Proposal to the Senate Educational Policy Committee

PROPOSAL TITLE: Revision of NRES (Department of Natural Resources and Environmental Sciences) Concentration Requirements: Human Dimensions of the Environment Concentration

SPONSOR: Jeffrey D Brawn, Professor, (217) 244-5937, jbrawn@illinois.edu

BRIEF DESCRIPTION: This is a minor change to the NRES concentration. It involves eliminating courses from the requirements that are no longer taught due to retirements, and adding courses taught by newly hired faculty members, the overall credits required do not change, nor do the core requirements, but the number of electives is increased slightly to give more flexibility to the students.

JUSTIFICATION: Recent retirements have caused some classes to be no longer offered in NRES; some of these classes were listed on our concentrations as requirements on short selection lists. They have been removed from those choices. In addition, new hires bring new talents and interests to our faculty, and new courses offered by the newly hired faculty members have been added to the concentrations as options as partial replacements for the discontinued courses. We have also decreased the total number of requirements by 2-3 credits while keeping the overall requirements at 126 credits. Our core requirements have not changed, just the courses on the “select one of many” lists for each concentration. This will give the students more flexibility in class scheduling, while maintain a consistent level of rigor in all our concentrations.

BUDGETARY AND STAFF IMPLICATIONS:

- a. Additional staff and dollars needed: **None**
- b. Internal reallocations (e.g., change in class size, teaching loads, student-faculty ratio, etc.): **None**
- c. Effect on course enrollment in other units and explanations of discussions with representatives of those departments: **None Expected**
- d. Impact on the University Library: **None**
- e. Impact on computer use, laboratory use, equipment, etc.: **None**

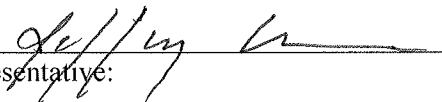

DESIRED EFFECTIVE DATE: Fall 2012

STATEMENT FOR PROGRAMS OF STUDY CATALOG:

The titles of the major and minor and concentrations in NRES will not change.

3	NRES 456 - Integrative Ecosystem Mgmt
Two Repeatable Field Methods Courses selected from:	
2-4	NRES 276 - Introduction to Field Pedology <i>or</i> NRES 285 - Natural Resource Field Experience

Justification for the change to the NRES core: simplification of concentration requirement lists; IB 104 moves into the Natural Sciences and Technology Required Group, the two field methods classes requirement redundantly appears in all concentrations. In addition, NRES 211 and 221 are no longer taught so they were removed from the Field Methods choices.

Hrs	One Conservation/Environmental Science/Ecology course selected from:
3-4	NRES 401 - Watershed Hydrology NRES 407 - Wildlife Population Ecology NRES 409 - Fishery Ecol and Conservation NRES 415 - Native Plant ID and Floristics NRES 420 - Restoration Ecology NRES 429 - Aquatic Ecosystem Conservation NRES 439 - Env and Sustainable Dev NRES 474 - Soil and Water Conservation

Changes to the Human Dimensions of the Environment Concentration: Courses removed due to retirements, difficulty in enrolling our students in classes outside of NRES, and simplification of the requirements. New courses added to take advantage of newly hired faculty members' expertise. The Management Practices requirement was transferred to the NRES core to eliminate duplication within the concentrations.

Dear Kristi:

Please find enclosed four proposals from the College of ACES to make minor changes within the following curricula in the Department of Natural Resources and Environmental Sciences:

- **Revision of the Concentration in *Resource Conservation and Restoration Ecology***
- **Revision of the Concentration in *Global Change and Landscape Dynamics***
- **Revision of the Concentration in *Fish and Wildlife Conservation***
- **Revision of the Concentration in *Human Dimensions of the Environment***

They have all been reviewed and approved by the ACES C&C Committee, and now I am forwarding them to you for campus-level review.

Thank you for your consideration of these proposals. Please feel free to contact me should you have any questions.

Sincerely,
