the new structure and expectations. For example, Gies College of Business currently requires students to take a behavioral science general education course, despite two courses in the Business Core requirements being coded as social sciences general education (ECON 102 and ECON 103). Since campus requires only 2 courses (6 hours) in the Social & Behavioral Science category, with no restrictions on which sub-categories (Social Science or Behavioral Science) to be used to satisfy the 2 courses, we are removing the need for Gies students to complete a Behavioral Science requirement and allowing the Business Core courses to satisfy the Social & Behavioral Science Gen Ed Category. The other category that is not aligned with the campus structure and expectations for general education is in the Humanities & the Arts Category. The campus structure for this category is students must complete 2 courses (6 hours) of Humanities & the Arts general education courses with no restrictions on which sub-categories (Literature and the Arts and Historical Philosophical Perspectives) or level of class (100 – 400 level) need to be selected to satisfy the category. Currently, Gies requires students to complete 3 courses in the Humanities & the Arts Gen Ed category, with 1 course in both sub-categories (Literature & the Arts and Historical Philosophical Perspectives) and 1 course at the 200-level or above. We are removing the 200-level requirement and allowing students to complete the Humanities & the Arts Gen Ed category with 2 courses from either sub-category, which will align with the campus expectation.
5. The comments regarding prerequisites were removed because it isn't in line with campus standards, as students can click on the courses in the Academic Catalog to view any course specific information such as prerequisites.
6. Revised minimum program hours in Program Features to be 124. This is not a change of the the total credit hours, but a clean-up of the CIM-P system.

Breakout of how a student gets 40 hours of 300-, 400- level coursework and/or 200 level with 2 or more preq

- a. All Gies UG students have 24 required upper division hours in the business core:
 - i. ACCY 202 – prereq of ACCY 201 which has a prereq of ECON 102/103 – 3 hours
 - ii. BUS 301 – 3 hours
 - iii. BUS 401 – 3 hours
 - iv. BADM 300 – 3 hours
 - v. BADM 310 – 3 hours
 - vi. BADM 320 – 3 hours
 - vii. BADM 449 – 3 hours
 - viii. BADM 211 - prereqs CS 105 and BADM 210, 3 hours

- b. The Management major has an additional 24 hours of required upper division courses.
 - i. BADM 311 - 3hours
 - ii. BADM 312 - 3 hours
 - iii. BADM 313 - 3 hours
 - iv. BADM 314 - 3 hours
 - v. BADM major electives at 300- to 400- level coursework - 12 hours

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Disciplinary competence: Students will acquire knowledge of and be able to explain foundational theory and concepts related to leadership, team and interpersonal dynamics, and organizational structure and operations.

Critical thinking and problem-solving: Students will analyze and solve real-world management problems using critical thinking skills. Students will apply management concepts to offer guidance and sustainable solutions.

Collaborative teamwork: Students will be able to contribute to developing inclusive, diverse teams.

Self and other-awareness: Students will demonstrate increased awareness of the self (e.g., identifying personal and professional values, identifying biases in decision-making), and others (e.g., engaging in perspective-taking while working in diverse groups).

Communication: Students will develop and deliver effective written and/or oral managerial communications skills.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

The Management Major is designed to enable business students to be leaders and innovators in their work teams and organizations. You'll be trained to analyze and solve managerial problems – be they around people, organizations, or markets - that every organization faces in its day-to-day operations. You'll take courses about leading individuals and teams, designing and managing organizations, effective negotiation, and strategic human resource management. You'll also choose from a variety of electives, including new product development, project management, entrepreneurship, and international business.

Statement for

Programs of
Study Catalog

Graduation Requirements

Minimum hours required for graduation: 124 hours.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in the program.

Dear Cory,

Thank you for your message. I am writing to confirm that the Department of Statistics is aware of this proposed change to the College of Business undergraduate curriculum.

Please let me know if you need anything else from us.

Best,
Bo

Subject: BUS Core Math revision

Good Morning Professor Li and Professor Douglas,

I hope this message finds you well and that the Fall semester is running smoothly for you and the STAT department!

I'm writing to you in hopes that you may be able to help me with a project that I am working on with Brooke Newell, Director of Educational Programs in the Provost Office. As you may be aware, Gies College of Business revised our Business Core Curriculum effective FA21. This revision including expanding the offerings of courses to satisfy the Business Core Math requirement from Calculus or Business Calculus to include Pre-Calculus and STAT 100. Unfortunately, at the time this revision was approved, there was a mistake in not editing the necessary pages in the CIM/P system, so we are now trying to do that now.

In looking through all of the documents that were included with this past revision, we could not find any letter of support from the STAT Department Head for this revision. We were able to find one from the MATH Department that I've attached to this email. I've also included the Core Revision Appendix that indicates that the MATH and STAT department were consulted about this revision.

Would it be possible to receive a letter of support from the STAT Department that we can use as we try to rectify this oversight that occurred at the time of approval back in FA21? This could simply be a reply to this email or could be a letter on your STAT Department letterhead.

If you have any questions, please do not hesitate to contact me.

Take care,

Cory

Appendix 1

In consultation with the Department of Mathematics and the Department of Statistics, Gies College of Business will maintain a list of courses that are appropriate for Quantitative Reasoning requirements.

All Gies College of Business students are required to take CS 105 – Introduction to Computing: Non-Technical, which satisfies the Quantitative Reasoning (QR) 1 requirement. Students may choose from the list below to fulfill the second QR requirement. Students with AP, IB, or A-level credit, or dual enrollment transfer credit for an equivalent course, will not need to take an additional QR course.

List of Courses:

- MATH 115 – Preparation for Calculus
- MATH 220 – Calculus
- MATH 221 – Calculus I
- MATH 231 – Calculus II
- MATH 234 – Calculus for Business (recommended for all students with an ALEKS score 65 or higher)
- STAT 100 – Statistics

Subject: Reply Required for Curriculum Modification Impacting your Department

Dear Dr. Tyson,

The Gies College of Business seeks to modify the core curriculum in order to increase access and equity for our students. As part of our proposal, we no longer are requiring the MATH 234 course, but instead are requiring two quantitative reasoning courses similar to most other colleges. One quantitative reasoning requirement can be met through CS 105, a business core requirement. For the second QR requirement, students will select from among the courses included in Appendix 1, attached. We will recommend that students take the math course that they are placed into via the ALEKS placement test, which means that many students will still take MATH 234 in the spring semester of their freshman year. Requiring quantitative reasoning courses aligns Gies requirements with other colleges' requirements and allows us to reduce the adverse impact on students from high schools with fewer resources and who do not need calculus as a prerequisite for any other course.

We are unsure what impact the change will have on enrollment for the 2021/2022 academic year, as we expect many students to be placed in MATH 234 by their ALEKS placement test. In order for the modification to proceed, we need an indication from your department that you are aware of the changes. Would you please provide that in a response to this email?

Thank you for your prompt attention to this matter.

Sincerely,
Kevin Jackson

RE: Gies College of Business Undergraduate General Education Requirements Structure

Dear Dr. Scott and Cory,

Thank you for informing us of the proposed changes your college is making to the structure of your general education requirements. I understand that this proposal's purpose is to align the college structure of general education requirements with the current campus structure. Specifically, this proposal will make it so that Gies Undergraduate Students are no longer required to take a third humanities general education course at the 200 level or above and an additional behavioral science general education beyond the six hours of Social & Behavioral Sciences general education coursework required for Gies Undergraduate Students through our Business Core (Microeconomics and Macroeconomics). Gies Undergraduate Students will still be required to complete all campus general education requirements, and we welcome your students in Gies to complete the required general education categories through the courses offered in the College of Education.

Sincerely,

RE: Gies College of Business Undergraduate General Education Requirements Structure

Dear Nehemiah and Cory,

Thank you for informing us of the proposed changes your college is making to the structure of your general education requirements. I understand that this proposal's purpose is to align the college structure of general education requirements with the current campus structure. Your proposal will make it so that Gies Undergraduate Students are no longer required to take a course from the Behavioral Sciences subcategory. To continue to satisfy the campus Social & Behavioral Sciences requirement (6 hours), students will be taking ECON 102 and ECON 103 as part of the Business Core Requirements. These two social science courses are essential to your business core structure and their inclusion in your programs of study attests to this. Your proposal also brings in alignment your Humanities & the Arts general education requirement with that of campus, requiring 6 hours in this category instead of three course (9 hours) representing both Literature & the Arts and Historical & Philosophical Perspectives subcategories, of which one course in either subcategory must be at the 200-level or above. Gies Undergraduate Students will still be required to complete all campus general education requirements, and we welcome your students to complete the required general education categories through the courses offered in our college.

Sincerely,

Venetria K. Patton

FAA Letter of Support- Gies General Education Proposal

I write on behalf of the College of Fine and Applied Arts to offer our support for the proposed changes to the Gies General Education requirements, effective Fall 2024.

The revisions to eliminate the two additional general education courses beyond the campus requirement clearly serves the intended purposes of alignment and access. Removing one Humanities & the Arts course and one Behavioral Science course from the business major requirements will have a minimal impact on the College of Fine and Applied Arts. We also would support the opportunity for business majors to have additional flexibility to seek out campus minors of interests.

Therefore, we have no concerns with the proposal and offer our support for the elimination of additional general education requirements for business majors.

Sincerely,

Nicole Turner, Ph.D.

Program Description and Justification

Justification for proposal change:

The Gies College of Business seeks to modify the core curriculum in order to increase access and equity for our students. The Language Other than English requirement was originally established to create basic language proficiency for Gies graduates as a competitive edge in an increasingly global marketplace. However, advances in technology have resulted in less need for increased language proficiency. Additionally, students who attend high schools with fewer resources are most adversely impacted by this requirement, as they are not able to complete their language requirements in high school. They are also less likely to enter the university with AP or dual enrollment credits. In alignment with all other colleges outside of LAS, we would like to reduce our language requirement to the third level of a single language (see <http://catalog.illinois.edu/general-information/degree-general-education-requirements/>).

The other revision in this proposal is removal of the specific MATH 234 course and instead requiring two quantitative reasoning courses. One quantitative reasoning requirement can be met through CS 105, a business core requirement. The second quantitative reasoning requirement will be met through a list of courses maintained by the Office of Undergraduate Affairs in consultation with the affected departments (see attached). Requiring quantitative reasoning courses aligns Gies requirements with other colleges' requirements and allows us to reduce the adverse impact

on students from high schools with fewer resources and who do not need calculus as a prerequisite for any other course. By maintaining a list of approved courses with the Office of Undergraduate Affairs, we can meet this objective and give the affected departments more certainty about possible Gies student course enrollments. The Math Department has approved this plan (see attached email from Dr. Jeremy Tyson of February 24, 2021 in EP Documentation section).

The Office of Undergraduate Affairs has worked in partnership with the three Gies academic departments: Accountancy, Business Administration, and Finance, as well as by Dean Jeffrey Brown, to move forward with this proposal. The heads of all three departments and Dean Brown have approved these proposed changes.

Champaign, IL 61820

Appendix 1

In consultation with the Department of Mathematics and the Department of Statistics, Gies College of Business will maintain a list of courses that are appropriate for Quantitative Reasoning requirements.

All Gies College of Business students are required to take CS 105 – Introduction to Computing: Non-Technical, which satisfies the Quantitative Reasoning (QR) 1 requirement. Students may choose from the list below to fulfill the second QR requirement. Students with AP, IB, or A-level credit, or dual enrollment transfer credit for an equivalent course, will not need to take an additional QR course.

List of Courses:

- MATH 115 – Preparation for Calculus
- MATH 220 – Calculus
- MATH 221 – Calculus I
- MATH 231 – Calculus II
- MATH 234 – Calculus for Business (recommended for all students with an ALEKS score 65 or higher)
- STAT 100 – Statistics

Dear Associate Dean Jackson,

Thank you for your message. I am writing to confirm that the Department of Mathematics is aware of this proposed change to the College of Business undergraduate curriculum.

Sincerely,

Jeremy Tyson
Professor and Chair
Department of Mathematics
University of Illinois at Urbana-Champaign

From: Jackson, Kevin <kjack@illinois.edu>

Cc: Lithgow, Jana <jlithgow@illinois.edu>
Subject: Reply Required for Curriculum Modification Impacting your Department

Dear Dr. Tyson,

The Gies College of Business seeks to modify the core curriculum in order to increase access and equity for our students. As part of our proposal, we no longer are requiring the MATH 234 course, but instead are requiring two quantitative reasoning courses similar to most other colleges. One quantitative reasoning requirement can be met through CS 105, a business core requirement. For the second QR requirement, students will select from among the courses included in Appendix 1, attached. We will recommend that students take the math course that they are placed into via the ALEKS placement test, which means that many students will still take MATH 234 in the spring semester of their freshman year. Requiring quantitative reasoning courses aligns Gies requirements with other colleges' requirements and allows us to reduce the adverse impact on students from high schools with fewer resources and who do not need calculus as a prerequisite for any other course.

We are unsure what impact the change will have on enrollment for the 2021/2022 academic year, as we expect many students to be placed in MATH 234 by their ALEKS placement test. In order for the modification to proceed, we need an indication from your department that you are aware of the changes. Would you please provide that in a response to this email?

Thank you for your prompt attention to this matter.

Sincerely,
Kevin Jackson

Subject: RE: Questions about EP 21.054

Hi Jenny,

Thanks for the follow up – I was unexpectedly out of the office late last week and will be out this entire week as well. I apologize for the delay in response. I’ve added comments below your points, and I thank you for your feedback on this proposal. Please let me know if you need anything else from me besides the edits/feedback mentioned below.

Elements that we had concerns about that would benefit from discussion or documentation

- We did not see a letter from Math. The changes impact math both in a reduction of students taking Math 234 and a projected increase in students taking other Math courses. Can you provide documentation (a letter or email) with discussion and approval from math?

I was told that we were not likely to need a letter from Math for this change, so this conversation has not yet happened. I will initiate this soon – I will be inaccessible tomorrow and Tuesday ([REDACTED]) but will work on this as I’m able this week.

- Are there any admissions ramifications due to this change and does that need to be noted in the proposal? For instance, MATH 234 may have been required for inter-college or off-campus transfer students.

It is my understanding that, based on the last several rounds of core curriculum changes, our Admissions team works with campus and the community colleges to update requirements and grandfather in students who have completed prior requirements. MATH 234 will still meet our new core curriculum requirements (as proposed) and will not cause any student harm.

Minor notes/corrections that can be made quickly for resubmission

- Footnote 2: This seems like it should be updated to include BUS 301 and 401
- Footnote 5 has a spelling error: one instead of on

I will ask Deb Forgacs to assist me with these revisions, as she assisted me with the

proposal input in the first place. I've copied her so that she knows about this feedback.

- The last sentence of the first paragraph of the section on "Justification for Proposal Change" reads "In alignment with all other colleges outside of LAS, we would like to reduce our language requirement to the third level of a single language. " Can you clarify "the third level"? Perhaps rewording to something like "three successive semesters of" or completion of at least one 200 level course... or whatever is appropriate.

The "third level" language is mirroring the Catalog here:

<http://catalog.illinois.edu/general-information/degree-general-education-requirements/>

and we could link to that page instead. The semesters do not need to be successive but the levels do, so the wording gets tricky very quickly. 200 level courses are also not specifically required by any college for general education requirements.

- Maybe consider adding a note in the catalog that CS 105 fulfills one of the QR requirements, since it is mentioned in the proposal?

I can also ask Deb to assist me with this one.

Subject: Questions about EP 21.054

Kevin and Jana

I am reaching out to you on behalf of Education Policy Committee. I am the sub-committee chair in charge of reviewing your proposal.

Overall, we are very supportive of the proposal and it appears well written. My sub-committee had a few questions that came up when reviewing your proposal. I have summarized them below

Elements that we had concerns about that would benefit from discussion or documentation

- We did not see a letter from Math. The changes impact math both in a reduction of students taking Math 234 and a projected increase in students taking other Math courses. Can you provide documentation (a letter or email) with discussion and approval from math?
- Are there any admissions ramifications due to this change and does that need to be noted in the proposal? For instance, MATH 234 may have been required for inter-college or off-campus transfer students.

Minor notes/corrections that can be made quickly for resubmission

- Footnote 2: This seems like it should be updated to include BUS 301 and 401
- Footnote 5 has a spelling error: one instead of on
- The last sentence of the first paragraph of the section on "Justification for Proposal Change" reads "In alignment with all other colleges outside of LAS, we would like to reduce our language requirement to the third level of a single language. " Can you clarify "the third level"? Perhaps rewording to something like "three successive semesters of" or completion of at least one 200 level course... or whatever is appropriate.
- Maybe consider adding a note in the catalog that CS 105 fulfills one of the QR requirements, since it is mentioned in the proposal?

Revise the Bachelor of Science in Information Systems in the Gies College of Business

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This proposal (key 99) is related to the Business Core (Key 558).

Program Justification

Provide a brief description of what changes are being made to the program.

1. Added the Business Core CIM P record requirements, which included the University Composition Requirements, General Education Requirements, and Business Core Requirements, into the major record.
2. Fixed error in Business Core from a 2021 revision, which was to add a requirement, Business Core Math. The MATH and STAT courses that comprise the Business Core Math are approved as Quantitative Reasoning courses within the General Education program. While it appears that the total hours for the Business Core are increasing, since the course list being added can be counted towards the Quantitative Reasoning

Gen Ed requirement, the net sum change of total hours for the program is zero (total hours remain unchanged for the degree program).

3. Removed the footnotes.

4. Revised the General Education structure in Gies College of Business Undergraduate programs to align with the campus structure for General Education Requirements. As such, we removed the specific behavioral science course requirement to fulfill the Social & Behavioral Science requirements. This now allows students to complete the Social & Behavioral Science requirements with the required ECON 102 and ECON 103 coursework. We also removed the additional 200 level course requirement and the requirement for a course to be taken in each sub-category in the Humanities & the Arts. This now allows for students to complete the Humanities & the Arts requirement with just 2 courses that satisfy this general education category at any level and in either Humanities & the Arts sub-category. We have included letters of support from the College of ACES, College of AHS, College of Education, College of Media, College of FAA, and College of LAS. In reviewing Gies students course selection for the additional Behavioral Science Gen Ed and Humanities Gen Ed in our current structure, these colleges would be most impacted by the removal of these requirements that are above and beyond what campus requires for general education.

5. Removed comments regarding prerequisites next to several major courses.

6. Deleted BADM 395 Sec. ID because it no longer exists.

7. Changed course numbers for BADM 395 Secs. BDI, ISM, and IOP with updated permanent numbers BADM 358, 370, and 372, respectively.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. For increased transparency, clarity, and overall aesthetic in the Academic Catalog, we added the Business Core CIM P record requirements into the major.
2. In Spring 2021, as part of the CIM P Business Core revision, we added additional course options to the Business Core Math instead of just requiring MATH 234. The letter of support from MATH was attached in the EP documentation section in the historical CIM P record for the Business Core CIM P [EP.21.056], along with an Appendix that included the courses to be added to the Program of Study. However, in error, we didn't add the courses to the Program of Study itself and thus it appeared as if we were removing the Business Core Math requirement. We are now correcting that error to add in the Business Core Math requirement. We have attached the letter of support from MATH from that 2021 revision, as well as a letter of support from STAT that we didn't originally have at the time of the 2021 revision.
3. We removed the footnotes for accessibility, per campus request. By removing the footnotes, we have provided additional clarity to the program of study table itself. Since the Business Core Math requirement includes courses that have Quantitative Reasoning General Education certification, we wanted to ensure that was obvious to the students.
4. We revised the general education requirements to be aligned with the campus requirements. As campus the campus general education requirements evolved and were changed (ex. 2017 revision), Gies College of Business did not change all of our requirements to be aligned with the new structure and expectations. For example, Gies College of Business currently requires students to take a behavioral science general education course, despite two courses in the Business Core requirements being coded as social sciences general education (ECON 102 and ECON 103). Since campus requires only 2 courses (6 hours) in the Social & Behavioral Science category, with no restrictions on which sub-categories (Social Science or Behavioral Science) to be used to satisfy the 2 courses, we are removing the need for Gies students to complete a Behavioral Science requirement and allowing the Business Core courses to satisfy the Social & Behavioral Science Gen Ed Category. The other category that is not aligned with the campus structure and expectations for general education is in the Humanities & the Arts Category. The campus structure for this category is students must complete 2 courses (6 hours) of Humanities & the Arts general education courses with no restrictions on which sub-categories (Literature and the Arts and Historical Philosophical Perspectives) or level of class (100 – 400 level) need to be selected to satisfy the category. Currently, Gies requires students to complete 3 courses in the Humanities & the Arts Gen Ed category, with 1 course in both sub-categories (Literature & the Arts and Historical Philosophical Perspectives) and 1 course at the 200-level or above. We are removing the 200-level requirement and allowing students to complete the Humanities & the Arts Gen Ed category with 2 courses from either sub-category, which will align with the campus expectation.
5. The comments regarding prerequisites were removed because it isn't in line with campus standards, as students can click on the courses in the Academic Catalog to view any course specific information such as prerequisites.
6. Deleted BADM 395 Sec. ID because it no longer exists.
7. Changed course numbers for BADM 395 Secs. BDI, ISM, and IOP with updated permanent numbers BADM 358, 370, and 372, respectively.
8. Breakout of how a student gets 40 hours of 300-, 400- level coursework and/or 200 level with 2 or more preq

- a. All Gies UG students have 24 required upper division hours in the business core:
 - i. ACCY 202 – prereq of ACCY 201 which has a prereq of ECON 102/103 – 3 hours
 - ii. BUS 301 – 3 hours
 - iii. BUS 401 – 3 hours
 - iv. BADM 211 – prereq of BADM 210 which has a prereq of CS 105 – 3 hours
 - v. BADM 300 – 3 hours
 - vi. BADM 310 – 3 hours
 - vii. BADM 320 – 3 hours
 - viii. BADM 449 – 3 hours
- b. The Information Systems students have an additional 27 hours of required upper division courses.
 - i. BADM 350 - 3 hours
 - ii. BADM 352 - 3 hours
 - iii. BADM 353 - 3 hours
 - iv. Six Major Electives at the 300- and 400-level - 18 hours

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Use critical thinking and problem-solving skills to provide solutions to businesses that leverage information technology.
Understand the intersection of technology and businesses, and recommend solutions to improve business performance and efficiency. ~~regular evaluations and surveys to determine student/industry satisfaction~~

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

The Information Systems major prepares students to comfortably navigate through the challenges posed by the new-age organizations and society that are increasingly getting digitized.

Students learn about the design, implementation, and protection of systems and technology to address the information processing needs of an organization, and provide data and information for managerial decision-making. IS majors take both, technology and business courses which equip them with the required skill-set to be able to design, develop and deploy computer and software-based solutions in order to help businesses attain their tactical and strategic objectives.

Some of the key courses taken by IS majors include information technology for networked organizations, systems analysis and design, and database management. Because computers and software are used in all functional areas of business today, IS majors may choose to take additional courses in data analytics, information security/cyber-security, project management, human-computer interaction, programming, and social media applications to strengthen their resume, gain a wider exposure to domains supported by IS specialists, and prepare themselves to face the challenges in the technology-driven business world of today. IS majors will have the required knowledge and skill-set to make decisions about the selection and implementation of information systems/information technology, be a liaison between non-technical managers, computer programmers, and technical managers, assume a wide variety of roles requiring computer-based solutions, and generally be business leaders of the digital era.

Statement for
Programs of
Study Catalog

Graduation Requirements

Minimum hours required for graduation: 124 hours.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in the program.

Program Reviewer Comments

Dear Associate Dean Jackson,

Thank you for your message. I am writing to confirm that the Department of Mathematics is aware of this proposed change to the College of Business undergraduate curriculum.

Sincerely,

Jeremy Tyson
Professor and Chair
Department of Mathematics
University of Illinois at Urbana-Champaign

From: Jackson, Kevin <kjack@illinois.edu>
Sent: Tuesday, February 23, 2021 9:39 AM
To: Tyson, Jeremy <tyson@illinois.edu>
Cc: Lithgow, Jana <jlithgow@illinois.edu>
Subject: Reply Required for Curriculum Modification Impacting your Department

Dear Dr. Tyson,

The Gies College of Business seeks to modify the core curriculum in order to increase access and equity for our students. As part of our proposal, we no longer are requiring the MATH 234 course, but instead are requiring two quantitative reasoning courses similar to most other colleges. One quantitative reasoning requirement can be met through CS 105, a business core requirement. For the second QR requirement, students will select from among the courses included in Appendix 1, attached. We will recommend that students take the math course that they are placed into via the ALEKS placement test, which means that many students will still take MATH 234 in the spring semester of their freshman year. Requiring quantitative reasoning courses aligns Gies requirements with other colleges' requirements and allows us to reduce the adverse impact on students from high schools with fewer resources and who do not need calculus as a prerequisite for any other course.

We are unsure what impact the change will have on enrollment for the 2021/2022 academic year, as we expect many students to be placed in MATH 234 by their ALEKS placement test. In order for the modification to proceed, we need an indication from your department that you are aware of the changes. Would you please provide that in a response to this email?

Thank you for your prompt attention to this matter.

Sincerely,
Kevin Jackson

RE: Gies College of Business Undergraduate General Education Requirements Structure

Dear Dr. Scott and Cory,

Thank you for informing us of the proposed changes your college is making to the structure of your general education requirements. I understand that this proposal's purpose is to align the college structure of general education requirements with the current campus structure. Specifically, this proposal will make it so that Gies Undergraduate Students are no longer required to take a third humanities general education course at the 200 level or above and an additional behavioral science general education beyond the six hours of Social & Behavioral Sciences general education coursework required for Gies Undergraduate Students through our Business Core (Microeconomics and Macroeconomics). Gies Undergraduate Students will still be required to complete all campus general education requirements, and we welcome your students in Gies to complete the required general education categories through the courses offered in our college.

Sincerely,

A handwritten signature in black ink that reads "Kathryn E. Clark".

RE: Gies College of Business Undergraduate General Education Requirements Structure

Dear Nehemiah and Cory,

Thank you for informing us of the proposed changes your college is making to the structure of your general education requirements. I understand that this proposal's purpose is to align the college structure of general education requirements with the current campus structure. Your proposal will make it so that Gies Undergraduate Students are no longer required to take a course from the Behavioral Sciences subcategory. To continue to satisfy the campus Social & Behavioral Sciences requirement (6 hours), students will be taking ECON 102 and ECON 103 as part of the Business Core Requirements. These two social science courses are essential to your business core structure and their inclusion in your programs of study attests to this. Your proposal also brings in alignment your Humanities & the Arts general education requirement with that of campus, requiring 6 hours in this category instead of three course (9 hours) representing both Literature & the Arts and Historical & Philosophical Perspectives subcategories, of which one course in either subcategory must be at the 200-level or above. Gies Undergraduate Students will still be required to complete all campus general education requirements, and we welcome your students to complete the required general education categories through the courses offered in our college.

Sincerely,

Venetria K. Patton

FAA Letter of Support- Gies General Education Proposal

I write on behalf of the College of Fine and Applied Arts to offer our support for the proposed changes to the Gies General Education requirements, effective Fall 2024.

The revisions to eliminate the two additional general education courses beyond the campus requirement clearly serves the intended purposes of alignment and access. Removing one Humanities & the Arts course and one Behavioral Science course from the business major requirements will have a minimal impact on the College of Fine and Applied Arts. We also would support the opportunity for business majors to have additional flexibility to seek out campus minors of interests.

Therefore, we have no concerns with the proposal and offer our support for the elimination of additional general education requirements for business majors.

Sincerely,

Nicole Turner, Ph.D.

Appendix 1

In consultation with the Department of Mathematics and the Department of Statistics, Gies College of Business will maintain a list of courses that are appropriate for Quantitative Reasoning requirements.

All Gies College of Business students are required to take CS 105 – Introduction to Computing: Non-Technical, which satisfies the Quantitative Reasoning (QR) 1 requirement. Students may choose from the list below to fulfill the second QR requirement. Students with AP, IB, or A-level credit, or dual enrollment transfer credit for an equivalent course, will not need to take an additional QR course.

List of Courses:

- MATH 115 – Preparation for Calculus
- MATH 220 – Calculus
- MATH 221 – Calculus I
- MATH 231 – Calculus II
- MATH 234 – Calculus for Business (recommended for all students with an ALEKS score 65 or higher)
- STAT 100 – Statistics

Good Morning Professor Li and Professor Douglas,

I hope this message finds you well and that the Fall semester is running smoothly for you and the STAT department!

I'm writing to you in hopes that you may be able to help me with a project that I am working on with Brooke Newell, Director of Educational Programs in the Provost Office. As you may be aware, Gies College of Business revised our Business Core Curriculum effective FA21. This revision including expanding the offerings of courses to satisfy the Business Core Math requirement from Calculus or Business Calculus to include Pre-Calculus and STAT 100. Unfortunately, at the time this revision was approved, there was a mistake in not editing the necessary pages in the CIM/P system, so we are now trying to do that now.

In looking through all of the documents that were included with this past revision, we could not find any letter of support from the STAT Department Head for this revision. We were able to find one from the MATH Department that I've attached to this email. I've also included the Core Revision Appendix that indicates that the MATH and STAT department were consulted about this revision.

Would it be possible to receive a letter of support from the STAT Department that we can use as we try to rectify this oversight that occurred at the time of approval back in FA21? This could simply be a reply to this email or could be a letter on your STAT Department letterhead.

If you have any questions, please do not hesitate to contact me.

Take care,

Cory

Program Description and Justification

Justification for proposal change:

The Gies College of Business seeks to modify the core curriculum in order to increase access and equity for our students. The Language Other than English requirement was originally established to create basic language proficiency for Gies graduates as a competitive edge in an increasingly global marketplace. However, advances in technology have resulted in less need for increased language proficiency. Additionally, students who attend high schools with fewer resources are most adversely impacted by this requirement, as they are not able to complete their language requirements in high school. They are also less likely to enter the university with AP or dual enrollment credits. In alignment with all other colleges outside of LAS, we would like to reduce our language requirement to the third level of a single language (see <http://catalog.illinois.edu/general-information/degree-general-education-requirements/>).

The other revision in this proposal is removal of the specific MATH 234 course and instead requiring two quantitative reasoning courses. One quantitative reasoning requirement can be met through CS 105, a business core requirement. The second quantitative reasoning requirement will be met through a list of courses maintained by the Office of Undergraduate Affairs in consultation with the affected departments (see attached). Requiring quantitative reasoning courses aligns Gies requirements with other colleges' requirements and allows us to reduce the adverse impact

on students from high schools with fewer resources and who do not need calculus as a prerequisite for any other course. By maintaining a list of approved courses with the Office of Undergraduate Affairs, we can meet this objective and give the affected departments more certainty about possible Gies student course enrollments. The Math Department has approved this plan (see attached email from Dr. Jeremy Tyson of February 24, 2021 in EP Documentation section).

The Office of Undergraduate Affairs has worked in partnership with the three Gies academic departments: Accountancy, Business Administration, and Finance, as well as by Dean Jeffrey Brown, to move forward with this proposal. The heads of all three departments and Dean Brown have approved these proposed changes.

FIN 221	Corporate Finance	3
MATH 234	Calculus for Business I ³	4
Total Hours		54

- 1 For a list of the specific courses that meet this requirement, see the college Office of Undergraduate Affairs in 1055 Business Instructional Facility or see the Course Explorer for a list of approved general education courses.
- 2 BUS 101, BUS 201, BUS 301 and BUS 401 are required for all Gies College of Business students. Students who enter the College their first year take each sequential course every fall. Inter-College transfer students take BUS 301 and BUS 401 in their sophomore year. Off-campus transfer students take BUS 101 and BUS 201 in their junior year.
- 3 MATH 220 or MATH 221 may be substituted for MATH 234. (See college mathematics requirement above.)
- 4 Three courses in the Humanities & the Arts area are required and students must complete at least one course in the Literature & the Arts and Historical & Perspectives subcategories. At least one of the courses must be a 200 or higher level course.
- 5 Two courses in the Natural Sciences & Technology area are required. It is strongly recommended that students complete one course in the Physical Sciences and Life Sciences subcategories.
- 6 This course includes limited voluntary participation as a subject in experiments.
- 7 CS 105 fulfills a Quantitative Reasoning I requirement.

Champaign, IL 61820

Appendix 1

In consultation with the Department of Mathematics and the Department of Statistics, Gies College of Business will maintain a list of courses that are appropriate for Quantitative Reasoning requirements.

All Gies College of Business students are required to take CS 105 – Introduction to Computing: Non-Technical, which satisfies the Quantitative Reasoning (QR) 1 requirement. Students may choose from the list below to fulfill the second QR requirement. Students with AP, IB, or A-level credit, or dual enrollment transfer credit for an equivalent course, will not need to take an additional QR course.

List of Courses:

- MATH 115 – Preparation for Calculus
- MATH 220 – Calculus
- MATH 221 – Calculus I
- MATH 231 – Calculus II
- MATH 234 – Calculus for Business (recommended for all students with an ALEKS score 65 or higher)
- STAT 100 – Statistics

Dear Associate Dean Jackson,

Thank you for your message. I am writing to confirm that the Department of Mathematics is aware of this proposed change to the College of Business undergraduate curriculum.

Sincerely,

Jeremy Tyson
Professor and Chair
Department of Mathematics
University of Illinois at Urbana-Champaign

From: Jackson, Kevin <kjack@illinois.edu>
Sent: Tuesday, February 23, 2021 9:39 AM
To: Tyson, Jeremy <tyson@illinois.edu>
Cc: Lithgow, Jana <jlithgow@illinois.edu>
Subject: Reply Required for Curriculum Modification Impacting your Department

Dear Dr. Tyson,

The Gies College of Business seeks to modify the core curriculum in order to increase access and equity for our students. As part of our proposal, we no longer are requiring the MATH 234 course, but instead are requiring two quantitative reasoning courses similar to most other colleges. One quantitative reasoning requirement can be met through CS 105, a business core requirement. For the second QR requirement, students will select from among the courses included in Appendix 1, attached. We will recommend that students take the math course that they are placed into via the ALEKS placement test, which means that many students will still take MATH 234 in the spring semester of their freshman year. Requiring quantitative reasoning courses aligns Gies requirements with other colleges' requirements and allows us to reduce the adverse impact on students from high schools with fewer resources and who do not need calculus as a prerequisite for any other course.

We are unsure what impact the change will have on enrollment for the 2021/2022 academic year, as we expect many students to be placed in MATH 234 by their ALEKS placement test. In order for the modification to proceed, we need an indication from your department that you are aware of the changes. Would you please provide that in a response to this email?

Thank you for your prompt attention to this matter.

Sincerely,
Kevin Jackson

Kevin E. Jackson, Ph.D.

Subject: RE: Questions about EP 21.054

Hi Jenny,

Thanks for the follow up – I was unexpectedly out of the office late last week and will be out this entire week as well. I apologize for the delay in response. I've added comments below your points, and I thank you for your feedback on this proposal. Please let me know if you need anything else from me besides the edits/feedback mentioned below.

Elements that we had concerns about that would benefit from discussion or documentation

- We did not see a letter from Math. The changes impact math both in a reduction of students taking Math 234 and a projected increase in students taking other Math courses. Can you provide documentation (a letter or email) with discussion and approval from math?

I was told that we were not likely to need a letter from Math for this change, so this conversation has not yet happened. I will initiate this soon – I will be inaccessible tomorrow and Tuesday ([REDACTED]) but will work on this as I'm able this week.

- Are there any admissions ramifications due to this change and does that need to be noted in the proposal? For instance, MATH 234 may have been required for inter-college or off-campus transfer students.

It is my understanding that, based on the last several rounds of core curriculum changes, our Admissions team works with campus and the community colleges to update requirements and grandfather in students who have completed prior requirements. MATH 234 will still meet our new core curriculum requirements (as proposed) and will not cause any student harm.

Minor notes/corrections that can be made quickly for resubmission

- Footnote 2: This seems like it should be updated to include BUS 301 and 401
- Footnote 5 has a spelling error: one instead of on

I will ask Deb Forgacs to assist me with these revisions, as she assisted me with the

proposal input in the first place. I've copied her so that she knows about this feedback.

- The last sentence of the first paragraph of the section on "Justification for Proposal Change" reads "In alignment with all other colleges outside of LAS, we would like to reduce our language requirement to the third level of a single language. " Can you clarify "the third level"? Perhaps rewording to something like "three successive semesters of" or completion of at least one 200 level course... or whatever is appropriate.

The "third level" language is mirroring the Catalog here:

<http://catalog.illinois.edu/general-information/degree-general-education-requirements/>

and we could link to that page instead. The semesters do not need to be successive but the levels do, so the wording gets tricky very quickly. 200 level courses are also not specifically required by any college for general education requirements.

- Maybe consider adding a note in the catalog that CS 105 fulfills one of the QR requirements, since it is mentioned in the proposal?

I can also ask Deb to assist me with this one.

Minimum Total Hours		57

³ For a list of specific courses that meet this requirement, see the college Office of Undergraduate Affairs in 1055 Business Instructional Facility or see the Course Explorer for a list of approved general education courses.

² BUS 101, BUS 201, BUS 301 and BUS 401 are required for all Gies College of Business students. Students who enter the College their first year take each sequential course every fall. Inter-College transfer students take BUS 301 and BUS 401 in their sophomore year. Off-campus transfer students take BUS 101 and BUS 201 in their junior year.

⁴ Three courses in the Humanities & the Arts area are required and students must complete at least one course in the Literature & the Arts and Historical & Perspectives subcategories. At least one of the courses must be a 200 or higher level course.

⁵ Two courses in the Natural Sciences & Technology area are required. It is strongly recommended that students complete one course in the Physical Sciences and Life Sciences subcategories.

⁶ This course includes limited voluntary participation as a subject in experiments.

⁷ CS 105 fulfills a Quantitative Reasoning I requirement.

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

Brian Fulton, bfulton@illinois.edu

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Science in Operations Management in the Gies College of Business

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This proposal (key 461) is related to the Business Core (Key 558).

Program Justification

Provide a brief description of what changes are being made to the program.

1. Added the Business Core CIM P record requirements, which included the University Composition Requirements, General Education Requirements, and Business Core Requirements, into the major record.
2. Fixed error in Business Core from a 2021 revision, which was to add a requirement, Business Core Math. The MATH and STAT courses that comprise the Business Core Math are approved as Quantitative Reasoning courses within the General Education program. While it appears that the total hours for the Business Core are increasing, since the course list being added can be counted towards the Quantitative Reasoning Gen Ed requirement, the net sum change of total hours for the program is zero (total hours remain unchanged for the degree program).
3. Removed the footnotes.
4. Revised the General Education structure in Gies College of Business Undergraduate programs to align with the campus structure for General Education Requirements. As such, we removed the specific behavioral science course requirement to fulfill the Social & Behavioral Science requirements. This now allows students to complete the Social & Behavioral Science requirements with the required ECON 102 and ECON 103 coursework. We also removed the additional 200 level course requirement and the requirement for a course to be taken in each sub-category in the Humanities & the Arts. This now allows for students to complete the Humanities & the Arts requirement with just 2 courses that satisfy this general education category at any level and in either Humanities & the Arts sub-category. We have included letters of support from the College of ACES, College of AHS, College of Education, College of Media, College of FAA, and College of LAS. In reviewing Gies students course selection for the additional Behavioral Science Gen Ed and Humanities Gen Ed in our current structure, these colleges would be most impacted by the removal of these requirements that are above and beyond what campus requires for general education.
5. Removed comments regarding prerequisites next to several major courses.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. For increased transparency, clarity, and overall aesthetic in the Academic Catalog, we added the Business Core CIM P record requirements into the major.
2. In Spring 2021, as part of the CIM P Business Core revision, we added additional course options to the Business Core Math instead of just requiring MATH 234. The letter of support from MATH was attached in the EP documentation section in the historical CIM P record for the Business Core CIM P [EP.21.056], along with an Appendix that included the courses to be added to the Program of Study. However, in error, we didn't add the courses to the Program of Study itself and thus it appeared as if we were removing the Business Core Math requirement. We are now correcting that error to add in the Business Core Math requirement. We have attached the letter of support from MATH from that 2021 revision, as well as a letter of support from STAT that we didn't originally have at the time of the 2021 revision.
3. We removed the footnotes for accessibility, per campus request. By removing the footnotes, we have provided additional clarity to the program of study table itself. Since the Business Core Math requirement includes courses that have Quantitative Reasoning General Education certification, we wanted to ensure that was obvious to the students.
4. We revised the general education requirements to be aligned with the campus requirements. As campus the campus general education requirements evolved and were changed (ex. 2017 revision), Gies College of Business did not change all of our requirements to be aligned with the new structure and expectations. For example, Gies College of Business currently requires students to take a behavioral science general education course, despite two courses in the Business Core requirements being coded as social sciences general education (ECON 102 and ECON 103). Since campus requires only 2 courses (6 hours) in the Social & Behavioral Science category, with no restrictions on which sub-categories (Social Science or Behavioral Science) to be used to satisfy the 2 courses, we are removing the need for Gies students to complete a Behavioral Science requirement and allowing the Business Core courses to satisfy the Social & Behavioral Science Gen Ed Category. The other category that is not aligned with the campus structure and expectations for general education is in the Humanities & the Arts Category. The campus structure for this category is students must complete 2 courses (6 hours) of Humanities & the Arts general education courses with no restrictions on which sub-categories (Literature and the Arts and Historical Philosophical Perspectives) or level of class (100 – 400 level) need to be selected to satisfy the category. Currently, Gies requires students to complete 3 courses in the Humanities & the Arts Gen Ed category, with 1 course in both sub-categories (Literature & the Arts and Historical Philosophical Perspectives) and 1 course at the 200-level or above. We are removing the 200-level requirement and allowing students to complete the Humanities & the Arts Gen Ed category with 2 courses from either sub-category, which will align with the campus expectation.
5. The comments regarding prerequisites were removed because it isn't in line with campus standards, as students can click on the courses in the Academic Catalog to view any course specific information such as prerequisites.
6. Breakout of how a student gets 40 hours of 300-, 400- level coursework and/or 200 level with 2 or more preq
 - a. All Gies UG students have 24 required upper division hours in the business core:
 - i. ACCY 202 – prereq of ACCY 201 which has a prereq of ECON 102/103 – 3 hours
 - ii. BUS 301 – 3 hours

- iii. BUS 401 – 3 hours
- iv. BADM 211 - prereq of CS 105 and BADM 210 - 3 hours
- v. BADM 300 – 3 hours
- vi. BADM 310 – 3 hours
- vii. BADM 320 – 3 hours
- viii. BADM 449 – 3 hours
- b. The Operations Management students have an additional 27 hours of required upper division courses.
 - i. BADM 335 - 3 hours
 - ii. BADM 350 - 3 hours
 - iii. BADM 374 - 3 hours
 - iv. BADM 375 - 3 hours
 - v. BADM 377 - 3 hours
 - vi. BADM 379 - 3 hours
 - vii. Three Major Electives at the 300- and 400-level - 9 hours

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Disciplinary Competence: Students demonstrate an understanding of fundamental operations concepts, key principles of its management, and relevant analysis approaches.

Critical Thinking: Students demonstrate the ability to understand a real-world unstructured problem, and gather necessary information and data to formulate into a structured problem.

Problem Solving: Students demonstrate ability to develop quantitative and qualitative analysis framework and solution methods, and appropriately implement them to obtain meaningful solutions.

Decision making: Students demonstrate ability to identify strengths and weaknesses of alternative solutions and obtain relevant managerial insights.

Communication: Students express themselves logically, persuasively and succinctly & using correct grammar and composition when communicating in oral or written form.

~~The program assessment is done every year and checked for the progress made on the learning objectives mainly related to skill development, knowledge acquisition, and professional attributes. Some of the ways the assessment is done is through measuring program graduation rates, employer data, salary data, etc.~~

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

The Operations Management (OM) Major prepares students for careers in manufacturing and service management, operations strategy consulting, purchasing and supply management, project management, and quality management. OM professionals work with most other units in any organization, more so with engineering, human resource management, information systems, and marketing. The OM curriculum focuses on analytical decision-making, logistics, new product development, operations strategy, process improvement, project management, quality control, and supply chain management. Students are trained in ways of developing, making, and delivering goods and services efficiently and effectively – generating value by satisfying ever-changing customer needs while improving profitability.

Program Features

Academic Level Undergraduate

Does this major have transcribed concentrations? No

What is the typical time to completion of this program?
4 years

What are the minimum Total Credit Hours required for this program?
124

CIP Code 520205 - Operations Management and Supervision.

Is This a Teacher Certification Program?
No

Will specialized accreditation be sought for this program?
No

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Admission Requirements

Desired Effective Admissions Term

Is this revision a change to the admission status of the program?

No

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

These changes will not impact enrollment.

Estimated Annual Number of Degrees Awarded

Year One Estimate

5th Year Estimate (or when fully implemented)

What is the matriculation term for this program?

Fall

Budget

Are there budgetary implications for this revision?

No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

Will the unit need to seek campus or other external resources?

No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base

Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

[Gies College of Business differential rate](#)

Are you seeking a change in the tuition rate or differential for this program?

No

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

These changes will not impact our faculty resources.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this revision.

Appendix 1

In consultation with the Department of Mathematics and the Department of Statistics, Gies College of Business will maintain a list of courses that are appropriate for Quantitative Reasoning requirements.

All Gies College of Business students are required to take CS 105 – Introduction to Computing: Non-Technical, which satisfies the Quantitative Reasoning (QR) 1 requirement. Students may choose from the list below to fulfill the second QR requirement. Students with AP, IB, or A-level credit, or dual enrollment transfer credit for an equivalent course, will not need to take an additional QR course.

List of Courses:

- MATH 115 – Preparation for Calculus
- MATH 220 – Calculus
- MATH 221 – Calculus I
- MATH 231 – Calculus II
- MATH 234 – Calculus for Business (recommended for all students with an ALEKS score 65 or higher)
- STAT 100 – Statistics

Subject: Reply Required for Curriculum Modification Impacting your Department

Dear Dr. Tyson,

The Gies College of Business seeks to modify the core curriculum in order to increase access and equity for our students. As part of our proposal, we no longer are requiring the MATH 234 course, but instead are requiring two quantitative reasoning courses similar to most other colleges. One quantitative reasoning requirement can be met through CS 105, a business core requirement. For the second QR requirement, students will select from among the courses included in Appendix 1, attached. We will recommend that students take the math course that they are placed into via the ALEKS placement test, which means that many students will still take MATH 234 in the spring semester of their freshman year. Requiring quantitative reasoning courses aligns Gies requirements with other colleges' requirements and allows us to reduce the adverse impact on students from high schools with fewer resources and who do not need calculus as a prerequisite for any other course.

We are unsure what impact the change will have on enrollment for the 2021/2022 academic year, as we expect many students to be placed in MATH 234 by their ALEKS placement test. In order for the modification to proceed, we need an indication from your department that you are aware of the changes. Would you please provide that in a response to this email?

Thank you for your prompt attention to this matter.

Sincerely,
Kevin Jackson

Subject: BUS Core Math revision

Good Morning Professor Li and Professor Douglas,

I hope this message finds you well and that the Fall semester is running smoothly for you and the STAT department!

I'm writing to you in hopes that you may be able to help me with a project that I am working on with Brooke Newell, Director of Educational Programs in the Provost Office. As you may be aware, Gies College of Business revised our Business Core Curriculum effective FA21. This revision including expanding the offerings of courses to satisfy the Business Core Math requirement from Calculus or Business Calculus to include Pre-Calculus and STAT 100. Unfortunately, at the time this revision was approved, there was a mistake in not editing the necessary pages in the CIM/P system, so we are now trying to do that now.

In looking through all of the documents that were included with this past revision, we could not find any letter of support from the STAT Department Head for this revision. We were able to find one from the MATH Department that I've attached to this email. I've also included the Core Revision Appendix that indicates that the MATH and STAT department were consulted about this revision.

Would it be possible to receive a letter of support from the STAT Department that we can use as we try to rectify this oversight that occurred at the time of approval back in FA21? This could simply be a reply to this email or could be a letter on your STAT Department letterhead.

If you have any questions, please do not hesitate to contact me.

Take care,

Cory

RE: Gies College of Business Undergraduate General Education Requirements Structure

Dear Dr. Scott and Cory,

Thank you for informing us of the proposed changes your college is making to the structure of your general education requirements. I understand that this proposal's purpose is to align the college structure of general education requirements with the current campus structure. Specifically, this proposal will make it so that Gies Undergraduate Students are no longer required to take a third humanities general education course at the 200 level or above and an additional behavioral science general education beyond the six hours of Social & Behavioral Sciences general education coursework required for Gies Undergraduate Students through our Business Core (Microeconomics and Macroeconomics). Gies Undergraduate Students will still be required to complete all campus general education requirements, and we welcome your students in Gies to complete the required general education categories through the courses offered in the College of Education.

Sincerely,

A handwritten signature in black ink that reads 'Sarah J. McCarthy'.

RE: Gies College of Business Undergraduate General Education Requirements Structure

Dear Nehemiah and Cory,

Thank you for informing us of the proposed changes your college is making to the structure of your general education requirements. I understand that this proposal's purpose is to align the college structure of general education requirements with the current campus structure. Your proposal will make it so that Gies Undergraduate Students are no longer required to take a course from the Behavioral Sciences subcategory. To continue to satisfy the campus Social & Behavioral Sciences requirement (6 hours), students will be taking ECON 102 and ECON 103 as part of the Business Core Requirements. These two social science courses are essential to your business core structure and their inclusion in your programs of study attests to this. Your proposal also brings in alignment your Humanities & the Arts general education requirement with that of campus, requiring 6 hours in this category instead of three course (9 hours) representing both Literature & the Arts and Historical & Philosophical Perspectives subcategories, of which one course in either subcategory must be at the 200-level or above. Gies Undergraduate Students will still be required to complete all campus general education requirements, and we welcome your students to complete the required general education categories through the courses offered in our college.

Sincerely,

Venetria K. Patton

FAA Letter of Support- Gies General Education Proposal

I write on behalf of the College of Fine and Applied Arts to offer our support for the proposed changes to the Gies General Education requirements, effective Fall 2024.

The revisions to eliminate the two additional general education courses beyond the campus requirement clearly serves the intended purposes of alignment and access. Removing one Humanities & the Arts course and one Behavioral Science course from the business major requirements will have a minimal impact on the College of Fine and Applied Arts. We also would support the opportunity for business majors to have additional flexibility to seek out campus minors of interests.

Therefore, we have no concerns with the proposal and offer our support for the elimination of additional general education requirements for business majors.

Sincerely,

Nicole Turner, Ph.D.

Program Description and Justification

Justification for proposal change:

The Gies College of Business seeks to modify the core curriculum in order to increase access and equity for our students. The Language Other than English requirement was originally established to create basic language proficiency for Gies graduates as a competitive edge in an increasingly global marketplace. However, advances in technology have resulted in less need for increased language proficiency. Additionally, students who attend high schools with fewer resources are most adversely impacted by this requirement, as they are not able to complete their language requirements in high school. They are also less likely to enter the university with AP or dual enrollment credits. In alignment with all other colleges outside of LAS, we would like to reduce our language requirement to the third level of a single language (see <http://catalog.illinois.edu/general-information/degree-general-education-requirements/>).

The other revision in this proposal is removal of the specific MATH 234 course and instead requiring two quantitative reasoning courses. One quantitative reasoning requirement can be met through CS 105, a business core requirement. The second quantitative reasoning requirement will be met through a list of courses maintained by the Office of Undergraduate Affairs in consultation with the affected departments (see attached). Requiring quantitative reasoning courses aligns Gies requirements with other colleges' requirements and allows us to reduce the adverse impact

on students from high schools with fewer resources and who do not need calculus as a prerequisite for any other course. By maintaining a list of approved courses with the Office of Undergraduate Affairs, we can meet this objective and give the affected departments more certainty about possible Gies student course enrollments. The Math Department has approved this plan (see attached email from Dr. Jeremy Tyson of February 24, 2021 in EP Documentation section).

The Office of Undergraduate Affairs has worked in partnership with the three Gies academic departments: Accountancy, Business Administration, and Finance, as well as by Dean Jeffrey Brown, to move forward with this proposal. The heads of all three departments and Dean Brown have approved these proposed changes.

Champaign, IL 61820

Appendix 1

In consultation with the Department of Mathematics and the Department of Statistics, Gies College of Business will maintain a list of courses that are appropriate for Quantitative Reasoning requirements.

All Gies College of Business students are required to take CS 105 – Introduction to Computing: Non-Technical, which satisfies the Quantitative Reasoning (QR) 1 requirement. Students may choose from the list below to fulfill the second QR requirement. Students with AP, IB, or A-level credit, or dual enrollment transfer credit for an equivalent course, will not need to take an additional QR course.

List of Courses:

- MATH 115 – Preparation for Calculus
- MATH 220 – Calculus
- MATH 221 – Calculus I
- MATH 231 – Calculus II
- MATH 234 – Calculus for Business (recommended for all students with an ALEKS score 65 or higher)
- STAT 100 – Statistics

Subject: Reply Required for Curriculum Modification Impacting your Department

Dear Dr. Tyson,

The Gies College of Business seeks to modify the core curriculum in order to increase access and equity for our students. As part of our proposal, we no longer are requiring the MATH 234 course, but instead are requiring two quantitative reasoning courses similar to most other colleges. One quantitative reasoning requirement can be met through CS 105, a business core requirement. For the second QR requirement, students will select from among the courses included in Appendix 1, attached. We will recommend that students take the math course that they are placed into via the ALEKS placement test, which means that many students will still take MATH 234 in the spring semester of their freshman year. Requiring quantitative reasoning courses aligns Gies requirements with other colleges' requirements and allows us to reduce the adverse impact on students from high schools with fewer resources and who do not need calculus as a prerequisite for any other course.

We are unsure what impact the change will have on enrollment for the 2021/2022 academic year, as we expect many students to be placed in MATH 234 by their ALEKS placement test. In order for the modification to proceed, we need an indication from your department that you are aware of the changes. Would you please provide that in a response to this email?

Thank you for your prompt attention to this matter.

Sincerely,
Kevin Jackson

Jenny and Kathy,

Nolan Miller suggested that we provide the attached comparison table to illustrate the changes we are proposing to the core curriculum. Kathy, could you please attach this to the proposal?

Thanks so much,
Jana

Subject: RE: Questions about EP 21.054

Hi Jenny,

Thanks for the follow up – I was unexpectedly out of the office late last week and will be out this entire week as well. I apologize for the delay in response. I've added comments below your points, and I thank you for your feedback on this proposal. Please let me know if you need anything else from me besides the edits/feedback mentioned below.

Elements that we had concerns about that would benefit from discussion or documentation

- We did not see a letter from Math. The changes impact math both in a reduction of students taking Math 234 and a projected increase in students taking other Math courses. Can you provide documentation (a letter or email) with discussion and approval from math?

I was told that we were not likely to need a letter from Math for this change, so this conversation has not yet happened. I will initiate this soon – I will be inaccessible tomorrow and Tuesday ([REDACTED]) but will work on this as I'm able this week.

- Are there any admissions ramifications due to this change and does that need to be noted in the proposal? For instance, MATH 234 may have been required for inter-college or off-campus transfer students.

It is my understanding that, based on the last several rounds of core curriculum changes, our Admissions team works with campus and the community colleges to update requirements and grandfather in students who have completed prior requirements. MATH 234 will still meet our new core curriculum requirements (as proposed) and will not cause any student harm.

Minor notes/corrections that can be made quickly for resubmission

- Footnote 2: This seems like it should be updated to include BUS 301 and 401
- Footnote 5 has a spelling error: one instead of on

I will ask Deb Forgacs to assist me with these revisions, as she assisted me with the

proposal input in the first place. I've copied her so that she knows about this feedback.

- The last sentence of the first paragraph of the section on "Justification for Proposal Change" reads "In alignment with all other colleges outside of LAS, we would like to reduce our language requirement to the third level of a single language. " Can you clarify "the third level"? Perhaps rewording to something like "three successive semesters of" or completion of at least one 200 level course... or whatever is appropriate.

The "third level" language is mirroring the Catalog here:

<http://catalog.illinois.edu/general-information/degree-general-education-requirements/>

and we could link to that page instead. The semesters do not need to be successive but the levels do, so the wording gets tricky very quickly. 200 level courses are also not specifically required by any college for general education requirements.

- Maybe consider adding a note in the catalog that CS 105 fulfills one of the QR requirements, since it is mentioned in the proposal?

I can also ask Deb to assist me with this one.

Subject: Questions about EP 21.054

Kevin and Jana

I am reaching out to you on behalf of Education Policy Committee. I am the sub-committee chair in charge of reviewing your proposal.

Overall, we are very supportive of the proposal and it appears well written. My sub-committee had a few questions that came up when reviewing your proposal. I have summarized them below

Elements that we had concerns about that would benefit from discussion or documentation

- We did not see a letter from Math. The changes impact math both in a reduction of students taking Math 234 and a projected increase in students taking other Math courses. Can you provide documentation (a letter or email) with discussion and approval from math?
- Are there any admissions ramifications due to this change and does that need to be noted in the proposal? For instance, MATH 234 may have been required for inter-college or off-campus transfer students.

Minor notes/corrections that can be made quickly for resubmission

- Footnote 2: This seems like it should be updated to include BUS 301 and 401
- Footnote 5 has a spelling error: one instead of on
- The last sentence of the first paragraph of the section on "Justification for Proposal Change" reads "In alignment with all other colleges outside of LAS, we would like to reduce our language requirement to the third level of a single language. " Can you clarify "the third level"? Perhaps rewording to something like "three successive semesters of" or completion of at least one 200 level course... or whatever is appropriate.
- Maybe consider adding a note in the catalog that CS 105 fulfills one of the QR requirements, since it is mentioned in the proposal?

³ For a list of specific courses that meet this requirement, see the college Office of Undergraduate Affairs in 1055 Business Instructional Facility or see the Course Explorer for a list of approved general education courses.

² BUS 101, BUS 201, BUS 301 and BUS 401 are required for all Gies College of Business students. Students who enter the College their first year take each sequential course every fall. Inter-College transfer students take BUS 301 and BUS 401 in their sophomore year. Off-campus transfer students take BUS 101 and BUS 201 in their junior year.

⁴ Three courses in the Humanities & the Arts area are required and students must complete at least one course in the Literature & the Arts and Historical & Perspectives subcategories. At least one of the courses must be a 200 or higher level course.

⁵ Two courses in the Natural Sciences & Technology area are required. It is strongly recommended that students complete one course in the Physical Sciences and Life Sciences subcategories.

⁶ This course includes limited voluntary participation as a subject in experiments.

⁷ CS 105 fulfills a Quantitative Reasoning I requirement.

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Science in Strategy, Innovation, and Entrepreneurship in the Gies College of Business

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This proposal (key 517) is related to the Business Core (Key 558).

Program Justification

Provide a brief description of what changes are being made to the program.

1. Added the Business Core CIM P record requirements, which included the University Composition Requirements, General Education Requirements, and Business Core Requirements, into the major record.
2. Fixed error in Business Core from a 2021 revision, which was to add a requirement, Business Core Math. The MATH and STAT courses that comprise the Business Core Math are approved as Quantitative Reasoning courses within the General Education

program. While it appears that the total hours for the Business Core are increasing, since the course list being added can be counted towards the Quantitative Reasoning Gen Ed requirement, the net sum change of total hours for the program is zero (total hours remain unchanged for the degree program).

3. Removed the footnotes.

4. Revised the General Education structure in Gies College of Business Undergraduate programs to align with the campus structure for General Education Requirements. As such, we removed the specific behavioral science course requirement to fulfill the Social & Behavioral Science requirements. This now allows students to complete the Social & Behavioral Science requirements with the required ECON 102 and ECON 103 coursework. We also removed the additional 200 level course requirement and the requirement for a course to be taken in each sub-category in the Humanities & the Arts. This now allows for students to complete the Humanities & the Arts requirement with just 2 courses that satisfy this general education category at any level and in either Humanities & the Arts sub-category. We have included letters of support from the College of ACES, College of AHS, College of Education, College of Media, College of FAA, and College of LAS. In reviewing Gies students course selection for the additional Behavioral Science Gen Ed and Humanities Gen Ed in our current structure, these colleges would be most impacted by the removal of these requirements that are above and beyond what campus requires for general education.

5. Revising SOCW and DTX courses to new course numbers, as the departments renumbered the courses from SOCW 375 to SOCW 445 and DTX 251 to DTX 451(no letters of support necessary due to renumbering)

6. Removed BADM 395 from the Skill-Building Elective Choices list.

7. Revised minimum program hours in Program Features to be 124. This is not a change of the the total credit hours, but a clean-up of the CIM-P system.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. For increased transparency, clarity, and overall aesthetic in the Academic Catalog, we added the Business Core CIM P record requirements into the major.
2. In Spring 2021, as part of the CIM P Business Core revision, we added additional course options to the Business Core Math instead of just requiring MATH 234. The letter of support from MATH was attached in the EP documentation section in the historical CIM P record for the Business Core CIM P [EP.21.056], along with an Appendix that included the courses to be added to the Program of Study. However, in error, we didn't add the courses to the Program of Study itself and thus it appeared as if we were removing the Business Core Math requirement. We are now correcting that error to add in the Business Core Math requirement. We have attached the letter of support from MATH from that 2021 revision, as well as a letter of support from STAT that we didn't originally have at the time of the 2021 revision.
3. We removed the footnotes for accessibility, per campus request. By removing the footnotes, we have provided additional clarity to the program of study table itself. Since the Business Core Math requirement includes courses that have Quantitative Reasoning General Education certification, we wanted to ensure that was obvious to the students.
4. We revised the general education requirements to be aligned with the campus requirements. As campus the campus general education requirements evolved and were changed (ex. 2017 revision), Gies College of Business did not change all of our requirements to be aligned with the new structure and expectations. For example, Gies College of Business currently requires students to take a behavioral science general education course, despite two courses in the Business Core requirements being coded as social sciences general education (ECON 102 and ECON 103). Since campus requires only 2 courses (6 hours) in the Social & Behavioral Science category, with no restrictions on which sub-categories (Social Science or Behavioral Science) to be used to satisfy the 2 courses, we are removing the need for Gies students to complete a Behavioral Science requirement and allowing the Business Core courses to satisfy the Social & Behavioral Science Gen Ed Category. The other category that is not aligned with the campus structure and expectations for general education is in the Humanities & the Arts Category. The campus structure for this category is students must complete 2 courses (6 hours) of Humanities & the Arts general education courses with no restrictions on which sub-categories (Literature and the Arts and Historical Philosophical Perspectives) or level of class (100 – 400 level) need to be selected to satisfy the category. Currently, Gies requires students to complete 3 courses in the Humanities & the Arts Gen Ed category, with 1 course in both sub-categories (Literature & the Arts and Historical Philosophical Perspectives) and 1 course at the 200-level or above. We are removing the 200-level requirement and allowing students to complete the Humanities & the Arts Gen Ed category with 2 courses from either sub-category, which will align with the campus expectation.
5. Revising SOCW and DTX courses to new course numbers, as the departments renumbered the courses from SOCW 375 to SOCW 445 and DTX 251 to DTX 451 (no letters of support necessary due to renumbering)
6. BADM 395 was removed as this was erroneously added in the last CIM P revision.
7. Revised minimum program hours in Program Features to be 124. This is not a change of the the total credit hours, but a clean-up of the CIM-P system.
8. Breakout of how a student gets 40 hours of 300-, 400- level coursework and/or 200 level with 2 or more preq

- a. All Gies UG students have 24 required upper division hours in the business core:
 - i. ACCY 202 – prereq of ACCY 201 which has a prereq of ECON 102/103 – 3 hours
 - ii. BADM 211 – prereqs of CS105 and BADM 210 - 3 hours
 - iii. BUS 301 – 3 hours
 - iv. BUS 401 – 3 hours
 - v. BADM 300 – 3 hours
 - vi. BADM 310 – 3 hours
 - vii. BADM 320 – 3 hours
 - viii. BADM 449 – 3 hours

- b. The Strategy, Innovation, and Entrepreneurship major has at least another 25 hours of upper division courses.
 - i. BADM 341 - 3 hours
 - ii. BADM 346 - 3 hours
 - iii. BADM 367 - 3 hours
 - iv. BADM 446 - 4 hours
 - v. at least 12 hours of skill-building and/or experiential electives at 300 or 400 level

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Discipline-based competency: Students will develop knowledge ~~regular surveys of students, graduates,~~ and skills employers for (1) analyzing, formulating, and implementing strategies for new and established organizations, (2) managing technology and innovation, and (3) developing and growing new ventures. ~~satisfaction of curriculum~~

Problem solving: Students are expected to solve complex business problems by integrating the knowledge from three core domains in strategic management, technology and innovation management, and entrepreneurship.

Strategic leadership: Students will develop skills and perspectives for organizing and directing the activities of others to pursue organizational goals.

Communication: Students will demonstrate competencies to communicate effectively, both verbally and in writing.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

The Strategy, Innovation, and Entrepreneurship major examines how business opportunities are identified and exploited for society through existing and new organizations. Students will learn how to generate and evaluate ideas, develop those ideas into products and services, assemble resources (including finances), mitigate risks, and lead organizations that meet human needs. The degree prepares students to work within existing organizations as well as to create new organizations, both for-profit and not-for-profit.

In addition to the SIE Major requirements, students must also fulfill the University's General Education requirements and the College of Business Core Courses requirements (for more detail, refer to the Gies College of Business Undergraduate Section).

Statement for
 Programs of
 Study Catalog

Graduation Requirements
Minimum hours required for graduation: 124 hours.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in the program.

Dear Cory,

Thank you for your message. I am writing to confirm that the Department of Statistics is aware of this proposed change to the College of Business undergraduate curriculum.

Please let me know if you need anything else from us.

Best,
Bo

Subject: BUS Core Math revision

Good Morning Professor Li and Professor Douglas,

I hope this message finds you well and that the Fall semester is running smoothly for you and the STAT department!

I'm writing to you in hopes that you may be able to help me with a project that I am working on with Brooke Newell, Director of Educational Programs in the Provost Office. As you may be aware, Gies College of Business revised our Business Core Curriculum effective FA21. This revision including expanding the offerings of courses to satisfy the Business Core Math requirement from Calculus or Business Calculus to include Pre-Calculus and STAT 100. Unfortunately, at the time this revision was approved, there was a mistake in not editing the necessary pages in the CIM/P system, so we are now trying to do that now.

In looking through all of the documents that were included with this past revision, we could not find any letter of support from the STAT Department Head for this revision. We were able to find one from the MATH Department that I've attached to this email. I've also included the Core Revision Appendix that indicates that the MATH and STAT department were consulted about this revision.

Would it be possible to receive a letter of support from the STAT Department that we can use as we try to rectify this oversight that occurred at the time of approval back in FA21? This could simply be a reply to this email or could be a letter on your STAT Department letterhead.

If you have any questions, please do not hesitate to contact me.

Take care,

Cory

Appendix 1

In consultation with the Department of Mathematics and the Department of Statistics, Gies College of Business will maintain a list of courses that are appropriate for Quantitative Reasoning requirements.

All Gies College of Business students are required to take CS 105 – Introduction to Computing: Non-Technical, which satisfies the Quantitative Reasoning (QR) 1 requirement. Students may choose from the list below to fulfill the second QR requirement. Students with AP, IB, or A-level credit, or dual enrollment transfer credit for an equivalent course, will not need to take an additional QR course.

List of Courses:

- MATH 115 – Preparation for Calculus
- MATH 220 – Calculus
- MATH 221 – Calculus I
- MATH 231 – Calculus II
- MATH 234 – Calculus for Business (recommended for all students with an ALEKS score 65 or higher)
- STAT 100 – Statistics

Subject: Reply Required for Curriculum Modification Impacting your Department

Dear Dr. Tyson,

The Gies College of Business seeks to modify the core curriculum in order to increase access and equity for our students. As part of our proposal, we no longer are requiring the MATH 234 course, but instead are requiring two quantitative reasoning courses similar to most other colleges. One quantitative reasoning requirement can be met through CS 105, a business core requirement. For the second QR requirement, students will select from among the courses included in Appendix 1, attached. We will recommend that students take the math course that they are placed into via the ALEKS placement test, which means that many students will still take MATH 234 in the spring semester of their freshman year. Requiring quantitative reasoning courses aligns Gies requirements with other colleges' requirements and allows us to reduce the adverse impact on students from high schools with fewer resources and who do not need calculus as a prerequisite for any other course.

We are unsure what impact the change will have on enrollment for the 2021/2022 academic year, as we expect many students to be placed in MATH 234 by their ALEKS placement test. In order for the modification to proceed, we need an indication from your department that you are aware of the changes. Would you please provide that in a response to this email?

Thank you for your prompt attention to this matter.

Sincerely,
Kevin Jackson

RE: Gies College of Business Undergraduate General Education Requirements Structure

Dear Dr. Scott and Cory,

Thank you for informing us of the proposed changes your college is making to the structure of your general education requirements. I understand that this proposal's purpose is to align the college structure of general education requirements with the current campus structure. Specifically, this proposal will make it so that Gies Undergraduate Students are no longer required to take a third humanities general education course at the 200 level or above and an additional behavioral science general education beyond the six hours of Social & Behavioral Sciences general education coursework required for Gies Undergraduate Students through our Business Core (Microeconomics and Macroeconomics). Gies Undergraduate Students will still be required to complete all campus general education requirements, and we welcome your students in Gies to complete the required general education categories through the courses offered in the College of Education.

Sincerely,

RE: Gies College of Business Undergraduate General Education Requirements Structure

Dear Nehemiah and Cory,

Thank you for informing us of the proposed changes your college is making to the structure of your general education requirements. I understand that this proposal's purpose is to align the college structure of general education requirements with the current campus structure. Your proposal will make it so that Gies Undergraduate Students are no longer required to take a course from the Behavioral Sciences subcategory. To continue to satisfy the campus Social & Behavioral Sciences requirement (6 hours), students will be taking ECON 102 and ECON 103 as part of the Business Core Requirements. These two social science courses are essential to your business core structure and their inclusion in your programs of study attests to this. Your proposal also brings in alignment your Humanities & the Arts general education requirement with that of campus, requiring 6 hours in this category instead of three course (9 hours) representing both Literature & the Arts and Historical & Philosophical Perspectives subcategories, of which one course in either subcategory must be at the 200-level or above. Gies Undergraduate Students will still be required to complete all campus general education requirements, and we welcome your students to complete the required general education categories through the courses offered in our college.

Sincerely,

Venetria K. Patton

FAA Letter of Support- Gies General Education Proposal

I write on behalf of the College of Fine and Applied Arts to offer our support for the proposed changes to the Gies General Education requirements, effective Fall 2024.

The revisions to eliminate the two additional general education courses beyond the campus requirement clearly serves the intended purposes of alignment and access. Removing one Humanities & the Arts course and one Behavioral Science course from the business major requirements will have a minimal impact on the College of Fine and Applied Arts. We also would support the opportunity for business majors to have additional flexibility to seek out campus minors of interests.

Therefore, we have no concerns with the proposal and offer our support for the elimination of additional general education requirements for business majors.

Sincerely,

Nicole Turner, Ph.D.

Program Description and Justification

Justification for proposal change:

The Gies College of Business seeks to modify the core curriculum in order to increase access and equity for our students. The Language Other than English requirement was originally established to create basic language proficiency for Gies graduates as a competitive edge in an increasingly global marketplace. However, advances in technology have resulted in less need for increased language proficiency. Additionally, students who attend high schools with fewer resources are most adversely impacted by this requirement, as they are not able to complete their language requirements in high school. They are also less likely to enter the university with AP or dual enrollment credits. In alignment with all other colleges outside of LAS, we would like to reduce our language requirement to the third level of a single language (see <http://catalog.illinois.edu/general-information/degree-general-education-requirements/>).

The other revision in this proposal is removal of the specific MATH 234 course and instead requiring two quantitative reasoning courses. One quantitative reasoning requirement can be met through CS 105, a business core requirement. The second quantitative reasoning requirement will be met through a list of courses maintained by the Office of Undergraduate Affairs in consultation with the affected departments (see attached). Requiring quantitative reasoning courses aligns Gies requirements with other colleges' requirements and allows us to reduce the adverse impact

on students from high schools with fewer resources and who do not need calculus as a prerequisite for any other course. By maintaining a list of approved courses with the Office of Undergraduate Affairs, we can meet this objective and give the affected departments more certainty about possible Gies student course enrollments. The Math Department has approved this plan (see attached email from Dr. Jeremy Tyson of February 24, 2021 in EP Documentation section).

The Office of Undergraduate Affairs has worked in partnership with the three Gies academic departments: Accountancy, Business Administration, and Finance, as well as by Dean Jeffrey Brown, to move forward with this proposal. The heads of all three departments and Dean Brown have approved these proposed changes.

BS Bachelor of Science

Is this program interdisciplinary?

No

Academic Level

Undergraduate

Will you admit to the concentration directly?

No

Is a concentration required for graduation?

No

CIP Code

52.9999 - 52.9999

Is This a Teacher Certification Program?

No

Will specialized accreditation be sought for this program?

No

Admission Requirements

Is this revision a change to the admission status of the program?

No

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

Note: The Gies Admissions team works with the Office of Undergraduate Admissions and community colleges to update requirements and grandfather in students who have completed prior requirements. See email from J. Lithgow of 1/24/21 attached in EP Documentation section for further information.

Enrollment

Describe how this revision will impact enrollment and degrees awarded.

N/A

What are the minimum Total Credit Hours required for this program?

N/A

Delivery Method

Is this program available on campus and online?

No

This program is available:

On Campus

Budget

Are there budgetary implications for this revision?

No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Resource Implications

Facilities

Will the program require new or additional facilities or significant improvements to already existing facilities?

No

Technology

Will the program need additional technology beyond what is currently available for the unit?

No

Non-Technical Resources

Will the program require additional supplies, services or equipment (non-technical)?

No

Resources

For each of these items, be sure to include in the response if the proposed new program or change will result in replacement of another program(s). If so, which program(s), what is the anticipated impact on faculty, students, and instructional resources? Please attach any letters of support/ acknowledgement from faculty, students, and/or other impacted units as appropriate.

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc. Describe how the unit will support student advising, including job placement and/or admission to advanced studies.

N/A

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

N/A

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does the program include other courses/subjects impacted by the creation/revision of this program?

No

Financial Resources

How does the unit intend to financially support this proposal?

N/A

Will the unit need to seek campus or other external resources?

No

Are you seeking a change in the tuition rate or differential for this program?

No

Program Regulation and Assessment

Briefly describe the plan to assess and improve student learning, including the program's learning objectives; when, how, and where these learning objectives will be assessed; what metrics will be used to signify student's achievement of the stated learning objectives; and the process to ensure assessment results are used to improve student learning. (Describe how the program is aligned with or meets licensure, certification, and/or entitlement requirements, if applicable).

N/A

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

"Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PrivateAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

All proposals must attach the new or revised version of the Academic Catalog program of study entry. Contact your college office if you have questions.

Revised programs

Core Revision Comparison Table_.pdf

Attach a side-by-side comparison with the existing program AND, if the revision references or adds “chosed-from” lists of courses students can select from to fulfill requirements, a listing of these courses, including the course rubric, number, title, and number of credit hours.

FIN 221	Corporate Finance	3
MATH 234	Calculus for Business I ³	4
Total Hours		54

- 1 For a list of the specific courses that meet this requirement, see the college Office of Undergraduate Affairs in 1055 Business Instructional Facility or see the Course Explorer for a list of approved general education courses.
- 2 BUS 101, BUS 201, BUS 301 and BUS 401 are required for all Gies College of Business students. Students who enter the College their first year take each sequential course every fall. Inter-College transfer students take BUS 301 and BUS 401 in their sophomore year. Off-campus transfer students take BUS 101 and BUS 201 in their junior year.
- 3 MATH 220 or MATH 221 may be substituted for MATH 234. (See college mathematics requirement above.)
- 4 Three courses in the Humanities & the Arts area are required and students must complete at least one course in the Literature & the Arts and Historical & Perspectives subcategories. At least one of the courses must be a 200 or higher level course.
- 5 Two courses in the Natural Sciences & Technology area are required. It is strongly recommended that students complete one course in the Physical Sciences and Life Sciences subcategories.
- 6 This course includes limited voluntary participation as a subject in experiments.
- 7 CS 105 fulfills a Quantitative Reasoning I requirement.

Champaign, IL 61820

Appendix 1

In consultation with the Department of Mathematics and the Department of Statistics, Gies College of Business will maintain a list of courses that are appropriate for Quantitative Reasoning requirements.

All Gies College of Business students are required to take CS 105 – Introduction to Computing: Non-Technical, which satisfies the Quantitative Reasoning (QR) 1 requirement. Students may choose from the list below to fulfill the second QR requirement. Students with AP, IB, or A-level credit, or dual enrollment transfer credit for an equivalent course, will not need to take an additional QR course.

List of Courses:

- MATH 115 – Preparation for Calculus
- MATH 220 – Calculus
- MATH 221 – Calculus I
- MATH 231 – Calculus II
- MATH 234 – Calculus for Business (recommended for all students with an ALEKS score 65 or higher)
- STAT 100 – Statistics

Subject: Reply Required for Curriculum Modification Impacting your Department

Dear Dr. Tyson,

The Gies College of Business seeks to modify the core curriculum in order to increase access and equity for our students. As part of our proposal, we no longer are requiring the MATH 234 course, but instead are requiring two quantitative reasoning courses similar to most other colleges. One quantitative reasoning requirement can be met through CS 105, a business core requirement. For the second QR requirement, students will select from among the courses included in Appendix 1, attached. We will recommend that students take the math course that they are placed into via the ALEKS placement test, which means that many students will still take MATH 234 in the spring semester of their freshman year. Requiring quantitative reasoning courses aligns Gies requirements with other colleges' requirements and allows us to reduce the adverse impact on students from high schools with fewer resources and who do not need calculus as a prerequisite for any other course.

We are unsure what impact the change will have on enrollment for the 2021/2022 academic year, as we expect many students to be placed in MATH 234 by their ALEKS placement test. In order for the modification to proceed, we need an indication from your department that you are aware of the changes. Would you please provide that in a response to this email?

Thank you for your prompt attention to this matter.

Sincerely,
Kevin Jackson

Subject: RE: Questions about EP 21.054

Hi Jenny,

Thanks for the follow up – I was unexpectedly out of the office late last week and will be out this entire week as well. I apologize for the delay in response. I've added comments below your points, and I thank you for your feedback on this proposal. Please let me know if you need anything else from me besides the edits/feedback mentioned below.

Elements that we had concerns about that would benefit from discussion or documentation

- We did not see a letter from Math. The changes impact math both in a reduction of students taking Math 234 and a projected increase in students taking other Math courses. Can you provide documentation (a letter or email) with discussion and approval from math?

I was told that we were not likely to need a letter from Math for this change, so this conversation has not yet happened. I will initiate this soon – I will be inaccessible tomorrow and Tuesday ([REDACTED]) but will work on this as I'm able this week.

- Are there any admissions ramifications due to this change and does that need to be noted in the proposal? For instance, MATH 234 may have been required for inter-college or off-campus transfer students.

It is my understanding that, based on the last several rounds of core curriculum changes, our Admissions team works with campus and the community colleges to update requirements and grandfather in students who have completed prior requirements. MATH 234 will still meet our new core curriculum requirements (as proposed) and will not cause any student harm.

Minor notes/corrections that can be made quickly for resubmission

- Footnote 2: This seems like it should be updated to include BUS 301 and 401
- Footnote 5 has a spelling error: one instead of on

I will ask Deb Forgacs to assist me with these revisions, as she assisted me with the

proposal input in the first place. I've copied her so that she knows about this feedback.

- The last sentence of the first paragraph of the section on "Justification for Proposal Change" reads "In alignment with all other colleges outside of LAS, we would like to reduce our language requirement to the third level of a single language. " Can you clarify "the third level"? Perhaps rewording to something like "three successive semesters of" or completion of at least one 200 level course... or whatever is appropriate.

The "third level" language is mirroring the Catalog here:

<http://catalog.illinois.edu/general-information/degree-general-education-requirements/>

and we could link to that page instead. The semesters do not need to be successive but the levels do, so the wording gets tricky very quickly. 200 level courses are also not specifically required by any college for general education requirements.

- Maybe consider adding a note in the catalog that CS 105 fulfills one of the QR requirements, since it is mentioned in the proposal?

I can also ask Deb to assist me with this one.

Subject: Questions about EP 21.054

Kevin and Jana

I am reaching out to you on behalf of Education Policy Committee. I am the sub-committee chair in charge of reviewing your proposal.

Overall, we are very supportive of the proposal and it appears well written. My sub-committee had a few questions that came up when reviewing your proposal. I have summarized them below

Elements that we had concerns about that would benefit from discussion or documentation

- We did not see a letter from Math. The changes impact math both in a reduction of students taking Math 234 and a projected increase in students taking other Math courses. Can you provide documentation (a letter or email) with discussion and approval from math?
- Are there any admissions ramifications due to this change and does that need to be noted in the proposal? For instance, MATH 234 may have been required for inter-college or off-campus transfer students.

Minor notes/corrections that can be made quickly for resubmission

- Footnote 2: This seems like it should be updated to include BUS 301 and 401
- Footnote 5 has a spelling error: one instead of on
- The last sentence of the first paragraph of the section on "Justification for Proposal Change" reads "In alignment with all other colleges outside of LAS, we would like to reduce our language requirement to the third level of a single language. " Can you clarify "the third level"? Perhaps rewording to something like "three successive semesters of" or completion of at least one 200 level course... or whatever is appropriate.
- Maybe consider adding a note in the catalog that CS 105 fulfills one of the QR requirements, since it is mentioned in the proposal?

Best,

JENNY AMOS, PHD

¹ For a list of specific courses that meet this requirement, see the college Office of Undergraduate Affairs in 1055 Business Instructional Facility or see the Course Explorer for a list of approved general education courses.

² BUS 101, BUS 201, BUS 301 and BUS 401 are required for all Gies College of Business students. Students who enter the College their first year take each sequential course every fall. Inter-College transfer students take BUS 301 and BUS 401 in their sophomore year. Off-campus transfer students take BUS 101 and BUS 201 in their junior year.

⁴ Three courses in the Humanities & the Arts area are required and students must complete at least one course in the Literature & the Arts and Historical & Perspectives subcategories. At least one of the courses must be a 200 or higher level course.

⁵ Two courses in the Natural Sciences & Technology area are required. It is strongly recommended that students complete one course in the Physical Sciences and Life Sciences subcategories.

⁶ This course includes limited voluntary participation as a subject in experiments.

⁷ CS 105 fulfills a Quantitative Reasoning I requirement.

Urbana Illinois 61801

Email: glohm2@uillinois.edu

Dear Dr. Lohman,

The Illinois Board of Higher Education (IBHE) is in receipt of your email dated November 27, 2023, requesting acknowledgment of the incorrect information found in the Reasonable and Moderate Extension (RME) approval letter dated, May 8, 2019, for the elevation of the concentration of Strategic Business Development and Entrepreneurship to a Bachelor of Science (BS) degree.

IBHE acknowledges that the original RME approval letter noted a condition of approval was that the degree is 120 credit hours rather than 124 credit hours.

We have also acknowledged that the 2022 Annual Change Listing, dated May 19, 2022, notes the change of the title of the Strategic Business Development and Entrepreneurship BS degree to its new name of Strategic Business Development & Entrepreneurship BS (CIP Code 52.0701).

We have noted this in our records. If you have any questions, please contact me at gebke@ibhe.org.

Sincerely,

Jill Gebke
Assistant Director for Academic Affairs

College Contact Email

sdownie@illinois.edu

College Budget Officer

College Budget Officer Email

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

[Charles Webster, cwebste@illinois.edu](#)

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Arts in Teaching of German in the College of Liberal Arts and Sciences

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

Program Justification

Provide a brief description of what changes are being made to the program.

1. Added Core Professional Education courses.
2. The formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) has been modified. Also adding SLOs and the sample sequence.
3. Presenting upper-division hours to become compliant with IBHE policy.

Total hours for the program remain unchanged.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Absence of these courses was found during Academic Catalog review between COTE and the Department of Germanic Languages and Literatures. Replaced existing web link with the actual list of courses.

2. Seeks to follow CIM system best practices and recommendations provided by the Office of the Provost and/or the Office of the Registrar for transparency and to best articulate all requirements.

3. 40 hours of upper-division coursework:

GER 331 - 3 hours

GER 332 - 3 hours

GER 401 - 3 hours

GER 420 - 4 hours

GER 465 - 3 hours

"Select one of the following" list - 3 hours

EDPR 442 - 12 hours

FLTE 471 - 4 hours

FLTE 475 - 4 hours

FLTE 478 - 4 hours

SPED 405 - 3 hours

Total = 46 hours

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

1. Teacher Candidates* will be able to demonstrate her/his understanding of SLA theories and methodologies through the instructional activities and materials that she/he designs to support all students' learning and skill building in the three modes of communication.

2. Using Bloom's taxonomy and knowledge of current events and popular culture in Germany, Austria, and Switzerland, Teacher Candidates will be able to foster evaluation skills in German second language learners through reading newspapers, magazines, or blog posts discussing politics, movies, television, and sports.

3. Using their knowledge of German linguistics and the sounds of German, Teacher Candidates will be able to model accurate and authentic pronunciation for their learners during instruction.

4. Teacher Candidates will be able to demonstrate her/his understanding of and skills in designing multiple methods of assessment that monitor learner progress in the three modes of communication, promote learner efficacy, and guide decision-making of the learner and teacher.

*BAT students = Teacher Candidates

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program
Description and
Requirements
Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

Yes ~~No~~

If yes, please describe.

[Graduates of this program are licensed by the Illinois State Board of Education](#)

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Revised programs [Teaching of German, BA 032924.docx](#)

Attach a revised Sample Sequence (for undergraduate program) or college-level forms.

Catalog Page Text - Overview Tab

Program Features

Academic Level Undergraduate

Does this major have transcribed concentrations? No

What is the typical time to completion of this program?
4 years

What are the minimum Total Credit Hours required for this program?
120

CIP Code 131326 - German Language Teacher Education.

Is This a Teacher Certification Program?
Yes

Will specialized accreditation be sought for this program?
No

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Admission Requirements

Desired Effective Admissions Term Fall 2022

Is this revision a change to the admission status of the program?
No

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

No impact to unit.

Estimated Annual Number of Degrees Awarded

Year One Estimate

5th Year Estimate (or when fully implemented)

What is the matriculation term for this program?

Fall

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

Will the unit need to seek campus or other external resources?

No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

Are you seeking a change in the tuition rate or differential for this program?

No

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

No impact to unit.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Current collections and services are adequate for the proposed program.

Major (ex. Special Education)

This proposal is
for a:
Revision

Administration Details

Official Program Name Physics, BS

Diploma Title Bachelor of Science in Physics

2) Updates to the Business Track:

* Revised track course requirements: 1 course ([TE 100] 1 credit hours) is now required instead of 9 courses ([ENG 471, IE 420, SE 400, TE 100, TE 333, TE 360, TE 450, TE 461, TE 466], 21 credit hours)

* The eight formerly required courses (ENG 471, IE 420, SE 400, TE 333, TE 360, TE 450, TE 461, TE 466) moved to chose from list.

* These changes reduced the minimum number of credit hours to 21 from 30.

3) Streamline the Program of Study:

* Revised the credit hours on each Track from a range to listing the minimum number of credit hours required to complete the track.

4) Update the free-elective credit hours:

*The free-electives listed are updated to match listing the minimum required credit hours for the Tracks.(from 31 to 43, to 36 to 43).

5) Update the Sample Sequence

6) Revised the Program Tracks credit hour range

7) The formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) has been modified to adhere to the campus General Education Template.

These revisions leave the total credit hours required to graduate at 128.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1) Updates to the Astrophysics Track:

* This revision was made to bring the Astrophysics Track minimum credit hour requirements (now 21 credit hours) more in line with the minimum credit hours for other tracks in the program.

* By making moving the four (4) formerly required courses to a chose from list, this revision was made to improve flexibility of elective courses in the track

2) Updates to the Business Track:

* This revision was made to bring the Business Track minimum credit hour requirements (now 21 credit hours) more in line with the minimum credit hours for other tracks in the program.

* By moving the eight (8) of the nine (9) formerly required courses to a chose from list, this revision was made to improve flexibility of elective courses in the track

3) Streamline the Program of Study:

* This revision was made for the following reasons:

** eliminating the use of track-related credit hour ranges, listing the minimum number of credit hours required to complete the track to help communicate requirements to students.

** improve clarity of requirements and reduce confusion.

4) Update the free-elective credit hours:

* The free-elective credit hours revision was made as a consequence of the following revisions:

**The revisions to the Astrophysics

**The revisions to the Business Tracks

5) Update the Sample Sequence:

* This revision is necessary to accurately account for the minimum number of Track Elective hours listed on the of the Program of Study with this revision.

6) Revised the Program Tracks credit hour range:

* This revision is the consequence of revising the Astrophysics Track and Business Track.

7) Per Office of the Provost General Education initiative for transparency and accessibility.

The minimum 40 hours of upper-division classes for IBHE requirement are met by:

--PHYS 325 (3 credit hours)

--PHYS 435 (3 credit hours)

--PHYS 485 or PHYS 486 (4 credit hours)

--MATH 241 (4 credit hours) - prerequisites of MATH 231 and MATH 220 or 221

--MATH 285 (3 credit hours) - prerequisites of MATH 241 and MATH 231

--PHYS 212 (4 credit hours) - prerequisites of PHYS 211 and MATH 231

--PHYS 213 (2 credit hours) - prerequisites of PHYS 211 and MATH 231

--PHYS 214 (2 credit hours) - prerequisites of PHYS 212 and MATH 241

--PHYS 225 (2 credit hours) - prerequisites of PHYS 211 and MATH 231

--Track Electives and/or Free Electives (13 or more hours, depending on track chosen).

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

Yes

Courses outside of the sponsoring department/interdisciplinary departments

~~NPRE 321 - Intro to Plasmas & Application~~
~~NPRE 421 - Plasma and Fusion Science~~
~~NPRE 429 - Plasma Engineering~~
~~NPRE 445 - Interact of Radiation w/Matter~~
~~NPRE 451 - NPRE Laboratory~~
~~NPRE 455 - Neutron Diffusion & Transport~~
[ASTR 210 - Introduction to Astrophysics](#)
[ASTR 350 - Big Bang, Black Holes, Universe](#)
[ASTR 406 - Galaxies and the Universe](#)
[ASTR 404 - Stellar Astrophysics](#)

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

By the completion of their degree program, Physics graduates will be able to:

Define and use fundamental principles of physics as defined and used by scientists and engineers.

Identify which fundamental principles should be applied to a specified situation.

Identify the tools used by scientists and engineers to use fundamental physical principles to solve problems.

Apply physics problem solving tools to known and novel problems.

Analyze quantitative and qualitative data.

Design and execute physics experiments to answer open-ended questions.

Develop mathematical models to extract physics results from numerical data.

Communicate verbally and in writing experimental and theoretical results.

Participate in cooperative groups to design, practice, and communicate physics and physics-related information to themselves and the community.

Develop physics and mathematics related problem-solving skills through participation in cooperative-learning groups.

Design and execute physics experiments/research projects in a collaborative setting.

Document, report, and present experimental results.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Revised programs [PHYS-Suggested-Sequence-FA23-update-v2.xlsx](#)

Attach a revised Sample Sequence (for undergraduate program)

or college-level forms.

Statement for

Programs of **Graduation Requirements**
Study Catalog **2-0**

Minimum hours required for graduation: 128 hours

Minimum Technical GPA: 2.0 TGPA is required for Math and Physics courses. See **Technical GPA** to clarify requirements.

Minimum Overall GPA: ~~GPA:~~ 2.0

University Requirements

~~2.0-Minimum hours required for graduation: 128 hours~~ Minimum hours for graduation is 128, to include a minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. coursework. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

~~General education: Follows Students must complete the campus Campus General Education (Gen Ed) requirements, including the campus general education language requirement. Some Gen Ed requirements may be met by courses required and/or electives in the program.~~

Program Tracks

Course List

Code	Title	Hours
Students are required to complete one track. Tracks may be selected from one of the departmentally approved lists below. Students may devise an alternative, custom track with a set of courses approved by the department.		21-24
Astrophysics Track		21
ASTR 210	Introduction to Astrophysics	3
Choose 3 courses from the following:		
ASTR 350	The Big Bang, Black Holes, and the End of the Universe	3
or ASTR 406	Galaxies and the Universe	
ASTR 404	Stellar Astrophysics	3
ASTR 405	Planetary Systems	3
ASTR 414	Astronomical Techniques	4
Choose a minimum of 6 hours of courses from the Flexible Physics Core Electives List:		6
PHYS 246	Physics on the Silicon Prairie: An Introduction to Modern Computational Physics	2
PHYS 326	Classical Mechanics II	3
PHYS 370	Introduction to Quantum Information and Computing	3
PHYS 427	Thermal & Statistical Physics	4
PHYS 436	Electromagnetic Fields II	3
PHYS 446	Modern Computational Physics	3
PHYS 460	Condensed Matter Physics	4
PHYS 470	Subatomic Physics	4
PHYS 487	Quantum Physics II	4
Choose 1 course from the Physics Lab Electives List:		3
PHYS 371	Project Design and Execution in a Physics Context	3
PHYS 401	Classical Physics Lab	3

Code	Title	Hours
PHYS 402	Light	4
PHYS 403	Modern Experimental Physics	5
PHYS 404	Electronic Circuits	5
Business Track		21
TE 100	Introduction to Innovation, Leadership and Engineering Entrepreneurship	1
Choose 11 hours from the following:		
ENG 471	Seminar Energy & Sustain Engrg	1
IE 420	Financial Engineering	3
SE 400	Engineering Law	3
TE 360	Lectures in Engineering Entrepreneurship	1
TE 333	Creativity, Innovation, Vision	4
TE 461	Technology Entrepreneurship	3
TE 450	Startups: Incorporation, Funding, Contracts, & Intellectual Property	3
TE 466	High-Tech Venture Marketing	2
Choose a minimum of 6 hours of courses from the Flexible Physics Core Electives List:		
PHYS 246	Physics on the Silicon Prairie: An Introduction to Modern Computational Physics	2
PHYS 326	Classical Mechanics II	3
PHYS 370	Introduction to Quantum Information and Computing	3
PHYS 427	Thermal & Statistical Physics	4
PHYS 436	Electromagnetic Fields II	3
PHYS 446	Modern Computational Physics	3
PHYS 460	Condensed Matter Physics	4
PHYS 470	Subatomic Physics	4
PHYS 487	Quantum Physics II	4
Choose 1 course from the Physics Lab Electives List:		
PHYS 371	Project Design and Execution in a Physics Context	3
PHYS 401	Classical Physics Lab	3
PHYS 402	Light	4
PHYS 403	Modern Experimental Physics	5
PHYS 404	Electronic Circuits	5
Computational Physics Track		24
CS 173	Discrete Structures	3
or MATH 213	Basic Discrete Mathematics	
CS 225	Data Structures	4
Choose 3 classes from the following:		
CS 357	Numerical Methods I	3
CS 420	Parallel Progrmg: Sci & Engrg	3
CS 418	Interactive Computer Graphics	3
CS 450	Numerical Analysis	3
PHYS 246	Physics on the Silicon Prairie: An Introduction to Modern Computational Physics	2
PHYS 446	Modern Computational Physics	3
<u>Choose a minimum of 6 hours of courses from the Flexible Physics Core Electives List:</u>		
PHYS 326	Classical Mechanics II	3
PHYS 370	Introduction to Quantum Information and Computing	3
PHYS 427	Thermal & Statistical Physics	4
PHYS 436	Electromagnetic Fields II	3

<u>Additional course work, subject to the Grainger College of Engineering restrictions to Free Electives, so that there are at least 128 credit hours earned toward the degree.</u>		36-43

Code	Title	Hours
	The number of free elective hours varies depending upon the total hours earned in Flexible Physics Electives, Physics Lab Electives, and Program Track.	
	Total Hours of Curriculum to Graduate	128

Corresponding Degree BS Bachelor of Science

Program Features

Academic Level	Undergraduate	
Does this major have transcripted concentrations?	No	
What is the typical time to completion of this program?		4 years
What are the minimum Total Credit Hours required for this program?		128
CIP Code	400801 - Physics, General.	
Is This a Teacher Certification Program?	Yes	
Will specialized accreditation be sought for this program?	No	

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Admission Requirements

Desired Effective Admissions Term

Is this revision a change to the admission status of the program?
No

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

These updates should have no impact on enrollment. They are for clarity and to correct clerical errors only.

Estimated Annual Number of Degrees Awarded

Year One Estimate

5th Year Estimate (or when

fully implemented)

What is the matriculation term for this program? Fall

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

Will the unit need to seek campus or other external resources?

No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

Are you seeking a change in the tuition rate or differential for this program?

No

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

No impact is expected from these updates.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support these updates.

Subject: Acknowledgement Request - Curriculum Update for the Physics B.S., Business Track--Correction

Dear Dr. Miller,

I hope this email finds you well. I am reaching out to you in your capacity as the Academic Adviser & Coordinator of Academic Programs and to inform you about updates to our curriculum requirements in the Bachelor of Science in Physics, Business Track.

This is a revised version of the previous letter, we found a error in the previous revised statement. We are **not** removing TE333, we are also **moving it to the chose from list**. This update is highlighted below. My sincere apologies for the confusion.

After careful consideration and review, we have decided to make the following changes to the Business Track structure:

move the following courses **from required** to a **choose from** list:

- TE 360
- TE 450
- TE 461
- TE 466
- **TE 333**

This change will alter enrollment in the above courses by Physics majors by 1 or fewer students per course per semester offered.

We believe that these changes will better align our curriculum with the department's educational objectives and the evolving needs of our students.

To ensure that everyone is aware of this transition, **we kindly request that you respond to this email ASAP to acknowledge you have received this email detailing our curriculum changes.** Your response will help us keep our records up to date and ensure a smooth implementation of the new requirements.

If you have any questions or concerns about these changes, please feel free to reach out to me directly, and I would be happy to address them.

Thank you for your cooperation and understanding as we work to enhance our curriculum and provide our students with the best possible educational experience.

Sincerely,

ELAINE C SCHULTE

Assistant Director of Undergraduate Programs

Subject: Acknowledgement Request - Curriculum Update for the Physics B.S., Business Track

Dear Prof. Beck,

I hope this email finds you well. I am reaching out to you in your capacity as the Associate Head of Undergraduate Programs for the Department of Industrial and Enterprise Systems Engineering and to inform you about updates to our curriculum requirements in the Bachelor of Science in Physics, Business Track.

After careful consideration and review, we have decided to make the following changes to the Business Track structure:

move the following course **from required** to **a choose from** list:

- IE 420
- SE 400

This change will alter enrollment in the above courses by Physics majors by 1 or fewer students per course per semester offered.

We believe that these changes will better align our curriculum with the department's educational objectives and the evolving needs of our students.

To ensure that everyone is aware of this transition, **we kindly request that your respond to this**

email ASAP to acknowledge you have received this email detailing our curriculum changes. Your response will help us keep our records up to date and ensure a smooth implementation of the new requirements.

If you have any questions or concerns about these changes, please feel free to reach out to me directly, and I would be happy to address them.

Thank you for your cooperation and understanding as we work to enhance our curriculum and provide our students with the best possible educational experience.

Sincerely,

Elaine,

Thank you for letting us know of this proposed change and its potential impact on ENG 471. We are supportive of the change as expected and anticipate it will have minimal impact on the overall enrollment in the course.

Regards,
Jonathan

Subject: Acknowledgement Request - Curriculum Update for the Physics B.S., Business Track

Dear Assistant Director Hallock,
I hope this email finds you well. I am reaching out to you in your capacity as the Assistant Director for Undergraduate Data & Curriculum Development and to inform you about updates to our curriculum requirements in the Bachelor of Science in Physics, Business Track.

After careful consideration and review, we have decided to make the following changes to the Business Track structure:

move the following course **from required** to a **choose from** list:

- ENG 471

This change will alter enrollment in the above courses by Physics majors by 1 or fewer students per course per semester offered.

We believe that these changes will better align our curriculum with the department's educational objectives and the evolving needs of our students.

To ensure that everyone is aware of this transition, **we kindly request that your respond to this email ASAP to acknowledge you have received this email detailing our curriculum changes.** Your response will help us keep our records up to date and ensure a smooth implementation of the new requirements.

If you have any questions or concerns about these changes, please feel free to reach out to me directly, and I would be happy to address them.

Thank you for your cooperation and understanding as we work to enhance our curriculum and provide our students with the best possible educational experience.

Sincerely,

Elaine Schulte

Subject: Acknowledgement Request - Curriculum Update for the Physics B.S., Astrophysics Track

Dear Prof. Dunne,

I hope this email finds you well. I am reaching out to you in your capacity Supervising the Undergraduate Programs in the Dept. of Astronomy to inform you about updates to our curriculum requirements in the Bachelor of Science in Physics, Astrophysics Track.

After careful consideration and review, we have decided to make the following changes to the Astrophysics Track structure:

move the following courses **from required** to **a choose 3 courses from** list:

- ASTR 350 or ASTR 406
- ASTR 404
- ASTR 405
- ASTR 414

This change will alter enrollment in the above courses by Physics majors by 3 or fewer students per course per semester offered.

We believe that these changes will better align our curriculum with the department's educational objectives and the evolving needs of our students.

To ensure that everyone is aware of this transition, **we kindly request that you respond to this email ASAP to acknowledge you have received this email detailing our curriculum changes.** Your response will help us keep our records up to date and ensure a smooth implementation of the new requirements.

If you have any questions or concerns about these changes, please feel free to reach out to me directly, and I would be happy to address them.

Thank you for your cooperation and understanding as we work to enhance our curriculum and provide our students with the best possible educational experience.

Sincerely,

ELAINE C SCHULTE

Sample Sequence

This sample sequence is intended to be used only as a guide for degree completion. All students should work individually with their academic advisors to decide the actual course selection and sequence that works best for them based on their academic preparation and goals. Enrichment programming such as study abroad, minors, internships, and so on may impact the structure of this four-year plan. Course availability is not guaranteed during the semester indicated in the sample sequence. The curriculum sequence can also be viewed via dynamic and static curricular maps, which include prerequisite sequencing.

Students must fulfill their Language Other Than English requirement by successfully completing a third level of a language other than English. See the corresponding section on the Degree and General Education Requirements.

Free Electives: Additional course work, subject to the Grainger College of Engineering restrictions to Free Electives, so that there are at least 128 credit hours earned toward the degree. The number of free elective hours varies depending upon the total hours earned in Flexible Physics Electives, Physics Lab Electives, and Program Track.

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

KR Dean

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Science in Architectural Studies in the College of Fine and Applied Arts

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

Program Justification

Provide a brief description of what changes are

being made to the program.

(1) Add Gen Ed template and moved coursework that didn't already appear in the major into a newly added subcategory in the major; (2) Add ARCH 101; (3) Remove ARCH 413; (4) Add an additional advanced Arch History course requirement; (5) Removing ARCH 418 from Arch Hist list; (6) Clarification of professional free electives; (7) Removing ARCH 222 and ARCH 314 gen ed certification comments in parentheses; (8) Update summary table and total hours due to course credit hour changes.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

- (1) Inputting new campus gen ed requirement template per office of the provost initiative. Coursework that was in the old general education section is moved into the major coursework area and only mentioned as fulfilled by in the general education section (MATH 220 or 221 and MATH 231 or PHYS 101).
- (2) ARCH 101 has been voted by the school faculty to revive into the curriculum as a two-credit hour introduction to the profession of architecture course. Currently, architecture majors begin immediately in architecture studios and 101 will provide a seminar orientation to the professional field of architecture.
- (3) ARCH 413 was deactivated in the 2022-2023 term/enrollment violations report project but still appears in the BS Arch Studies major elective options as a red box error/course not found. Since it is not available to students, this proposal is to remove it as an option.
- (4) Unit faculty voted to add an additional advanced architectural history course requirement (currently only one course in this category is required and now there will be two courses required). The new requirement will allow students to study a course focus on architecture before 1850CE and an additional course after 1850CE. There are a few courses that could fulfill either category, but they may not double count.
- (5) ARCH 418 is no longer included in the list because it is already included as an option in the urbanism section.
- (6) The stipulation in parentheses for free electives that "A maximum of nine hours may be taken as professional electives" has been vague and unclear for students and staff. The intention was to regulate free elective credit that students were utilizing to take graduate courses towards the M.Arch. degree, decreasing the number of hours in their graduate program. The requirement remains the same, but the text is modified for clarity.
- (7) Removing ARCH 222 and ARCH 314 general education certification note in course parentheses to simplify list of requirements and avoid issues with potential decertification at any point.
- (8) Summary table is updated to remove language other than english, specific number of credit hours for free electives, and the professional note re: free electives which was moved to text above POS. Credit hours changed due to: Adding ARCH 101 (+2) and Arch History (+3), plus the increase in course credit hours for ARCH 273 (+1) adds 6 hours to the major requirements. Also +7 hours because the Quantitative Reasoning I and II requirements were more explicit in the old gen Ed section. Previously, the Arch curriculum total said 70-71 (70 being accurate, the range was due to a course that was offered as 4 hours to graduate students only), so with +13 hours (really +6 actual added hours) the new architecture curriculum total is 83 hours.

No change to total degree hours.

40 advanced hours are met by:

ARCH 321 (3)

ARCH 433 (4)

ARCH 434 (5)

ARCH 435 (4)

400-level ARCH studios (24)

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

When students complete the BSAS degree they will be able to:

1. Employ Specialized Knowledge

Apply design thinking approaches to address environmental and societal challenges.
Implement design processes--documentation, research, analysis and application--
intervening to improve a set of environmental conditions.
Communicate ideas and concepts through verbal and graphic, physical and digital,
means.

2. Put Broad and Integrative Knowledge to Use

Identify complex problems and approaches to addressing them.
Understand diverse community dynamics and social relationships.
Explore the intersections among environmental, social, cultural, political and economic
aspects.

3. Exercise Intellectual Skills:

Evaluate and apply theories of the built environment's impact on human wellbeing.
Differentiate and assess various means of manufacture and their suitability for use in a
number of diverse contexts.
Acknowledge different theories for analyzing and intervening in urban contexts.
Evidence proficiency integrating technological systems to improve environmental
performance.
Critically examine humanistic perspectives in architecture, urban and landscape
throughout time.

4. Demonstrate Proficiency in Applied and Collaborative Learning:

Apply skills needed for successful teamwork and consensus decision making.
Employ leadership skills.
Recognize the value of multidisciplinary contributions in the realm of environmental
design.

5. Illustrate Civic and Global Understanding:

Demonstrate empathic and ethical decision making.
Apply sustainable practices across a variety of scales and contexts.
Cultivate self-learning skills and curiosity to learn and broaden cultural perspectives.
Utilize contemporary and historical perspectives in design thinking processes.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Revised programs [BARCH sample schedule FA 24.docx](#)
Attach a revised Sample Sequence (for undergraduate program)
or college-level forms.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

Statement for
Programs of
Study Catalog

Graduation Requirements

Minimum hours required for graduation: 120 hours.

A maximum of nine hours may be taken as professional architecture elective courses which a student can count toward the Master of Architecture in Architecture requirements.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in the program.

Course List

Financial Resources

How does the unit intend to financially support this proposal?

Will the unit need to seek campus or other external resources?

No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

[FAA Differential](#)

Are you seeking a change in the tuition rate or differential for this program?

No

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

No impact.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this BS program revision.
