

Proposal to the Senate Educational Policy Committee

PROPOSAL TITLE: School of Art + Design First Year Foundations Curricular Revision and Concurrent Revision to the BFA Sculpture Major Program of Study

SPONSOR: Melissa Pokorny, Associate Professor, Associate Director, School of Art + Design, 333-0855, mpokorny@illinois.edu

COLLEGE CONTACT: Linda Robbennolt, Associate Dean for Undergraduate Academic Affairs—Academic Programs, College of Fine and Applied Art, 333-6061, weasel@illinois.edu

BRIEF DESCRIPTION: The School of Art + Design is revising the first year foundation curriculum. All students in the School take these required courses; therefore this revised curriculum will affect every major program of study in the School. The current freshman level courses in drawing, design, and art history are being revised or replaced, and additional courses are being proposed or are moving from the sophomore sequence into the freshman sequence. Please see revisions provided in the appendix.

JUSTIFICATION: In the fall of 2016, the School of Art + Design implemented direct admission into majors. All incoming freshmen must still complete the required foundations curriculum, prior to beginning the core major sequence in their sophomore year. Part of this shift to direct admission included the unanimous vote by faculty to also restructure the foundational year in a manner that: 1. Allowed freshmen to take a course in their major, and 2: Ensures that all freshmen experience the breadth of practice and expertise available in the nine degree-granting programs in the School. This would allow them the opportunity to switch majors, if appropriate, prior to the sophomore year.

BUDGETARY AND STAFF IMPLICATIONS:

1) Resources

- a. How does the unit intend to financially support this proposal? Existing faculty and graduate teaching assistants will teach all courses.
- b. How will the unit create capacity or surplus to appropriately resource this program? If applicable, what functions or programs will the unit no longer support to create capacity? The current foundations curriculum resources are being reassigned.
- c. Will the unit need to seek campus or other external resources? If so, please provide a summary of the sources and an indication of the approved support? None Needed.
- d. Please provide a letter of acknowledgment from the college that outlines the financial arrangements for the proposed program. Please see attached letter.

2) Resource Implications

- a. Please address the impact on faculty resources including the changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc. **None.**
- b. Please address the impact on course enrollment in other units and provide an explanation of discussions with representatives of those units. **No Units outside of the School of Art +Design are impacted.**
- c. Please address the impact on the University Library. **Please see attached letter.**
- d. Please address the impact on technology and space (e.g. computer use, laboratory use, equipment, etc.) **None.**

For new degree programs only:

- 3) Briefly describe how this program will support the University’s mission, focus, and/or current priorities. Include specific objectives and measurable outcomes that demonstrate the program’s consistency with and centrality to that mission.
- 4) Please provide an analysis of the market demand for this degree program. What market indicators are driving this proposal? What type of employment outlook should these graduates expect? What resources will be provided to assist students with job placement?
- 5) If this is a proposed graduate program, please discuss the programs intended use of waivers. If the program is dependent on waivers, how will the unit compensate for lost tuition revenue?

DESIRED EFFECTIVE DATE: Fall 2018

For the Degree of Bachelor of Fine Arts in Sculpture

The curriculum in sculpture requires 122 credit hours and provides a broad and solid foundation in the fundamental disciplines of drawing and design ,including both traditional and contemporary concepts. The student is encouraged to explore a wide range of sculptural practices, while experimenting with a variety of materials, techniques, methods, and styles.

When followed by a program leading to a degree of Master of Fine Arts in Sculpture, this curriculum is recommended as preparation for a career as an artist and as a teacher of sculpture and related subjects at the college level.

Dear Prof. Robbennolt:

Thank you for forwarding copies of the proposed changes to the School of Art + Design's First Year Foundations Curriculum and Concurrent Changes to the programs of study for nine undergraduate majors. The proposals reviewed by the University Library included changes to the following programs:

- Art Education
- Art History
- Crafts
- Graphic Design
- Industrial Design
- New Media
- Painting
- Photography
- Sculpture

Based upon the documents received and reviewed by Melanie Emerson on January 31, 2017, it is our belief that there will be no significant impact on collection development, instruction, or other operations in the University Library.

If additional services or materials are required as the program develops, we will be happy to discuss those needs as they emerge.

Sincerely,
