

UNIVERSITY OF ILLINOIS URBANA-CHAMPAIGN SENATE
COMMITTEE ON EDUCATIONAL POLICY
(Final; Information)

EP.25.001 Report of Administrative Approvals Through September 9, 2024

In accordance with Part B.9.a of the Senate *Bylaws*, "Senate committees are authorized to act for and in the name of the Senate on minor matters. Such actions shall be reported promptly to the Senate..." Below is a listing of items categorized as administrative approvals and approved by the Senate Committee on Educational Policy in the name of the Senate on the dates indicated. For each program listing, there is no change to the total hours required. Additional information for each approval is attached.

Section 1. This Section Approved by EP on August 26, 2024

A. Graduate Programs

- 1. Revise the Concentration in Entrepreneurship & Innovation in the Grainger College of Engineering and the Graduate College** – adds a corresponding program to the list of programs whose students are eligible to pursue this floating concentration.
- 2. Revise the Master of Science in Information Management in the School of Information Sciences and the Graduate College** – adds alternative course option for required course; adds clarifying language and specific course numbers for the Research/Independent Study section; adds maximum hours in guided research/independent study statement in Other requirements; moves Research/Independent study section for clarity; and extends temporary suspension of admissions which was set to expire at the end of Spring 2024 to continue through Summer 2025.

B. Undergraduate Programs

- 1. Revise the Undergraduate Minor in Anthropology in the College of Liberal Arts and Sciences** – adds four course options from which students can select to fulfill requirements; adds text to clarify one 100-level course substitution allowed for 1 of the 2 required courses for the 'Select at least two of the following' course list; adds clarifying course rubric information; modifies minimum 300-400 level course statement to include the ANTH rubric.
- 2. Revise the Bachelor of Science in Hospitality Management in the College of Agricultural, Consumer and Environmental Sciences** – removes 9 hours of Social and Behavioral Sciences that was erroneously in the POS table from a previous revision. The POS table still contains the campus requirements for Social and Behavioral Sciences; removes ACE 261 and replaces it with ACE 262; adds FSHN 439 and removes the advanced FSHN elective hours; removes ACES 101 and replaces it with FSHN 123; requires FSHN 293 be completed for minimum of 4 hours; adds ALEC 115 as option in the college speech requirements; removes MATH 234, 220, 221 as required choose from list in the quantitative reasoning courses; modifies the formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) to adhere to the campus General

Education template; removes RHET 105 from specifically being noted in the POS table; and moves coursework and creates headers from the Prescribe Course/Gen Ed table previously into the Dept and Major coursework table.

3. **Revise the Bachelor of Science in Accountancy plus Data Science in the Gies College of Business** – revises the General Education structure to align with the campus General Education requirements by removing the specific behavioral science course requirement and removing additional 200-level course requirement and requirement for a course to be taken in each sub-category in the Humanities and the Arts; moves ACCY 201, ACCY 202, ECON 102 and ECON 103 as separate rows in the POS table; removes notes within table for the Business Core requirements, specifically under the heading Business Sequence as they are no longer accurate; changes ‘Accounting Specialization’ to ‘Accountancy Requirements’; adds MATH 220 and MATH 221 as options to the Data Science Core; indents MATH course options in the POS table; and removes the Summary of Total Hours table.
4. **Revise the Bachelor of Science in Finance plus Data Science in the Gies College of Business** – revises the General Education structure to align with the campus General Education requirements by removing the specific behavioral science course requirement and removing additional 200-level course requirement and requirement for a course to be taken in each sub-category in the Humanities and the Arts; moves ACCY 201, ACCY 202, ECON 102 and ECON 103 as separate rows in the POS table; removes notes within table for the Business Core requirements, specifically under the heading Business Sequence as they are no longer accurate; indents MATH course options in the Data Science core table in POS; adds MATH 220 and MATH 221 as options to the Data Science Core; moves ACCY 201 and ACCY 202 and ECON 102 and ECON 103 as separate rows in the POS table; adds ability for a student to use one 3-credit FIN 490 toward their degree; changes “Finance Specialization” to “Finance Requirements”; removes list of Finance courses under Finance Specialization to eliminate confusion; and removes the Summary of Total Hours table.
5. **Revise the Bachelor of Science in Business plus Data Science in the Gies College of Business** – revises the General Education structure to align with the campus General Education requirements by removing the specific behavioral science course requirement and removing additional 200-level course requirement and requirement for a course to be taken in each sub-category in the Humanities and the Arts; and removes the Summary of Total Hours table.
6. **Revise the Undergraduate Minor in Global Markets & Society in the College of Liberal Arts and Sciences** – removes HIST 412 from the "Specialization Track, Analytical Approaches & Languages" and CMN 476 course from the "Specialization Track, Global Encounters" choose from lists; and revises the Specialization Track course lists to be listed vertically instead of as a block of horizontal course lists.
7. **Revise the Bachelor of Science in Materials Science & Engineering in the Grainger College of Engineering** – modifies the formatting of the program of study and additional text (e.g., graduation requirements, university requirements, and general education requirements) to adhere to the campus General Education Template; and removes one eliminated course.
8. **Revise the Bachelor of Science in Chemistry in the College of Liberal Arts and Sciences** – changes the wording that describes how transfer students can substitute 1 hour of 200 level or higher Chemistry for CHEM 150; modifies the formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education

requirements) to adhere to the campus General Education Template; corrects a previous answer to the question whether this is a teacher certification program; and corrects a previous answer to the question whether accreditation will be sought for the program.

9. **Revise the Concentration in Environmental Chemistry in the Bachelor of Science in Chemistry in the College of Liberal Arts and Sciences** – changes the wording that describes how transfer students can substitute 1 hour of 200 level or higher Chemistry for CHEM 150; modifies the formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) to adhere to the campus General Education Template; and corrects a previous answer to the question whether accreditation will be sought for the program.
10. **Revise the Bachelor of Science in Liberal Arts and Sciences in Chemistry in the College of Liberal Arts and Sciences** – changes the wording that describes how transfer students can substitute 1 hour of 200 level or higher Chemistry for CHEM 150; modifies the formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) to adhere to the campus General Education Template; and corrects a previous answer to the question whether this is a teacher certification program.
11. **Revise the Bachelor of Science in Liberal Arts and Sciences in Integrative Biology in the College of Liberal Arts and Sciences** – removes 6 deactivated and adds 6 courses to the IB Advanced Area course list; moves 2 courses from the elective category to the area category of IB core curriculum; updates student learning outcomes; modifies the formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) to adhere to the campus General Education Template; revises some area headers and adds a statement on the Honors concentration; moves blocked course lists to be listed line-by-line; and revises catalog page text.
12. **Revise the Concentration in Honors Integrative Biology in the Bachelor of Science in Liberal Arts and Sciences in Integrative Biology in the College of Liberal Arts and Sciences** – removes 10 deactivated and one previously approved elective courses; adds 4 elective courses; electives listed with the KIN rubric updated to the new HK rubric; updates student learning outcomes; modifies formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) to adhere to the campus General Education Template; reorganizes POS table to denote distinctive requirements for the Honors concentration and moves blocked course lists to be listed line-by-line; and revises catalog page text.
13. **Revise the Undergraduate Interdisciplinary Minor in South Asian Studies in the College of Liberal Arts and Sciences** – adds and removes elective courses and corrects the response in the Program Features section in CIM-P.
14. **Revise the Bachelor of Science in Bioengineering in the Grainger College of Engineering** – modifies the formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) to adhere to the campus General Education Template; removes a technical elective course option; replaces special topics courses with permanent course numbers; and removes special topics courses that are no longer offered.
15. **Revise the Bachelor of Science in Computer Science in the Grainger College of Engineering** – modifies the formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) to adhere to the campus

General Education Template; removes reference to two deactivated courses; changes ‘Total Hours chosen from the following’ to “Total hours” and moves the line to the bottom of the Foundational Math and Science Courses section; removes four deactivated technical elective course options; updates sample sequence.

16. **Revise the Bachelor of Science in Civil Engineering in the Grainger College of Engineering** – modifies the formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) to adhere to the campus General Education Template; removes two courses from elective list due to course deactivations and removes reference to a course substitute that no longer exists; and adds ECON 102/103 as a major requirement instead of being defined as a requirement only in paragraph text.
17. **Revise the Bachelor of Science in Industrial Engineering in the Grainger College of Engineering** – modifies the formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) to adhere to the campus General Education Template; removes deactivated course and updates course rubric and numbers due to change from KIN and CHLH to HK; adds ECON 102/103 as a major requirement instead of being defined as a requirement only in paragraph text; and adds SE 400 as a course option to all track options.
18. **Revise the Bachelor of Science in Systems Engineering & Design in the Grainger College of Engineering** – modifies the formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) to adhere to the campus General Education Template; removes several deactivated courses and updates course rubric and numbers due to change from KIN to HK; and adds ECON 102/103 as a major requirement instead of being defined as a requirement only in paragraph text.
19. **Revise the Concentration in Radiological, Medical & Instrumentation Applications in the Bachelor of Science in Nuclear, Plasma & Radiological Engineering in the Grainger College of Engineering** – modifies the formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) to adhere to the campus General Education Template; removes several deactivated courses from elective list; and adds ECON 102/103 as a major requirement instead of being defined as a requirement only in paragraph text.
20. **Revise the Bachelor of Fine Arts in Art Education in the College of Fine and Applied Arts** – updates course numbers that were renumbered recently.
21. **Revise the Undergraduate Minor in Theatre in the College of Fine and Applied Arts** – adds THEA 402 and THEA 209 to list of elective options; removes THEA 463 from list of elective options; removes superscripts.

Section 2. This Section Approved by EP on September 9, 2024

A. Graduate Programs

1. **Revise the Master of Education in Educational Psychology in the College of Education and the Graduate College** - eliminating the headings of the existing foundations requirement of four hours of Psychological Foundations Courses in Educational Psychology and four hours of Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and combining the existing course options into one

Foundations category for eight hours. There will not be any additional course options added.; moving the text “Masters degree students must take a graduate level College of Education course outside their degree granting department” listed under the Other Requirements heading to the new Foundations Courses Requirement to now say, “Select two of the following foundations courses, taken for four credit hours each. At least one of these two courses must be a course from outside the degree granting department”; and reorganizing the courses in alphabetical and numerical order under the Foundations Courses requirement section. We are not adding existing courses to the program.

- 2. Revise the Master of Arts in Education Policy, Organization & Leadership in the College of Education and the Graduate College** – eliminating the headings of the existing foundations requirement of four hours of Psychological Foundations Courses in Educational Psychology and four hours of Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and combining the existing course options into one Foundations category for eight hours. There will not be any additional course options added.; moving the text “Masters degree students must take a graduate level College of Education course outside their degree granting department” listed under the Other Requirements heading to the new Foundations Courses Requirement to now say, “Select two of the following foundations courses, taken for four credit hours each. At least one of these two courses must be a course from outside the degree granting department”; reorganizing the courses in alphabetical and numerical order under the Foundations Courses requirement section. We are not adding existing courses to the program.; separating the text, "400/500-Level Courses approved by Advisor (Independent Study can be applied up to a maximum of 8 hours)" into 2 lines that now states, "400/500 Level Courses approved by the advisor" for 16-22 on one line and a separate line for "Independent Study (min/max) (optional)" for 0-8 hours for clarity.; and removing the text, "(Optional) Concentration Courses. May overlap with other coursework requirements: 16-22 hours" from the POS study and revised the text "Requirements may overlap" to say, "Concentration courses may overlap with other coursework requirements" in the Other requirements section.
- 3. Revise the Master of Education in Education Policy, Organization & Leadership in the College of Education and the Graduate College** – eliminating the headings of the existing foundations requirement of four hours of Psychological Foundations Courses in Educational Psychology and four hours of Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and combining the existing course options into one Foundations category for eight hours. There will not be any additional course options added.; and moving the text “Masters degree students must take a graduate level College of Education course outside their degree granting department” listed under the Other Requirements heading to the new Foundations Courses Requirement to now say, “Select two of the following foundations courses, taken for four credit hours each. At least one of these two courses must be a course from outside the degree granting department”.
- 4. Revise the Certificate of Advanced Study in Education Policy, Organization & Leadership in the College of Education and the Graduate College** - eliminating the headings of the existing foundations requirement of four hours of Psychological Foundations Courses in Educational Psychology and four hours of Philosophical and Social Foundations Courses in

Education Policy, Organization and Leadership and Curriculum & Instruction and combining the existing course options into one Foundations category for eight hours. There will not be any additional course options added.; adding the text “Select two of the following foundations courses, taken for four credit hours each. At least one of these two courses must be a course from outside the degree granting department” to the Foundations Courses requirement; reorganizing the courses in alphabetical and numerical order under the Foundations Courses requirement section. We are not adding existing courses to the program.; and removing the text, "If the student does not have a Master's degree from the University of Illinois Urbana-Champaign, the foundation courses listed below must be completed." which was listed above the POS twice and added the phrase "in the "Foundations Courses" section" directly under the "Foundations Courses" heading.

5. **Revise the Master of Education in Early Childhood Education in the College of Education and the Graduate College** - eliminating the headings of the existing foundations requirement of four hours of Psychological Foundations Courses in Educational Psychology and four hours of Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and combining the existing course options into one Foundations category for eight hours. There will not be any additional course options added.; moving the text “Masters degree students must take a graduate level College of Education course outside their degree granting department” listed under the Other Requirements heading to the new Foundations Courses Requirement to now say, “Select two of the following foundations courses, taken for four credit hours each. At least one of these two courses must be a course from outside the degree granting department”; and reorganizing the courses in alphabetical and numerical order under the Foundations Courses requirement section. We are not adding existing courses to the program.
6. **Revise the Master of Science in Curriculum and Instruction in the College of Education and the Graduate College** - eliminating the headings of the existing foundations requirement of four hours of Psychological Foundations Courses in Educational Psychology and four hours of Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and combining the existing course options into one Foundations category for eight hours. There will not be any additional course options added.; moving the text “Masters degree students must take a graduate level College of Education course outside their degree granting department” listed under the Other Requirements heading to the new Foundations Courses Requirement to now say, “Select two of the following foundations courses, taken for four credit hours each. At least one of these two courses must be a course from outside the degree granting department”; and reorganizing the courses in alphabetical and numerical order under the Foundations Courses requirement section. We are not adding existing courses to the program.
7. **Revise the Master of Arts in Curriculum and Instruction in the College of Education and the Graduate College** - eliminating the headings of the existing foundations requirement of four hours of Psychological Foundations Courses in Educational Psychology and four hours of Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and combining the existing course options into one Foundations category for eight hours. There will not be any additional course options added.; moving the text “Masters degree students must take a graduate level College of

Education course outside their degree granting department” listed under the Other Requirements heading to the new Foundations Courses Requirement to now say, “Select two of the following foundations courses, taken for four credit hours each. At least one of these two courses must be a course from outside the degree granting department”; and reorganizing the courses in alphabetical and numerical order under the Foundations Courses requirement section. We are not adding existing courses to the program.

- 8. Revise the Master of Education in Curriculum and Instruction in the College of Education and the Graduate College** - eliminating the headings of the existing foundations requirement of four hours of Psychological Foundations Courses in Educational Psychology and four hours of Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and combining the existing course options into one Foundations category for eight hours. There will not be any additional course options added.; moving the text “Masters degree students must take a graduate level College of Education course outside their degree granting department” listed under the Other Requirements heading to the new Foundations Courses Requirement to now say, “Select two of the following foundations courses, taken for four credit hours each. At least one of these two courses must be a course from outside the degree granting department”; and reorganizing the courses in alphabetical and numerical order under the Foundations Courses requirement section. We are not adding existing courses to the program.
- 9. Revise the Certificate of Advanced Study in Curriculum and Instruction in the College of Education and the Graduate College** - eliminating the headings of the existing foundations requirement of four hours of Psychological Foundations Courses in Educational Psychology and four hours of Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and combining the existing course options into one Foundations category for eight hours. There will not be any additional course options added.; adding the text “Select two of the following foundations courses, taken for four credit hours each. At least one of these two courses must be a course from outside the degree granting department” to the foundations requirement.; reorganizing the courses in alphabetical and numerical order under the Foundations requirement. We are not adding existing courses to the program.; and revising the text above the POS to say, "If the student does not have a Master's degree from the University of Illinois Urbana-Champaign, Foundation Courses Requirement must be completed as prerequisites:".
- 10. Revise the Master of Arts in Educational Psychology in the College of Education and the Graduate College** – eliminating the headings of the existing foundations requirement of four hours of Psychological Foundations Courses in Educational Psychology and four hours of Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and combining the existing course options into one Foundations category for eight hours. There will not be any additional course options added.; moving the text “Masters degree students must take a graduate level College of Education course outside their degree granting department” listed under the Other Requirements heading to the new Foundations Courses Requirement to now say, “Select two of the following foundations courses, taken for four credit hours each. At least one of these two courses must be a course from outside the degree granting department”;

reorganizing the courses in alphabetical and numerical order under the Foundations Courses heading. We are not adding existing courses to the program.; and adjusting the elective hours range for accuracy, given the eight hours of foundations plus the range of 599 (2-8) to equal 32 due to mathematical error.

B. Undergraduate Programs

- 1. Revise the Bachelor of Fine Arts in Theatre in the College of Fine and Applied Arts** – modifies the formatting of the Program of Study and additional text (e.g., graduation requirements, university requirements, and general education requirements) to adhere to the campus General Education Template; moves General, Non-Theatre Electives to its own table and further toward bottom; deletes a footnote; creates a concentration table; in summary of credits table: Updates title and removes credit hours from Gen Ed and open electives; removes Language; removes parentheses about concentration requirements.
- 2. Revise the Concentration in Stage Management in the Bachelor of Fine Arts in Theatre in the College of Fine and Applied Arts** – modifies the formatting of the Program of Study and additional text (e.g., graduation requirements, university requirements, and general education requirements) to adhere to the campus General Education Template; adds THEA core, General Non-THEA electives, and summary of credits table to Program of Study table; changes to major that are also reflected here include: moving General, Non-Theatre Electives to its own table and further toward bottom; deletes a footnote; In summary of credits table: updates title and removes credit hours from Gen Ed and open elective, removes Language, and removes parentheses about concentration requirements.
- 3. Revise the Concentration in Theatre Studies in the Bachelor of Fine Arts in Theatre in the College of Fine and Applied Arts** – modifies the formatting of the Program of Study and additional text (e.g., graduation requirements, university requirements, and general education requirements) to adhere to the campus General Education Template; adds THEA core, General Non-THEA electives, and summary of credits table to Program of Study table; changes to major that are also reflected here include: moving General, Non-Theatre Electives to its own table and further toward bottom; deletes a footnote; In summary of credits table: updates title and removes credit hours from Gen Ed and open elective, removes Language, and removes parentheses about concentration requirements; fixes THEA 200-level course requirement issue with linking to THEA 200 and standardized description; adds THEA rubric to any 300 or 400-level theatre course requirement; and adds THEA, DANC, and MUS/MUSC rubrics to supporting professional electives requirement.
- 4. Revise the Concentration in Acting in the Bachelor of Fine Arts in Theatre in the College of Fine and Applied Arts** – modifies the formatting of the Program of Study and additional text (e.g., graduation requirements, university requirements, and general education requirements) to adhere to the campus General Education Template; adds THEA core, General Non-THEA electives, and summary of credits table to Program of Study table; changes to major that are also reflected here include: moving General, Non-Theatre Electives to its own table and further toward bottom; deletes a footnote; In summary of credits table: updates title and removes credit hours from Gen Ed and open elective, removes Language, and removes parentheses about concentration requirements.
- 5. Revise the Concentration in Costume Design & Technology in the Bachelor of Fine Arts in Theatre in the College of Fine and Applied Arts** – modifies the formatting of the Program of

Study and additional text (e.g., graduation requirements, university requirements, and general education requirements) to adhere to the campus General Education Template; adds THEA core, General Non-THEA electives, and summary of credits table to Program of Study table; changes to major that are also reflected here include: moving General, Non-Theatre Electives to its own table and further toward bottom; deletes a footnote; In summary of credits table: updates title and removes credit hours from Gen Ed and open elective, removes Language, and removes parentheses about concentration requirements.

6. **Revise the Concentration in Scenic Technology in the Bachelor of Fine Arts in Theatre in the College of Fine and Applied Arts** – modifies the formatting of the Program of Study and additional text (e.g., graduation requirements, university requirements, and general education requirements) to adhere to the campus General Education Template; adds THEA core, General Non-THEA electives, and summary of credits table to Program of Study table; changes to major that are also reflected here include: moving General, Non-Theatre Electives to its own table and further toward bottom; deletes a footnote; In summary of credits table: updates title and removes credit hours from Gen Ed and open elective, removes Language, and removes parentheses about concentration requirements.
7. **Revise the Concentration in Lighting Design & Technology in the Bachelor of Fine Arts in Theatre in the College of Fine and Applied Arts** – modifies the formatting of the Program of Study and additional text (e.g., graduation requirements, university requirements, and general education requirements) to adhere to the campus General Education Template; adds THEA core, General Non-THEA electives, and summary of credits table to Program of Study table; changes to major that are also reflected here include: moving General, Non-Theatre Electives to its own table and further toward bottom; deletes a footnote; In summary of credits table: updates title and removes credit hours from Gen Ed and open elective, removes Language, and removes parentheses about concentration requirements.
8. **Revise the Concentration in Sound Design & Technology in the Bachelor of Fine Arts in Theatre in the College of Fine and Applied Arts** – modifies the formatting of the Program of Study and additional text (e.g., graduation requirements, university requirements, and general education requirements) to adhere to the campus General Education Template; adds THEA core, General Non-THEA electives, and summary of credits table to Program of Study table; changes to major that are also reflected here include: moving General, Non-Theatre Electives to its own table and further toward bottom; deletes a footnote; In summary of credits table: updates title and removes credit hours from Gen Ed and open elective, removes Language, and removes parentheses about concentration requirements.
9. **Revise the Concentration in Scenic Design in the Bachelor of Fine Arts in Theatre in the College of Fine and Applied Arts** – modifies the formatting of the Program of Study and additional text (e.g., graduation requirements, university requirements, and general education requirements) to adhere to the campus General Education Template; adds THEA core, General Non-THEA electives, and summary of credits table to Program of Study table; changes to major that are also reflected here include: moving General, Non-Theatre Electives to its own table and further toward bottom; deletes a footnote; In summary of credits table: updates title and removes credit hours from Gen Ed and open elective, removes Language, and removes parentheses about concentration requirements.
10. **Revise the Concentration in Arts & Entertainment Technology in the Bachelor of Fine Arts in Theatre in the College of Fine and Applied Arts** – modifies the formatting of the Program

of Study and additional text (e.g., graduation requirements, university requirements, and general education requirements) to adhere to the campus General Education Template; adds THEA core, General Non-THEA electives, and summary of credits table to Program of Study table; changes to major that are also reflected here include: moving General, Non-Theatre Electives to its own table and further toward bottom; deletes a footnote; In summary of credits table: updates title and removes credit hours from Gen Ed and open elective, removes Language, and removes parentheses about concentration requirements; removes general education notes from POS in 'choose 12 credits' elective list.

Administration Details

Official Program Name	Entrepreneurship & Innovation - Floating (on campus & online)	
Diploma Title		
Sponsor College	Grainger College of Engineering	
Sponsor Department	Technology Entrepreneur Ctr	
Sponsor Name	<u>Ranjitha Kumar</u> Andy Singer	
Sponsor Email	<u>ranjitha@illinois.edu</u> acsinger@illinois.edu	
College Contact	Keri Carter Pipkins	College Contact Email
	kcp@illinois.edu	
College Budget Officer		
College Budget Officer Email		

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

Keilin Jahnke

Does this program have inter-departmental administration?
No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Concentration in Entrepreneurship & Innovation in the Grainger College of Engineering and the Graduate College

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

No

Program Justification

Provide a brief description of what changes are being made to the program. Adding a corresponding program, Engineering: Instrumentation and Applied Physics, MEng, to the list of programs whose students are eligible to pursue this floating concentration.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

The program was added to the letter of support as Physics accepted their first class in Fall 2023 for the Engineering: Instrumentation and Applied Physics, MEng (1PKS6084MENG).

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

Yes

Courses outside of the sponsoring department/interdisciplinary departments

Please attach any letters of support/acknowledgement for any Instructional Resources [Updated Grad Concentration in Entrepreneurship Ltr from Physics.pdf](#)

consider faculty, students, and/or other impacted units as appropriate.

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Learning objectives for the Graduate Concentration in Entrepreneurship and Innovation are designed to provide students in engineering graduate programs the skills and resources necessary to become successful innovators, entrepreneurs, and leaders in industry positions. This concentration will allow students to build a solid foundation of business practices and gain an entrepreneurial mindset.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Student learning outcomes and program objectives are assessed by the TE/ILEE Courses and Curricula Committee through the collection and evaluation of data. This Committee is responsible for proposing and overseeing improvements to the concentration. Data is continually collected and formally discussed in order to make improvements to the program curriculum, individual course learning objectives, and overall program objectives. Assessment is done through multiple processes, including:

1. Formal course evaluations (ICES).
2. Discussions between students, instructors, academic advisors, and graduate coordinators (from the student's primary department).
3. Evaluation of how specific course objectives fulfill overall program objectives.
4. Evaluation of specific course objectives and student outcomes.
5. Supervision by the Associate Dean for Innovation and Entrepreneurship.
6. Discussion of program recommendations from program alum.

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

2/6/2024

Jed Taylor

Assistant Dean for Innovation and Entrepreneurship, and Executive Director of TEC
351 Coordinated Science Lab, MC228

Dear Jed,

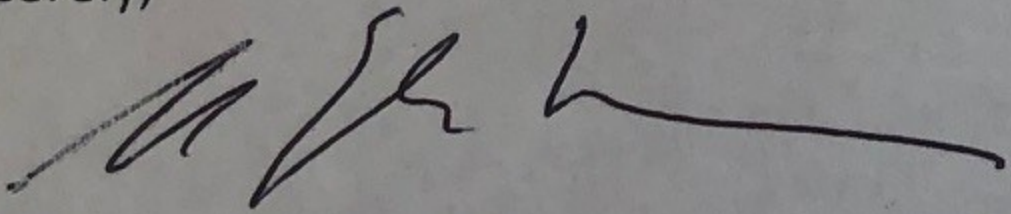

The Department of Physics (Phys) supports TEC in the implementation of a transcriptable concentration in Entrepreneurship and Innovation. Students will consult with their primary adviser regarding completion of the degree and concentration requirements.

Students may apply a maximum of 4 credit hours of Entrepreneurship & Innovation concentration coursework toward either their professional development requirements or elective requirements, subject to department approval, and provided they apply and are admitted to the Entrepreneurship & Innovation Concentration.

The concentration will be available to students enrolled in the following program codes:

- MS Physics (10KS0240MS)
- MS Teaching of Physics (10KS0241MS)
- PhD Physics (10KS0240PHD)
- MEng Instrumentation and Applied Physics (1PKS6084MENG)

Sincerely,

Matthias Grosse Perdekamp
Department Head

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Master of Science in Information Management in the School of Information Sciences and the Graduate College

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

no

Program Justification

Provide a brief description of what changes are being made to the program.

Currently there are three required courses for this degree, IS 504, IS 507, and IS 515, Information Modeling.

1. Adding alternative course option (IS 455) for a required course (IS 515).
2. Added the course numbers (IS 579 and IS 589) and the word 'optional' for the Research/Independent Study row in the Program of Study table.
3. Added maximum hours in guided research/independent study statement in Other Requirements section at the bottom of POS table where total hours remain unchanged.
4. Moved Research/Project/Independent study under Electives in POS table.
5. Requesting an extension of the temporary admissions suspension of the online modality. The current temporary suspension of admissions is through Spring 2024. This request is to extend the suspension for another year through Summer 2025, which will allow us to complete our work to construct a more targeted program.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Our intent is to provide students in the MSIM program with greater flexibility in how they obtain core knowledge in information organization. IS 455 provides a different perspective than 515, but covers the material considered critical by faculty.
2. Included clarifying language, "optional", along with course numbers with the Research/Project/Independent study for student transparency.
3. Included the maximum number of hours at the bottom of POS as it didn't exist before and was requested.
4. As Research/Independent Study is optional, it was moved and indented under Electives in the POS table.
5. This temporary suspension admission request is for the online modality of the program and to extend the temporary admissions suspension that is set to expire at the end of Spring 2024 to continue through Summer 2025. This time would allow us time to complete our work necessary before we can admit students.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Upon completion of the MSIM program, students will be able to:

- Manage information using best practices in management and policy; knowledge representation; human-centered design and systems; and data analytics.
- Define and successfully address a tractable research question or real world problem in information management using the appropriate scientific and/or research methods.
- Accurately convey the implications of analytical results (in both oral and written modalities) to diverse stakeholders.
- Articulate and critique the range of values and of ethical standpoints within which complex sociotechnical design occurs.
- Apply best practices for providing value, leadership, and team building.
- Stay up-to-date by learning how to read, analyze, discuss, synthesize, and critique advances reported in the research literature. ~~Update to course numbers will not impact program regulation and assessment.~~

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Immediate responsibility for assessment of learning outcomes rests with a standing Program Committee for the MSIM degree, and with the Program Director who chairs the committee. A broader supervisory responsibility is shared by the Associate Dean of Academic Affairs and by the faculty of the School as a whole.

The program committee regularly surveys enrolled students about their perceptions of the program and unmet needs (for instance, desired elective courses). Our most recent survey was undertaken two years ago. We also maintain first-destination data and review employment outcomes for MSIM graduates yearly. Finally, we have two student representatives on the MSIM committee who are empowered to convey student concerns and discuss curriculum with the faculty on the committee. All three of these evaluative mechanisms contributed to motivate the currently proposed revision.

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

- Manage information: students should know how to design relational database schemas and extract information using state-of-the-art analytic methods.
- Define and successfully address a tractable research question: courses must include opportunities for independent projects that are substantial and polished enough to enhance a graduate's portfolio.
- Accurately convey the implications of analytical results: analysis in student projects must demonstrate that they understand the limitations of analytical methods and can integrate quantitative results with social context. We assess this especially in the required course IS 507, but also in other data analytics courses.
- Articulate and critique the range of values and of ethical standpoints within which complex sociotechnical design occurs. We assess this in required courses that include, especially, IS 504, Sociotechnical Information Systems.
- Apply best practices for providing value, leadership, and team building. We assess this through group work and class participation, and regularly discuss these "soft skills" in the program committee. We also assess students' success after they leave the program; ultimately this is the benchmark that defines satisfactory performance.
- Stay up-to-date by learning how to read, analyze, discuss, synthesize, and critique advances reported in the research literature. Students should know how to find new methods, and assess whether the methods they are employing are still best practices.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

The program committee meets twice a semester, and assessment of student learning outcomes is part of its agenda that needs to be addressed every year.

Delivery Method

This program is available:

On Campus and Online - 2 program types. Students can receive the entire program either on campus or online. Students can choose to take courses in either modality.

Describe the use of this delivery method:

Students will be able to register for applicable courses either in-person on campus or online.

The online modality is in temporary suspension of admission from Spring 2022 through Spring 2024, approved in Spring 2022.

~~Offered to both on-campus and online (remote) students. Currently offered in both formats. Extension 2-year Suspension of Temporary Suspension of Admissions to allow people to enroll for the online version of the MS in Fall 2025. Information Management.~~

Admission Requirements

Desired Effective Fall 2025

Admissions Term

Is this revision a change to the admission status of the program?

No

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

The general admission requirements of the Graduate College apply. Consideration is also given to language study and computer skills, relevant work experience, letters of reference, and evidence of leadership. International students must score at least 620 on the paper-based Test of English as a Foreign Language (TOEFL) (260 on the computer-based test; 104 on the iBT version); or 7.5 on each section of the IELTS.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

We do not anticipate that a slight expansion of flexibility in required courses will directly impact enrollment and degrees awarded, but it may permit growth that would otherwise be difficult to sustain.

Estimated Annual Number of Degrees Awarded

Year One Estimate

5th Year Estimate (or when fully implemented)

What is the matriculation term for this program?
Fall

Budget

Are there budgetary implications for this revision?
No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?
No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

There are no costs implied by this change. In fact expanding the range of options will give us slightly more flexibility in staffing.
1. Marked yes on self-supporting status to correct the CIM-P record.

Will the unit need to seek campus or other external resources?
No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

Grad in Information Sciences – MSIM rate

Are you seeking a change in the tuition rate or differential for this program?
No

Is this program requesting self-supporting status?
Yes No

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

This will slightly reduce the pressure on IS 515 and slightly increase the pressure on IS 455. But we can address this by shifting faculty between the courses; there is no inherent reason that this change should require us to hire more faculty.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library resources are already sufficient to support students in this program.

Report to the Senate Educational Policy Committee of a Temporary Suspension of Admission of a Degree, Major, Concentration, or Minor

Temporary Suspension – To temporarily suspend admission to/enrollment in a program for a semester, year, or more. Please fill out this form. Once completed, please upload this as part of a CIM Program revision online. If you have questions, please email Brooke Newell (bsnewell@illinois.edu).

Suspension of Admission in order to Eliminate or Replace a Program – To phase down and eliminate a program. This is not the appropriate form. Please complete a phase down/elimination in the CIM P online system.

Non-Direct Admission Designated Program (previously “Permanent Suspension”) – To change a program’s admission status from open to one that does not directly admit students. This is not the appropriate form. Please fill out the **Change to Non-Direct Admission Status** form.

PROGRAM INFORMATION

1. Official Program Name (*Example: Business Administration, MS*): Information Management, MS
2. What is the anticipated duration of the suspension of admission?
Be specific – list in semesters or years.
 - a. This temporary admissions suspension request is for the online modality of the program to extend the temporary admissions suspension that is set to expire at the end of Spring 2024 to instead be through Summer 2025.
3. What governance process was used to make this decision?
 - a. Majority of the elected members of our faculty Executive Committee voted to extend the temporary suspension.
4. Have students been accepted, but have not yet matriculated into the program?
 - a. No
5. How many students are currently enrolled in the program?
 - a. None currently. Extending the current temporary extension to create and revise courses for a more targeted program.
6. Are there plans to direct prospective students to a different program during the suspension period?
Yes, students are directed to a current residential program
If yes, please specify the program(s). Please attach your communication with the affected program(s) to this proposal as an appendix (required).
7. Indicate any advising or other impact on continuing students in the suspended program:
 - a. Advising is available to the residential program
8. How will you ensure that current students in the suspended program will be able to continue their degree progress?
 - a. Not Applicable – there are no students in the program

INSTRUCTIONAL RESOURCES

9. Does this suspension affect any other units on campus? **No**
If yes, please explain. Please attach your communication with the affected units to this proposal as an appendix (required).
10. Does this suspension affect students outside of the unit? **No**
If yes, please explain.
11. Catalog Page Text: *The text below will appear on the Academic Catalog page for the program unless the sponsoring unit needs alternative text. If that is the case, provide the text below.*

Information Management, MS online is not currently accepting applications; suspension of admissions effective Spring 2022. We will start accepting applications for the Fall 2025 cohort.

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberal Arts and Sciences, include the Graduate College for Grad Programs)

Revise the Undergraduate Minor in Anthropology in the College of Liberal Arts and Sciences

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

Program Justification

Provide a brief description of what changes are being made to the program.

- 1) Adding four courses (ANTH 102, ANTH 103, ANTH 104, ANTH 105) from which students can select to fulfill requirements.
- 2) Adding text to clarify that students may make one 100-level course substitution for 1 of the 2 required courses for the 'Select at least two of the following' course list. There is no change in number of required hours for the minor.
- 3) In the POS, adding clarifying course rubric information into the statement "Anthropology courses at any level."
- 4) In POS, modified the statement "Minimum of six hours of 300- or 400-level courses."

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

- 1) The addition of four courses will provide students with more flexibility in completing requirements while still maintaining a solid and rigorous foundation.

- 2) For each pair of course options, the 100-level course presents material at an introductory level whereas the 200-level course covers the same material with more depth and breath. As examples, the pair ANTH 104 (Talking Culture) and ANTH 270 (Language in Culture) both focus on linguistic anthropology, and the pair ANTH 105 (World Archaeology) and ANTH 220 (Introduction to Archaeology) both offer an introduction to the archaeology subdiscipline. The opportunity to substitute one of the two required 200-level courses with a 100-level course offering provides additional courses to fulfill requirements. As indicated above, there is no change in the number of required hours for the minor.

3. For student transparency, added the clarifying ANTH rubric.

4. For student transparency, added clarifying "Six hours of 300- or 400-level courses in Anthropology (ANTH)."

Decisions for these changes were made in consultation with the Biological Anthropology faculty after a meeting with the Director of Undergraduate Studies, Department Head, and Undergraduate Advisor. These revisions will resolve differences between the Academic Catalog and the Anthropology website and will provide additional course options for completing the minor.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Students who graduate with an undergraduate minor in Anthropology will be expected to have:

- A broad knowledge of cultural, social, linguistic, and biological facets of the human condition and the theories and methods anthropologists use to study them.

- An understanding of the ethical and social dimensions of anthropological research and their impacts on society through social, political, cultural resource management, biological variation, and change over time.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

An undergraduate minor should consist of at least 16 - and no more than 21 hours - of course work, with at least 6 hours of 300- or 400- level courses. Except for clearly remedial offerings, prerequisite courses within the sponsoring unit count towards the total; prerequisite courses outside the sponsoring unit do not count toward this total. The unit sponsoring the minor and that unit's college may set educationally necessary prerequisites for eligibility for the minor within these constraints. Does this proposal meet these criteria?

Yes

Is this minor?

[A Comprehensive study in a single discipline](#)

Is This a Teacher Certification Program?

[No](#)

Will specialized accreditation be sought for this program?

[No](#)

Other than certification via the students' degree audits, is there any additional planned mechanism to award/honor successful completion of the minor?

[No](#)

Delivery Method

This program is
available:

On Campus - Students are required to be on campus, they may take some online courses.

Enrollment

Will the department limit enrollment to the minor?

No

Describe how the department will monitor the admission to/enrollment in the minor.

The academic advisor monitors admission/enrollment in the minor.

Are there any prerequisites for the proposed minor?

No

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

The revisions will have no significant impact on enrollment and degrees awarded.

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Program Justification

Provide a brief description of what changes are being made to the program.

- (1) Removes 9 hours of Social and Behavioral Sciences that was an error in a previous revision. The POS table still contains the campus requirements for Social and Behavioral Sciences
- (2) Also, we are removing ACE 261 and replacing it with ACE 262 since the former is no longer offered and the latter was created to replace it.
- (3) Adding new course requirement, FSHN 439.
- (4) With the addition of FSHN 439, we have removed the advanced FSHN elective hours.
- (5) Removes ACES 101 as the college orientation course and replacing with FSHN 123, the department level orientation course.
- (6) Requiring FSHN 293, off campus internship course be completed for a minimum of 4 hours in the degree requirements.
- (7) Adding ALEC 115 as an option to complete the college speech requirement
- (8) Removing MATH 234, 220, 221 as a required quantitative reasoning course

(9) Modifying the formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) to adhere to the campus General Education Template

(10) Removed RHET 105 from specifically being noted in program of study.

(11) Moved coursework and created headers from the Prescribed Course/Gen Ed table previously into the Dept and Major coursework table

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

These changes are necessary to keep the current curriculum updated with the correct courses offered and to eliminate confusion.

- (1) There was an error on the current program for Hospitality Management and this update provides clarity into what is needed for the degree as intended.
- (2) ACE 261 was deactivated in summer 2022.
- (3) FSHN 439, Design Thinking for Restaurants is an essential part of the Hospitality Management curriculum and therefore should be a required course within the degree program.
- (4) With FSHN 439 being added, the reduction of electives is being done to keep the degree program manageable within the total 126 hours required.
- (5) The departments within ACES will be taking over the orientation course for new students. Therefore we created FSHN 123 which will replace the college level ACES 101 course. This allows the departments to build the course in Banner, assign instructors, manage enrollment and overrides.
- (6) To ensure contact hours within the internship experience, increasing the minimum hours to 4 ensures students are getting a more robust experience to apply towards their degree
- (7) ALEC 115 is a new course that focuses on the speech requirements as it relates to food, agriculture and the environment.
- (8) The math preparation in the statistics requirement in the curriculum is sufficient to meet learning outcomes in the degree program.
- (9) Per Office of the Provost General Education initiative for transparency and accessibility.”
- (10) Removed RHET 105 because students should follow the campus guidelines for Composition I placement
- (11) Moved coursework and created headers from the Prescribed Course/Gen Ed table previously into the Dept and Major coursework table in order to make the program easier to read and explain to students.

40 hours of advanced level or courses with two or more prerequisites course work within the degree program:

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

The HM program will continue to participate in campus assessment activities. These objectives will be assessed yearly in September. The program coordinator collects data from faculty and prepares assessment report which is submitted to campus and shared with other Hospitality Management faculty.

Hospitality Management Student Learning Outcomes

1. Professionally manage the preparation, presentation and service of quality food. Apply science concepts to the food and beverage component of the hospitality industry. Identify hotel/lodging management and allied hospitality industries' concepts
2. Integrate human, financial and physical resources management into hospitality related operations. Practice and evaluate elements of service management
3. Demonstrate ability to analyze, assess, evaluate, adapt and apply problem solving skills
4. Demonstrate effective written and oral communication skills
5. Gain practical and professional experiences. Integrate and practice ethics, leadership, and collaboration

For the past 5-8 years we have focused and measured the following three questions to assess student learning at the program level and reported our findings to campus. The data collected is used to make curriculum, program and course enhancements to ensure student learning. These questions will be reassessed and updated every 5-8 years or as needed.

Question 1:

Do our students practice effective written communication?

Student Learning Outcome: #4

Sources/Methods for acquiring evidence: Review of student capstone project report and book reports from FSHN 442

Timeline: 2017-2019

Question 2:

Can students effectively apply management and business principles taught in the classroom to practical situations?

Student Learning Outcome: #1 and #3

Sources/Methods for acquiring evidence: Student performance on senior capstone project and internship employer evaluations.

Timeline: 2017-2020

Question 3:

Do students have an appropriate/complete understanding of industry specific knowledge and skills?

Student Learning Outcome: #1

Sources/Methods for acquiring evidence: Feedback from departmental external advisory committee, HM external advisory committee and alumni survey

Timeline: 2018-2019

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

~~The Hospitality Management major prescribes courses that meet the professional needs of the hospitality industry and career goals of students entering the major. The major is designed for students interested in integrating the basic principles of business and hospitality management with the goal of pursuing professional and management careers in hospitality-related industries. The program comprises 35 hours of hospitality-related course work, including food science; food management; nutrition; sanitation; purchasing; and the management of institutional, commercial, and fine dining facilities. Through the integration of food-focused theory, practice, and experience, it is the mission of the program to prepare leaders in the hospitality industry with a foundation in science, business, and management.~~

Statement for
Programs of
Study Catalog

Graduation Requirements

Minimum hours required for graduation: 126 hours.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300 and 400 level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog. ~~Prescribed Courses including Campus~~

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in the program.

Program Features

Academic Level Undergraduate

Does this major have transcribed concentrations? No

What is the typical time to completion of this program?
4 years

What are the minimum Total Credit Hours required for this program?
126

CIP Code 520905 - Restaurant/Food Services Management.

Is This a Teacher Certification Program?
No

Will specialized accreditation be sought for this program?
No

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Admission Requirements

Desired Effective Fall 2024
Admissions Term

Is this revision a change to the admission status of the program?

No

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

Freshman admissions will follow College of ACES admission standards and students will be admitted directly into the Hospitality Management degree program. Freshman applicants must meet general course pattern admission requirements of the University. Detailed information on the admission process may be obtained from the Office of Undergraduate Admissions.

Transfer admissions will remain the same as for the concentration.

Hospitality Management: The minimum GPA for admission consideration is 2.50 (A=4.00). Sophomore-level transfer admission requires completion of transfer coursework equivalent to the following University of Illinois courses: CHEM 101, Introductory Chemistry or an introductory chemistry course with Lab MATH 112, Algebra or higher¹ Junior-level transfer admission requires completion of transfer coursework equivalent to the following University of Illinois courses: CHEM 101, Introductory Chemistry or an introductory chemistry course with lab MATH 220, Calculus or MATH 234, Calculus for Business I Completion of transfer coursework equivalent to the following University of Illinois courses and graduation requirement prior to transfer is highly recommended: ACCY 201, Accounting and Accountancy I or an intro to financial accounting course ACE 100, Intro to Applied Microeconomics or ECON 102, Microeconomic Principles ACE 161, Microcomputer Applications or CS 105, Intro Computing: Non-Tech CMN 101, Public Speaking FSHN 101, The Science of Food and How it Relates to You FSHN 120, Contemporary Nutrition MCB 100, Introductory Microbiology and MCB 101, Intro Microbiology Laboratory – strongly recommended PSYC 100, Intro Psych RHET 105, Writing and Research² STAT 100, Statistics Language other than English³.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

This revision will not impact enrollment.

Estimated Annual Number of Degrees Awarded

Year One Estimate	0	5th Year Estimate (or when fully implemented)	20
-------------------	---	---	----

What is the matriculation term for this

Fall

program?

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

~~The support will continue as it was for the concentration.~~

Will the unit need to seek campus or other external resources?

No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

FSHN Differential rate currently used

Are you seeking a change in the tuition rate or differential for this program?

No

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

There will be no impact on faculty resources.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Current library resources, including collections and services, will not be impacted by the revision of this program. The current Library resources are sufficient.

March 28, 2024

To whom it may concern:

The College of Agricultural, Consumer & Environmental Sciences (ACES) acknowledges and supports the removal of ACES 101, Contemporary Issues in ACES, as part of the College of ACES related major curriculum revisions. Majors included within the following departments and program will be impacted.

- Agricultural & Biological Engineering
- Agricultural Consumer Economics
- Agricultural Leadership Education and Communication
- Animal Sciences
- Crop Sciences
- Food Science & Human Nutrition
- Human Development and Family Studies
- Natural Resources and Environmental Sciences
- College of ACES sponsored programs:
 - ACES Undeclared
 - Sustainability in Food and Environmental Systems

Please let me know if you have questions.

Sincerely,

Assistant Dean for Learning Innovation
Teaching Associate Professor
dskorte@illinois.edu | 217.244.8086

April 2, 2024

To whom it may concern:

The program of Agricultural Leadership, Education, and Communication acknowledges and supports the addition of ALEC 115, Let's talk about Food, Agriculture, and the Environment as an option in curriculum to meet the communication requirement degree programs in the College of ACES. Majors included within the following departments have the support to add this course to their degree program if so desired.

- Animal Sciences
- Agricultural Consumer Economics
- Food Science & Human Nutrition
- Agricultural & Biological Engineering
- Human Development and Family Studies
- Crop Sciences
- Natural Resources and Environmental Sciences
- College of ACES sponsored programs: ACES Undeclared and Sustainable Food and Environmental Systems

Please let me know if you have questions.

Sincerely,

Associate Dean
College of ACES
University of Illinois at Urbana Champaign
aball@illinois.edu

February 12, 2024

Dear Senate Committee on Educational Policy,

The Department of English acknowledges the proposal revision to **remove references to RHET 101, RHET 102, and RHET 105** from the academic programs and their associated concentrations listed below as these programs update to the new General Education template. The revised template will **add reference to the “Composition I” General Education Requirement**, rather than specific Rhetoric courses, to be consistent in supplying students with general education requirement information. Students are placed into Composition I courses based on proficiency and placement guidelines maintained by across campus and updated on the CITL Placement and Proficiency (P&P) website as well as the Course Explorer General Education website. The change should not impact the number of students registering in Rhetoric or any other Composition I courses as the placement process is not changing; rather, the replacement of specific courses with the General Education requirement on program documentation makes the process more transparent to students and advisors and helps ensure students are following accurate P&P guidance.

Programs:

- Animal Sciences, BS
- Crop Sciences, BS
- Human Development and Family Studies, BS

Subject: ACE 262 from 261 Update to Academic Catalog

Hello Dr. Low-

This email is to inform you and your department that the college would like to remove ACE 261 and replace it with ACE 262 as an option within the degree programs listed below. We do not believe you will see a large change in the demand in enrollment from these degree programs in ACE 262, but would like to give students the option to take this course to meet their degree statistics requirement.

- 10KL6143BS : Hospitality Management, BS
- 10KL0051BS : Natural Resources & Environmental Sciences, BS
- 10KL0002BS : Animal Sciences, BS

If this is option is agreeable to you, please confirm via email and I will attach your support to the changes made in the programs.

Thank you for your time-

Brianna

April 5, 2024

To whom it may concern:

The Department of Mathematics has been informed that the Hospitality Management major in the Department of Food Science and Human Nutrition is removing MATH 220 (Calculus), MATH 221 (Calculus I), and MATH 234 (Calculus for Business) as specifically required courses in their curriculum. We acknowledge these changes and have no concerns at the current time.

Sincerely,

Lee DeVille
Professor and Director of Undergraduate Studies, Mathematics

Please describe the oversight/governance for this program, e.g., traditional departmental/college governance. Inclusion of/roles of elected faculty committees? Inclusion of/roles of any advisory committees.

Change CIP from 52,1399 to 30.7001

In Spring 2017, the College of Liberal Arts & Sciences submitted an Investment for Growth Proposal to "Jump Start Data Science", focusing on undergraduate data science education. Interim Provost John Wilkin supported the proposal, but called on LAS to work with three colleges (Engineering, the iSchool, and the Gies College of Business) to develop a collaborative approach to undergraduate data science at Illinois.

Those deans formed a task force (herein the "Data Science Education Task Force" or DSETF) to explore opportunities and make proposals for undergraduate data science education at Illinois. The DSETF conducted its work during academic years 2017–2018 and 2018–2019. At the core of their work was the vision that every Illinois undergraduate should have the opportunity to have a meaningful exposure to data science.

In February 2019, the four deans agreed to support a shared framework for X+Data Science majors, based on suggestions from the DSETF. The framework consisted of the following pieces.

1) A set of core competencies and common features which will be expected of X+Data science majors, together with a reference standard set of courses and activities that fulfills the data science portion of those expectations.

2) Each college can propose its own X+Data Science majors, which will be majors of that college. They may differ from the reference standard approach. When they do so, they should explain how the proposed major provides the expected competencies and features of an X+Data Science major in a manner that is appropriate for their students.

3) The deans will engage with the campus leadership to establish a Data Science Education committee. The committee will:

- Keep track of offerings related to data science to facilitate collaboration and reduce redundancy
- Facilitate the development of data science programs by connecting undergraduate data science education resources across the university
- Advise colleges on matters related to undergraduate data science education
- Review X+Data Science major proposals, commenting on how they meet the expectations for X+Data Science majors and engage collaboratively and strategically with the university's resources in data science education

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Science in Accountancy plus Data Science in the Gies College of Business

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

Program Justification

Provide a brief description of what changes are being made to the program.

1. Revised the General Education structure in Gies College of Business Undergraduate programs to align with the campus structure for General Education Requirements. As such, we removed the specific behavioral science course requirement to fulfill the Social & Behavioral Science requirements. This now allows students to complete the Social & Behavioral Science requirements with the required ECON 102 and ECON 103 coursework. We also removed the additional 200 level course requirement and the requirement for a course to be taken in each sub-category in the Humanities & the Arts. This now allows for students to complete the Humanities & the Arts requirement with just 2 courses that satisfy this general education category at any level and in either Humanities & the Arts sub-category. We have included letters of support from the College of ACES, College of AHS, College of Education, College of Media, College of FAA, and College of LAS. In reviewing Gies students course selection for the additional Behavioral Science Gen Ed and Humanities Gen Ed in our current structure, these colleges would be most impacted by the removal of these requirements that are above and beyond what campus requires for general education.

2. Moved ACCY 201 and 202 and ECON 102 and 103 as separate rows in the POS table.

3. Removed notes within table for the Business Core requirements; specifically under the heading "Business Sequence" as they are no longer accurate.

4. Changed "Accounting Specialization" to "Accountancy Requirements."

5. We have added MATH 220 and 221 as options to the Data Science Core, as these are acceptable options with MATH 234 to complete the Calculus requirement for the Data Science core.

6. We indented the MATH course options in the Data Science Core table in POS.

7. We have removed the "Summary of Total Hours" table. The total hours of the program remain unchanged with the revision.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. We revised the general education requirements to be aligned with the campus requirements. As campus the campus general education requirements evolved and were changed (ex. 2017 revision), Gies College of Business did not change all of our requirements to be aligned with the new structure and expectations. For example, Gies College of Business currently requires students to take a behavioral science general education course, despite two courses in the Business Core requirements being coded as social sciences general education (ECON 102 and ECON 103). Since campus requires only 2 courses (6 hours) in the Social & Behavioral Science category, with no restrictions on which sub-categories (Social Science or Behavioral Science) to be used to satisfy the 2 courses, we are removing the need for Gies students to complete a Behavioral Science requirement and allowing the Business Core courses to satisfy the Social & Behavioral Science Gen Ed Category. The other category that is not aligned with the campus structure and expectations for general education is in the Humanities & the Arts Category. The campus structure for this category is students must complete 2 courses (6 hours) of Humanities & the Arts general education courses with no restrictions on which sub-categories (Literature and the Arts and Historical Philosophical Perspectives) or level of class (100 – 400 level) need to be selected to satisfy the category. Currently, Gies requires students to complete 3 courses in the Humanities & the Arts Gen Ed category, with 1 course in both sub-categories (Literature & the Arts and Historical Philosophical Perspectives) and 1 course at the 200-level or above. We are removing the 200-level requirement and allowing students to complete the Humanities & the Arts Gen Ed category with 2 courses from either sub-category, which will align with the campus expectation.
2. We made this change to streamline the table. Requirements and credit hours are unchanged.
3. Removed notes within table for the Business Core requirements; specifically under the heading "Business Sequence" as they are no longer accurate. This will prevent confusion.
4. Changed "specialization" to "requirements" in the Accountancy coursework to limit potential confusion. Specializations are often groups of courses or a "track" within a major, but all students in this major need to complete the Accountancy requirements listed.
5. We have added MATH 220 and 221 as options to the Data Science Core, as these are acceptable options with MATH 234 to complete the Calculus requirement for the Data Science core. These courses have been accepted to satisfy the calculus requirement since the start of the program. This change better communicates the course options the students have for the calculus requirement. Additionally, students must take either MATH 220 or MATH 221 if they opt to take MATH 257 for their linear algebra requirement so this change also improves the information available for planning purposes.
6. We indented the MATH course options in the Data Science Core table in POS to improve readability and presentation of requirements.

7. We have removed the "Summary of Total Hours" table. With the variance in credit hours of general education requirements, the summary table can create unnecessary confusion for students. With the addition of the sample sequence and clarity in the general education, business core, and data science core tables, students will have the ability to view all requirements needed to complete the 124 credits to graduate with this degree.

Breakout of how a student gets 40 hours of 300-, 400- level coursework and/or 200 level with 2 or more preq

a. All Gies UG students have:

- i. ACCY 202 – prereq of ACCY 201 which has a prereq of ECON 102/103 – 3 hours
- ii. BUS 301 – 3 hours
- iii. BUS 401 – 3 hours
- iv. BADM 300 – 3 hours
- v. BADM 310 – 3 hours
- vi. BADM 320 – 3 hours
- vii. BADM 449 – 3 hours

b. The Accountancy major has an additional 21 hours of required upper division courses.

- i. ACCY 301 - 3 hours
- ii. ACCY 302 - 3 hours
- iii. ACCY 303 - 3 hours
- iv. ACCY 304 - 3 hours
- v. ACCY 312 - 3 hours
- vi. ACCY 405 - 3 hours
- vii. Select one of the following: ACCY 410 or ACCY 451 - 3 hours

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Traditional course and program metrics currently used in our ACCY major will be used to assess and improve student performance. These include student satisfaction and hiring/placement statistics.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

This major is sponsored by the Accountancy Department in the Gies College of Business, in collaboration with the Departments of Statistics, Computer Science, iSchool, and Mathematics. The ACCY+Data Science major is designed for students seeking to supplement their accounting foundation with a strong background in data science. The major prepares students for professional or graduate work in all Accounting fields, but particularly those focused on analytics.

For the Degree of Bachelor of Science in Accountancy
Major in Accountancy + Data Science
E-mail: ACCY@illinois.edu

General education: Students must complete the Campus General Education requirements including the campus general education language requirement.

Twelve hours of 300 and 400-level courses must be taken on this campus.

Minimum hours required for graduation: 124 hours

Departmental distinction: To graduate with distinction requires a specified minimum grade point average in all Accountancy, Computer Science, Statistics, Information Science, and Mathematics courses listed below.

A GPA of 3.25 is required for Distinction, 3.5 for High Distinction, and 3.75 for Highest Distinction.

Statement for
Programs of
Study Catalog

Graduation Requirements

Minimum hours required for graduation: 124 hours.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in the program.

Meaningful Research or Discovery Experience

Course List

Code	Title	Hours
------	-------	-------

One of the most important skills a student will gain in an ACCY+DS degree will be the ability to present data in meaningful ways. A meaningful research and experience is as much a pillar of this degree program as both the core coursework and the area of specialization. This capstone experience can be fulfilled through [BUS 301](#). This course is an active learning, real-client experience that will allow students to join their data science skills with their business skills.

Total Hours 3

Corresponding Degree BS Bachelor of Science

Program Features

Academic Level Undergraduate

Does this major have transcribed concentrations? No

What is the typical time to completion of this program?
4 years

What are the minimum Total Credit Hours required for this program?
124 hours

CIP Code 30.7001 - 30.7001

Is This a Teacher Certification Program?
No

Will specialized accreditation be sought for this program?
No

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Admission Requirements

Desired Effective Admissions Term

Is this revision a change to the admission status of the program?

No

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

These are the same as those for our other degrees, which means the requirements are handled at the campus level.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

These changes will not impact enrollment.

Estimated Annual Number of Degrees Awarded

Year One Estimate	0	5th Year Estimate (or when fully implemented)	10
-------------------	---	---	----

What is the Fall

matriculation
term for this
program?

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

This is a revision of an existing degree program to partner with a data science component, and for the most part involves merely a shift in enrollments of courses taken within the units already. New courses largely shift enrollments away from existing courses (e.g., STAT 100 and CS 105 --> STAT/CS/IS 107; STAT 200 + STAT 212 --> STAT 207; MATH 225; etc.). In particular, as the appendix depicts, this new major simply adds a core of data science courses to the existing ACCY major. Three of these courses, STAT/CS/IS 107, STAT 207, and CS 307, will take the place of three existing courses in the Business Core, namely, CS 105, BADM 210, and BADM 211.

Will the unit need to seek campus or other external resources?

No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

[Gies Business Differential](#)

Are you seeking a change in the tuition rate or differential for this program?

No

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

These changes will not impact our faculty resources.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this revision.

FAA Letter of Support- Gies General Education Proposal

I write on behalf of the College of Fine and Applied Arts to offer our support for the proposed changes to the Gies General Education requirements, effective Fall 2024.

The revisions to eliminate the two additional general education courses beyond the campus requirement clearly serves the intended purposes of alignment and access. Removing one Humanities & the Arts course and one Behavioral Science course from the business major requirements will have a minimal impact on the College of Fine and Applied Arts. We also would support the opportunity for business majors to have additional flexibility to seek out campus minors of interests.

Therefore, we have no concerns with the proposal and offer our support for the elimination of additional general education requirements for business majors.

Sincerely,

Nicole Turner, Ph.D.

RE: Gies College of Business Undergraduate General Education Requirements Structure

Dear Dr. Scott and Cory,

Thank you for informing us of the proposed changes your college is making to the structure of your general education requirements. I understand that this proposal's purpose is to align the college structure of general education requirements with the current campus structure. Specifically, this proposal will make it so that Gies Undergraduate Students are no longer required to take a third humanities general education course at the 200 level or above and an additional behavioral science general education beyond the six hours of Social & Behavioral Sciences general education coursework required for Gies Undergraduate Students through our Business Core (Microeconomics and Macroeconomics). Gies Undergraduate Students will still be required to complete all campus general education requirements, and we welcome your students in Gies to complete the required general education categories through the courses offered in our college.

Sincerely,

A handwritten signature in black ink that reads "Kathryn E. Clark".

From: Dean Venetria K. Patton, LAS

RE: Gies College of Business Undergraduate General Education Requirements Structure

Dear Nehemiah and Cory,

Thank you for informing us of the proposed changes your college is making to the structure of your general education requirements. I understand that this proposal's purpose is to align the college structure of general education requirements with the current campus structure. Your proposal will make it so that Gies Undergraduate Students are no longer required to take a course from the Behavioral Sciences subcategory. To continue to satisfy the campus Social & Behavioral Sciences requirement (6 hours), students will be taking ECON 102 and ECON 103 as part of the Business Core Requirements. These two social science courses are essential to your business core structure and their inclusion in your programs of study attests to this. Your proposal also brings in alignment your Humanities & the Arts general education requirement with that of campus, requiring 6 hours in this category instead of three course (9 hours) representing both Literature & the Arts and Historical & Philosophical Perspectives subcategories, of which one course in either subcategory must be at the 200-level or above. Gies Undergraduate Students will still be required to complete all campus general education requirements, and we welcome your students to complete the required general education categories through the courses offered in our college.

Sincerely,

Venetria K. Patton
Harry E. Preble Dean

Proposed

Graduation Requirements

Minimum hours required for graduation: 124 hours.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The University and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in the program.

Does this program have inter-departmental administration?

Yes

Interdisciplinary Colleges and Departments (list other colleges/departments which are involved other than the sponsor chose above)

Please describe the oversight/governance for this program, e.g., traditional departmental/college governance. Inclusion of/roles of elected faculty committees? Inclusion of/roles of any advisory committees.

CIP change from 52.1399 to 30.7004

In Spring 2017, the College of Liberal Arts & Sciences submitted an Investment for Growth Proposal to "Jump Start Data Science", focusing on undergraduate data science education. Interim Provost John Wilkin supported the proposal, but called on LAS to work with three colleges (Engineering, the iSchool, and the Gies College of Business) to develop a collaborative approach to undergraduate data science at Illinois.

Those deans formed a task force (herein the "Data Science Education Task Force" or DSETF) to explore opportunities and make proposals for undergraduate data science education at Illinois. The DSETF conducted its work during academic years 2017–2018 and 2018–2019. At the core of their work was the vision that every Illinois undergraduate should have the opportunity to have a meaningful exposure to data science.

In February 2019, the four deans agreed to support a shared framework for X+Data Science majors, based on suggestions from the DSETF. The framework consisted of the following pieces.

- 1) A set of core competencies and common features which will be expected of X+Data science majors, together with a reference standard set of courses and activities that fulfills the data science portion of those expectations
- 2) Each college can propose its own X+Data Science majors, which will be majors of that college. They may differ from the reference standard approach. When they do so, they should explain how the proposed major provides the expected competencies and features of an X+Data Science major in a manner that is appropriate for their students.
- 3) The deans will engage with the campus leadership to establish a Data Science Education committee. The committee will:
 - Keep track of offerings related to data science to facilitate collaboration and reduce redundancy
 - Facilitate the development of data science programs by connecting undergraduate data science education resources across the university
 - Advise colleges on matters related to undergraduate data science education
 - Review X+Data Science major proposals, commenting on how they meet the expectations for X+Data Science majors and engage collaboratively and strategically with the university's resources in data science education

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Science in Finance plus Data Science in the Gies College of Business

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This proposal (970) is related to the Business Core (Key 558).

Program Justification

Provide a brief description of what changes are being made to the program.

1. Revised the General Education structure in Gies College of Business Undergraduate programs to align with the campus structure for General Education Requirements. As such, we removed the specific behavioral science course requirement to fulfill the Social & Behavioral Science requirements. This now allows students to complete the Social & Behavioral Science requirements with the required ECON 102 and ECON 103 coursework. We also removed the additional 200 level course requirement and the requirement for a course to be taken in each sub-category in the Humanities & the Arts. This now allows for students to complete the Humanities & the Arts requirement with just 2 courses that satisfy this general education category at any level and in either Humanities & the Arts sub-category. We have included letters of support from the College of ACES, College of AHS, College of Education, College of Media, College of FAA, and College of LAS. In reviewing Gies students course selection for the additional Behavioral Science Gen Ed and Humanities Gen Ed in our current structure, these colleges would be most impacted by the removal of these requirements that are above and beyond what campus requires for general education. We have included letters of support from the College of ACES, College of AHS, College of Media, College of FAA, and College of LAS. In reviewing Gies students course selection for the additional Behavioral Science Gen Ed and Humanities Gen Ed in our current structure, these colleges would be most

impacted by the removal of these requirements that are above and beyond what campus requires for general education.

2. Removed notes within table for the Business Core requirements; specifically under the heading "Business Sequence" as they are no longer accurate.
3. We indented the MATH course options in the Data Science Core table in POS.
4. Added MATH 220 and MATH 221 as options to the Calculus requirement. A specific letter of support is not attached because MATH is in workflow.
5. Moved ACCY 201 and 202 and ECON 102 and 103 as separate rows in the POS table.
6. Added the ability for a student to use one 3-credit FIN 490 toward their degree.
7. Changed "Finance Specialization" to "Finance Requirements."
8. Removed list of Finance courses under Finance Specialization.
9. Removed the "Summary of Total Hours" table. The total hours of the program remain unchanged with the revision.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. We revised the general education requirements to be aligned with the campus requirements. As campus the campus general education requirements evolved and were changed (ex. 2017 revision), Gies College of Business did not change all of our requirements to be aligned with the new structure and expectations. For example, Gies College of Business currently requires students to take a behavioral science general education course, despite two courses in the Business Core requirements being coded as social sciences general education (ECON 102 and ECON 103). Since campus requires only 2 courses (6 hours) in the Social & Behavioral Science category, with no restrictions on which sub-categories (Social Science or Behavioral Science) to be used to satisfy the 2 courses, we are removing the need for Gies students to complete a Behavioral Science requirement and allowing the Business Core courses to satisfy the Social & Behavioral Science

Gen Ed Category. The other category that is not aligned with the campus structure and expectations for general education is in the Humanities & the Arts Category. The campus structure for this category is students must complete 2 courses (6 hours) of Humanities & the Arts general education courses with no restrictions on which sub-categories (Literature and the Arts and Historical Philosophical Perspectives) or level of class (100 – 400 level) need to be selected to satisfy the category. Currently, Gies requires students to complete 3 courses in the humanities & the Arts Gen Ed category, with 1 course in both sub-categories (Literature & the Arts and Historical Philosophical Perspectives) and 1 course at the 200-level or above. We are removing the 200-level requirement and allowing students to complete the Humanities & the Arts Gen Ed category with 2 courses from either sub-category, which will align with the campus expectation.

2. Removed notes within table for the Business Core requirements; specifically under the heading "Business Sequence" as they are no longer accurate. This will prevent confusion.

3. We indented the MATH course options in the Data Science Core table in POS to improve readability and presentation of requirements.

4. We have added MATH 220 and 221 as options to the Data Science Core, as these are acceptable options with MATH 234 to complete the Calculus requirement for the Data Science core.

5. Made this change to streamline the table. Requirements and credit hours are unchanged.

6. Under previous guidelines, students could not use FIN 490 (Special Topics) as credit toward their degree. The Finance Department uses FIN 490 to pilot important courses to determine if they should be permanent offerings. However, without credit available, students are not enrolling in these special topics courses. The ability to count one 3-hour FIN 490 towards their degree program will encourage enrollment in these important courses.

7. Changed "specialization" to "requirements" in the Finance coursework to limit potential confusion. Specializations are often groups of courses or a "track" within a

major, but all students in this major need to complete the Finance requirements listed.

8. To eliminate confusion in the number of requirements and potential for discrepancies when FIN 400-level courses are added or removed from the course offerings.

9. We have removed the "Summary of Total Hours" table. With the variance in credit hours of general education requirements, the summary table can create unnecessary confusion for students. With the addition of the sample sequence and clarity in the general education, business core, and data science core tables, students will have the ability to view all requirements needed to complete the 124 credits to graduate with this degree.

Breakout of how a student gets 40 hours of 300, 400 level coursework and/or 200 level with 2 or more preq

a. All Gies UG students have 21 required upper division hours in the business core:

i. ACCY 202 – prereq of ACCY 201 which has a prereq of ECON 102/103 – 3 hours

ii. BUS 301 – 3 hours

iii. BUS 401 – 3 hours

iv. BADM 300 – 3 hours

v. BADM 310 – 3 hours

vi. BADM 320 – 3 hours

vii. BADM 449 – 3 hours

b. The Finance major has an additional 21 hours of required upper division courses.

i. FIN 300 - 3 hours

ii. FIN 321 - 3 hours

iii. FIN 411 - 3 hours

iv. Four FIN electives at the 400 level - 12 hours.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

Yes

Courses outside
of the sponsoring
department/interdisciplinary
departments

Please attach any letters of support/acknowledgement for any Instructional Resources consider faculty, students, and/or other impacted units as appropriate.

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Learning objectives and assessment for success in this program will be handled following our current process for all undergraduate Finance students. Success in the advanced classes requires success in prerequisites. We carefully monitor student progress through the initial years of the major in the advising process, giving mentoring where necessary.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program
Description and
Requirements
Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for

new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Attach a revised Sample Sequence (for undergraduate program) or college-level forms.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

This major is sponsored by the Finance Department in the Gies College of Business, in collaboration with the Departments of Statistics, Computer Science, iSchool, and Mathematics. The FIN + Data Science major is designed for students who desire to supplement their finance foundation with a strong background in data science. The major prepares students for professional or graduate work in all Finance fields, but particularly those focused on analytics.

Statement for Programs of Study Catalog

Graduation Requirements

Minimum hours required for graduation: 124 hours.

University Requirements

~~University Composition Requirement For a list of the specific courses that meet this requirement, see the college Office of Undergraduate Affairs in 1055 Business Instructional Facility or see the Course Explorer for a list of approved general education courses. General Education Requirements Three courses in the Humanities & the Arts area are required and students must complete at least one course in the Literature & the Arts and Historical & Perspectives subcategories. Minimum At least one of 40 hours of upper-division coursework, generally at the 300- level, higher-level course. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.~~

Course List

Code	Title	Hours
Composition I: Principles of Composition		4-7
Advanced Composition		3

~~Two courses in the Natural Sciences & Technology area are required. The university and residency requirements can be found It is strongly recommended that students complete one course in the Student Code (§3-801) and in the Academic Catalog. Physical Sciences and Life Sciences subcategories.~~

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in the program.

Program Features

Academic Level Undergraduate

Does this major have transcripted concentrations? No

What is the typical time to completion of this program?
4 years

What are the minimum Total Credit Hours required for this program?
124 hours

CIP Code 307104 - Financial Analytics.

Is This a Teacher Certification Program?

No

Will specialized accreditation be sought for this program?

No

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Admission Requirements

Desired Effective Admissions Term

Is this revision a change to the admission status of the program?

No

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

These are the same as those for our other degrees, which means the requirements are handled at the campus level.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

This revision will not impact enrollment or degrees awarded.

Estimated Annual Number of Degrees Awarded

Year One Estimate	0	5th Year Estimate (or when fully implemented)	10
-------------------	---	---	----

What is the matriculation term for this program?
Fall

Budget

Are there budgetary implications for this revision?
No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget
Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

We currently have capacity to address the expected minor increases in enrollments due to this program. FIN+DS students will benefit from the same career services and advising services provided to all Gies students. The Departments of Statistics and Computer Science and the iSchool will provide advising for the data science portion of the degree program and will interface with our advisors.

Will the unit need to seek campus or other external resources?

No

Attach letters of
support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

[Gies Business Differential](#)

Are you seeking a change in the tuition rate or differential for this program?

No

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

These changes will not impact our faculty resources.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this revision.

To: Nehemiah Scott, Associate Dean of Undergraduate Programs and Teaching Associate Professor of Business Administration and Josef and Margot Lakonishok Faculty Fellow

Cory Ohms, Assistant Dean of Academic Affairs, Office of Undergraduate Programs, Gies College of Business

From: Dean Venetria K. Patton, LAS

RE: Gies College of Business Undergraduate General Education Requirements Structure

Dear Nehemiah and Cory,

Thank you for informing us of the proposed changes your college is making to the structure of your general education requirements. I understand that this proposal's purpose is to align the college structure of general education requirements with the current campus structure. Your proposal will make it so that Gies Undergraduate Students are no longer required to take a course from the Behavioral Sciences subcategory. To continue to satisfy the campus Social & Behavioral Sciences requirement (6 hours), students will be taking ECON 102 and ECON 103 as part of the Business Core Requirements. These two social science courses are essential to your business core structure and their inclusion in your programs of study attests to this. Your proposal also brings in alignment your Humanities & the Arts general education requirement with that of campus, requiring 6 hours in this category instead of three course (9 hours) representing both Literature & the Arts and Historical & Philosophical Perspectives subcategories, of which one course in either subcategory must be at the 200-level or above. Gies Undergraduate Students will still be required to complete all campus general education requirements, and we welcome your students to complete the required general education categories through the courses offered in our college.

Sincerely,

Venetria K. Patton
Harry E. Preble Dean

From: Carla Santos, College of Applied Health Sciences

RE: Gies College of Business Undergraduate General Education Requirements Structure

Dear Dr. Scott and Cory,

Thank you for informing us of the proposed changes your college is making to the structure of your general education requirements. I understand that this proposal's purpose is to align the college structure of general education requirements with the current campus structure. Specifically, this proposal will make it so that Gies Undergraduate Students are no longer required to take a third humanities general education course at the 200 level or above and an additional behavioral science general education beyond the six hours of Social & Behavioral Sciences general education coursework required for Gies Undergraduate Students through the Business Core (Microeconomics and Macroeconomics). Gies Undergraduate Students will still be required to complete all campus general education requirements, and we welcome your students in Gies to complete the required general education categories through the courses offered in our college.

Sincerely,

A handwritten signature in black ink that reads 'Carla Santos'.

Carla Santos, Ph.D.
Professor and Interim Associate Dean for Undergraduate and Graduate Academic Affairs

FAA Letter of Support- Gies General Education Proposal

I write on behalf of the College of Fine and Applied Arts to offer our support for the proposed changes to the Gies General Education requirements, effective Fall 2024.

The revisions to eliminate the two additional general education courses beyond the campus requirement clearly serves the intended purposes of alignment and access. Removing one Humanities & the Arts course and one Behavioral Science course from the business major requirements will have a minimal impact on the College of Fine and Applied Arts. We also would support the opportunity for business majors to have additional flexibility to seek out campus minors of interests.

Therefore, we have no concerns with the proposal and offer our support for the elimination of additional general education requirements for business majors.

Sincerely,

Nicole Turner, Ph.D.

University Composition Requirements

For a list of the specific courses that meet this requirement, see the college Office of Undergraduate Affairs in 1055 Business Instructional Facility or see the Course Explorer for a list of approved general education courses.

Course List		
Code	Title	Hours
Composition I: Principles of Composition ¹		4-7
Advanced Composition		3

General Education Requirements

Three courses in the Humanities & the Arts area are required and students must complete at least one course in the Literature & the Arts and Historical & Perspectives subcategories. At least one of the courses must be a 200 or higher level course.

Two courses in the Natural Sciences & Technology area are required. It is strongly recommended that students complete one course in the Physical Sciences and Life Sciences subcategories.

Course List		
Code	Title	Hours
A minimum of six courses is required, as follows:		18
Humanities & the Arts: Literature & the Arts (1-2 courses)		
Humanities & the Arts: Historical & Philosophical Perspectives (1-2 courses)		
Natural Sciences & Technology: Physical Sciences (0-2 courses)		
Natural Sciences & Technology: Life Sciences (0-2 courses) ⁵		
Behavioral Sciences (1 course)		
Cultural Studies: Non-Western Cultures (1 course)		
Cultural Studies: U.S. Minorities Cultures (1 course)		
Cultural Studies: Western/Comparative Cultures (1 course)		
Quantitative Reasoning (2 courses)

Proposed

Graduation Requirements

Minimum hours required for graduation: 124 hours.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The University and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in the program.

Course List		
Code	Title	Hours
Composition I: Principles of Composition		4-6
Advanced Composition		3

Humanities & the Arts (6 hours)	6
Natural Sciences & Technology (6 hours)	6
Social & Behavioral Sciences (6 hours) fulfilled by ECON 102 and ECON 103	6
Cultural Studies: Non-Western Cultures (1 course)	3
Cultural Studies: U.S. Minorities Cultures (1 course)	3
Cultural Studies: Western/Comparative Cultures (1 course)	3
Quantitative Reasoning (2 courses, at least one course must be Quantitative Reasoning I) fulfilled by STAT 107, STAT 207; and MATH 234 or MATH 220 or MATH 221	6-10

Meaningful Research or Discovery Experience

One of the most important skills a student will gain in a FIN + DS degree will be the ability to present data in meaningful ways. A meaningful research and discovery experience is as much a pillar of this degree program as both the core coursework and the area of specialization. This capstone experience can be fulfilled through BUS 301, listed above in the Business Core. This course is an active learning, real-client experience that will allow students to join their data science skills with their business skills.

Brian Fulton, bfulton@illinois.edu

Does this program have inter-departmental administration?

Yes

Interdisciplinary Colleges and Departments (list other colleges/departments which are involved other than the sponsor chose above)

Please describe the oversight/governance for this program, e.g., traditional departmental/college governance. Inclusion of/roles of elected faculty committees? Inclusion of/roles of any advisory committees.

In Spring 2017, the College of Liberal Arts & Sciences submitted an Investment for Growth Proposal to “Jump Start Data Science”, focusing on undergraduate data science education. Interim Provost John Wilkin supported the proposal, but called on LAS to work with three colleges (Engineering, the iSchool, and the Gies College of Business) to develop a collaborative approach to undergraduate data science at Illinois.

Those deans formed a task force (herein the “Data Science Education Task Force” or DSETF) to explore opportunities and make proposals for undergraduate data science education at Illinois. The DSETF conducted its work during academic years 2017—2018 and 2018—2019. At the core of their work was the vision that every Illinois undergraduate should have the opportunity to have a meaningful exposure to data science.

In February 2019, the four deans agreed to support a shared framework for X+Data Science majors, based on suggestions from the DSETF. The framework consisted of the following pieces.

- 1) A set of core competencies and common features which will be expected of X+Data science majors, together with a reference standard set of courses and activities that fulfills the data science portion of those expectations.
- 2) Each college can propose its own X+Data Science majors, which will be majors of that college. They may differ from the reference standard approach. When they do so, they should explain how the proposed major provides the expected competencies and features of an X+Data Science major in a manner that is appropriate for their students.
- 3) The deans will engage with the campus leadership to establish a Data Science Education committee. The committee will:
 - Keep track of offerings related to data science to facilitate collaboration and reduce redundancy
 - Facilitate the development of data science programs by connecting undergraduate data science education resources across the university
 - Advise colleges on matters related to undergraduate data science education
 - Review X+Data Science major proposals, commenting on how they meet the expectations for X+Data Science majors and engage collaboratively and strategically with the university’s resources in data science education

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Science in Business plus Data Science in the Gies College of Business

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

no

Program Justification

Provide a brief description of what changes are being made to the program.

1. Revised the General Education structure in Gies College of Business Undergraduate programs to align with the campus structure for General Education Requirements. As such, we removed the specific behavioral science course requirement to fulfill the Social & Behavioral Science requirements. This now allows students to complete the Social & Behavioral Science requirements with the required ECON 102 and ECON 103 coursework. We also removed the additional 200 level course requirement and the requirement for a course to be taken in each sub-category in the Humanities & the Arts. This now allows for students to complete the Humanities & the Arts requirement with just 2 courses that satisfy this general education category at any level and in either Humanities & the Arts sub-category. Letters of support from the colleges most likely to be affected are attached. We have included letters of support from the College of ACES, College of AHS, College of Education, College of Media, College of FAA, and College of LAS. In reviewing Gies students course selection for the additional Behavioral Science Gen Ed and Humanities Gen Ed in our current structure, these colleges would be most impacted by the removal of these requirements that are above and beyond what campus requires for general education.

2. We have removed the "Summary of Total Hours" table. With the variance in credit hours of general education requirements, the summary table can create unnecessary

confusion for students. With the addition of the sample sequence and clarity in the general education, business core, and data science core tables, students will have the ability to view all requirements needed to complete the 124 credits to graduate with this degree. The total hours for this program have not changed with this revision.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. We revised the general education requirements to be aligned with the campus requirements. As campus the campus general education requirements evolved and were changed (ex. 2017 revision), Gies College of Business did not change all of our requirements to be aligned with the new structure and expectations. For example, Gies College of Business currently requires students to take a behavioral science general education course, despite two courses in the Business Core requirements being coded as social sciences general education (ECON 102 and ECON 103). Since campus requires only 2 courses (6 hours) in the Social & Behavioral Science category, with no restrictions on which sub-categories (Social Science or Behavioral Science) to be used to satisfy the 2 courses, we are removing the need for Gies students to complete a Behavioral Science requirement and allowing the Business Core courses to satisfy the Social & Behavioral Science Gen Ed Category. The other category that is not aligned with the campus structure and expectations for general education is in the Humanities & the Arts Category. The campus structure for this category is students must complete 2 courses (6 hours) of Humanities & the Arts general education courses with no restrictions on which sub-categories (Literature and the Arts and Historical Philosophical Perspectives) or level of class (100 – 400 level) need to be selected to satisfy the category. Currently, Gies requires students to complete 3 courses in the Humanities & the Arts Gen Ed category, with 1 course in both sub-categories (Literature & the Arts and Historical Philosophical Perspectives) and 1 course at the 200-level or above. We are removing the 200-level requirement and allowing students to complete the Humanities & the Arts Gen Ed category with 2 courses from either sub-category, which will align with the campus expectation.

2. We have removed the "Summary of Total Hours" table. With the variance in credit hours of general education requirements, the summary table can create unnecessary confusion for students. With the addition of the sample sequence and clarity in the general education, business core, and data science core tables, students will have the ability to view all requirements needed to complete the 124 credits to graduate with this degree.

Breakout of how a student gets 40 hours of 300-, 400- level coursework and/or 200 level with 2 or more preq

a. All BUS + DS students have 18 required upper division hours in the business core:

i. ACCY 202 – prereq of ACCY 201 which has a prereq of ECON 102/103 – 3 hours

ii. BUS 401 – 3 hours

iii. BADM 300 – 3 hours

iv. BADM 310 – 3 hours

v. BADM 320 – 3 hours

vi. BADM 449 – 3 hours

b. The Data Science Core has an additional 10 hours of required upper division courses.

i. CS 307 - 4 hours

ii. IS 467 - 3 hours

iii. IS 477 - 3 hours

c. Each of the four Business Administration Specializations has 12 hours of upper-level course work

d. The Meaningful Research or Discovery Experience: BUS 301 - 3 hours

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

Yes

Courses outside of the sponsoring department/interdisciplinary departments

Please attach any letters of support/acknowledgment for any Instructional Resources consider faculty, students, and/or other impacted units as appropriate.

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

The learning objectives related to student learning outcomes includes competence in selected concentration, data science, critical thinking, group work, communication. These outcomes are mapped to questions concerning student ability to use data analytics and problem solving to effectively understand real-world business issues, problem analysis and articulating conclusions, assuming leadership roles, grasp of international complexities effect business and data science.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

This major is sponsored by the Department of Business Administration within the Gies College of Business, in collaboration with the iSchool and the Departments of Statistics, Computer Science, and Mathematics. The Business+Data Science major is designed for students seeking to supplement their business specialization foundations with a strong background in data science. The major prepares students for professional and graduate work while involving a particular distinction with respect to analytics.

It is strongly recommended that students complete one course in the Physical Sciences and Life Sciences subcategories. Language Other than English~~ **Meaningful Research or Discovery Experience**

Course List

Code	Title	Hours
	One of the most important skills a student will gain in a BUS+ DS degree will be the ability to present data in meaningful ways. A meaningful research and experience is as much a pillar of this degree program as both the core coursework and the area of specialization. This capstone experience can be fulfilled through BUS 301 . This course is an active learning, real-client experience that will allow students to join their data science skills with their business skills.

Program Features

Academic Level Undergraduate

Does this major have transcripted concentrations? No

What is the typical time to completion of this program?
4 years

What are the minimum Total Credit Hours required for this program?
124

CIP Code 307001 - Data Science, General.

Is This a Teacher Certification Program?
No

Will specialized accreditation be sought for this program?
No

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Admission Requirements

Desired Effective
Admissions Term

Is this revision a change to the admission status of the program?

No

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

The admissions to this program will follow the same process of admissions to the Gies College of Business

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

This revision will impact enrollment.

Estimated Annual Number of Degrees Awarded

Year One Estimate	0	5th Year Estimate (or when fully implemented)	45
-------------------	---	---	----

What is the matriculation term for this program?
Fall

Budget

Are there budgetary implications for this revision?
No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?
No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

This proposal builds upon existing degree programs offered by the Department of Business Administration to partner with a data science component, and thus involves a small shift in enrollments for courses already available in the unit. As the appendix depicts, this new major adds a core of data science courses to a body of existing courses that serve existing degree programs offered by the Department of Business Administration within the Gies College.

The Gies curriculum involves a core of classes (the Business Core) that all Gies students complete in addition to specializing in their major-based coursework. Due to overlap in content and the need to allow students to complete the proposed major within four years of study, this proposal follows the precedent set by the 'Accountancy+DS' and 'Finance+DS' degrees by having three courses from the Data Science Core take the place of courses from the Business Core. Specifically, (1) STAT/CS/IS 107 from the Data Science Core takes the place of an existing course (CS 105) in the Business Core; (2) STAT 207 from the Data Science Core takes the place of an existing course (BADM 210) in the Business Core; (3) CS 307 from the Data Science Core takes the place of an existing course (BADM 211) in the Business Core. See the Curriculum sub-section below and the appendix for more details.

Will the unit need to seek campus or other external resources?

No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

[Gies](#) Business Differential

Are you seeking a change in the tuition rate or differential for this program?

No

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

These changes will not impact our faculty resources.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this revision.

RE: Gies College of Business Undergraduate General Education Requirements Structure

Dear Dr. Scott and Cory,

Thank you for informing us of the proposed changes your college is making to the structure of your general education requirements. I understand that this proposal's purpose is to align the college structure of general education requirements with the current campus structure. Specifically, this proposal will make it so that Gies Undergraduate Students are no longer required to take a third humanities general education course at the 200 level or above and an additional behavioral science general education beyond the six hours of Social & Behavioral Sciences general education coursework required for Gies Undergraduate Students through our Business Core (Microeconomics and Macroeconomics). Gies Undergraduate Students will still be required to complete all campus general education requirements, and we welcome your students in Gies to complete the required general education categories through the courses offered in the College of Education.

Sincerely,

A handwritten signature in black ink that reads 'Sarah J. McCarthy'.

RE: Gies College of Business Undergraduate General Education Requirements Structure

Dear Nehemiah and Cory,

Thank you for informing us of the proposed changes your college is making to the structure of your general education requirements. I understand that this proposal's purpose is to align the college structure of general education requirements with the current campus structure. Your proposal will make it so that Gies Undergraduate Students are no longer required to take a course from the Behavioral Sciences subcategory. To continue to satisfy the campus Social & Behavioral Sciences requirement (6 hours), students will be taking ECON 102 and ECON 103 as part of the Business Core Requirements. These two social science courses are essential to your business core structure and their inclusion in your programs of study attests to this. Your proposal also brings in alignment your Humanities & the Arts general education requirement with that of campus, requiring 6 hours in this category instead of three course (9 hours) representing both Literature & the Arts and Historical & Philosophical Perspectives subcategories, of which one course in either subcategory must be at the 200-level or above. Gies Undergraduate Students will still be required to complete all campus general education requirements, and we welcome your students to complete the required general education categories through the courses offered in our college.

Sincerely,

Venetria K. Patton

FAA Letter of Support- Gies General Education Proposal

I write on behalf of the College of Fine and Applied Arts to offer our support for the proposed changes to the Gies General Education requirements, effective Fall 2024.

The revisions to eliminate the two additional general education courses beyond the campus requirement clearly serves the intended purposes of alignment and access. Removing one Humanities & the Arts course and one Behavioral Science course from the business major requirements will have a minimal impact on the College of Fine and Applied Arts. We also would support the opportunity for business majors to have additional flexibility to seek out campus minors of interests.

Therefore, we have no concerns with the proposal and offer our support for the elimination of additional general education requirements for business majors.

Sincerely,

Nicole Turner, Ph.D.

This proposal is
for a:
Revision

Administration Details

Official Program Name	Global Markets & Society Minor, UG	
Diploma Title		
Sponsor College	Liberal Arts & Sciences	
Sponsor Department	Global Studies Programs & Courses	
Sponsor Name	Ellen Moodie	
Sponsor Email	emoodie@illinois.edu	
College Contact	Stephen R. Downie	College Contact Email
	sdownie@illinois.edu	
College Budget Officer	Michael Wellens	
College Budget Officer Email	wellens@illinois.edu	

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

Timothy Wedig, twedig@illinois.edu

Jerry Davila, jdavila@illinois.edu

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Undergraduate Minor in Global Markets & Society in the College of Liberal Arts and Sciences

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

Program Justification

Provide a brief description of what changes are being made to the program.

1. Removing HIST 412 from the "Specialization Track, Analytical Approaches & Languages" and CMN 476 course from the "Specialization Track, Global Encounters" choose from lists.
2. Revising the Specialization Track course lists to be listed vertically instead of as a block of horizontal course lists.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. HIST 412 and CMN 476 have been deactivated.
2. The block of horizontal course lists doesn't allow for campus reports to pull in course information for program maintenance, such as the Red Box Error report that provides units with a list of programs that have, for example, deactivated courses within the Program of Study table. By listing the courses vertically, campus reports will allow easier maintenance of the program's coursework.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Students in the LAS Global Studies Global Markets and Society minor will be able to:

1. Identify how complex, interdependent global systems—natural, environmental, social, cultural, economic, and political—affect and are affected by the local identities and ethical choices of individuals and institutions
2. Develop social scientific skills to explain these interconnections through data collection and analysis, building familiarity with academic literature, and written assignments.
3. Reinforce the practical importance of skills and knowledge from traditional liberal arts disciplines in business, government, non-profit, and non-governmental sectors.
4. Gain social awareness and cultural understanding of the ways in which markets, societies and associated institutions interact to produce outcomes at the local, national, and global levels.
5. Integrate the minor with their current major(s) to add depth and sophistication to their understanding of global interconnections with their primary academic/professional field. The minor will provide a foundation for increased complexity of engagement with interdisciplinary fields, projects, and intellectual inquiry.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

An undergraduate minor should consist of at least 16 - and no more than 21 hours - of course work, with at least 6 hours of 300- or 400- level courses. Except for clearly remedial offerings, prerequisite courses within the sponsoring unit count towards the total; prerequisite courses outside the sponsoring unit do not count toward this total. The unit sponsoring the minor and that unit's college may set educationally necessary prerequisites for eligibility for the minor within these constraints. Does this proposal meet these criteria?

Yes

Revised programs [Comparative Table Global Markets & Society Minor, UG.xlsx](#)

Attach a revised Sample Sequence (for undergraduate program) or college-level forms.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

OPTIONAL Professional Development Capstone Experience (3 hours)

Choose one option in consultation with the Global Markets and Society minor advisor:

Internship or Field Experience in a market-focused organization

Research Experience with a faculty member

Analytical/Research Paper with faculty guidance

Credit is awarded for each of these three options on the basis of an analytical/research paper written by the student under the supervision of a faculty adviser

Total Minimum Hours

18

Program Features

Academic Level Undergraduate

Is this minor?

A Comprehensive study in a single discipline

Is This a Teacher Certification Program?

No

Will specialized accreditation be sought for this program?

No

Other than certification via the students' degree audits, is there any additional planned mechanism to award/honor successful completion of the minor?

No

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Enrollment

Will the department limit enrollment to the minor?

No

Describe how the department will monitor the admission to/enrollment in the minor.

No impact

Are there any prerequisites for the proposed minor?

No

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

No impact

Budget

Are there budgetary implications for this revision?

No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

Will the unit need to seek campus or other external resources?

No

Attach letters of support

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources, and services are sufficient to support this revision.

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

Ashley Hallock, ahallock@illinois.edu, GCOE; Dallas Trinkle, dtrinkle@illinois.edu and Laura Nagel, ljnagel@illinois.edu, MatSE

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Science in Materials Science & Engineering in the Grainger College of Engineering

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

Program Justification

Provide a brief description of what changes are being made to the program.

1. The formatting of the program of study and additional text (e.g., graduation requirements, university requirements, and general education requirements) has been modified to adhere to the campus General Education Template.
2. Correcting a red box error from elimination of ECE 485.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Per Office of the Provost General Education initiative for transparency and accessibility.
2. Course has been deactivated.

A student can obtain the 40 hours of upper-division coursework through:

MSE 307 (3),
MSE 308 (3),
MSE 401 (3),
MSE 406 (3),
MSE 402 (3),
MSE 494 (1),
MSE 495 (2),
IE 300 (3),

and:

Biomaterials Area:

MCB 450 (3)
MCB 470 (3)
MSE 404 (3)
and ten hours of Topical Lectures

or

All other Areas:

MSE 304 (3)
MSE 405 (3)
MSE 404 (6)
and seven hours of Topical Lectures

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

The Materials Science and Engineering BS is accredited by the Engineering Accreditation Commission of ABET, Inc. (abet.org).

The program educational objectives of the MatSE Department and its faculty at the undergraduate level are:

1. Our graduates will attain the foundational knowledge to be successful in their chosen career.
2. Our graduates will be skilled at teamwork, communication and individual professionalism, including ethics and environmental awareness.
3. Our graduates will provide valuable service to their chosen profession and to society.
4. Our graduates will have the ability to achieve their personal goals and advance in their chosen profession through life-long learning.

The curriculum is designed to guarantee a certain breadth of knowledge in materials science and engineering through a set of core courses, as well as to ensure depth and focus in specialties with materials science. In accordance with the ABET educational criteria, the program has been developed so that graduates will have:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Students are assessed on these seven educational criteria in the required classes. Data is collected in alternating years on student achievement, and reviewed by the curriculum committee, with feedback to the faculty in the required courses. The faculty document changes made to their courses in response to the review of assessment data.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Revised programs [Materials Science and Engineering Sample Sequence.docx](#)

Attach a revised Sample Sequence (for undergraduate program) or college-level forms.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

Programs of

Study Catalog

Graduation Requirements

~~Minimum Overall GPA: 2.0~~

Minimum hours required for graduation: 128 hours.

Minimum Overall GPA: 2.0

University Requirements

Minimum 128 hours, to include a minimum of 40 40 hours of upper-division coursework at the 300- and 400-level. 400-level from all elements of the degree. from all elements of the degree. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

General education: Follows the campus Students must complete the Campus General Education (Gen Ed) requirements, including the campus general education language requirement. Some Gen Ed requirements may be met by courses required and/or electives in the program.

Code	Course List Title	Hours
	<u>Composition I</u>	<u>4-6</u>
	<u>Advanced Composition</u>	<u>3</u>
	fulfilled by <u>MSE 307 and MSE 308</u>	
	<u>Humanities & the Arts (6 hours)</u>	<u>6</u>
	<u>Natural Sciences & Technology (6 hours)</u>	<u>6</u>
	fulfilled by <u>CHEM 102, CHEM 104, PHYS 211, PHYS 212</u>

Program Features

Academic Level Undergraduate

Does this major have transcribed concentrations? No

What is the typical time to completion of this program?
4 years

What are the minimum Total Credit Hours required for this program?
128

CIP Code 141801 - Materials Engineering.

Is This a Teacher Certification Program?
No

Will specialized accreditation be sought for this program?
No

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Admission Requirements

Desired Effective Admissions Term

Is this revision a change to the admission status of the program?

No

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

N/A

Estimated Annual Number of Degrees Awarded

Year One Estimate

5th Year Estimate (or when

fully implemented)

What is the matriculation term for this program? Fall

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget

Information

No changes.

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

NA

Will the unit need to seek campus or other external resources?

No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

Are you seeking a change in the tuition rate or differential for this program?

No

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

N/A

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this revision.

Materials Science & Engineering, BS

for the degree of Bachelor of Science in Materials Science & Engineering

Sample Sequence

This sample sequence is intended to be used only as a guide for degree completion. All students should work individually with their academic advisors to decide the actual course selection and sequence that works best for them based on their academic preparation and goals. Enrichment programming such as study abroad, minors, internships, and so on may impact the structure of this four-year plan. Course availability is not guaranteed during the semester indicated in the sample sequence. The curriculum sequence can also be viewed via dynamic and static curricular maps ([Biomaterials](#) and [All Other Areas](#)), which include prerequisite sequencing.

Students must fulfill their Language Other Than English requirement by successfully completing a third level of a language other than English. See the corresponding section on the [Degree and General Education Requirements](#). [MSE 307](#) and [MSE 308](#) will satisfy technical core requirements and the Campus General Education Advanced Composition requirement. Free Electives: Additional course work, subject to the [Grainger College of Engineering restrictions to Free Electives](#), so that there are at least 128 credit hours earned toward the degree.

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Science in Chemistry in the College of Liberal Arts and Sciences

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This Chemistry, BS proposal (key 272) is related to the Chemistry, BSLAS proposal (key 271) and the Chemistry: Environmental Chemistry, BS proposal (key 623).

Program Justification

Provide a brief description of what changes are being made to the program.

We are proposing four changes. (1) Changing the wording that describes how transfer students can substitute 1 hour of 200 level or higher Chemistry for the 1 hour of CHEM 150. (2) Modifying the formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) to adhere to the campus General Education Template. (3) Correcting a previous answer to the question whether this is a teacher certification program. (4) Correcting a previous

answer to the question whether accreditation will be sought for the program.

Total credit hours will not change.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

(1) The current wording is as follows:

On- and off-campus transfer students in the BS curriculum may substitute 1 additional hour of 200 level or higher Chemistry [including CHEM 297, CHEM 397, CHEM 497, or CHEM 499] for CHEM 150.

This wording is confusing because (a) there is no need to differentiate on- and off-campus transfer students; (b) the word "additional" is unnecessary and incorrectly implies the addition of 1 credit hour. Therefore we wish to use revised and simplified wording as follows:

Transfer students may substitute 1 hour of 200 level or higher Chemistry, including CHEM 297, CHEM 397, CHEM 497, or CHEM 499, for the 1 hour of CHEM 150.

This revised wording retains the originally intended meaning and removes the confusing aspects.

(2) Per Office of the Provost General Education initiative for transparency and accessibility.

Chemistry, BS (Specialized Curriculum) 40 hours upper division sample plan:

Required courses:

CHEM 312 - 3 hours

CHEM 315 - 2 hours

CHEM 420 - 2 hours

CHEM 436 - 3 hours

CHEM 442 - 4 hours

CHEM 444 - 4 hours

CHEM 445 - 2 hours

sum: 20 hours

11 hours Advanced Chemistry - all options are 300 or 400 level

The above add up to 31 hours, so at least 9 more qualifying hours are needed, likely coming from some combination of the following:

CHEM 236 - 4 hours (prerequisites: CHEM 104 or 204 or 222/223, all of which require CHEM 102)

CHEM 237 - 2 hours (prerequisites: credit or concurrent registration in CHEM 236, which requires CHEM 104 or 204 or 222/223, all of which require CHEM 102)

MATH 241 - 4 hours (prerequisites: MATH 220/221 and 231)

MATH 257 - 3 hours (prerequisites: CS 101 and MATH 220/221)

MATH 285 - 3 hours (prerequisites: MATH 241, which requires MATH 220/221 and 231)

MATH 415 - 3 hours (prerequisites: MATH 241, which requires MATH 220/221 and 231)

PHYS 212 - 4 hours (prerequisites: PHYS 211 and credit or concurrent enrollment in MATH 241, which requires MATH 220/221 and 231)

PHYS 214 - 2 hours (prerequisites: PHYS 211 and 212)

Total equals 40 hours

(3) The Chemistry, BS degree is not a teacher certification program. Previously the Program Feature for "Is This a Teacher Certification Program" was incorrectly set to Yes. We are fixing this mistake and changing the entry to No.

(4) The Chemistry, BS degree is accredited by the American Chemical Society. Previously the Program Feature for "Will specialized accreditation be sought for this program?" was incorrectly set as No. We are fixing this mistake and changing the entry to Yes.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Unchanged from the Learning Outcomes listed at <http://catalog.illinois.edu/undergraduate/las/chemistry-bs/#learningoutcomestext>

Students graduating with the BS in Chemistry will have:

1. A thorough knowledge of the basic principles of chemistry, including atomic and molecular structure, chemical dynamics and the chemical and physical properties of substances.
2. An exposure to the subfields of chemistry, such as analytical, organic, physical, materials, inorganic, as well as chemical biology.
3. The ability to read, evaluate, interpret, and present (via oral and written communication) numerical, chemical and general scientific data, information and literature.
4. The ability to carry out experiments, use appropriate experimental apparatus effectively, and demonstrate proper laboratory safety skills.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

Specialized Curriculum

Graduation requires grade point averages of at least 2.0 overall and 2.0 in chemistry, mathematics, and physics courses.

Students in the Specialized Curriculum in Chemistry must include a course in Biochemistry in the Advanced Chemistry area or the Technical Electives area to be certified by the American Chemical Society as having met its specifications.

Departmental distinction: Students qualify for graduation with distinction by exhibiting superior performance in both course work and in senior thesis research. To be eligible, a student must have a UIUC coursework major grade point average of 3.25, must take CHEM 499 (normally for two semesters) and submit a senior thesis for evaluation, and must have their undergraduate research advisor submit to the department Head a letter of support attesting to the effort invested by the student. The minimum major GPAs for Distinction, High Distinction, and Highest Distinction are 3.25, 3.5, and 3.75, respectively. Final decisions on awarding Distinction honors will be made by the Head or designee.

Mathematics or computer science above the basic level		
Other courses in the physical and biological sciences and engineering including CHEM 199 (Three hours maximum credit in CHEM 199 . Additional courses in sciences and engineering can be taken, upon consultation with the SCS advisor and approval from the chemistry department. Approved courses must generally have a strong technical prerequisite, such as one year of college-level math or science.)		

Corresponding Degree BS Bachelor of Science

Program Features

Academic Level	Undergraduate
Does this major have transcripted concentrations?	Yes
Will you admit to the concentration directly?	No
Is a concentration required for graduation?	No
What is the typical time to completion of this program?	4 years

What are the minimum Total Credit Hours required for this program?

120 hours

CIP Code 400501 - Chemistry, General.

Is This a Teacher Certification Program?

No Yes

Will specialized accreditation be sought for this program?

Yes No

Describe the plans for seeking specialized accreditation:

The Chemistry, BS program is currently accredited with the American Chemical Society (ACS) and has been since Sept 1, 1940. The next periodic report will be due June 30, 2026.

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Admission Requirements

Desired Effective Fall 2024

Admissions Term

Is this revision a change to the admission status of the program?

No

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

No impact on enrollment and degrees awarded is expected.

Estimated Annual Number of Degrees Awarded

Year One Estimate

5th Year Estimate (or when fully implemented)

What is the matriculation term for this program?
Fall

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

No impact on financial resources is expected.

Will the unit need to seek campus or other external resources?

No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

Chemistry Differential

Are you seeking a change in the tuition rate or differential for this program?

No

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

This will not affect faculty resources.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this revision.

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Concentration in Environmental Chemistry in the Bachelor of Science in Chemistry in the College of Liberal Arts and Sciences

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This Chemistry: Environmental Chemistry, BS proposal (key 623) is related to the Chemistry, BSLAS proposal (key 271) and the Chemistry, BS proposal (key 272).

Program Justification

Provide a brief description of what changes are being made to the program.

We are proposing three changes. (1) Changing the wording that describes how transfer students can substitute 1 hour of 200 level or higher Chemistry for the 1 hour of CHEM 150. (2) Modifying the formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) to adhere to the campus General Education Template. (3) Correcting a previous answer to the question whether accreditation will be sought for the program.

Total credit hours will not change.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

(1) The current wording is as follows:

On- and off-campus transfer students in the BS curriculum may substitute 1 additional hour of 200 level or higher Chemistry [including CHEM 297, CHEM 397, CHEM 497, or CHEM 499] for CHEM 150.

This wording is confusing because (a) there is no need to differentiate on- and off-campus transfer students; (b) the word "additional" is unnecessary and incorrectly implies the addition of 1 credit hour. Therefore we wish to use revised and simplified wording as follows:

Transfer students may substitute 1 hour of 200 level or higher Chemistry, including CHEM 297, CHEM 397, CHEM 497, or CHEM 499, for the 1 hour of CHEM 150.

This revised wording retains the originally intended meaning and removes the confusing aspects.

(2) Per Office of the Provost General Education initiative for transparency and accessibility.

Environmental Chemistry concentration 40 hours upper division sample plan:

Required courses:

CHEM 312 - 3 hours

CHEM 315 - 2 hours

CHEM 420 - 2 hours

CHEM 436 - 3 hours

CHEM 442 - 4 hours

CHEM 444 - 4 hours

CHEM 445 - 2 hours

sum: 20 hours

11 hours Advanced Chemistry - all options are 300 or 400 level

The above add up to 31 hours, so at least 9 more qualifying hours are needed, likely coming from some combination of the following:

CHEM 236 - 4 hours (prerequisites: CHEM 104 or 204 or 222/223, all of which require CHEM 102)

CHEM 237 - 2 hours (prerequisites: credit or concurrent registration in CHEM 236, which requires CHEM 104 or 204 or 222/223, all of which require CHEM 102)

MATH 241 - 4 hours (prerequisites: MATH 220/221 and 231)

MATH 257 - 3 hours (prerequisites: CS 101 and MATH 220/221)

MATH 285 - 3 hours (prerequisites: MATH 241, which requires MATH 220/221 and 231)

MATH 415 - 3 hours (prerequisites: MATH 241, which requires MATH 220/221 and 231)

PHYS 212 - 4 hours (prerequisites: PHYS 211 and credit or concurrent enrollment in MATH 241, which requires MATH 220/221 and 231)

PHYS 214 - 2 hours (prerequisites: PHYS 211 and 212)

(Degree requirements for Environmental Chemistry concentration: Students will take a 3-hour, 300 level basic course in environmental chemistry and three 3-hour, upper-level advanced technical courses in environmental areas. These courses can be used as part of the required 7-9 hours of technical electives for the Specialized Curriculum in Chemistry.)

Required Technical Elective Courses for the Environmental Chemistry Concentration

Basic courses - 3 hours

CHEM 360 Chemistry of the Environment - 3 hours

or CEE 330 Environmental Engineering - 3 hours

Advanced Courses: Select three courses from the following: - 9 hours

ATMS 420 Atmospheric Chemistry - 4 hours

ATMS 449 - Biogeochemical Cycles - 4 hours

CEE 443 - Env Eng Principles, Chemical - 4 hours

CHEM 397 Individual Study Junior - 1-3 hours

CHEM 460 Green Chemistry - 3 or 4 hours

CHEM 497 Individual Study Senior - 1-3 hours

CHEM 499 Senior Thesis - 2-6 hours

GEOL 380 Environmental Geology - 4 hours

GEOL 460 Geochemistry - 4 hours

NRES 351 Introduction to Environmental Chemistry - 3 hours

NRES 487 Soil Chemistry - 3 hours

NRES 490 Surface Water System Chemistry - 4 hours

Other 400 level courses dealing with economic, engineering, biological aspects of environmental chemistry upon consultation with the faculty advisor.

Total equals 40 hours

(3) The Environmental Chemistry, BS degree is accredited by the American Chemical Society. Previously the Program Feature for "Will specialized accreditation be sought for this program?" was incorrectly set as No. We are fixing this mistake and changing the entry to Yes.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Unchanged from the Learning Outcomes listed at <http://catalog.illinois.edu/undergraduate/las/chemistry-bs/#learningoutcomestext>

Students graduating with the BS in Chemistry will have:

1. A thorough knowledge of the basic principles of chemistry, including atomic and molecular structure, chemical dynamics and the chemical and physical properties of substances.
2. An exposure to the subfields of chemistry, such as analytical, organic, physical, materials, inorganic, as well as chemical biology.
3. The ability to read, evaluate, interpret, and present (via oral and written communication) numerical, chemical and general scientific data, information and literature.
4. The ability to carry out experiments, use appropriate experimental apparatus effectively, and demonstrate proper laboratory safety skills.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

MATH 285	Intro Differential Equations	
Physics		10
PHYS 211	University Physics: Mechanics	
PHYS 212	University Physics: Elec & Mag	
PHYS 214	Univ Physics: Quantum Physics	
Technical Electives		7-9
CHEM (300 or higher), BIOC, CHBE (200 or higher)		
Courses in life sciences (all courses at 200 or higher)		
Mathematics or computer science above the basic level		
Other courses in the physical and biological sciences and engineering including CHEM 199 (Three hours maximum credit in CHEM 199 . Additional courses in sciences and engineering can be taken, upon consultation with the SCS advisor and approval from the chemistry department. Approved courses must generally have a strong technical prerequisite, such as one year of college-level math or science.)		

Course List

Code	Title	Hours
Required Technical Elective Courses for the Environmental Chemistry Concentration		12
These courses can contribute, in whole or in part, to the required 7-9 hours of technical electives for the Specialized Curriculum in Chemistry.		
Basic Courses		
CHEM 360	Chemistry of the Environment	3
or CEE 330	Environmental Engineering	
Advanced Courses		9
Select three courses from the following:		
ATMS 420	Atmospheric Chemistry	
ATMS 449	Biogeochemical Cycles	
CEE 443	Env Eng Principles, Chemical	
CHEM 397	Individual Study Junior	
CHEM 460	Green Chemistry	
CHEM 497	Individual Study Senior	
CHEM 499	Senior Thesis	
GEOL 380	Environmental Geology	
GEOL 460	Geochemistry	
NRES 351	Introduction to Environmental Chemistry	
NRES 487	Soil Chemistry	
NRES 490	Surface Water System Chemistry	
Other 400 level courses dealing with economic, engineering, or biological aspects of environmental chemistry, upon consultation with the SCS advisor and approval of the chemistry department.

Chemistry, BS

Program Features

Academic Level Undergraduate

Is This a Teacher Certification Program?

No

Will specialized accreditation be sought for this program?

Yes ~~No~~

Describe the plans for seeking specialized accreditation:

The Chemistry, BS program is currently accredited with the American Chemical Society (ACS) and has been since Sept 1, 1940. The next periodic report will be due June 30, 2026.

Additional concentration notes (e.g., estimated enrollment, advising plans, etc.)

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

No impact on enrollment and degrees awarded is expected.

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

No impact on financial resources is expected.

Will the unit need to seek campus or other external resources?

No

Attach letters of support

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

This will not affect faculty resources.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this revision.

Scott K. Silverman, sks@illinois.edu

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Fall 2024
Term

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Science in Liberal Arts and Sciences in Chemistry in the College of Liberal Arts and Sciences

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

This Chemistry, BSLAS proposal (key 271) is related to the Chemistry, BS proposal (key 272) and the Chemistry: Environmental Chemistry, BS (key 623).

Program Justification

Provide a brief description of what changes are being made to the program.

We are proposing three changes. (1) Changing the wording that describes how transfer students can substitute 1 hour of 200 level or higher Chemistry for the 1 hour of CHEM 150. (2) Modifying the formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) to adhere to the campus General Education Template. (3) Correcting a previous answer to the question whether this is a teacher certification program.

Total credit hours will not change.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

(1) The current wording is as follows:

Transfer students may elect to take an additional 1 hour of 200 level or higher Chemistry, including CHEM 297, CHEM 397, CHEM 497, or CHEM 499.

This wording is confusing because the word "additional" is unnecessary and incorrectly implies the addition of 1 credit hour. Therefore we wish to use revised and simplified wording as follows:

Transfer students may substitute 1 hour of 200 level or higher Chemistry, including CHEM 297, CHEM 397, CHEM 497, or CHEM 499, for the 1 hour of CHEM 150.

This revised wording retains the originally intended meaning and removes the confusing aspect.

(2) Per Office of the Provost General Education initiative for transparency and accessibility.

Chemistry, BSLAS 40 hours upper division sample plan:

Required courses:

CHEM 440 - 4 hours

CHEM 300 or 400 level electives - 8+ hours (typical BSLAS chemistry major: 15-16 advanced CHEM hours)

The above add up to 12+ hours, so at least 28 more qualifying hours are needed.

10 hours of 200 level courses with 2 prerequisites

CHEM 232 - 4 hours (prerequisites: CHEM 104 or 204 or 222/223, all of which require CHEM 102)

CHEM 233 - 2 hours (prerequisites: credit or concurrent registration in CHEM 232, which requires CHEM 104 or 204 or 222/223, all of which require CHEM 102)

MATH 241 - 4 hours (prerequisites: MATH 220/221 and 231)

At least 18 more qualifying hours are needed. Of the free electives in the sample sequence, 18 of those hours must be additional advanced courses at 300 or 400 level in various disciplines, on top of the 12 hours of CHEM listed above that are currently required by campus/LAS.

Total equals 40 hours

(3) The Chemistry, BSLAS degree is not a teacher certification program. Previously the Program Feature for "Is This a Teacher Certification Program" was incorrectly set to Yes. We are fixing this mistake and changing the entry to No.

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Unchanged from the Learning Outcomes listed at <http://catalog.illinois.edu/undergraduate/las/chemistry-bslas/#learningoutcomestext>

Students graduating with the BSLAS in Chemistry (Sciences & Letters) will have:

1. A thorough knowledge of the basic principles of chemistry, including atomic and molecular structure, chemical dynamics and the chemical and physical properties of substances.
2. An exposure to the subfields of chemistry, such as analytical, organic, physical, materials, inorganic, as well as chemical biology.
3. The ability to read, evaluate, interpret, and present (via oral and written communication) numerical, chemical and general scientific data, information and literature.
4. The ability to carry out experiments, use appropriate experimental apparatus effectively, and demonstrate proper laboratory safety skills.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Revised programs [SS Chemistry BSLAS_SKS05.docx](#)

Attach a revised Sample Sequence (for undergraduate program) or college-level forms.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

Departmental distinction: Students qualify for graduation with distinction by exhibiting superior performance in both course work and in senior thesis research. To be eligible, a student must have a UIUC coursework major grade point average of 3.25, must take CHEM 499 (normally for two semesters) and submit a senior thesis for evaluation, and must have their undergraduate research advisor submit to the department Head a letter of support attesting to the effort invested by the student. The minimum major GPAs for Distinction, High Distinction, and Highest Distinction are 3.25, 3.5, and 3.75 respectively. Final decisions on awarding Distinction honors will be made by the Head or designee.

Statement for

Programs of

Study Catalog

Graduation Requirements

~~General education: Students must complete the Campus General Education requirements including the campus general education language requirement.~~ Minimum hours required for graduation: 120 hours.

University Requirements

~~Minimum 120 hours, to include a minimum~~ of 40 hours of upper-division coursework, coursework generally at the 300- or 400-level. 300 and 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement. ~~degree.~~

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by

courses required and/or electives in the program.

Academic Level Undergraduate

Does this major have transcripted concentrations? No

What is the typical time to completion of this program?
4 years

What are the minimum Total Credit Hours required for this program?

120

CIP Code 400501 - Chemistry, General.

Is This a Teacher Certification Program?

No Yes

Will specialized accreditation be sought for this program?

No

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Admission Requirements

Desired Effective Admissions Term Fall 2024

Is this revision a change to the admission status of the program?

No

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

No impact on enrollment and degrees awarded is expected.

Estimated Annual Number of Degrees Awarded

Year One Estimate

5th Year Estimate (or when fully implemented)

What is the matriculation term for this program? Fall

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

No impact on financial resources is expected.

Will the unit need to seek campus or other external resources?

No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

Chemistry Differential

Are you seeking a change in the tuition rate or differential for this program?

No

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

This will not affect faculty resources.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this revision.

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

Allison O'Dwyer, Assistant Director for Academic Affairs, School of Integrative Biology,
aodwyer@illinois.edu

Does this program have inter-departmental administration?
No

Proposal Title

Effective Catalog Term	Fall 2024
------------------------	-----------

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberal Arts and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Science in Liberal Arts and Sciences in Integrative Biology in the College of Liberal Arts and Sciences

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

Yes this Integrative Biology, BSLAS revision (key 723) is related to the following revisions:

Honors Integrative Biology, BSLAS (key 724)

Integrative Biology, BSLAS + MS (key 1159)

Integrative Biology, MS (key 966)

Program Justification

Provide a brief description of what changes are being made to the program.

1. Five recently deactivated core courses and one elective are removed from the program of study table. Five recently approved core courses are added, in addition to two new elective courses. The total hours have not changed.
2. Two courses are moved from the elective category to the area category of IB core curriculum.
3. Student learning outcomes are updated.
4. The formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) has been modified to adhere to the campus General Education Template. Additionally, some area headers are revised and a statement on the Honors concentration is added.
5. Blocked course lists are now listed line-by-line.
6. Catalog page text is edited.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. The following IB courses were deactivated and removed from the POS. These were deactivated due to changes in faculty or were replaced by revised courses. The courses were within the list of IB Advanced Area courses.

IB 335 Plant Systematics

IB 427 Insect Physiology

IB 434 Physical Principles in Biology

IB 472 Plant Molecular Biology (in workflow)

IB 473 Plant Genomics (in workflow)

IB 487 Math Modeling in Life Sciences

The following courses taught by IB faculty and IB-controlled were recently approved and added to the POS. The courses are added with within the list of IB Advanced Area courses.

IB 392 Translating Your IB Degree Into Career Success

IB 407 Plant Diversity and Evolution

IB 433 Insect Physiology

IB 438 How Organisms Move

IB 460 Evolution of Intelligent Systems

IB 465 Methods in Molecular Genetics and Genomics (in workflow for SP25)

IB 497 Science Communication

2. IB 411 and IB 468 were electives ("additional advanced courses") but are now listed as area courses as these are taught by IB faculty, are IB-controlled courses, and their student learning outcomes are inclusive of the prescribed IB area curriculum.

3. Edits to learning outcomes include updated language, style, and alignment with current courses and Bloom's Taxonomy. Revisions were crafted with input from a School-wide teaching retreat, IB majors, SIB Academic Support Team, SIB Courses and Curricula Committee, SIB Executive Committee, and the campus assessment team.

4. Per Office of the Provost General Education initiative for transparency and accessibility. Area headers are slightly edited for clarity as the former list of lab courses is now included with the advanced area course lists by listing "lab" as a comment for each lab course. This reduces the redundancy in courses listed. For transparency, a note on the distinctive requirements of the optional IB Honors concentration requirements are added to the POS.

5. Per request from LAS as blocked course lists do not appear for red box error reporting.

6. Updates to the catalog page text were included for clarity and to bring the catalog into agreement with departmental language, but do not affect program requirements. These updates reflect current practices and include:

-updated program description

-removal of links and extraneous language

-revised language on Distinction requirements

40-hours advanced credit requirement met as follows:

4 credit-hours: IB 202 (prereq IB 150, MCB 150)
4 credit-hours: IB 203 (prereq IB 150, MCB 150)
4 credit-hours: IB 204 (prereq IB 150, MCB 150)
4 credit-hours: IB 302
6 credit-hours: CHEM 232/233 (pre-req CHEM 104/105)
15 credit-hours: Adv IB courses
3 credit-hours: Adv Campus Elective

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

By the time they graduate, an Integrative Biology major should be able to: ~~should:~~
~~Content-related understandings~~

1. Synthesize and apply core ~~Possess a significant~~ knowledge ~~base~~ in Integrative Biology, including anatomy, development, ecology, evolution, genetics, molecular biology, physiology, and/or systematics. ~~but not limited to:~~ ~~Statistical inference~~
~~a. Structure and function~~~~b. Ecology~~~~c. Genetics~~~~d. Evolution~~~~e. Molecular biology~~~~f.~~
2. Apply predictive simple models (equations/math) to biological phenomena and engage with the process of scientific inquiry. ~~5.~~
3. Critically evaluate ~~Read and communicate complex, dynamic~~ ~~evaluate primary~~ scientific information. ~~literature~~ ~~7.~~
4. Understand that biology is integrative and multidisciplinary~~3. Show curiosity and caring about biology, and an awareness of and appreciation for the diversity of life~~~~4. Understand how paradigms of biology relate to society and policy as well as their own lives~~ ~~Competencies~~~~1. Carry out the process of scientific inquiry~~~~2. Employ curiosity, inquiry, quantitative reasoning, Use critical thinking skills and~~ critical thinking in problem solving. ~~solve problems~~ ~~3.~~
5. Create solutions for global and local biological challenges using interdisciplinary strategies.
6. Develop professional skills including ethics, proficiency in oral and written scientific communication, data analysis and interpretation, collaboration, and the ability to critically evaluate science-related news and information. ~~Use quantitative reasoning and computation skills~~ ~~4. Apply simple models (equations/math) to biological phenomena~~ ~~5. Gain proficiency in scientific writing and speaking~~ ~~6. Read and evaluate primary scientific literature~~ ~~7. Critically evaluate science-related news and information~~ ~~8. Work collaboratively~~

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses” (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor’s degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

or college-level forms.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

In the School of Integrative Biology (SIB), students receive interdisciplinary training to prepare them for 21st-century scientific roles. We occupy a unique position on campus. Our majors explore how scales of life interact, from molecules through global cycles, to solve grand challenges such as addressing global change, improving human health, mitigating biodiversity loss, and contributing to ecosystem restoration and sustainable food and biofuel production. The SIB community collaborates extensively on both research and teaching, leading to multi-disciplinary courses grounded in active learning and highly transferable, higher-order processing skills such as application, interpretation, and evaluation. Students build laboratory skills spanning from tall grass prairie restoration to modern genome-editing techniques. The IB curriculum includes ~~Integrative Biology major provides students with a solid~~ preparation in genomics and evolution; comparative genetics, evolution, anatomy, physiology, and development; ecology and behavior; phylogenetic systematics and ecology, and molecular biology; and mathematical modeling and informatics. biology. Graduates are well-equipped for a broad range of careers in fields including healthcare, biotechnology, genetic counseling, wildlife management, and environmental sciences.

~~After completion of the foundational 100 and core 200-300 level courses in IB, students complete the required advanced coursework by taking a variety of IB and other courses or focusing on a limited area of IB. Plans for the student's combination of advanced courses are developed in consultation with an adviser. All undergraduates in this field are required to have a strong background in the biological and physical sciences. Students pursuing a degree in Integrative Biology will be allowed to earn a second degree in the Specialized Curriculum in Biochemistry. Students pursuing a degree in Integrative Biology will not be allowed to double major in Molecular and Cellular Biology. For students interested in adding licensure to the 5-year, combined BSLAS & MS in Integrative Biology program Biology, please visit the Integrative Biology, BSLAS-MS catalog page. Biology Teaching page:~~

For students interested ~~Students pursuing a degree in adding educational licensure Integrative Biology will be allowed to the BSLAS earn a second degree in Integrative Biology, visit the Teacher Education Minor the Specialized Curriculum in Secondary School Teaching catalog page. Biochemistry.~~

Students pursuing a degree in Integrative Biology will not be allowed to double major in Molecular and Cellular Biology. To be eligible for graduation with

~~[http://sib.illinois.edu/undergraduate/programs/teaching-Distinction for Excellence in Research](http://sib.illinois.edu/undergraduate/programs/teaching-Distinction-for-Excellence-in-Research): Distinction for Excellence excellence in Research~~

Students are eligible for graduation at the following levels: a student must: Distinction, High Distinction, or Highest Distinction. Distinction will be determined by the SIB Distinction Committee based on the poster presentation and the level of Distinction will be based on the information below. Advisor's evaluation. To be eligible for graduation with High or Highest Distinction for Excellence in Research a student must:

- Be enrolled as an Integrative Biology or Integrative Biology Honors major
- Have a completed distinction evaluation form submitted by their Faculty Research Advisor
- Maintain a minimum 3.25 GPA within the major at the end of the penultimate semester
- To be eligible for Distinction, students must give a poster presentation at the SIB Distinction Symposium or other approved venue
- To be eligible for High or Highest Distinction, students must submit a written thesis and give an oral presentation at the SIB Distinction Symposium or other approved venue
- Finally, all students regardless of Distinction level must either:

• ~~Be enrolled as an Integrative Biology Major~~ • ~~Either:~~ 1. Complete two or more semesters of IB 390/IB 490 for 2-credit hours or more each semester. The student should enroll in IB 490 the semester they intend ~~the student intends~~ to graduate, which counts towards the two required semesters.

OR

2. Complete at least 180 hours of mentored research. The research experience must last a minimum of 20 weeks (the weeks need not be consecutive and summer research counts toward this total) and students should enroll in one semester of IB 490 for a minimum of 1-credit hour prior to or during the semester they intend to graduate. Example: a student could be eligible if they complete a 10-week summer research experience combined with enrolling in IB 490 the following spring semester, the same term ~~semester~~ they intend to graduate. • ~~Maintain a minimum 3.25 GPA within the major at the end of the penultimate semester.~~ • ~~Give a poster presentation at the Undergraduate Research Symposium or other approved venue.~~ • ~~Have a completed distinction evaluation form submitted by their Faculty Research Advisor.~~ Distinction will be determined by the SIB Distinction Committee based on the poster presentation and the Advisor's evaluation. • ~~Substitutions or other changes to these requirements may be made only via petition to and approval of the Chair of the SIB Distinction Committee and the SIB Associate Director for Academic Affairs.~~ High or Highest Distinction for Excellence in Research: To be eligible for graduation with High or Highest Distinction for Excellence in Research a student must: • ~~Be enrolled as an Integrative Biology Major~~ • ~~Either:~~ 1. Complete two or more semesters of IB 390/IB 490 for 2-credit hours or more each semester. The student should enroll in IB 490 the semester the student intends to graduate, which counts towards the two required semesters. OR 2. Complete at least 180 hours of mentored research. The research experience must last a minimum of 20 weeks (the weeks need not be consecutive and summer research counts toward this total) and students should enroll in one semester of IB 490 for a minimum of 1-credit hour prior to or during the semester they intend to graduate. Example: a student could be eligible if they complete a 10-week summer research experience combined with enrolling in IB 490 the semester they intend to graduate. • ~~Maintain a minimum 3.25 GPA within the major at the end of the penultimate semester.~~ • ~~Submit a written thesis and give an oral presentation at the Undergraduate Research Symposium or other approved venue.~~ • ~~Have a completed distinction evaluation form submitted by their Faculty Research Advisor.~~ • ~~The level of Distinction will be determined by the SIB Distinction Committee based on the written thesis, the oral presentation, and the~~

~~Advisor's evaluation. • Substitutions or other changes to these requirements may be made only via petition to and approval of the Chair of the SIB Distinction Committee and the SIB Associate Director for Academic Affairs.~~

Statement for
Programs of
Study Catalog

Graduation Requirements

Minimum hours required for graduation: 120 hours.

Minimum required major and supporting course work: Normally ~~work: Normally~~ equates to to 66-75 hours.

University Requirements

~~Minimum hours for graduation is 120, to include a minimum~~ of 40 hours of upper-division coursework, ~~coursework~~ generally at the 300- or 400-level. ~~and 400-level.~~ These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

~~General education: Follows the campus -Students must complete the Campus General Education (Gen Ed) requirements. -requirements including the campus general education language requirement. Some Gen Ed requirements may be met by courses required and/or electives in the program.~~

~~Minimum required major and supporting course work: Normally equates to to 66-75hours.~~

Corresponding Degree BSLAS Bachelor of Science in Liberal Arts and Sciences

Program Features

Academic Level Undergraduate

Does this major have transcripted concentrations? Yes

Will you admit to the concentration directly? No

Is a concentration required for graduation? No

What is the typical time to completion of this program?
4 years

What are the minimum Total Credit Hours required for this program?
120 hours

CIP Code 269999 - Biological and Biomedical Sciences, Other.

Is This a Teacher Certification Program?
Yes

Will specialized accreditation be sought for this program?
No

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Admission Requirements

Desired Effective
Admissions Term

Is this revision a change to the admission status of the program?

No

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

No impact on enrollment/degrees awarded is expected.

Estimated Annual Number of Degrees Awarded

Year One Estimate

5th Year Estimate (or when
fully implemented)

What is the
matriculation
term for this
program? Fall

Budget

Are there
budgetary
implications for
this revision? No

Will the program or revision require staffing (faculty, advisors, etc.)
beyond what is currently available?

No

Additional Budget
Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

No financial resources are to be impacted.

Will the unit need to seek campus or other external resources?

No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

[Chem Life Differential](#)

Are you seeking a change in the tuition rate or differential for this program?

No

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

No impact on faculty resources is expected.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this program.

Integrative Biology, BSLAS

- **Sample Sequence**

for the degree of Bachelor of Science in Liberal Arts & Sciences Major in Integrative Biology

This sample sequence is intended to be used only as a guide for degree completion. All students should work individually with their academic advisors to decide the actual course selection and sequence that works best for them based on their academic preparation and goals. Enrichment programming such as study abroad, minors, internships, and so on may impact the structure of this four-year plan. Course availability is not guaranteed during the semester indicated in the sample sequence.

Students must fulfill their Language Other Than English requirement by successfully completing a fourth level of a language other than English. This may require up to four semesters of language depending on high school coursework or placement. See the corresponding section on the Degree General and Education Requirements page: <http://catalog.illinois.edu/general-information/degree-general-education-requirements/>.

IB majors may begin with CHEM 101 or MATH 115 if needed based on placement as part of a standard eight-semester sequence.

First Year			
First Semester Courses	Hours	Second Semester Courses	Hours
LAS 101	1	MCB 150 (Gen Ed: NST)	4

College Budget Officer	Mike Wellens	
College Budget Officer Email	wellens@illinois.edu	

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

Allison O'Dwyer, Assistant Director for Academic Affairs, School of Integrative Biology,
aodwyer@illinois.edu

Dr. Jim Dalling, Professor of Plant Biology and Head of IB Honors, dalling@illinois.edu

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Fall 2024
Term

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberal Arts and Sciences, include the Graduate College for Grad Programs)

Revise the Concentration in Honors Integrative Biology in the Bachelor of Science in Liberal Arts and Sciences in Integrative Biology in the College of Liberal Arts and Sciences

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

Yes this Honors Integrative Biology, BSLAS revision (key 724) is related to the following revisions:

Integrative Biology, BSLAS (key 723)
Integrative Biology, BSLAS + MS (key 1159)
Integrative Biology, MS (key 966)

Program Justification

Provide a brief description of what changes are being made to the program.

1. Ten recently deactivated elective courses are removed from the program of study table. Four recently approved electives are added. One previously approved elective is removed. The total hours have not changed.
2. Electives listed with the KIN rubric are updated to the new HK rubric.
3. Student learning outcomes are updated.
4. The formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) has been modified to adhere to the campus General Education Template. Additionally, the POS is reorganized

to denote distinctive requirements for the Honors concentration.

5. Blocked course lists are now listed line-by-line.

6. Catalog page text is edited.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. The following IB courses were deactivated and removed from the POS. These were deactivated due to changes in faculty or were replaced by revised courses. The courses were with the list of Advanced Biological Science Electives.

IB 335 Plant Systematics

IB 427 Insect Physiology

IB 472 Plant Molecular Biology (in workflow)

IB 473 Plant Genomics (in workflow)

In addition, external unit course electives that were recently deactivated were removed including: ANSC 331, CHLH 474, MCB 403, MCB 404, MCB 429, NRES 402.

IB 390 was mistakenly previously approved as an elective course and is removed from the POS to reflect current departmental practices.

The following courses taught by IB faculty and IB-controlled were recently approved and added to the POS in the Advanced Biological Science Electives section:

IB 407 Plant Diversity and Evolution

IB 433 Insect Physiology

IB 460 Evolution of Intelligent Systems

IB 465 Methods in Molecular Genetics and Genomics (in workflow for SP25)

2. This is to update the POS with new the departmental rubric.

3. Edits to learning outcomes include updated language, style, and alignment with current courses and Bloom's Taxonomy. Revisions were crafted with input from a School-wide teaching retreat, IB majors, SIB Academic Support Team, SIB Courses and Curricula Committee, SIB Executive Committee, and the campus assessment team.

4. Per Office of the Provost General Education initiative for transparency and accessibility.

5. Per request from LAS as blocked course lists do not appear for red box error reporting.

6. Updates to the catalog page text were included for clarity and to bring the catalog into agreement with departmental language, but do not affect program requirements. These updates reflect current practices and include revised language on Distinction requirements.

40-hours advanced credit requirement met as follows:

5 hrs IB 270 (prereq IB 150, MCB 150)

5 hrs IB 271 (prereq IB 150, MCB 150)

5 hrs IB 372

6 hrs CHEM 232/3 (prereq CHEM 104 and CHEM 105) or CHEM 236/7 (prereq CHEM 104 & CHEM 102 OR CHEM 204 & CHEM 202 OR CHEM 222 & CHEM 223)

3 hrs MCB 450

3 hrs 300- or 400-level STAT

6 hrs IB 490

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

By the time they graduate, an Integrative Biology Honors major should be able to:
~~have acquired: Content-related understandings~~

- ~~1. Possess a significant knowledge base in Integrative Biology, Biology and Chemical Sciences, including anatomy, development, ecology, evolution, genetics, molecular biology, physiology, and/or systematics. but not limited to:~~
 - ~~2. a. Molecular genetics and biology b. Diversity and structures and physiological functions of plants and animals c. Ecology and evolution d. Biochemical and chemical bases of life and/or systems e. Statistical inference and modeling of systems~~
 - ~~2. Understand that biology is integrative and multidisciplinary~~
 - ~~3. Show curiosity and caring about biology, and an awareness of and appreciation for the diversity of life~~
 - ~~4. Understand how paradigms of biology relate to society and policy as well as their own lives~~
- ~~Competencies~~
 - ~~1. Carry out the process of scientific inquiry~~
 - ~~2. Use critical thinking skills and solve problems~~
 - ~~3. Use quantitative reasoning and computation skills~~
 - ~~4. Apply predictive simple models (equations/math) to biological phenomena and engage with the process of scientific inquiry.~~
 - ~~5. Gain proficiency in scientific writing and speaking~~
 - ~~6. Critically evaluate Read and communicate complex, dynamic evaluate primary scientific information. literature~~
 - ~~7. 4. Employ curiosity, inquiry, quantitative reasoning, Use critical thinking skills and critical thinking in problem solving. solve problems~~
 - ~~3. Create solutions for global and local biological challenges using interdisciplinary strategies.~~
 - ~~6. Develop professional skills including ethics, proficiency in oral and written scientific communication, data analysis and interpretation, collaboration, and the ability to critically evaluate science-related news and information. Critically evaluate science-related news and information~~
 - ~~8. Work collaboratively~~

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses” (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor’s degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Revised programs [Integrative Biology_Honors Integrative Biology, BSLAS SS.docx](#)
[Honors BSLAS in IB Side by Side.xlsx](#)

Attach a revised Sample Sequence (for undergraduate program) or college-level forms.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

Honors Integrative Biology is designed for students wishing to pursue an intensive program in integrative biology and, concurrently, to gain a strong background in the physical sciences and mathematics. Admission is by interview in spring of the freshman year prior to registration for fall. An overall 3.0 GPA is required to apply for admission. Honors Integrative Biology provides preparation suitable for graduate and professional training in biology, as well as for biology careers in the private and public sectors. Students earning the Honors Integrative Biology Concentration will also earn the Chemistry minor.

Students pursuing a degree in Honors Integrative Biology will be allowed to earn a second degree in the Specialized Curriculum in Biochemistry. Students pursuing a degree in Honors Integrative Biology will not be allowed to double major in Molecular and Cellular Biology.

Distinction for Excellence in Research:

~~Students are To be eligible for graduation at the following levels: with Distinction for excellence in Research a student must: Distinction, High Distinction, or Highest Distinction. • Be enrolled as an Integrative Biology Major • Either: 1. Complete two or more semesters of IB 390/IB 490 for 2-credit hours or more each semester. The student should enroll in IB 490 the semester the student intends to graduate, which counts towards the two required semesters. OR 2. Complete at least 180 hours of mentored research. The research experience must last a minimum of 20 weeks (the weeks need not be consecutive and summer research counts toward this total) and students should enroll in one semester of IB 490 for a minimum of 1-credit hour prior to or during the semester they intend to graduate. Example: a student could be eligible if they complete a 10-week summer research experience combined with enrolling in IB 490 the semester they intend to graduate. • Maintain a minimum 3.25 GPA within the major at the end of the penultimate semester. • Give a poster presentation at the Undergraduate Research Symposium or other approved venue. • Have a completed distinction evaluation form submitted by their Faculty Research Advisor. Distinction will be determined by the SIB Distinction Committee based on the poster presentation and the level of Distinction will be based on the information below. Advisor's evaluation. • Substitutions or other changes to these requirements may be made only via petition to and approval of the Chair of the SIB Distinction Committee and the SIB Associate Director for Academic Affairs. High or Highest Distinction for Excellence in Research: To be eligible for graduation with High or Highest Distinction for Excellence in Research a student must:~~

~~-Be •Be enrolled as an Integrative Biology or Integrative Biology Honors Major
-Have a completed distinction evaluation form submitted by their Faculty Research Advisor. •Either:
-Maintain •Maintain a minimum 3.25 GPA within the major at the end of the penultimate semester.
-To be eligible for Distinction, students must give a poster presentation at the SIB Distinction Symposium or other approved venue.
•Be enrolled as an Integrative Biology Major •Either: 1. Complete two or more~~

~~semesters of IB 390/IB 490 for 2-credit hours or more each semester. The student should enroll in IB 490 the semester the student intends to graduate, which counts towards the two required semesters. OR 2. Complete at least 180 hours of mentored research. The research experience must last a minimum of 20 weeks (the weeks need not be consecutive and summer research counts toward this total) and students should enroll in one semester of IB 490 for a minimum of 1-credit hour prior to or during the semester they intend to graduate. Example: a student could be eligible if they complete a 10-week summer research experience combined with enrolling in IB 490 the semester they intend to graduate.~~ • Maintain a minimum 3.25 GPA within the major at the end of the penultimate semester. To be eligible for High or Highest Distinction, students must submit • Submit a written thesis and give an oral presentation at the SIB Distinction Undergraduate Research Symposium or ~~or~~ other approved venue.

-Finally, all students regardless of Distinction level must either:

1. Complete two or more semesters of IB 390/IB 490 for 2-credit hours or more each semester. The student should enroll in IB 490 the semester they intend ~~the student intends~~ to graduate, which counts towards the two required semesters.

OR

2. Complete at least 180 hours of mentored research. The research experience must last a minimum of 20 weeks (the weeks need not be consecutive and summer research counts toward this total) and students should enroll in one semester of IB 490 for a minimum of 1-credit hour prior to or during the semester they intend to graduate. Example: a student could be eligible if they complete a 10-week summer research experience combined with enrolling in IB 490 the following spring semester, the same term semester they intend to graduate. • ~~Have a completed distinction evaluation form submitted by their Faculty Research Advisor.~~ • The level of Distinction will be determined by the SIB Distinction Committee based on the written thesis, the oral presentation, and the Advisor's evaluation. • ~~Substitutions or other changes to these requirements may be made only via petition to and approval of the Chair of the SIB Distinction Committee and the SIB Associate Director for Academic Affairs.~~

Statement for
Programs of
Study Catalog

Graduation Requirements

Minimum hours for graduation: 120 hours

Minimum hours for graduation is 120, to include a minimum of 40 hours of upper-division coursework, generally at the 300 and 400 level. These hours can be drawn from all elements of the degree. General education: Students must complete the Campus General Education requirements including the campus general education language requirement. Minimum required major and supporting course work: Normally work: Normally equates to 80-88 hours. course work:

~~Normally equates to 80-88 hours. Twelve hours of 300 and 400 level in the major must be taken on this campus.~~ No more than 8 hours of credit in 100-level courses in IB or MCB may be counted toward graduation.

Continuation in the Integrative Biology Honors Concentration requires a grade of B or better in each of IB 270, IB 271, IB 270, IB 271, and IB 372 and IB 372 and a 3.0 overall cumulative GPA.

Students should discuss alternate CHEM choices with the IB advising office. To earn the Chemistry minor

students must choose 3 or 4 hour Chemistry courses, excluding research or independent study.

Introductory chemistry should be completed prior to enrolling in [IB 270](#). ~~IB-270-~~

Independent study equivalent to [IB 490 in](#) ~~IB-490 in~~ non-IB programs must first be approved by Director of IBH Concentration.

Students may count toward graduation no more than a combined maximum of 10 hours of [IB 390 and IB 490 credit](#) ~~of IB-390 and IB-490 credit~~ offered for independent study.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. ~~degree.~~ Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in the program.

Course List		
Code	Title	Hours
	Composition I	4-6
	Advanced Composition	3
	fulfilled by IB 271	
	Humanities & the Arts (6 hours)	6
	Natural Sciences & Technology (6 hours)	6
	fulfilled by CHEM 102 and CHEM 104, or CHEM 202 and CHEM 204; PHYS 101 and PHYS 102, or PHYS 211 and PHYS 212; IB 150, MCB 150	
	Social & Behavioral Sciences (6 hours)	6
	Cultural Studies: Non-Western Cultures (1 course)	3
	Cultural Studies: US Minority Cultures (1 course)	3
	Cultural Studies: Western/Comparative Cultures (1 course)	3
	Quantitative Reasoning (2 courses, at least one course must be Quantitative Reasoning I)	6-10
	fulfilled by MATH 220 or MATH 221; PHYS 101 and PHYS 102, or PHYS 211 and PHYS 212	
	Language Requirement (Completion of the fourth semester or equivalent of a language other than English is required)	0-20

Program(s):

Corresponding Program(s)

Integrative Biology, BSLAS

Program Features

Academic Level Undergraduate

Is This a Teacher Certification Program?

Yes

Will specialized accreditation be sought for this program?

No

Additional concentration notes (e.g., estimated enrollment, advising plans, etc.)

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

No impact is expected.

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

Will the unit need to seek campus or other external resources?

No

Attach letters of support

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

No impact is expected.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this program.

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Undergraduate Interdisciplinary Minor in South Asian Studies in the College of Liberal Arts and Sciences

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

Program Justification

Provide a brief description of

what changes are being made to the program.

1. Addition of new elective courses.

2. Removal of elective courses.

3. Corrected the response for the minor in the Program Features section to "An interdisciplinary study focusing on a single theme" from "A Comprehensive study in a single discipline."

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Addition of ANTH 221, CWL 207, 208, HNDI 412, LING 115, REL 287, 291, 350, 401, 484, 495, 520, 567. These new courses have been developed by faculty and approved to be counted towards the minor. Having more courses to choose from will give students an opportunity for take courses in various disciplines and also accommodate their schedules. These are the courses on the catalogue that have a substantial amount of content on South Asia.

2. Removal of ANTH 499, CWL 189, 190, ECON 450, and REL 494. The courses mentioned were deleted since they do not have a substantial amount of South Asian studies content.

3. Corrected the response for the minor for accuracy.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

Yes

Courses outside
of the sponsoring
department/interdisciplinary

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

CSAMES academic programs are comprised of courses within various departments, so the learning outcomes are determined for each course and assessments are conducted within the course as well.

In general, the learning outcomes are:

1. Introductory interdisciplinary knowledge of South Asian (SA) area studies in terms of the cultures and societies of these regions in a broader international and global context, including

• Various historical, cultural, social, economic and political conditions that shaped the development of SA region

2. Proficiency in a SA language

• Student should develop knowledge of a region or country in SA, acquire proficiency in a relevant language of that region or country

1. Interdisciplinary knowledge of South Asian (SA) area studies in terms of the cultures and societies of these regions in a broader international and global context

• Students should have a basic understanding of the various historical, cultural, social, economic and political conditions that shaped the development of South Asia

• Students should be able to place their knowledge of SA in a broader world context and from a multidisciplinary perspective.

2. Proficiency in SA or ME languages and knowledge of research methodologies

• Student should develop appropriate expertise in a South Asian language, acquire proficiency in a relevant language of that region or country, and equip themselves with a basic understanding of the appropriate research tools to study that region/country.

N/A

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses” (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor’s degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

An undergraduate minor should consist of at least 16 - and no more than 21 hours - of course work, with at least 6 hours of 300- or 400- level courses. Except for clearly remedial offerings, prerequisite courses within the sponsoring unit count towards the total; prerequisite courses outside the sponsoring unit do not count toward this total. The unit sponsoring the minor and that unit's college may set educationally necessary prerequisites for eligibility for the minor within these constraints. Does this proposal meet these criteria?

Yes

Revised programs [Side by Side Comparative Table of Proposed Changes SA.xlsx](#)

Attach a revised Sample Sequence (for undergraduate program) or college-level forms.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

Program Features

Academic Level Undergraduate

Is this minor?

~~A Comprehensive study in a single discipline~~

[An interdisciplinary study focusing on a single theme](#)

Is This a Teacher Certification Program?

No

Will specialized accreditation be sought for this program?

No

Other than certification via the students' degree audits, is there any additional planned mechanism to award/honor successful completion of the minor?

No

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Enrollment

Will the department limit enrollment to the minor?

No

Describe how the department will monitor the admission to/enrollment in the minor.

CSAMES Director of South Asian Studies will determine a way to best monitor the admission to/enrollment in the minor. N/A

Are there any prerequisites for the proposed minor?

No

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

It is expected that, due to an addition of elective classes, enrollment to the minor program will increase.

Budget

Are there budgetary implications for this revision?

No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

No impact on unit.

Will the unit need to seek campus or other external resources?

No

Attach letters of support

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Current library collections, resources, and services are sufficient to support this program.

Subject: REQUESTED: Course Approval for Interdisciplinary Minor in South Asian Studies, UG

CWL Department Head, Harriet Murav
HNDI/LING Department Head, James Yoon

REL Department Head, Jonathan Ebel

Dear Colleagues,

This email seeks your unit's consent to list courses as potential elective components of the South Asian Studies minor. If your unit accepts having the listed courses included as electives, please respond to this email, noting your approval. Please

also note any courses that you'd like to have removed from the list.

The Center for South Asian & Middle Eastern Studies offers an interdisciplinary minor in South Asian Studies. The minor is especially suited for students with a South Asia focus as a complement to their disciplinary study. The structure of the minor provides students a great amount of flexibility; possible areas of emphasis include language and literature, as well as history and social sciences.

A total of 22 courses will constitute the number of potential electives in the Interdisciplinary Minor in South Asian Studies.

CWL 207	Indian Cinema in Context	REL 350	South Asian Goddesses
CWL 208	Cultures & Literatures of South Asia	REL 401	Gender and Hinduism
HNDI 412	Business Hindi	REL 484	Buddhist Meditation
LING 115	Language and Culture in India	REL 495	Topics in Asian Religions
REL 287	Introduction to Buddhism	REL 520	Hindu Pilgrimage, Power & Place
REL 291	Hinduism in the United States	REL 567	Mahayana Buddhism

Thank you for considering this request and acknowledging that these courses may be added to our degree program. Please don't hesitate to contact us with any questions or concerns.

Sincerely,

Angela Williams, Associate Director

Dear Colleagues,

This email seeks your unit's consent to list courses as potential elective components of the South Asian Studies minor. If your unit accepts having the listed courses included as electives, please respond to this email, noting your approval. Please also note any courses that you'd like to have removed from the list.

The Center for South Asian & Middle Eastern Studies offers an interdisciplinary minor in South Asian Studies. The minor is especially suited for students with a South Asia focus as a complement to their disciplinary study. The structure of the minor provides students a great amount of flexibility; possible areas of emphasis include language and literature, as well as history and social sciences.

A total of 22 courses will constitute the number of potential electives in the Interdisciplinary Minor in South Asian Studies.

Subject: Re: REQUESTED: Acknowledgement for course removal from POS for Interdisciplinary Minor in South Asian Studies, UG

Dear Andrea:

This removal is fine with Anthropology. ANTH 199 is just a place holder number.

Prof. Williams:

I would like to draw your attention to a new Gen Ed. course that you may wish to add/cross-list. ANTH 221: Archaeology of South Asia. It has been developed and is taught by an exciting new archaeology faculty member, Erin Riggs who specializes in South Asia.

<https://anthro.illinois.edu/directory/profile/eriggs>

ANTH 221 - Archaeology of South Asia

Explores the archaeology of South Asia from the earliest occupations of the subcontinent to the present. South Asia is home to one of the first urbanized societies, over 40 World Heritage sites, and some of the 21st century's largest megacities. We will critically examine how these diverse archaeological resources have been investigated by different communities through time and how this has informed modern understandings of cultural, national, religious, regional and gender identities.

Best Regards,

Brenda

Dear Professor Murav,

LAS has asked we review our minors since new courses have been added. CSAMES used to count broader courses (i.e. those with "global" in the title or "Asia" for South Asia), but

we are updating the minor course list to only include courses with strictly South Asia content. Those courses do not have substantial content in South Asian studies, so they won't be counted as elective courses. I don't think any other action is needed and the email was to inform you.

Thanks,
Angela

Major (ex. Special Education)

This proposal is
for a:
Revision

Administration Details

Official Program Name	Bioengineering, BS	
Diploma Title	Bachelor of Science in Bioengineering	
Sponsor College	Grainger College of Engineering	
Sponsor Department	Bioengineering	
Sponsor Name	Maddie Darling	
Sponsor Email	darling4@illinois.edu	
College Contact	Jonathan Makela	College Contact Email
	jmakela@illinois.edu	
College Budget Officer	Tessa Hile	
College Budget Officer Email	tmhile@illinois.edu	

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

Maddie Darling (darling4@illinois.edu), BIOE

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term	Fall 2024
------------------------	-----------

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Science in Bioengineering in the Grainger College of Engineering

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

No

Program Justification

Provide a brief description of what changes are being made to the program.

1. The formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) has been modified to adhere to the campus General Education Template.
2. Removal of ABE 440 as a technical elective option.
3. Replace special topics courses with new permanent course numbers.
4. Remove special topics courses that are no longer offered.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Per Office of the Provost General Education initiative for transparency and accessibility.
2. ABE 440 is no longer offered as a cross-listed course for CPSC 440. Technical electives must hold rubrics from the Grainger College of Engineering. As such, the ABE 440 course option is being removed from the program.
3. Administrative change to accurately reflect new permanent course numbers associated with previously offered special topics courses.
4. Administrative change to remove special topics courses from elective lists; faculty are no longer within the department with expertise in the instructional areas and the courses are no longer offered.

The 40 hours of upper-division classes for IBHE requirement are met by:

- 26 hours of 300 & 400 level classes individually specified in the Bioengineering Technical Core
 - o BIOE 302 (3 hours)
 - o BIOE 303 (2 hours)
 - o BIOE 310 (3 hours)
 - o BIOE 360 (3 hours)
 - o BIOE 400 (4 hours)
 - o BIOE 414 (3 hours)
 - o BIOE 415 (2 hours)
 - o BIOE 420 (3 hours)
 - o BIOE 476 (3 hours)
- 15 hours of 200 level coursework with 2 or more prerequisites in Foundational Mathematics and Science
 - o MATH 241 (4 credit hours) - prerequisites of MATH 231 and MATH 220 or 221
 - o MATH 285 (3 credit hours) - prerequisites of MATH 241, MATH 231 and MATH 220 or 221
 - o PHYS 211 (4 credit hours) - prerequisites of MATH 231 and MATH 220 or 221
 - o PHYS 212 (4 credit hours) - prerequisites of PHYS 211, MATH 241, MATH 231 and MATH 220 or 221

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring

department impacted by the creation/revision of this program?

Yes

Courses outside
of the sponsoring
department/interdisciplinary
departments

~~ECE 210 - Analog Signal Processing~~

~~ECE 329 - Fields and Waves I~~

CPSC 440 - Applied Statistical Methods I

Please attach any [CPSC LOS.pdf](#)

letters of
support/acknowledgement
for any

Resources
consider faculty,
students, and/or
other impacted
units as
appropriate.

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

The Bioengineering Program prepares graduates to achieve the following student outcomes by the time of graduation:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. an ability to communicate effectively with a range of audiences.
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Revised programs [AY 24-25 sample sequence .xlsx](#)

Attach a revised Sample Sequence (for undergraduate program) or college-level forms.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

Statement for Programs of Study Catalog

Graduation Requirements

Minimum hours required for graduation: ~~Overall GPA:~~ 128 hours.

Minimum Overall GPA: 2.0

University Requirements 2.0

~~Minimum hours required for graduation: Minimum hours for graduation is 128, to include a minimum~~ of 40 hours of upper-division coursework, ~~coursework~~ generally at the 300- or 400-level, ~~and 400-level.~~ These hours can be drawn from all elements of the degree. ~~Students should consult their academic advisor for additional guidance in fulfilling this requirement.~~ degree

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog. ~~Students must complete the~~Campus

General Education: General Education Requirements

~~Follows the requirements including the~~campus General Education (Gen Ed) requirements. ~~general education language requirement.~~ Some Gen Ed requirements may be met by courses required and/or electives in the program.

Total Hours of Curriculum to Graduate		128

Corresponding Degree BS Bachelor of Science

Program Features

Academic Level Undergraduate

Does this major have transcripted concentrations? No

What is the typical time to completion of this program?
4 years

What are the minimum Total Credit Hours required for this program?
128

CIP Code 140501 - Bioengineering and Biomedical Engineering.

Is This a Teacher Certification Program?
No

Will specialized accreditation be sought for this program?
No

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Admission Requirements

Desired Effective Admissions Term

Is this revision a change to the admission status of the program?

No

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

No changes

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

This revision will not impact enrollment and degrees awarded.

Estimated Annual Number of Degrees Awarded

Year One Estimate

5th Year Estimate (or when fully implemented)

What is the matriculation term for this program?

Fall

Budget

Are there budgetary implications for this revision?

No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

No changes

Will the unit need to seek campus or other external resources?

No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

Engineering Differential

Are you seeking a change in the tuition rate or differential for this program?

No

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

There will be no impact on faculty resources, class size, teaching loads, or student-faculty ratios as ABE 440 is no longer an offered course.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this program.

Subject: Removal of ABE 440

Dear Dr. Davis and Dr. Lambert,

I am writing on behalf of the Bioengineering department to request a letter of acknowledgement for the removal of ABE 440 (CPSC 440) which is currently an elective course in the Bachelor of Science in Bioengineering program.

Once the revision to the Bioengineering program is approved, ABE 440 (CPSC 440) will not appear in the curriculum.

Thank you,

Mark

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

[Ashley Hallock, ahallock@illinois.edu](mailto:ahallock@illinois.edu), [Brooke Newell, bsnewell@illinois.edu](mailto:bsnewell@illinois.edu), GCoE; Elsa Gunter, egunter@illinois.edu, CS; Steve Herzog, smherzog@illinois.edu, CS.

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Science in Computer Science in the Grainger College of Engineering

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

Program Justification

Provide a brief description of what changes are being made to the program.

1. The formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) has been modified to adhere to the campus General Education Template.
2. Removed reference to ASTR 131 and ASTR 132 in the POS section, "Foundational Mathematics and Science."
3. In the "Foundational Math and Science Courses," section of the POS, changed "Total Hours chosen from the following:" to "Total Hours," and moved this line to the bottom of the section.
4. Removing CS 528 Obj-Oriented Progrmg & Design as an option for the Software Foundations focus group under Technical Electives in the POS.
5. Removing CS 457 Numerical Methods II as an option for the the Scientific, Parallel, and High Perfomance Computing focus group under Technical Electives in the POS.
6. Slight revision of the Sample Sequence, Third Year First semester, changing "CS 210 (CS 211 may be substituted)" to "CS 211 (CS 210 may be substituted)." A revised sample sequence is attached.
7. Also in the Sample Sequence swapping "Language Other Than English (3rd level) course" from Third Year, First Semester with "Free elective course" from Third Year, Second Semester. A revised sample sequence is attached.

8. Removing CS 548 and CS 573 from Technical Elective lists as they are no longer available.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Per Office of the Provost General Education initiative for transparency and accessibility.
2. ASTR 131 and ASTR 132 have been discontinued.
3. To remove the sense that these required courses were choices, and to make the format of this section match other sections of the POS.
4. CS 528 has been discontinued.
5. CS 457 has been discontinued.
6. To reflect the reality that most students in the program take CS 211 instead of CS 210 to take advantage of satisfying the core requirement and Advanced Composition General Education requirement with one course.
7. To balance the credit hours for each semester of the Third Year in the Sample Sequence at 16 hours, each.
8. CS 548 and CS 573 have both been discontinued.

Statement about how this degree program meets the IBHE requirement of minimum 40 hours of upper-division coursework: The Bachelor of Science in Computer Science program in the Grainger College of Engineering requires a minimum of 17 hours of upper-division coursework in the Computer Science Core, as follows: CS 341 (4 hours), CS 357 (3 hours), CS 351 (3 hours), CS 374 (4 hours), and CS 421 (3 hours). This program also requires a minimum of 18 hours of technical electives, which are all at the 300- or 400-level, and a minimum of 6 hours of Advanced Electives, which are also at the 300- or 400-level. Therefore, with a minimum of 41 hours of required upper-division coursework, any student completing the program's requirements will automatically meet the IBHE criterion.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

The BS in Computer Science program's learning objectives are in two categories: Program Educational Objectives and Student Outcomes. Each of these are described in the following two sections.

=====

CS PROGRAM EDUCATIONAL OBJECTIVES REVIEW AND UPDATE PROCESS

In this section, we describe the current Program Educational Objectives for the BS in CS degree, together with the process used by the Department of Computer Science for their periodic review and update. This process is managed by the Undergraduate Studies Committee, under the direction of the Director of Undergraduate Programs. The University of Illinois Computer Science Undergraduate Program Educational Objectives are to prepare graduates who:

1. For years after graduation are highly sought-after by employers and accepted at top graduate schools, obtain positions in industry, government, not-for-profits and academia.
2. Pursue education through lifelong learning either through self-directed study or in leading graduate programs.
3. Emerge as leaders in the field through the creation of new knowledge and systems in the rapidly changing world.
4. Provide leadership with their high ethical and technical standards.

The Program Educational Objectives (PEOs) are reviewed roughly every three years by the Undergraduate Studies Committee to decide whether revision is appropriate based on trends in the field, informal input from alumni and other program constituents, and data from student attainment of relevant job positions and entrance into graduate school.

At the beginning of each round of review and revision, input is collected from sources such as informal surveys of our program constituents, reports on employment outcomes for our recent graduates and feedback on success rates for our students applying to graduate school. Information indicating that the PEOs should be revised, or that they are not being highly attained is incorporated into the assessment of the program and the courses therein.

When a revision of the PEOs is deemed appropriate, the revised PEOs are put before the Advisory Board and their approval is solicited. The Advisory Board contains representatives from our alumni and from industry partners who are potential employers of our graduates. If the Advisory Board suggests revisions, these revisions are reviewed by the Undergraduate Studies Committees and new PEOs are generated consistent with these revisions, and then the PEOs are again put to the Advisory Board for their approval.

Once the PEO's have been approved by the Undergraduate Studies Committees and the Advisory Board, they are brought before the faculty of the Department of Computer Science for their discussion and acceptance. If the faculty recommend substantive changes to the PEOs, then the results are sent back to the Undergraduate Studies Committee and the Advisory Board for re-approval. If the recommendations are minor and non-substantive, they are made by the Director of Undergraduate Programs. The website maintained by the Department of Computer Science for publishing the PEOs is updated with the final revision.

=====

CS STUDENT OUTCOMES ASSESSMENT PROCESS

This section describes the expected student outcomes of the BS in CS program. It details the process for monitoring them --including how data is collected -- and for

assessing when and what revisions to courses and the program seem desirable to better meet the student outcomes. The BS in CS program prepares students to achieve the following student outcomes by the completion of their degree:

Analyze a complex computing problem and apply principles of computing and other relevant disciplines to identify solutions.

Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.

Communicate effectively in a variety of professional contexts.

Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.

Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.

Apply computer science theory and software development fundamentals to produce computing-based solutions.

In order to track student progress in achieving the student outcomes of the BS in CS program, the Department of Computer Science has identified a set of "core courses" that ensure student outcomes are being reached. These include the following courses that all students must take:

CS 128, CS 173, CS 210, CS 225, CS 222, CS 233, CS 341, CS 357, CS 361, CS 374, and CS 421.

All students must also select at least one team project course from among these: CS 417, CS 427/8/9, CS 437, CS 465, CS 467, CS 493/4, CS 497

These courses (and others) are under continuous assessment and revision informally by instructors teaching the course. More formally though, roughly every three years (the semester prior to the ABET review cycle, and midway between cycles) assessment data and course revision information is collected for each core course, and stored by the academic office.

Each course in CS has a specific list of learning goals. Courses typically have 8 to 12 learning goals each. This list of learning goals is reviewed by the instructors of the course every one to three years. For each class, assessment instruments are identified that assess each learning goal. The assessment instruments include at least one summative assessment, but preferably also at least one formative assessment. They are typically chosen from homework assignments and exams, but for some learning goals, project write up or team presentations are more appropriate. For each assessment instrument, the minimum score required to achieve satisfactory attainment of the learning goal is recorded, along with the percentage of students in the program attaining the learning goal and statistics indicating the range of performance of the students on the learning goal. For most courses in the core, satisfactory attainment of the learning goals translates to receiving a score of 70% or more on the assessment instruments measuring that learning goal. For a few of our most difficult courses, satisfactory attainment is considered achieved with a score of 60%. The rate of attainment is considered very high if at least 85% of the students are achieving satisfactory attainment of the learning goal, and the average score of the BS in CS students in the class is at least 80%.

The rate of attainment for each learning goal is reviewed by the instructors teaching the course and the course coordinator and when found to be less than very high, the student work is reviewed more thoroughly and suggestions are recorded for ways in which improvement might be made to attain a higher rate of attainment of the learning goals. The suggested improvements typically involve either changes within a course, or changes between neighboring courses in the prerequisite chain. Typical changes within a course would include shifting emphasis, or reorganizing topics to clarify the flow of

a course would include shifting emphasis, or reorganizing topics to clarify the flow of the material related to the learning goal in question. Changes to the relation between courses may involve possibly shifting topics across course boundaries to allow for more time in one course for greater emphasis for a needed prerequisite topic or bring part of the coverage of a prerequisite topic closer to the place where it is used by the topic covering the learning goal on which less than very high attainment was achieved. Once weaknesses have been identified and suggested improvements have been recorded for a learning goal, the suggestions are reviewed by the course coordinators and regular instructors of the courses involved in the suggested revisions. Where possible within the current course structure, a plan is made for how to implement the suggested improvements. If the current course structure for the courses involved does not adequately support the suggested improvements, then the difficulty is brought to the attention of the Undergraduate Studies Committee for a discussion of course revisions. After implementation of the suggested course revisions, at the next program review period for improvement, the learning goals affected are examined in comparison to the previous performance for improvement.

In addition to reviewing the learning goals of the individual courses, the pattern of attainment of learning goals covering the major student outcomes is reviewed. If more than a third of the courses supporting a student outcome fail to achieve very high attainment of the learning goals covering the student outcomes, then the Director of Undergraduate Programs will meet with the course coordinators and regular instructors of the various courses failing to achieve very high attainment of the learning goals covering the student outcome in question to discuss what underlying weaknesses exist contributing to this systemic failure to strongly cover the relevant student outcome. The Director of Undergraduate Programs will deliver a summary of the findings from these discussions to the Undergraduate Studies Committee. The Undergraduate Studies Committee will then review the findings of repeated weakness in learning goals covering the student outcome in question and the findings of potential underlying causes of that weaknesses. The Undergraduate Studies Committee will determine if additional courses or other revisions to the BS in CS program are likely needed to address the identified weaknesses in student outcome attainment.

In addition to revisions of the program driven by the study of course learning goals, once each three years, the Director of Undergraduate Programs will review whether the program is topically in compliance with the latest requirements from the ABET accreditation process. The Director of Undergraduate Programs will present to the Undergraduate Studies Committee any ways in which the program is potentially found to be not in compliance with the topics required to be covered by ABET. The Undergraduate Studies Committee will devise a plan, either through course revision or curriculum revision to bring the program back into topical compliance with ABET.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Attach a revised Sample Sequence (for undergraduate program) or college-level forms.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

Statement for
Programs of
Study Catalog **Graduation Requirements**
Minimum Technical GPA: 2.0

Minimum hours required for graduation: 128 hours.

Minimum Technical GPA: 2.0

2.0

TGPA is required for CS and Math courses. See **Technical GPA** to clarify requirements.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

~~Minimum Overall GPA: 2.0 Minimum hours required for graduation: 128 hours General education: Follows~~ Students must complete the campus Campus General Education (Gen Ed) requirements, including the campus general education language requirement. Some Gen Ed requirements may be met by courses required and/or electives in the program.

Technical Electives

Course List

Code	Title	Hours
------	-------	-------

Students must take a minimum of (6) six additional technical electives with at least eighteen (18) cumulative 18 credit hours and chosen from [CS 397](#) and the [CS 400](#)-level courses, not including [CS 400](#), [CS 401](#), [CS 402](#), [CS 403](#) or [CS 491](#). [CS 500](#)-level courses may be used as technical electives, but only with special permission from the CS Academic Office. [CS 397](#) and [CS 499](#) may be used with a cumulative maximum of six (6) credits from them counting as technical electives. One "CS-like" course in another department (e.g., ECE) may also be counted as a [CS 400](#)-level course with permission of the CS Academic Office. Non-CS tech electives will not be considered in focus areas.

At least one (1) of the CS courses used for technical electives must be chosen from the list below of CS courses satisfying the team project requirement.

Team Project Course List:

CS 417	Virtual Reality	3
CS 427	Software Engineering I	3 or 4
CS 428	Software Engineering II	3 or 4
CS 429	Software Engineering II, ACP	3
CS 437	Topics in Internet of Things	3
CS 465	User Interface Design	4
CS 467	Social Visualization	3 or 4
CS 493	Senior Project II, ACP	3
CS 494	Senior Project II	3
CS 497	CS Team Project	1 to 3

At least three (3) of the CS courses used for technical electives must be chosen from a single focus area, from among the list of focus areas listed below. The team project course may be used as one of them.

[CS 498](#) Special Topics and [CS 598](#) Special Topics classes may be included in a focus area by department approval.

Software Foundations:

CS 407	Cryptography	3 or 4
CS 409	The Art of Web Programming	3
CS 422	Programming Language Design	3 or 4
CS 426	Compiler Construction	3 or 4
CS 427	Software Engineering I	3 or 4
CS 428	Software Engineering II	3 or 4
CS 429	Software Engineering II, ACP	3
CS 474	Logic in Computer Science	3 or 4

Code	Title	Hours
CS 476	Program Verification	3 or 4

Computer Science Advanced Electives

Code	Course List Title	Hours
<p>Students must take for a letter grade a minimum of two (2) advanced elective courses comprising at least six (6) credit hours. These advanced elective courses must be distinct from courses used to satisfy the technical electives. They may be chosen from CS 397 Individual Study and the 400-level coursework offered for letter grade in ANY area offered at the University of Illinois at Urbana-Champaign. It is expected that students will select these additional advanced courses in a way that best augments their program of study. Consultation with a faculty mentors is highly encouraged. A maximum of six (6) credit hours of CS 397 may be used in the combination of technical electives and advanced electives.</p>		
Total Hours		6

Free Electives

Code	Course List Title	Hours
<p>Additional course work,subject to the Grainger College of Engineering restrictions to Free Electives,so that there are at least 128 credit hours earned toward the degree.</p>		24-25
Total Hours of Curriculum to Graduate		128

Corresponding Degree BS Bachelor of Science

Program Features

Academic Level Undergraduate

Does this major have transcribed concentrations? No

What is the typical time to completion of this program? 4 years

What are the minimum Total Credit Hours required for this program? 128

CIP Code 110701 - Computer Science.

Is This a Teacher Certification Program? No

Will specialized accreditation be sought for this program? No

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Admission Requirements

Desired Effective Admissions Term

Is this revision a change to the admission status of the program?

No

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

This revision will not impact enrollment and degrees awarded.

Estimated Annual Number of Degrees Awarded

Year One Estimate

5th Year Estimate (or when fully implemented)

What is the matriculation term for this program? Fall

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

Will the unit need to seek campus or other external resources?

No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

Are you seeking a change in the tuition rate or differential for this program?

No

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

This revision will not impact faculty resources.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this revision.

Computer Science, BS

for the degree of Bachelor of Science in Computer Science

Sample Sequence

This sample sequence is intended to be used only as a guide for degree completion. All students should work individually with their academic advisors to decide the actual course selection and sequence that works best for them based on their academic preparation and goals. Enrichment programming such as study abroad, minors, internships, and so on may impact the structure of this four-year plan. Course availability is not guaranteed during the semester indicated in the sample sequence. The curriculum sequence can also be viewed via dynamic and static curricular maps, which include prerequisite sequencing.

Students must fulfill their Language Other Than English requirement by successfully completing a third level of a language other than English. See the corresponding section on the Degree and General Education Requirements. The sequence below assumes the student takes CS 211 to satisfy both a core course requirement and the Campus General Education Advanced Composition requirement.

First Semester		First Year Hours	Second Semester		Hours
CS 100 (Optional course, highly recommended, free elective)		1	CS 128		3
CS 124		3	CS 173		3
MATH 221 (MATH 220 may be substituted)		4	MATH 231		3
ENG 100		1	General Education course (Choose a Humanities or Social/Behavioral Science course with Cultural Studies designation)		3
Science elective course		3	General Education (Choose a Humanities or Social/Behavioral Science course) or Composition I course		3-4
Composition I or General Education (Choose a Humanities or Social/Behavioral Science course)		4-3			
		16			15
First Semester		Second Year Hours	Second Semester		Hours
CS 222		1	CS 233		4
CS 225		4	CS 361		3
MATH 241		4	MATH 257		3
PHYS 211		4	PHYS 212		4
General Education course (choose a Humanities or Social/Behavioral Science course with Cultural Studies designation)		3	Free elective course		3
		16			17
First Semester		Third Year Hours	Second Semester		Hours
CS 211 (CS 210 may be substituted)		3	CS 374		4
CS 341		4	CS Technical elective course		3
CS 357		3	CS Technical elective course		3
CS Technical elective course		3	General Education course (choose a Humanities or Social/Behavioral Science course with Cultural Studies designation)		3
Free elective course		3	Language Other Than English (3rd level) course		4
		16			16
Fourth Year					

	First Semester	Hours	Second Semester	Hours

Does this program have inter-departmental administration?
No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Science in Civil Engineering in the Grainger College of Engineering

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

Program Justification

Provide a brief description of what changes are being made to the program.

1. The formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) has been modified to adhere to the campus General Education Template.
2. We are removing courses CEE 424 and CEE 430 from elective list due to course deactivations. Also removing reference to MATH 286 as a substitute for MATH 285.
3. ECON 102/103 was added as a major requirement. Approval letter from ECON attached.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Per Office of the Provost General Education initiative for transparency and accessibility.
2. Removing courses that no longer exist.
3. This is an existing degree requirement, however it was defined as text in a paragraph and it is now in the POS table for clarity.

The minimum 40 hours of upper-division classes for IBHE requirement are met by:
TAM 335 or CEE 331 (4)

PHYS 212 (4) - prerequisites of MATH 231, and MATH 220 or 221

PHYS 213 (2) - prerequisites of MATH 241, and PHYS 211

MATH 241 (4) - prerequisites of MATH 231, and MATH 220 or 221

TAM 211 (3) - prerequisites of PHYS 211, MATH 231, and MATH 220 or 221

TAM 212(3) - prerequisites of TAM 211, PHYS 211, MATH 231, and MATH 220 or 221

TAM 251 (3) - prerequisites of PHYS 211, MATH 231, and MATH 220 or 221

CEE 201(3) - prerequisite CS 101 or CS 124; and MATH 231, and MATH 220 or 221

CEE 202(3) - prerequisite CS 101 or CS 124; and MATH 231, and MATH 220 or 221

MATH 285 or MATH 284(3)-prerequisites of MATH 241 and MATH 231

Plus a minimum of 27 credit hours of 300-400 level coursework for Primary Field Concentration Electives.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

Yes

Courses outside
of the sponsoring
department/interdisciplinary
departments

~~MATH 257 - Linear Algebra w Computat Appl~~

~~TAM 335 - Introductory Fluid Mechanics~~

ECON 102 - Microeconomic Principles

ECON 103 - Macroeconomic Principles

consider faculty,
students, and/or
other impacted
units as
appropriate.

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

The Civil and Environmental Engineering Program prepares graduates to achieve the following student outcomes by the time of graduation. The CEE program outcomes and learning objectives are the following:

1. Successfully enter the civil and environmental engineering profession as practicing engineers and consultants with prominent companies and organizations in diverse areas that include structural, transportation, geotechnical, materials, environmental, and water resources engineering; construction management; and emerging fields including sustainability, resilience, and risk.
2. Pursue graduate education and research at major research universities and national laboratories in civil and environmental engineering, and related fields.
3. Pursue professional licensure.
4. Advance to leadership positions in their profession.
5. Engage in continued learning through professional development.
6. Participate in and contribute to professional societies and community service.

In order to ensure assessment results are used to improve student learning, in accordance with our accrediting board ABET, the following assessments process is carried out.

Each semester, detailed course outcome assessments are completed by instructors of the required courses (CEE 190, 201, 202 & 495), core courses (CEE 300, 310, 320, 330, 340, 350, 360, & 380), integrated design courses (CEE 401, 415, 421, 449, 453, 465, 484 & 493), and laboratory courses (CEE 300, 401, 405, 449, 458 & 483). This subset of classes comprise the Illinois CEE undergraduate program collectively and represent the essential elements of the curriculum.

Our primary processes for regularly assessing and evaluating the extent to which the student outcomes are being attained therefore focus on direct assessment related to these 23 courses. At the end of the semester, instructors of those 23 classes are asked to complete a "CEE ABET 1-7 Course Outcome Assessment" form, and at the beginning of a term instructors of those same courses are provided with a completed version of the form from a previous offering of the course for their information and further consideration. The form asks the instructor of a course to first specifically indicate how much they feel their class helped students to develop each outcome (on a 1-5 scale, where "5" means a great deal of emphasis was placed on that particular outcome). It then also asks for the rubrics they use to assess students' performance ratings in terms of the 1-7 students outcomes, as well as what is the percentage of students in the class attaining the level deemed satisfactory for each outcome (assuming they have assessed on that particular outcome). For the most important student outcomes in a course (those having an emphasis score of 4 or 5), the expected level of attainment is ideally greater than 80%. The forms, which are collected and maintained

by the CEE Associate Head and Director of Undergraduate Studies for documentation purposes, further ask instructors to reflect on what are their overall impressions of a course and how it might be improved, which is valuable to future instructors of the class and/or even to themselves the next time they teach the course.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Revised programs [CEE AY 24-25 sample sequence\(3\).xlsx](#)

Attach a revised Sample Sequence (for undergraduate program) or college-level forms.

Study Catalog

Graduation Requirements

~~Minimum Overall GPA: 2.0~~

Minimum hours required for graduation: 128 hours.

Minimum Overall GPA: 2.0

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional

guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

~~128 hours General Education: Follows the campus Students must complete the Campus General Education (Gen Ed) requirements, including the campus general education language requirement. Some Gen Ed requirements may be met by courses required and/or electives in the program.~~

Civil Engineering Primary and Secondary Fields

Course List

Code	Title	Hours
<p>Students choose a primary and a secondary field of study, of which there are seven traditional areas of study and three interdisciplinary programs to choose from. The particular primary and secondary field selections shape the selection of science electives, civil engineering core courses and advanced technical electives. The specific choices of courses in this category are made through the submission of a Plan of Study, which is subject to approval by the faculty Program Review Committee. Instead of choosing separate primary and secondary field options as listed below, students could select to pursue the General Civil Engineering Option. The General Civil Engineering Option offers a broader coverage of Civil Engineering topical areas. This option can be found below the Secondary Field list.</p>		
Primary Field. Students choose 1 primary field, in which they must take 1 science elective course (3-4 hours), 15-16 hours of 300 level Civil Engineering Core Courses from departmentally approved list, and 12-13 hours of 400 level Advanced Technical Electives from departmentally approved list.		31

SE 400	Engineering Law	3 or 4
STAT 420	Methods of Applied Statistics	3 or 4
UP 205	Ecology & Environmental Sustainability	3
Civil Engineering Core Courses		
Required courses:		
CEE 300	Behavior of Materials	4
CEE 320	Construction Engineering	3
CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3
Select 1 course from list below:		
CEE 310	Transportation Engineering	3
CEE 330	Environmental Engineering	3
CEE 340	Energy and Global Environment	3
CEE 350	Water Resources Engineering	3
Advanced Technical Courses		
Required courses:		
CEE 420	Construction Productivity	3 or 4
CEE 421	Construction Planning (Required Integrated Design Course)	3 or 4
CEE 422	Construction Cost Analysis	3 or 4
Select remaining courses to fulfill this requirement from the list below:		
CEE 401	Concrete Materials	4
CEE 461	Reinforced Concrete I	3
CEE 498	Special Topics (As approved)	4
CEE 498	Special Topics (Construction Equipment Methods)	3
Construction Materials Engineering Primary		
Science Electives - Select 1 course from list below:		
GEOL 107	Physical Geology	4
MSE 201	Phases and Phase Relations	3
Civil Engineering Core Courses		
Required courses:		
CEE 300	Behavior of Materials	4
CEE 310	Transportation Engineering	3
CEE 360	Structural Engineering	3
Select 2 courses from list below:		
CEE 320	Construction Engineering	3
CEE 330	Environmental Engineering	3
CEE 340	Energy and Global Environment	3
CEE 350	Water Resources Engineering	3

Code	Title	Hours
CEE 380	Geotechnical Engineering	3
Advanced Technical Courses		
Required courses:		
CEE 401	Concrete Materials (Required Integrated Design Course)	4
CEE 405	Asphalt Materials I	3 or 4
Select remaining courses to fulfill this requirement from the list below:		
CEE 406	Pavement Design I	3 or 4
CEE 460	Steel Structures I	3
CEE 461	Reinforced Concrete I	3
CEE 469	Wood Structures	3 or 4
CEE 483	Soil Mechanics and Behavior	4
ME 430	Failure of Engrg Materials	3 or 4
MSE 401	Thermodynamics of Materials	3
MSE 402	Kinetic Processes in Materials	3
MSE 406	Thermal-Mech Behavior of Matls	3
MSE 450	Polymer Science & Engineering	3 or 4
TAM 428	Mechanics of Composites	3
Environmental Engineering Primary		
Science Electives - Select 1 course from list below:		
CHEM 232	Elementary Organic Chemistry I	3 or 4
CS 357	Numerical Methods I	3
GEOL 107	Physical Geology	4
MCB 300	Microbiology	3
ME 200	Thermodynamics	3
MSE 401	Thermodynamics of Materials	3
STAT 420	Methods of Applied Statistics	3 or 4
Civil Engineering Core Courses		
Required course:		
CEE 330	Environmental Engineering	3
Select 4 courses from list below:		
CEE 300	Behavior of Materials	4
CEE 310	Transportation Engineering	3
CEE 320	Construction Engineering	3
CEE 340	Energy and Global Environment	3
CEE 350	Water Resources Engineering	3
CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3
Advanced Technical Courses		
Select 1 course from list below:		
CEE 437	Water Quality Engineering	3

Code	Title	Hours
CEE 440	Fate Cleanup Environ Pollutant	4
CEE 441	Air Pollution Sources, Transport and Control	4
Select remaining courses to fulfill this requirement from the list below:		
CEE 430	Course CEE 430 Not Found	
CEE 434	Environmental Systems I	3
CEE 435	Public Health Engineering	3 or 4
CEE 438	Science & Environmental Policy	3
CEE 442	Environmental Engineering Principles, Physical	4
CEE 443	Env Eng Principles, Chemical	4
CEE 444	Env Eng Principles, Biological	4
CEE 447	Atmospheric Chemistry	4
CEE 449	Environmental Engineering Lab (Required Integrated Design Course)	3
CEE 452	Hydraulic Analysis and Design	3
CEE 453	Urban Hydrology and Hydraulics	4
CEE 457	Groundwater	3
CEE 493	Sustainable Design Eng Tech	4
Geotechnical Engineering Primary		
Science Elective required course:		
GEOL 107	Physical Geology	4
Civil Engineering Core Courses		
Required courses:		
CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3
Select 3 courses from the list below:		
CEE 300	Behavior of Materials	4
CEE 310	Transportation Engineering	3
CEE 320	Construction Engineering	3
CEE 330	Environmental Engineering	3
CEE 340	Energy and Global Environment	3
CEE 350	Water Resources Engineering	3
Advanced Technical Courses		
Required courses:		
CEE 483	Soil Mechanics and Behavior	4
CEE 484	Applied Soil Mechanics (Required Integrated Design Course)	4
Select remaining courses to fulfill this requirement from the list below:		
CEE 457	Groundwater	3
CEE 460	Steel Structures I	3
CEE 461	Reinforced Concrete I	3
CEE 463	Reinforced Concrete II	3 or 4
CEE 498	Special Topics (As approved)	3-4
Structural Engineering Primary		
Science Electives - Select 1 course from list below:		
CS 357	Numerical Methods I	3
ECE 205	Electrical and Electronic Circuits	3
GEOL 107	Physical Geology	4

Code	Title	Hours
GEOL 118	Natural Disasters	3
ME 200	Thermodynamics	3
Civil Engineering Core Courses		
Required courses:		
CEE 300	Behavior of Materials	4
CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3
Select 2 courses from list below:		
CEE 310	Transportation Engineering	3
CEE 320	Construction Engineering	3
CEE 330	Environmental Engineering	3
CEE 340	Energy and Global Environment	3
CEE 350	Water Resources Engineering	3
Advanced Technical Courses		
Required courses:		
CEE 460	Steel Structures I	3
CEE 461	Reinforced Concrete I	3
CEE 465	Design of Structural Systems (Required Integrated Design Course)	3
CEE 470	Structural Analysis	4
Transportation Engineering Primary		
Science Electives - Select 1 course from list below:		
CS 357	Numerical Methods I	3
ECE 205	Electrical and Electronic Circuits	3
GEOL 107	Physical Geology	4
ME 200	Thermodynamics	3
ME 340	Dynamics of Mechanical Systems	3.5
MSE 401	Thermodynamics of Materials	3
SE 320	Control Systems	4
STAT 420	Methods of Applied Statistics	3 or 4
Civil Engineering Core Courses		
Required courses:		
CEE 300	Behavior of Materials	4
CEE 310	Transportation Engineering	3
Select 3 courses from the list below:		
CEE 320	Construction Engineering	3
CEE 330	Environmental Engineering	3
CEE 340	Energy and Global Environment	3
CEE 350	Water Resources Engineering	3
CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3
Advanced Technical Courses - Select 1 course from each of the 3 Areas below and 1 course from the recommended list:		
Area 1 - Facilities:		
CEE 405	Asphalt Materials I	3 or 4

Code	Title	Hours
<u>CEE 406</u>	Pavement Design I	3 or 4
<u>CEE 407</u>	Airport Design	3 or 4
Area 2 - Systems:		
<u>CEE 407</u>	Airport Design	3 or 4
<u>CEE 415</u>	Geometric Design of Roads (Required Integrated Design Course)	4
<u>CEE 416</u>	Traffic Capacity Analysis	3 or 4
<u>CEE 418</u>	Public Transportation Systems	3 or 4
Area 3 - Railroad:		
<u>CEE 408</u>	Railroad Transportation Engrg	3 or 4
<u>CEE 409</u>	Railroad Track Engineering	3 or 4
<u>CEE 410</u>	Railway Signaling & Control	3 or 4
<u>CEE 411</u>	RR Project Design & Constr	3 or 4
Advanced Technical Courses Recommended:		
<u>CEE 401</u>	Concrete Materials	4
<u>CEE 405</u>	Asphalt Materials I	3 or 4
<u>CEE 406</u>	Pavement Design I	3 or 4
<u>CEE 407</u>	Airport Design	3 or 4
<u>CEE 408</u>	Railroad Transportation Engrg	3 or 4
<u>CEE 409</u>	Railroad Track Engineering	3 or 4
<u>CEE 410</u>	Railway Signaling & Control	3 or 4
<u>CEE 411</u>	RR Project Design & Constr	3 or 4
<u>CEE 412</u>	High-Speed Rail Engineering	3 or 4
<u>CEE 415</u>	Geometric Design of Roads (Required Integrated Design Course)	4
<u>CEE 416</u>	Traffic Capacity Analysis	3 or 4
<u>CEE 417</u>	Urban Transportation Planning	4
<u>CEE 418</u>	Public Transportation Systems	3 or 4

Water Resources Engineering and Science Primary
Science Electives - Select 1 course from list below:

Code	Title	Hours
CS 357	Numerical Methods I	3
GEOL 107	Physical Geology	4
ME 200	Thermodynamics	3
Civil Engineering Core Courses		
Required course:		
CEE 350	Water Resources Engineering	3
Select 4 courses from the list below:		
CEE 300	Behavior of Materials	4
CEE 310	Transportation Engineering	3
CEE 320	Construction Engineering	3
CEE 330	Environmental Engineering	3
CEE 340	Energy and Global Environment	3
CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3
Advanced Technical Courses		
Required courses - Select 1 from list below:		
CEE 452	Hydraulic Analysis and Design	3
CEE 453	Urban Hydrology and Hydraulics (Required Integrated Design Course)	4
Select remaining courses to fulfill this requirement from the list below:		
CEE 432	Stream Ecology	3 or 4
CEE 433	Water Technology and Policy	3 or 4
CEE 434	Environmental Systems I	3
CEE 437	Water Quality Engineering	3
CEE 450	Surface Hydrology	3
CEE 451	Environmental Fluid Mechanics	3
CEE 452	Hydraulic Analysis and Design	3
CEE 453	Urban Hydrology and Hydraulics	4
CEE 457	Groundwater	3
CEE 458	Water Resources Field Methods	4
CEE 459	Ecohydraulics	4
Energy-Water-Environment Sustainability Primary Science Electives - Select 1 course from list below:		
ME 200	Thermodynamics	3
CHBE 321	Thermodynamics	4
Civil Engineering Core Courses		
Required course:		
CEE 340	Energy and Global Environment	3
Select 4 courses from the list below:		
CEE 300	Behavior of Materials	4
CEE 310	Transportation Engineering	3
CEE 320	Construction Engineering	3
CEE 330	Environmental Engineering	3
CEE 350	Water Resources Engineering	3
CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3

Code	Title	Hours
Advanced Technical Courses		
Required course:		
CEE 493	Sustainable Design Eng Tech	4
Select remaining courses to fulfill this requirement from the list below:		
ABE 436	Renewable Energy Systems	3 or 4
CEE 433	Water Technology and Policy	3 or 4
CEE 435	Public Health Engineering	3 or 4
CEE 434	Environmental Systems I	3
CEE 437	Water Quality Engineering	3
CEE 441	Air Pollution Sources, Transport and Control	4
CEE 449	Environmental Engineering Lab	3
CEE 450	Surface Hydrology	3
CEE 452	Hydraulic Analysis and Design	3
CEE 453	Urban Hydrology and Hydraulics	4
CEE 457	Groundwater	3
CEE 459	Ecohydraulics	4
CEE 473	Wind Effects on Structures	4
CEE 492	Data Science for Civil and Environmental Engineering	4
CEE 498	Special Topics (As approved)	4
ENG 471	Seminar Energy & Sustain Engrg	1
ME 400	Energy Conversion Systems	3 or 4
NPRE 402	Nuclear Power Engineering	3 or 4
NPRE 475	Wind Power Systems	3 or 4
Societal Risk and Hazard Mitigation Primary		
Science Electives - Select 1 course from list below:		
FIN 230	Introduction to Insurance	3
GEOL 118	Natural Disasters	3
LAW 301	Introduction to Law	3
NRES 287	Environment and Society	3
STAT 420	Methods of Applied Statistics	3 or 4

UP 466	Energy & the Built Environment	4
UP 480	Sustainable Design Principles	2

Secondary Field. Students choose 1 secondary field that is different from but complements and adds breadth to their primary field selection. This should be done in consultation with academic advisor. See list of classes for each area of study below.

Code	Title	Hours
Construction Engineering and Management Secondary		
Students must have taken CEE 320 to pursue this Secondary Field.		
Advanced Technical Courses		
Required course:		
CEE 421	Construction Planning	3
Select 1 course from list below:		
CEE 420	Construction Productivity	3
CEE 422	Construction Cost Analysis	3
Construction Materials Engineering Secondary		
Students must have taken CEE 300 to pursue this Secondary Field.		
Advanced Technical Courses		
Select 2 courses from list below:		
CEE 401	Concrete Materials	4
CEE 405	Asphalt Materials I	3
CEE 406	Pavement Design I	3
Environmental Engineering Secondary		
Students must have taken CEE 330 to pursue this Secondary Field.		
Advanced Technical Courses		
Select at least 2 courses from list below, a minimum of 6 credit hours required.		
CEE 430	Course CEE 430 Not Found	
CEE 434	Environmental Systems I	3
CEE 435	Public Health Engineering	3
CEE 437	Water Quality Engineering	3
CEE 438	Science & Environmental Policy	3
CEE 441	Air Pollution Sources, Transport and Control	4
CEE 442	Environmental Engineering Principles, Physical	4
CEE 443	Env Eng Principles, Chemical	4
CEE 444	Env Eng Principles, Biological	4
CEE 447	Atmospheric Chemistry	4
CEE 449	Environmental Engineering Lab	3
Geotechnical Engineering Secondary		
Students must have taken CEE 380 to pursue this Secondary Field.		
Advanced Technical Courses		
Required course:		
CEE 484	Applied Soil Mechanics	3
Select 1 course from list below:		
CEE 483	Soil Mechanics and Behavior	4
CEE 498	Special Topics (As approved)	3-4
Structural Engineering Secondary		
Students must have taken CEE 360 to pursue this Secondary Field.		
Advanced Technical Courses		
Required courses:		
CEE 460	Steel Structures I	3
CEE 461	Reinforced Concrete I	3
Transportation Engineering Secondary		
Students must have taken CEE 310 to pursue this Secondary Field.		
Advanced Technical Courses		

Code	Title	Hours
Select 2 courses, each from a different Area listed below:		
Area 1 - Facilities:		
CEE 405	Asphalt Materials I	3
CEE 406	Pavement Design I	3
CEE 407	Airport Design	3
Area 2 - Systems:		
CEE 407	Airport Design	3
CEE 415	Geometric Design of Roads	4
CEE 416	Traffic Capacity Analysis	3
CEE 418	Public Transportation Systems	3
Area 3 - Railroad:		
CEE 408	Railroad Transportation Engrg	3
CEE 409	Railroad Track Engineering	3
CEE 410	Railway Signaling & Control	3
CEE 411	RR Project Design & Constr	3
CEE 412	High-Speed Rail Engineering	3
Water Resources Engineering and Science Secondary		
Students must have taken CEE 350 to pursue this Secondary Field.		
Advanced Technical Courses		
Select 2 courses from list below:		
CEE 432	Stream Ecology	3
CEE 433	Water Technology and Policy	3
CEE 450	Surface Hydrology	3
CEE 451	Environmental Fluid Mechanics	3
CEE 452	Hydraulic Analysis and Design	3
CEE 453	Urban Hydrology and Hydraulics	4
CEE 457	Groundwater	3
CEE 458	Water Resources Field Methods	4
CEE 459	Ecohydraulics	4
Energy-Water-Environment Sustainability Secondary		
Students must have taken CEE 340 to pursue this Secondary Field.		
Advanced Technical Courses		
Required course:		
CEE 493	Sustainable Design Eng Tech	4
Select 1 course from list below:		
ABE 436	Renewable Energy Systems	3 or 4
CEE 433	Water Technology and Policy	3
CEE 434	Environmental Systems I	3
CEE 435	Public Health Engineering	3
CEE 437	Water Quality Engineering	3
CEE 441	Air Pollution Sources, Transport and Control	4
CEE 449	Environmental Engineering Lab	3
CEE 450	Surface Hydrology	3
CEE 452	Hydraulic Analysis and Design	3
CEE 453	Urban Hydrology and Hydraulics	4
CEE 457	Groundwater	3

Code	Title	Hours
CEE 459	Ecohydraulics	4
CEE 473	Wind Effects on Structures	4
CEE 492	Data Science for Civil and Environmental Engineering	4
CEE 498	Special Topics (As approved)	3-4
ME 400	Energy Conversion Systems	3 or 4
NPRE 402	Nuclear Power Engineering	3 or 4
NPRE 475	Wind Power Systems	3 or 4
Societal Risk and Hazard Mitigation Secondary		
Advanced Technical Courses		
Required course:		
CEE 491	Decision and Risk Analysis	3
Select 1 course from the list below:		
CEE 406	Pavement Design I	3
CEE 416	Traffic Capacity Analysis	3
CEE 417	Urban Transportation Planning	4
CEE 437	Water Quality Engineering	3
CEE 440	Fate Cleanup Environ Pollutant	4
CEE 449	Environmental Engineering Lab	3
CEE 460	Steel Structures I	3
CEE 461	Reinforced Concrete I	3
CEE 465	Design of Structural Systems	3
CEE 472	Structural Dynamics I	3
CEE 473	Wind Effects on Structures	4
IE 410	Advanced Topics in Stochastic Processes & Applications	3 or 4
NPRE 442	Radioactive Waste Management	3
SE 450	Decision Analysis I	3 or 4
STAT 425	Statistical Modeling I	3 or 4
STAT 429	Time Series Analysis	3 or 4
STAT 430	Topics in Applied Statistics	3 or 4
UP 438	Disasters and Urban Planning	4
Sustainable and Resilient Infrastructure Systems Secondary		
Students must have taken CEE 340 to pursue this Secondary Field.		
Advanced Technical Courses		
Required course:		
CEE 491	Decision and Risk Analysis	3
Select 1 course from the list below:		
ABE 436	Renewable Energy Systems	3 or 4
CEE 401	Concrete Materials	4

Code	Title	Hours
CEE 406	Pavement Design I	3
CEE 408	Railroad Transportation Engrg	3
CEE 409	Railroad Track Engineering	3
CEE 416	Traffic Capacity Analysis	3
CEE 417	Urban Transportation Planning	4
CEE 418	Public Transportation Systems	3
CEE 421	Construction Planning	3
CEE 424	Course CEE 424 Not Found	
CEE 434	Environmental Systems I	3
CEE 453	Urban Hydrology and Hydraulics	4
CEE 458	Water Resources Field Methods	4
CEE 465	Design of Structural Systems	3
CEE 493	Sustainable Design Eng Tech	4
CEE 498	Special Topics (As approved)	3-4
MSE 489	Matl Select for Sustainability	3 or 4
UP 466	Energy & the Built Environment	4
UP 480	Sustainable Design Principles	2

Global Context Secondary

Students must have taken [CEE 340](#) and either [CEE 330](#) or [CEE 350](#) to pursue this Secondary Field.

Advanced Technical Courses

Select 1 course from the Global Issues list below:

ACE 451	Agriculture in Intl Dev	3 or 4
ATMS 421	Earth Systems Modeling	4
CEE 438	Science & Environmental Policy	3
CEE 441	Air Pollution Sources, Transport and Control	4
CEE 447	Atmospheric Chemistry	4
CEE 450	Surface Hydrology	3
ECON 420	International Economics	3 to 4

Select 1 course from the CEE Global Design list below:

CEE 408	Railroad Transportation Engrg	3
CEE 417	Urban Transportation Planning	4
CEE 437	Water Quality Engineering	3
CEE 449	Environmental Engineering Lab	3
CEE 465	Design of Structural Systems	3

CEE Multidisciplinary Secondary

Science Electives Recommended: Any recommended science electives from existing CEE Primary and Secondary listed above.

Civil Engineering Core Courses Recommended: Core courses relevant to the student's interests.

Advanced Technical Courses: Students must work with CEE Academic Advisors to select courses.

Atmospheric Science Secondary

Students must have taken [CEE 330](#) to pursue this Secondary Field.

Advanced Technical Courses

Select 2 courses from list below:

ATMS 302	Atmospheric Dynamics I	3
--------------------------	------------------------	---

Code	Title	Hours
ATMS 410	Radar Remote Sensing	4
ATMS 411	Satellite Remote Sensing	4
ATMS 421	Earth Systems Modeling	4
CEE 441	Air Pollution Sources, Transport and Control	4
CEE 447	Atmospheric Chemistry	4
Chemical Engineering Secondary		
Students must have taken CEE 330 and CEE 350 to pursue this Secondary Field.		
Advanced Technical Courses		
Select 2 courses from list below:		
CHBE 321	Thermodynamics	4
CHBE 421	Momentum and Heat Transfer	4
CHBE 422	Mass Transfer Operations	4
CHBE 424	Chemical Reaction Engineering	3
Chemistry Secondary		
Students must have taken CEE 330 to pursue this Secondary Field.		
Advanced Technical Courses		
Select at least 2 courses from list below, a minimum of 6 credit hours required.		
CHEM 232	Elementary Organic Chemistry I	3 or 4
CHEM 315	Instrumental Chem Systems Lab	2
CHEM 332	Elementary Organic Chem II	4
CHEM 420	Instrumental Characterization	2
CHEM 440	Physical Chemistry Principles	4
Microbiology Secondary		
Students must have taken CEE 330 to pursue this Secondary Field.		
Advanced Technical Courses		
Select 2 courses from list below:		
CEE 444	Env Eng Principles, Biological	4
MCB 301	Experimental Microbiology	3
MCB 431	Microbial Physiology	3
MCB 450	Introductory Biochemistry	3
Toxicology Secondary		
Students must have taken CEE 330 to pursue this Secondary Field.		
Advanced Technical Courses		
Select 2 courses from list below:		
CHEM 332	Elementary Organic Chem II	4
ENVS 480	Basic Toxicology	3
MCB 450	Introductory Biochemistry	3
The General Civil Engineering Option		
37		
Science Electives - Select 1 course from list below:		
GEOL 107	Physical Geology	4
CHEM 232	Elementary Organic Chemistry I	3 or 4
ME 200	Thermodynamics	3
STAT 420	Methods of Applied Statistics	4
Civil Engineering Core Courses		
Select 7 courses from list below:		

Code	Title	Hours
CEE 300	Behavior of Materials	4
CEE 310	Transportation Engineering	3
CEE 320	Construction Engineering	3
CEE 330	Environmental Engineering	3
CEE 340	Energy and Global Environment	3
CEE 350	Water Resources Engineering	3
CEE 360	Structural Engineering	3
CEE 380	Geotechnical Engineering	3

Advanced Technical Courses

Select 4 courses from Areas below, following either of these two options: Option I: Pick no more than 1 course from each area below. Option II: Pick 2 courses from 1 area and no more than 1 course from each of the remaining areas.

Construction

CEE 420	Construction Productivity	3
CEE 421	Construction Planning	3
CEE 422	Construction Cost Analysis	3

Environmental

CEE 437	Water Quality Engineering	3
CEE 440	Fate Cleanup Environ Pollutant	4
CEE 441	Air Pollution Sources, Transport and Control	4

Geotechnical

CEE 483	Soil Mechanics and Behavior	4
CEE 484	Applied Soil Mechanics	3 or 4

Materials

CEE 401	Concrete Materials	4
-------------------------	--------------------	---

Structures

CEE 460	Steel Structures I	3
CEE 461	Reinforced Concrete I	3

Transportation

CEE 405	Asphalt Materials I	3
CEE 406	Pavement Design I	3
CEE 407	Airport Design	3
CEE 408	Railroad Transportation Engrg	3
CEE 409	Railroad Track Engineering	3
CEE 410	Railway Signaling & Control	3
CEE 411	RR Project Design & Constr	3
CEE 412	High-Speed Rail Engineering	3
CEE 415	Geometric Design of Roads	4
CEE 416	Traffic Capacity Analysis	3

Program Features

Academic Level Undergraduate

Does this major have transcribed concentrations? No

What is the typical time to completion of this program?
4 years

What are the minimum Total Credit Hours required for this program?
128

CIP Code 140801 - Civil Engineering, General.

Is This a Teacher Certification Program?
No

Will specialized accreditation be sought for this program?
No

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Admission Requirements

Desired Effective Admissions Term

Is this revision a change to the admission status of the program?

No

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

No Changes

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

This revision will not impact enrollment and degrees awarded.

Estimated Annual Number of Degrees Awarded

Year One Estimate

5th Year Estimate (or when fully implemented)

What is the matriculation term for this program? Fall

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available? No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal? No changes

Will the unit need to seek campus or other external resources? No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

[Engineering Differential](#)

Are you seeking a change in the tuition rate or differential for this program? No

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

There will be no impact on faculty resources, class size, teaching loads, or student-faculty ratios.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this program.

Brooke Newell (bsnewell) (05/08/24 9:23 am): Rollback: Email sent to Becky and Ashley

Brooke Newell (bsnewell) (05/14/24 11:33 am): Rollback: Per discussion with John and Ashley

From: Deltas, George <deltas@illinois.edu>

Sent: Wednesday, May 15, 2024 4:51 PM

To: Popovics, John S <johnpop@illinois.edu>; Thomas-Ward, Jamie Michele <thomas99@illinois.edu>; Powers, Elizabeth T <epowers@illinois.edu>

Subject: Re: Civil and Environmental Engineering request

Dear John,

Sure, of course. We almost always agree with such requests from other units, most especially when coming from Grainger.

Cheers,

George

From: Popovics, John S <johnpop@illinois.edu>

To: Deltas, George <deltas@illinois.edu>

Cc: Popovics, John S <johnpop@illinois.edu>

Subject: Civil and Environmental Engineering request

Dear George:

I hope that you are well.

On the behalf of the Civil and Environmental Engineering Department, I would like to inform you that, as part of our BS in Civil Engineering curricular program, we will require our students to take wither ECON 102 or ECON 103 as a major requirement for the degree. Earlier, we had informed you that we would no longer require those classes as part of the degree, but that was not correct.

Please respond to this email with your acknowledgment and hopefully your approval of this plan for the requirement of ECON102/103 for our students.

Please let me know if you have nay question or concerns about this.

Many thanks,

John

John S. Popovics, Ph.D., P.E.

Professor and Associate Head and Director of Undergraduate Studies

The University of Illinois at Urbana-Champaign

johnpop@illinois.edu

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

[Ashley Hallock, ahallock](#), ~~[Brooke Newell, bsnewell@illinois.edu](#)~~, GCOE; Heidi Craddock, hcraddoc@illinois.edu, ISE Department

Does this program have inter-departmental administration?
No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Science in Industrial Engineering in The Grainger College of Engineering

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

Program Justification

Provide a brief description of what changes are being made to the program.

1. The formatting of the POS and additional text (e.g., graduation requirement, university requirements, and general education requirements) has been modified to adhere to the campus General Education Template.
2. Remove deactivated and rubric adjusted courses in the Program of Study table, including correcting any current course identifications.
3. ECON 102/103 was moved into a major requirement.
4. Add additional course option to all track options.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Per Office of the Provost General Education initiative for transparency and accessibility.
2. The Human Factors Track Option had several redbox errors which have been corrected due to course rubric rename or discontinued courses.

Courses updated due to rubric rename are:

KIN 355 to HK 353

KIN 401 to HK 466

CHLH 470 to HK 403

Course removed due to deactivation:

ARCH 423

3. This is an existing degree requirement, however it was defined as text in a paragraph and it is now in the POS table for clarity.
4. Engineering Law is an important topic for many engineers and the ISE Courses and Curriculum Committee has decided to add SE 400: Engineering Law as a Track Option Elective for all IE Track Options to give students more elective options to choose from.

A student can obtain the 40 hours of upper-division coursework through:

IE 300 (3 credit hours)

IE 310 (3 credit hours)

IE 360 (3 credit hours)

IE 361 (3 credit hours)

IE 370 (3 credit hours)

IE 371 (3 credit hours)

IE 400 (3 credit hours)

ME 330 (4 credit hours)

SE 494 (3 credit hours)

SE 495 (2 credit hours)

MATH 285 (3 credit hours) - prerequisites of MATH 241 and MATH 231

PHYS 212 (4 credit hours) - prerequisites of PHYS 211 and MATH 231

PHYS 213 (2 credit hours) - prerequisites of PHYS 211 and MATH 231

TAM 211 (3 credit hours) - prerequisites of PHYS 211 and (MATH 241 or MATH 257)

TAM 212 (3 credit hours) - prerequisites of PHYS 211 and (MATH 241 or MATH 257)

TAM 251 (3 credit hours) - prerequisites of PHYS 211 and (MATH 241 or MATH 257)

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

Yes

Courses outside of the sponsoring department/interdisciplinary departments

~~CS-173 - Discrete Structures~~

~~CS-225 - Data Structures~~

~~MATH-257 - Linear Algebra w Computat Appl~~

~~ME-270 - Design for Manufacturability~~

ECON 102 - Microeconomic Principles

ECON 103 - Macroeconomic Principles

Please attach any [IE Letter of Support May152024.pdf](#) letters of support/acknowledgement for any Instructional Resources consider faculty, students, and/or other impacted units as appropriate.

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Graduates should have:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. an ability to communicate effectively with a range of audiences.
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Revised programs [IE_Sample_Sequence_SPR2024.xlsx](#)

Attach a revised Sample Sequence (for undergraduate program) or college-level forms.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

Statement for

Programs of

Graduation Requirements

Study Catalog

~~Minimum Technical GPA: 2.0~~

~~Minimum hours required for graduation: 128 hours.~~

~~2.0 TGPA is required for required Engineering and Technical Elective courses, as well as MATH 257. See Technical GPA to clarify requirements.~~ Minimum Overall GPA: 2.0

Minimum Technical GPA: 2.0

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

~~2.0 Minimum hours required for graduation: 128 hours General education: Follows the campus~~ Students must complete the Campus General Education (Gen Ed) requirements, including the campus general education language requirement. Some Gen Ed requirements may be met by courses required and/or electives in the program.

Track Option Electives

Course List

Code	Title	Hours
------	-------	-------

Track options include courses selected from departmentally approved lists. Courses on these elective lists may only be used to fulfill one curricular requirement. 12

Computational Methods in IE

Track Core requirement - complete 2 courses:

CS 173	Discrete Structures	3
CS 225	Data Structures	4

Track Electives - select remaining courses from this list:

All 200-, 300-, and 400-level CS courses excluding [CS 210](#), [CS 211](#), [CS 397](#), [CS 398](#), and CS seminar and senior project courses.

SE 400	Engineering Law	<u>3 or 4</u>
------------------------	---------------------------------	---------------

Economics and Finance (E&F)

Track Core - complete 2 courses from this list:

ACE 427	Commodity Price Analysis	3
IE 420	Financial Engineering	3
SE 450	Decision Analysis I	3

Track Electives - select remaining courses from this list of courses. Of these courses, only 1 selected may be at the 100 or 200 level:

ACE 410	Energy Economics	3
ACE 427	Commodity Price Analysis	3
ACE 428	Commodity Futures and Options	3
ACCY 200	Fundamentals of Accounting	3
ECON 302	Inter Microeconomic Theory	3
ECON 303	Inter Macroeconomic Theory	3
ECON 420	International Economics	2 to 4
ECON 471	Intro to Applied Econometrics	2 to 4
FIN 221	Corporate Finance	3
FIN 300	Financial Markets	3
FIN 411	Investment & Portfolio Mngt	3
FIN 412	Options and Futures Markets	3
FIN 415	Fixed Income Portfolios	3
FIN 461	Banking and Financial Regulation	3
SE 400	Engineering Law	<u>3 or 4</u>

Human Factors

Track Core - complete the following course:

IE 340	Human Factors	4
------------------------	---------------	---

Track Electives - complete at least 3 of the following courses:

Code	Title	Hours
Physical Ergonomics Focus		
BIOE 461	Cellular Biomechanics	4
or TAM 461	Cellular Biomechanics	
ETMA 421	Industrial and Agricultural Safety-Injury Prevention	3
ETMA 422	Industrial and Agricultural Occupational Illness Prevention	3

Is This a Teacher Certification Program?
No

Will specialized accreditation be sought for this program?

No

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Admission Requirements

Desired Effective Admissions Term

Is this revision a change to the admission status of the program?

No

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

This should not impact enrollment or degrees awarded.

Estimated Annual Number of Degrees Awarded

Year One Estimate

5th Year Estimate (or when fully implemented)

What is the matriculation term for this program?

Fall

Budget

Are there budgetary implications for this revision?

No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

Will the unit need to seek campus or other external resources?

No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

[Engineering Differential](#)

Are you seeking a change in the tuition rate or differential for this program?

No

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

There should be no change in faculty resources. The SE 400 course is offered every semester and there will only be a slight increase in IE students enrolled in the course.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support the changes to the programs of study.

COLLEGE OF LIBERAL ARTS & SCIENCES

Department of Economics
214 David Kinley Hall, MC-707
1407 W. Gregory Drive
Urbana, IL 61801-3606

May 10, 2024

Dear Heidi,

The Department of Economics is supportive of the proposed proposal to add the courses listed below to the Industrial Engineering, BS and Systems Engineering and Design, BS programs of study as specific Social & Behavioral Science general education elective options for Industrial Engineering, BS and Systems Engineering and Design, BS program students to use in the completion of their introductory economics course requirement.

ECON 102 Microeconomic Principles
ECON 103 Macroeconomic Principles

For the elective courses listed above, we can provide access to the estimated 165 students per year between both courses, subject to capacity and course availability.

Thank you,

George Deltas
Head
Department of Economics

Industrial Engineering, BS

First Year			
First Semester	Hours	Second Semester	Hours
SE 100	1	CS 101 (CS 124 may be substituted)	3
MATH 221 (MATH 220 may be substituted)	4	MATH 231	3
CHEM 102	3	PHYS 211	4
CHEM 103	1	ECE 110	3
ENG 100	1	SE 101 or Composition I course	3-4
Composition I course or SE 101	3-4		
	14		16

Second Year			
First Semester	Hours	Second Semester	Hours
SE 261	2	IE 300	3
MATH 241	4	MATH 285	3
PHYS 212	4	PHYS 213	2
TAM 211	3	TAM 212	3
ECON 102 or ECON 103 (Counts as General Education course)	3	TAM 251	3
		SE 290	0

Heidi Craddock, hcraddoc@illinois.edu; ISE Department

Does this program have inter-departmental administration?
No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Science in Systems Engineering & Design in The Grainger College of Engineering

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

Program Justification

Provide a brief description of what changes are being made to the program.

1. The formatting of the POS and additional text (e.g., graduation requirement, university requirements, and general education requirements) has been modified to adhere to the campus General Education Template.
2. Remove deactivated and rubric adjusted courses in the Program of Study table, including correcting any current course identifications.
3. ECON 102/103 was moved into a major requirement.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Per Office of the Provost General Education initiative for transparency and accessibility.
2. The following Secondary Field Options needed to be updated due to course rubric renaming or deactivated courses.

Bioengineering:

KIN 355 is now HK 353

MCB 403 is deactivated

MCB 404 is deactivated

Rehabilitation Engineering:

REHB 401 is deactivated

REHB 402 is deactivated

3. This is an existing degree requirement, however it was defined as text in a paragraph and it is now in the POS table for clarity.

A student can obtain the 40 hours of upper-division coursework through:

IE 300 (3 credit hours)

IE 310 (3 credit hours)

SE 310 (3 credit hours)

SE 311 (3 credit hours)

SE 312 (1 credit hour)

SE 320 (4 credit hours)

SE 494 (3 credit hours)

SE 495 (2 credit hours)

TAM 335 (4 credit hours)

MATH 285 (3 credit hours) - prerequisites of MATH 241 and MATH 231

PHYS 212 (4 credit hours) - prerequisites of PHYS 211 and MATH 231

PHYS 213 (2 credit hours) - prerequisites of PHYS 211 and MATH 231

ECE 211 (2 credit hours) - prerequisites of PHYS 212 and MATH 285

TAM 211 (3 credit hours) - prerequisites of PHYS 211 and (MATH 241 or MATH 257)

TAM 212 (3 credit hours) - prerequisites of PHYS 211 and (MATH 241 or MATH 257)

TAM 251 (3 credit hours) - prerequisites of PHYS 211 and (MATH 241 or MATH 257)

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

Yes

Courses outside of the sponsoring department/interdisciplinary departments

~~CS-173 - Discrete Structures~~

~~CS-225 - Data Structures~~

~~MATH-257 - Linear Algebra w Computat Appl~~

~~ME-270 - Design for Manufacturability~~

~~TAM-470 - Computational Mechanics~~

ECON 102 - Microeconomic Principles

ECON 103 - Macroeconomic Principles

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Graduates should have:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. an ability to communicate effectively with a range of audiences.
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Revised programs [SE_SampleSequence_Spr24.xlsx](#)

Attach a revised Sample Sequence (for undergraduate program) or college-level forms.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

Statement for

Programs of

Graduation Requirements

Study Catalog

~~Minimum Technical GPA: 2.0~~

Minimum hours required for graduation: 128 hours.

~~2.0 TGPA is required for Engineering and Technical Elective courses and MATH 257. See Technical GPA to clarify requirements.~~ Minimum Overall GPA: 2.0

Minimum Technical GPA: 2.0

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

~~2.0 Minimum hours required for graduation: 128 hours General education: Follows the campus~~ Students must complete the Campus General Education (Gen Ed) requirements, including the campus general education language requirement. Some Gen Ed requirements may be met by courses required and/or electives in the program.

Secondary Field Option Electives

Course List

Code	Title	Hours
Students must select one Secondary Field Option from the list below or they may petition to create their own Secondary Field Option (SFO). Courses from these lists may only be used to fulfill one curricular requirement.		12
Automotive Engineering		
Dynamics/Controls Focus - complete at least 1 course from this list:		
ECE 470	Introduction to Robotics (same as AE 482 and ME 445)	4
ECE 486	Control Systems	4
ME 460	Industrial Control Systems	4
TAM 412	Intermediate Dynamics	4
TAM 416	Introduction to Nonlinear Dynamics and Vibrations	4
Automotive Power Systems Focus - complete at least 1 course from this list:		
ECE 431	Electric Machinery	4
ECE 464	Power Electronics	3
ME 400	Energy Conversion Systems	3
ME 403	Internal Combustion Engines	3
Other Elective Options - complete remaining courses from this list:		
CS 173	Discrete Structures	3
CS 440	Artificial Intelligence	3
CS 446	Machine Learning	3
ME 320	Heat Transfer	4
ME 360	Signal Processing	3.5
ME 461	Computer Cntrl of Mech Systems	3
SE 400	Engineering Law	3
SE 422	Robot Dynamics and Control	4

Code	Title	Hours
SE 497	Independent Study (May be taken for up to 3 credit hours, based on automotive Engineering project approved by SFO faculty mentor.)	1-4
Autonomous Systems and Robotics		
CS 173	Discrete Structures	3
CS 225	Data Structures	4
CS 440	Artificial Intelligence	3
CS 446	Machine Learning	3
ECE 470	Introduction to Robotics	4
ECE 486	Control Systems	4
ECE 490	Introduction to Optimization	3
ME 270	Design for Manufacturability	3
ME 461	Computer Cntrl of Mech Systems	3
SE 400	Engineering Law	3
SE 411	Reliability Engineering	3
SE 420	Digital Control Systems	4
SE 422	Robot Dynamics and Control	4
SE 423	Mechatronics	3
Bioengineering		
BIOE 120	Introduction to Bioengineering	1
BIOE 414	Biomedical Instrumentation (same as ECE 414)	3
BIOE 415	Biomedical Instrumentation Lab (same as ECE 415)	2
BIOE 498	Special Topics	3
BIOP 401	Introduction to Biophysics	3
CHEM 232	Elementary Organic Chemistry I	3 or 4
CHEM 233	Elementary Organic Chem Lab I	2
HK 353	Biomechanics of Human Movement	3
IE 340	Human Factors (same as PSYC 358)	4
KIN 355	Course KIN 355 Not Found	
MCB 150	Molec & Cellular Basis of Life (recommended only if a prerequisite to another listed course.)	4
MCB 250	Molecular Genetics (recommended only if a prerequisite to another listed course.)	3
MCB 251	Exp Techniqs in Molecular Biol (recommended only if a prerequisite to another listed course.)	2
MCB 401	Cellular Physiology	3
MCB 402	Sys & Integrative Physiology	3
MCB 403	Course MCB 403 Not Found	2
MCB 404	Course MCB 404 Not Found	2
MCB 450	Introductory Biochemistry	3
SE 400	Engineering Law	3
Business Systems Integration & Consulting		
Core Requirement:		
SE 400	Engineering Law	3
Group I Requirement - complete at least 1 course from this list:		
BADM 352	Database Design and Management	3
BADM 353	Info Sys Analysis and Design	3
IE 405	Computing for ISE	3

Code	Title	Hours
Group II - select remaining courses from this list. Of these courses, only 1 selected may be at the 100 or 200 level.		
ACCY 200	Fundamentals of Accounting (A basic accounting course is highly recommended.)	3
ACCY 201	Accounting and Accountancy I (A basic accounting course is highly recommended.)	3
ACCY 202	Accounting and Accountancy II (A basic accounting course is highly recommended.)	3
ADV 150	Introduction to Advertising	3
BADM 310	Mgmt and Organizational Beh	3
BADM 311	Leading Individuals and Teams	3
BADM 312	Designing and Managing Orgs	3
BADM 320	Principles of Marketing	3
BADM 445	Small Business Consulting	4
BADM 446	Entrepreneurship: New Venture Creation	4
BTW 250	Principles Bus Comm	3
BTW 261	Principles Tech Comm	3
FIN 221	Corporate Finance	3
FIN 300	Financial Markets	3
IE 420	Financial Engineering	3
Civil Engineering Structures		
CEE 380	Geotechnical Engineering	3
CEE 460	Steel Structures I	3
CEE 461	Reinforced Concrete I	3
CEE 462	Steel Structures II	3
CEE 463	Reinforced Concrete II	3
CEE 465	Design of Structural Systems	3
SE 400	Engineering Law	3
Computer Science		
Core Courses:		
CS 173	Discrete Structures	3
CS 225	Data Structures	4
Elective Options - complete 2 of the following courses:		
CS 410	Text Information Systems	3
CS 411	Database Systems	3 or 4
CS 425	Distributed Systems	3 or 4
CS 438	Communication Networks	3 or 4
All 200-, 300-, and 400-level CS courses excluding CS 210 , CS 211 , CS 397 , CS 398 , and CS seminar and senior project courses.		
SE 400	Engineering Law	3
Construction		
CEE 300	Behavior of Materials (Credit will not be given for CEE 300 , ME 330 and MSE 280 ; select only 1 of these courses.)	4
CEE 310	Transportation Engineering	3
CEE 320	Construction Engineering	3
CEE 380	Geotechnical Engineering	3
CEE 420	Construction Productivity	3

Code	Title	Hours
CEE 421	Construction Planning	3
CEE 422	Construction Cost Analysis	3
CEE 460	Steel Structures I	3
CEE 461	Reinforced Concrete I	3
CEE 465	Design of Structural Systems	3
ME 330	Engineering Materials (Credit will not be given for CEE 300 , ME 330 and MSE 280 ; select only 1 of these courses.)	4

Corresponding Degree BS Bachelor of Science

Program Features

Academic Level Undergraduate

Does this major have transcribed concentrations? No

What is the typical time to completion of this program?
4 years

What are the minimum Total Credit Hours required for this program?
128

CIP Code 142701 - Systems Engineering.

Is This a Teacher Certification Program?
No

Will specialized accreditation be sought for this program?
No

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Admission Requirements

Desired Effective Admissions Term

Is this revision a change to the admission status of the program?

No

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

These changes should not impact enrollment or degrees awarded.

Estimated Annual Number of Degrees Awarded

Year One Estimate

5th Year Estimate (or when fully implemented)

What is the matriculation term for this program?
Fall

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

Will the unit need to seek campus or other external resources?

No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

[Engineering Differential](#)

Are you seeking a change in the tuition rate or differential for this program?

No

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

There should be no changes in faculty resources.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support the changes to the programs of study.

Program Reviewer **Brooke Newell (bsnewell) (05/01/24 12:09 pm):** Rollback: Per discussion with
Comments Ashley at College, rolled back.

Brooke Newell (bsnewell) (05/08/24 9:33 am): Rollback: Email sent to Heidi and Ashley

Brooke Newell (bsnewell) (05/15/24 1:01 pm): Rollback: Per discussion with Heidi

COLLEGE OF LIBERAL ARTS & SCIENCES

Department of Economics
214 David Kinley Hall, MC-707
1407 W. Gregory Drive
Urbana, IL 61801-3606

May 10, 2024

Dear Heidi,

The Department of Economics is supportive of the proposed proposal to add the courses listed below to the Industrial Engineering, BS and Systems Engineering and Design, BS programs of study as specific Social & Behavioral Science general education elective options for Industrial Engineering, BS and Systems Engineering and Design, BS program students to use in the completion of their introductory economics course requirement.

ECON 102 Microeconomic Principles
ECON 103 Macroeconomic Principles

For the elective courses listed above, we can provide access to the estimated 165 students per year between both courses, subject to capacity and course availability.

Thank you,

George Deltas
Head
Department of Economics

Systems Engineering & Design, BS

First Year			
First Semester	Hours	Second Semester	Hours

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Concentration in Radiological, Medical & Instrumentation Applications in the Bachelor of Science in Nuclear, Plasma & Radiological Engineering in the Grainger College of Engineering

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

Yes.

Relates to proposals for 10KP5183BS: Nuclear, Plasma, and RAdiological Engineering, BS and concentrations - 3913 and 3914.

Program Justification

Provide a brief description of what changes are

1) The formatting of the POS and additional text (e.g. graduation requirements, university requirements, and general education requirements) has been modified to adhere to the campus General Education Template.

being made to the program.

We have moved ECON 102/103 into the major requirements.

2) MCB 403 and MCB 404 have been deleted from the electives list.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1) Per Office of the Provost General Education initiative for transparency and accessibility.

2) Courses have been discontinued.

40 hour upper division/advanced course requirement may be met by the following:

4 credit hours: PHYS 212 (Prerequisite: PHYS 211; MATH 231

4 credit hours: ME 310 or TAM 335

3 credit hours: NPRE 321

3 credit hours: NPRE 330

2 credit hours: NPRE 349

3 credit hours: NPRE 435

4 credit hours: NPRE 441

4 credit hours: NPRE 445

3 credit hours: NPRE 449

3 credit hours: NPRE 451

2 credit hours: NPRE 452

4 credit hours: NPRE 455

4 credit hours: NPRE 458

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

Yes

Courses outside of the sponsoring department/interdisciplinary departments

[ECON 102](#) - [Microeconomic Principles](#)

ECON 103 - Macroeconomic Principles

Please attach any [NPRE Letter of Support 4_30_24.pdf](#) letters of support/acknowledgement for any Instructional Resources consider faculty, students, and/or other impacted units as appropriate.

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

The Department of Nuclear, Plasma, and Radiological Engineering has undergraduate curriculum program education objectives (PEOs) that prepare our graduates to succeed in early career (two to five years post-graduation) professional activities in paths related to the NPRE discipline. These PEOs are:

1. To succeed as engineers in the 21st Century in a globally-connected technological environment in which best practices are shared internationally free of borders.
2. To advance in career paths associated with the NPRE disciplines, including commercial nuclear power, plasma sciences and technology, and radiological sciences related opportunities.
3. To pursue further academic growth, obtaining advanced degrees in disciplines related, but not limited, to the disciplines associated with NPRE technical areas.
4. To provide leadership to professional and societal communities in a general way and in ways specific to the NPRE disciplines.
5. To engage in life-long learning and professional development, staying abreast of the ever-evolving technological landscape related to the NPRE disciplines.
6. To contribute to society in a professional, responsible and ethical manner.

Process for Development and Approval of NPRE Program Educational Objectives:

1. A subgroup of the NPRE Faculty drafts a revised set of PEOs consistent with desired impact of the NPRE BS degree program.
2. The proposed PEOs were presented to the full NPRE faculty for discussion and possible revision.
3. Following updates of the draft PEOs by the NPRE faculty, the proposed new PEOs are sent to the entire NPRE Advisory Board (Constituent Alumni Industry Advisory Board) for their input and comment. In order to provide sufficient exchange among the NPRE Board members, a conference call is held to systematically discuss the proposed PEOs. This discussion may result in additional changes to the proposed set of PEOs. In the case of the 2013 Constituent Alumni Industry Advisory Board, a heavier emphasis on "leadership" and an independent statement about profession and ethical behavior also included to emphasize the importance of this objective.
4. All current NPRE BS students are invited to participate in a general discussion about the PEOs and to provide comments about their content and implantation. A discussion session was held with a representative number of students which provided further revisions in the PEO's particularly in terms of the wording regarding future professional practice. In addition, the local ANS student chapter was asked to review the PEOs for value and appropriateness.
5. The revised and vetted PEOs were again presented to the full NPRE faculty. Revisions during the other review steps were discussed as well as other suggestions from the various groups. The NPRE faculty voted unanimously to accept the final version of the revised PEOs.
6. The new NPRE PEOs were placed on the NPRE website so that they were available to the public and in particular the various constituencies of the NPRE BS degree program.

This process allows for assessment and improvements required to maintain the quality and vitality of the program. The central component in the process is the Faculty of the

NPRE Department since they are directly responsible for setting the Program Educational Objectives, instituting changes in the courses and curriculum based on a careful analysis of the assessment data, and developing capable B.S. graduates who achieve the Program Educational Objectives.

The student outcomes are:

1. An ability to identify, formulate, and solve engineering problems by applying principles of engineering, science, and mathematics.
 - a) Identify, formulate, and solve engineering problems.
 - b) Advanced mathematics applied to nuclear engineering concepts.
 - c) Transport and interaction of radiation with matter.
 - d) Atomic and nuclear physics, quantum mechanics.
 - e) Computational solutions.
2. An ability to apply the engineering design process to produce solutions that meet specified needs with consideration for public health and safety, and global, cultural, social, environmental, economic, and other factors as appropriate to the discipline.
3. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
 - a) Develop and conduct experiments, analyze and interpret data, and use engineering judgment to draw conclusions.
 - b) Measure nuclear and radiation processes specifically.
 - c) Analyze and interpret data, using engineering judgement to draw conclusions from experimental data.
4. An ability to communicate effectively with a range of audiences.
5. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
 - a) Recognize ethical and professional responsibilities.
 - b) Make informed judgements.
6. An ability to recognize the ongoing need to acquire new knowledge, to choose appropriate learning strategies, and to apply this knowledge.
7. An ability to function effectively as a member or leader of a team that establishes goals, plans tasks, meets deadlines, and creates a collaborative and inclusive environment.

The relationship between the Program Educational Objectives and the Student Outcomes are maintained by the department. Student Outcomes represent process-oriented activities that either directly or in combination prepare students to satisfy all PEOs upon completion of the B.S. NPRE degree program.

The assessment process for student outcomes employed by the NPRE Department is as follows:

1. Work products for each 1-7 outcomes (including sub-outcomes) are determined by each instructor in consultation with the Associate Head for Undergraduate Programs (Kozlowski). The frequency of this element of our process is approximately once every two years.
2. The level of mastery is determined by each instructor and review by the Associate

Head for Undergraduate Programs. Generally, typically work products require levels of mastery at 75% or higher.

3. Instructors for the courses coupled to the 1-7 outcomes collect the associated work products and distill these into a numeric scores. This occurs each semester the course is taught.

4. The instructor determines the percentage of students obtaining mastery for each work product. This occurs each semester the course is taught.

5. The instructor generates a document that includes the performance of the student body in the course with respect to the outcome and the number of students that achieved mastery. This occurs each semester the course is taught.

6. These reports are forwarded to the Associate Head for Undergraduate Programs for review. This occurs each semester the course is taught.

7. Periodically, the Undergraduate Curriculum subcommittee reviews the reports. This is review then serves as a basis for modification of either the course or elements of the NPRE curriculum. The frequency of this element of our process is approximately once every two years.

8. The Undergraduate Curriculum subcommittee reviews the assessments work products periodically to ensure these continue to be appropriate for 1-7 outcome assessment. The frequency of this review is approximately once every two years. Instructors are consulted if this review determines that changes in work product(s) are warranted.

The assessment of student outcomes forms the basis of the NPRE Department continuous improvement process for the undergraduate curriculum. These are routinely reviewed by the Associate Head for Undergraduate Programs and by the Undergraduate Curriculum Subcommittee.

Suggestions for changes and improvements in the academic program are encouraged and sought from all members of the Department constituencies. Suggestions may be submitted formally or informally, or may develop from a general assessment of changes in the discipline due to local, national, or international policies or trends. Suggestions for changes or improvements are considered by the Faculty, typically in faculty meetings or in ad hoc subcommittees of the Faculty. Individuals or groups may develop substantive proposals for changes which would be implemented pending a positive response from the Faculty in consultation with the constituencies. NA

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program Description and Requirements Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Revised programs [NPRE_BS_RMIA_SampleSequence_Spr2024.xlsx](#)
 Attach a revised Sample Sequence (for undergraduate program) or college-level forms.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

Statement for Programs of Study Catalog

Graduation Requirements

Minimum hours required for graduation: 128 hours.

~~Minimum Technical GPA: 2.0~~ GPA is required for NPRE 200 and NPRE 247. See Technical GPA to clarify requirements. Minimum Overall GPA: 2.0

Minimum Technical GPA: 2.0

TGPA is required for NPRE 200 ~~NPRE 200~~ and NPRE 247. ~~NPRE 247.~~ See Technical GPA to clarify requirements.

University Requirements

~~Minimum hours required for graduation: Minimum 128 hours, to include a minimum~~ of 40 hours of upper-division coursework, ~~coursework~~ generally at the 300- or and 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement. ~~degree-~~

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in the program.

Course List

Code	Title	Hours
<u>Composition I</u>		<u>4-6</u>
<u>Advanced Composition</u>		<u>3</u>
<u>Humanities & the Arts (6 hours)</u>		<u>6</u>
<u>Natural Sciences & Technology (6 hours)</u>		<u>6</u>
<u>fulfilled by CHEM 102, PHYS 211, PHYS 212</u>		
<u>Social & Behavioral Sciences (6 hours)</u>		<u>6</u>

Code	Title	Hours
	<u>fulfilled by ECON 102 or ECON 103 and any other course approved as Social & Behavioral Sciences</u>	
	<u>Cultural Studies: Non-Western Cultures (1 course)</u>	<u>3</u>
	<u>Cultural Studies: US Minority Cultures (1 course)</u>	<u>3</u>
	<u>Cultural Studies: Western/Comparative Cultures (1 course)</u>	<u>3</u>
	<u>Quantitative Reasoning (2 courses, at least one course must be Quantitative Reasoning I)</u> <u>fulfilled by MATH 220 or MATH 221; and MATH 231, MATH 241, MATH 285, PHYS 211, PHYS 212;</u> <u>and CS 101 or CS 124</u>	<u>6-10</u>

COLLEGE OF LIBERAL ARTS & SCIENCES

Department of Economics
214 David Kinley Hall, MC-707
1407 W. Gregory Drive
Urbana, IL 61801-3606

April 30, 2024

Dear Becky,

The Department of Economics is supportive of the proposed proposal to add the courses listed below to the Nuclear, Plasma, and Radiological Engineering, BS program of study as specific Social & Behavioral Science general education elective options for Nuclear, Plasma, and Radiological Engineering BS program students to use in the completion of their introductory economics course requirement.

ECON 102 Microeconomic Principles
ECON 103 Macroeconomic Principles

For the elective courses listed above, we can provide access to the estimated 40 - 50 students per year between both courses, subject to capacity and course availability.

Thank you,

Jamie Thomas-Ward
Director of Undergraduate Studies
Department of Economics

Nuclear, Plasma, and Radiological Engineering: Radiological, Medical & Instrumentation Applications, BS

Sample Sequence

This sample sequence is intended to be used only as a guide for degree completion. All students should work individually with their academic advisors to decide the actual course selection and sequence that works best for them based on their academic preparation and goals. Enrichment programming such as study abroad, minors, internships, and so on may impact the structure of this four-year plan. Course availability is not guaranteed during the semester indicated in the sample sequence. The curriculum sequence can also be viewed via dynamic and static curricular maps, which include prerequisite sequencing.

Students must fulfill their Language Other Than English requirement by successfully completing a third level of a language other than English. See the corresponding section on the Degree and General Education Requirements. One of the SBS courses must be an introductory economics course (ECON 102 or ECON 103). NPRE 481 will satisfy a technical elective requirement in the Professional Concentration Area and the Campus General Education Advanced Composition requirement. If NPRE 481 is not selected, a separate Advanced Composition course must be taken.

Free Electives: Additional course work, subject to the Grainger College of Engineering restrictions to Free Electives, so that there are at least 128 credit hours earned toward the degree.

First Year			
First Semester	Hours	Second Semester	Hours

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

KR Dean

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Fine Arts in Art Education in the College of Fine and Applied Arts

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

Program Justification

Provide a brief description of what changes are being made to the program.

1) ARTE 203, ARTE 204, & ARTE 302 have been renumbered and updated numbers are input into the POS

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1) ARTE 203 has been renumbered to ARTE 303, ARTE 204 renumbered to ARTE 304, and ARTE 400 for Fall 2024. The courses are showing up as course not found in the POS, so this revision seeks to manually fix them. The purpose for the changes was to correctly number two courses (ARTE 203 now 303 and ARTE 204 now 304) taken in fall of junior year that the program area considers to be at the advanced level and these changes have already been approved in CIM. ARTE 302 now 400 is taken in the fall of senior year and the program area identifies the course material as reflecting 400-level content and this change has already been approved in CIM.

No changes to total hours in the 130-hour degree.

40 hour upper division/advanced course requirement

ARTE 301, 400, 393 - 9 hours

ARTE 303, 304 - 5 hours

SPED 405, CI 473 - 6 hours

ARTE 401, EDPR 438, EDPR 442 - 14 hours

200 level Art Education- Art & Design category requirements, which must be completed after the 17 hours of First Year Curriculum coursework- 6 hours

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Students graduating with the BFA in Art Education should be able to:

Understand the diverse characteristics and abilities of their students and how individuals develop and learn within the context of their social, economic, cultural, linguistic, and academic experiences. Our graduates are prepared to use these experiences to create instructional opportunities that maximize student learning in diverse art education settings such as schools, museums, and community centers. Understand content area knowledge in fine art and visual culture that includes central concepts, methods of inquiry, structures of the disciplines, and content area literacy. Our graduates are prepared to create meaningful learning experiences for students through both content area and pedagogical knowledge.

Plan and design instruction for diverse art education settings based upon content area knowledge, diverse student characteristics, student performance data, curriculum goals, and the community context.

Create safe and healthy art education learning environments that facilitate cultural and linguistic responsiveness, emotional well-being, self-efficacy, positive social interaction, mutual respect, active engagement, academic risk-taking, self-motivation, and personal goal-setting.

Differentiate instruction by using a variety of strategies that support critical and creative thinking, problem-solving, and continuous growth and learning. Our graduates understand that art education settings are dynamic, thus requiring ongoing modification of instruction to enhance learning for each student.

Enact critical and humanizing expressions of art education that redress and challenge systemic injustices that relate to social identities associated with race, class, gender, sexuality, immigrant origin, religion, age, mental and physical disabilities, and mental and physical illnesses.

Possess foundational knowledge of reading, writing, and oral communication within art education (e.g. curriculum and lesson planning, assessment tools, etc.) and recognizes and addresses how student reading, writing, and oral communication facilitate the acquisition of knowledge in art education.

Understand the purposes, characteristics, and limitations of different types of assessments in art education, including standardized assessments, universal screening, curriculum-based assessment, and progress monitoring tools.

Build and maintain collaborative relationships with colleagues, students, parents, and community members to foster cognitive, linguistic, physical, and social and emotional development of their students.

Exhibit ethical, reflective, and professional practices, while providing leadership in their educational settings and advocating for students, parents or guardians, and the profession.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Revised programs [Art Education sample schedule FA 24.docx](#)

or college-level forms.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

A portfolio review is required for admission to the School of Art and Design.

Statement for

Programs of

Study Catalog

Graduation Requirements

Minimum hours required for graduation: 130 hours.

To be recommended for licensure, candidates are required to maintain a UIUC cumulative grade-point average of 2.5 (A=4.0).

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the [Student Code](#) (§ 3-801) and in the [Academic Catalog](#).

General Education Requirements

Follows the [campus General Education \(Gen Ed\) requirements](#). Some Gen Ed requirements may be met by courses required and/or electives in Art and Design.

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

KR Dean

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Undergraduate Minor in Theatre in the College of Fine and Applied Arts

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

Program Justification

Provide a brief description of what changes are being made to the program. (1) Add THEA 402 and THEA 209 to list of elective options. (2) Remove THEA 463 from list of elective options. (3) Remove superscripts

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

(1) Two new courses were developed and are now fully approved for Fall 2024. Each course will be open to theatre minor students and addresses components of the elective list options for the minor. Theatre faculty wish to add these courses as options to complete the minor requirements.

A. Add THEA 209 Writing Performance & Culture (in the History/Criticism category)

B. Add THEA 402 Designing Immersive Adventures: Escape Rooms (in the Production/Performance category)

(2) One course was deactivated for fall 2024 and will be removed from the minor:

A. Remove THEA 463 American Theatre History I (in the History/Criticism category)

Removing deactivated courses keeps the list of requirements updated for students.

(3) Superscripts are removed from two courses. There were no footnotes as those had been removed in a previous revision so the superscripts removed reference nothing and contained no meaning in this catalog.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

1. Develop a comprehensive overview of the study of theatre.

2. Understand the integrated nature of theatre as a scholarly and aesthetic pursuit.

3. Understand the theoretic and historical basis of the art of theatre.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

An undergraduate minor should consist of at least 16 - and no more than 21 hours - of course work, with at least 6 hours of 300- or 400- level courses. Except for clearly remedial offerings, prerequisite courses within the sponsoring unit count towards the total; prerequisite courses outside the sponsoring unit do not count toward this total. The unit sponsoring the minor and that unit's college may set educationally necessary prerequisites for eligibility for the minor within these constraints. Does this proposal meet these criteria?

Yes

Revised programs [Theatre Minor side by side FA 24.docx](#)

Attach a revised Sample Sequence (for undergraduate program) or college-level forms.

Program Features

Academic Level Undergraduate

Is this minor?

A Comprehensive study in a single discipline

Is This a Teacher Certification Program?

No

Will specialized accreditation be sought for this program?

No

Other than certification via the students' degree audits, is there any additional planned mechanism to award/honor successful completion of the minor?

No

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Enrollment

Will the department limit enrollment to the minor?

No

Describe how the department will monitor the admission to/enrollment in the minor.

No changes

Are there any prerequisites for the proposed minor?

No

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

No impact.

Budget

Are there budgetary implications for this revision?

No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

No changes.

Will the unit need to seek campus or other external resources?

No

Attach letters of support

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this undergraduate minor revision.

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

Does this program have inter-departmental administration?
No

Proposal Title

Term

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Master of Education in Educational Psychology in the College of Education and the Graduate College

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

NO

Program Justification

Provide a brief description of what changes are being made to the program.

1. Revisions will include the elimination of the headings of the existing foundations requirement of four hours of Psychological Foundations Courses in Educational Psychology and four hours of Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and combine the existing course options into one Foundations category for eight hours. There will not be any additional course options added.

2. We have moved the text "Masters degree students must take a graduate level College of Education course outside their degree granting department" listed under the Other Requirements heading to the new Foundations Courses Requirement to now say, "Select two of the following foundations courses, taken for four credit hours each. At least one of these two courses must be a course from outside the degree granting department"

3. We have reorganized the courses in alphabetical and numerical order under the "Foundations Courses" heading. We are not adding existing courses to the program.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Student feedback has resulted in these changes. EPSY Foundations courses were not offered online and thus were not accessible to students. By eliminating the requirement to take specific courses, students will have access to a greater variety of courses.
2. We have moved the statement, "Master's degree students must take at least one course outside of their degree-granting department" to the foundations requirement to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.
3. We have reorganized the existing courses under the Foundations Courses heading to provide clarity to the viewer.

There will be no change in total hours for the program.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

Yes

Courses outside
of the sponsoring
department/interdisciplinary
departments

~~CI 446~~ - Culture in the Classroom

~~CI 501~~ - Curr-Dev for the 21st Century

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Counseling Psychology Division

Counseling Psychology students will possess a broad knowledge of the core areas of psychology.

Counseling Psychology students will have an understanding of the basic statistical analytical methods, research designs, measurement models, and research approaches.³

Counseling Psychology students will demonstrate skills at independently designing, conducting, writing, and presenting research studies.

Counseling Psychology students will be skilled in psychological assessment in all aspects (design, psychometric evaluation, administering, and communicating results) as well as in a variety of contexts (e.g., both environmental and individual assessment).

Counseling Psychology students will have the ability to conceptualize clients from a variety of theoretical and scientifically-informed frameworks, present such a conceptualization to others and establish means and methods to evaluate its accuracy

Counseling Psychology students will possess theoretical and scientific knowledge regarding skills in the provision of interventions.

Counseling Psychology students will value and develop competence in aspects of diversity and individual differences.

Counseling Psychology students will have knowledge and appreciation of the ethical issues involved in being a psychologist.

Counseling Psychology students will adopt a critical, scientific approach to professional activities.

Developmental Sciences Division

Developmental Sciences students will obtain a broad knowledge of the core areas of developmental research across the lifespan. This includes but is not limited to: a) social and emotional development; b) language and mathematical development; c) academic motivation and future planning/orientation; d) bullying and peer harassment; and e) identity formation with respect to gender, race, and ethnicity.

Developmental Sciences students will develop a deep expertise in a relevant specialized topic within or across these core areas. This includes mastering research findings in a topic area selected by the student, understanding the relevant theoretical perspectives related to this topic and learning about the appropriate methodological approaches to understanding the core area.

Developmental Sciences students will obtain a sophisticated knowledge base of research approaches and analytic tools necessary for contribution to scholarly literature in Developmental Sciences broadly and their specialized topic in particular. Specifically, they will develop skills to independently design, conduct, write, and present/publish research studies related to their area of focus/career path.

Cognitive Science of Teaching and Learning (CSTL) Division

CSTL students will obtain a broad knowledge of the core areas related to the cognitive science of teaching and learning. This includes knowledge of theoretical perspectives, methodological approaches, and key research findings in the core areas of (a) cognition and learning across the lifespan, (b) learning and the psychology of language, (c)

multimodal information processing, and (d) sociocultural dimensions of learning. CSTL students will obtain a deep expertise in a relevant topic within or cutting across these core areas. This involves mastering theoretical perspectives, methodological approaches, and key research findings in a topic selected by the student. In addition, they will develop skills at independently designing, conducting, writing, and presenting/publishing research studies.

CSTL students will obtain a sophisticated knowledge base of research approaches and analytic tools necessary for contribution to the professional literature and their chosen professional identity/career path. This involves understanding the basic statistical analytical methods, research designs, measurement models, and research approaches. Studies in Interpretive, Statistical, Measurement, and Evaluative Methodologies for Education (QUERIES) Division

QUERIES students will obtain a broad basic knowledge of the core areas of educational research methodologies, quantitative, qualitative, and evaluative research methods. QUERIES students will obtain a sophisticated knowledge base of quantitative and/or qualitative research approaches and analytic tools necessary for contribution to the professional literature.

QUERIES students in Measurement will become skilled in the development and use of techniques for collecting and analyzing 'test' data through the study of measurement methods.

QUERIES students in Statistics will be skilled in traditional and modern quantitative analytic methods.

QUERIES students in Evaluation will have the skills required for Evaluation scholars –in education, social welfare, health services, community development, human resource development, and other domains.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Year One Estimate

5th Year Estimate (or when
fully implemented)

What is the
matriculation
term for this
program? Fall

Budget

Are there
budgetary
implications for
this revision? No

Will the program or revision require staffing (faculty, advisors, etc.)
beyond what is currently available?

No

Additional Budget
Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

There will not be a financial impact as a result of this revision.

Will the unit need to seek campus or other external resources?

No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

[Graduate Base on-campus or online rate](#)

Are you seeking a change in the tuition rate or differential for this program?

No

Is this program requesting self-supporting status?

No

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

There will not be an impact as a result of this revision.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this revision.

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hi Micki,

This email Lori sent is making a a correction we need to make through APC because of an error in how the approved foundations requirement change was translated to Senate last year.

Both of the APC co-chairs have approved, as have Sarah McCarthey and I.

Are you okay sending Lori your support as you did with the other version you were sent last year?

We are hoping to get this through as quickly as possible to get the foundations requirements working for all our on campus and online students.

If you have any questions, please let us know!

Thanks!

Karla

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hello everyone,

I wanted to let you know there was a misunderstanding with the recent revisions to the CoE master's degree foundation requirements changes that was approved originally by APC and campus last spring.

It is now my understanding that the intent of the original revision to the master's degree programs was to remove the headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and include all of the foundation courses under one heading of "Foundation Courses" with the message that states, **"Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department."**

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs housed in the College of Education. The revision will request to remove the specific foundation requirement headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and replace it with one heading titled, "Foundation Courses" with an 8 hour requirement. The revision will also request that all foundation course options be listed under the new heading with the additional phrase, **"Select two of the following courses, taken for four credit hours each. At least one of the two foundations**

courses must be a course from outside the degree granting department.” The purpose of this phrase is to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.

The revision will affect all master’s degree programs housed in the College of Education (see below).

- Curriculum & Instruction, CAS,
- Curriculum & Instruction, EdM,
- Curriculum & Instruction, MA,
- Curriculum & Instruction, MS,
- Early Childhood Education, EdM
- Education Policy, Organization & Leadership, CAS
- Education Policy, Organization & Leadership, EdM,
- Education Policy, Organization & Leadership, MA,
- Educational Psychology, EdM,
- Educational Psychology, MA,
- Educational Psychology, MS,
- Elementary Education, EdM,
- Secondary Education, EdM,
- Special Education, EdM,

The new degree requirements for the foundation courses will appear as follows. Please note, each program has additional requirements that will follow this section.

Foundation courses	
Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department.	8
Any 400 level EPSY course	
EPSY 553	Global Issues in Learning
EPOL 401	History of American Education
EPOL 402	Asian American Education
EPOL 403	Historical and Social Barriers
EPOL 405	School and Society

EPOL 406	Professional Ethics in Education

Subject: Letter of Support for the revision of the College of Education Master's Degree programs

Dear Sarah, Yoon, Kiel, and Michelle,

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs housed in the College of Education. The revision will request to remove the specific EPSY courses listed in the section: Psychological Foundations Courses in Educational Psychology and replace the courses with any 400 level EPSY course or EPSY 553. We are also requesting your support to add CI 446, CI 415, and CI 501 as optional courses listed under the new heading: Philosophical and Social Foundations

Courses in Education Policy, Organization and Leadership and Curriculum & Instruction. These revisions are consistent with the discussion with the Executive Officers and Departmental DGS from EPSY, CI and EPOL during spring 2023. The revision will affect all master's degree programs housed in the College of Education (see below). Please indicate your support for this revision by replying to this email.

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hello everyone,

I wanted to let you know there was a misunderstanding with the recent revisions to the CoE master's degree foundation requirements changes that was approved originally by APC and campus last spring.

It is now my understanding that the intent of the original revision to the master's degree programs was to remove the headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and include all of the foundation courses under one heading of "Foundation Courses" with the message that states, "Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department."

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs

housed in the College of Education. The revision will request to remove the specific foundation requirement headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and replace it with one heading titled, "Foundation Courses" with an 8 hour requirement. The revision will also request that all foundation course options be listed under the new heading with the additional phrase, "Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department." The purpose of this phrase is to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.

The revision will affect all master's degree programs housed in the College of Education (see below).

Curriculum & Instruction, CAS,

Curriculum & Instruction, EdM,

Curriculum & Instruction, MA,

Curriculum & Instruction, MS,

Early Childhood Education, EdM

Education Policy, Organization & Leadership, CAS

U Program Review Comments 8-13-2024

Educational Psychology, EDM, Key 216

1. Justification #1, brief description, consider being consistent with using either 'four' or '4'
2. Justification #3, brief description, for reviewer clarity, include where change is occurring in the POS table.
3. Side by Side, in the left and middle columns, courses should be in the same row in both columns. Insert blanks where needed.
4. Financial Resources, we added the tuition rate information because the field was blank.

Does this program have inter-departmental administration?
No

Proposal Title

Effective Catalog Term	Fall 2024
------------------------	-----------

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Master of Arts in Education Policy, Organization & Leadership in the College of Education and the Graduate College

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

No

Program Justification

Provide a brief description of what changes are being made to the program.

1. Revisions will include the elimination of the headings of the existing foundations requirement of four hours of Psychological Foundations Courses in Educational Psychology and four hours of Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and combine the existing course options into one Foundations category for eight hours. There will not be any additional course options added.

2. We have moved the text "Masters degree students must take a graduate level College of Education course outside their degree granting department" listed under the Other Requirements heading to the new Foundations Courses Requirement to now say, "Select two of the following foundations courses, taken for four credit hours each. At least one of these two courses must be a course from outside the degree granting department"

3. We have reorganized the courses in alphabetical and numerical order under the "Foundations Courses" section. We are not adding existing courses to the program.

4. In the POS, we separated the text, "400/500-Level Courses approved by Advisor (Independent Study can be applied up to a maximum of 8 hours)" into 2 lines that now states, "400/500 Level Courses approved by the advisor" for 16-22 on one line and a separate line for "Independent Study (min/max) (optional)" for 0-8 hours for clarity.

5. We removed the text, "(Optional) Concentration Courses. May overlap with other coursework requirements: 16-22 hours" from the POS study and revised the text "Requirements may overlap" to say, "Concentration courses may overlap with other coursework requirements" in the Other requirements section.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Student feedback has resulted in these changes. EPSY Foundations courses were not offered online and thus were not accessible to students. By eliminating the requirement to take specific courses, students will have access to a greater variety of courses.
2. We have moved the statement, "Master's degree students must take at least one course outside of their degree-granting department" to the foundations requirement to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.
3. We have reorganized the existing courses to provide clarity to the viewer.
4. to provide clarity, we separated the original text of "400/500-Level Courses approved by Advisor (Independent Study can be applied up to a maximum of 8 hours)" into two separate lines since the Independent study was optional.
5. To provide clarity, we moved the text about the concentration courses originally in the POS to the other requirements section.

There will be no change in total hours for the program.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

Yes

Courses outside
of the sponsoring
department/interdisciplinary
departments

~~CI 446 - Culture in the Classroom~~

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Upon the conclusion of the program in EPOL, students will be able to

- Demonstrate knowledge and skills in developing, implementing, and evaluating evidence-based programs and practices
- Comprehend current topics and trends in EPOL-wide fields that inform evidence-based practices to improve equity, diversity, and social justice across a wide range of educational, professional, and organizational contexts

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

The learning outcomes assessment activities will be grounded in the overarching EPOL learning outcome, which is to foster a comprehensive academic identity of the EPOL department based on our core mission. In particular, EPOL programs will enable students to conduct high quality scholarly research and to commit to continuous improvement of equity, diversity, and social justice. Our programs also enable students to support and collaborate with multidisciplinary areas of concentrations, in order to identify synergies to address the most critical issues in PK-12, post-secondary, workplace learning, and lifelong learning and education contexts.

The administration of assessment will be conducted with a comprehensive and systematic approach. The goal of our assessment is to inform the continuous improvement of our curricular and instructional activities. Our assessment activities are described in attachment

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hi Micki,

This email Lori sent is making a a correction we need to make through APC because of an error in how the approved foundations requirement change was translated to Senate last year.

Both of the APC co-chairs have approved, as have Sarah McCarthey and I.

Are you okay sending Lori your support as you did with the other version you were sent last year?

We are hoping to get this through as quickly as possible to get the foundations requirements working for all our on campus and online students.

If you have any questions, please let us know!

Thanks!

Karla

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hello everyone,

I wanted to let you know there was a misunderstanding with the recent revisions to the CoE master's degree foundation requirements changes that was approved originally by APC and campus last spring.

It is now my understanding that the intent of the original revision to the master's degree programs was to remove the headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and include all of the foundation courses under one heading of "Foundation Courses" with the message that states, **"Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department."**

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs housed in the College of Education. The revision will request to remove the specific foundation requirement headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and replace it with one heading titled, "Foundation Courses" with an 8 hour requirement. The revision will also request that all foundation course options be listed under the new heading with the additional phrase, **"Select two of the following courses, taken for four credit hours each. At least one of the two foundations**

courses must be a course from outside the degree granting department.” The purpose of this phrase is to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.

The revision will affect all master’s degree programs housed in the College of Education (see below).

- Curriculum & Instruction, CAS,
- Curriculum & Instruction, EdM,
- Curriculum & Instruction, MA,
- Curriculum & Instruction, MS,
- Early Childhood Education, EdM
- Education Policy, Organization & Leadership, CAS
- Education Policy, Organization & Leadership, EdM,
- Education Policy, Organization & Leadership, MA,
- Educational Psychology, EdM,
- Educational Psychology, MA,
- Educational Psychology, MS,
- Elementary Education, EdM,
- Secondary Education, EdM,
- Special Education, EdM,

The new degree requirements for the foundation courses will appear as follows. Please note, each program has additional requirements that will follow this section.

Foundation courses	
Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department.	8
Any 400 level EPSY course	
EPSY 553	Global Issues in Learning
EPOL 401	History of American Education
EPOL 402	Asian American Education
EPOL 403	Historical and Social Barriers
EPOL 405	School and Society

EPOL 406	Professional Ethics in Education
EPOL 407	Critical Thinking in Education
EPOL 408	Aesthetic Education
EPOL 409	Sociology of Education
EPOL 410	Racial and Ethnic Families
EPOL 412	Politics of Education
EPOL 413	Economics of Education
EPOL 480	Technology and Educational Reform
EPOL 552	Foundation of Higher Education
CI 446	Culture in the Classroom
CI 501	Curriculum Development for the 21st Century

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hello everyone,

I wanted to let you know there was a misunderstanding with the recent revisions to the CoE master's degree foundation requirements changes that was approved originally by APC and campus last spring.

It is now my understanding that the intent of the original revision to the master's degree programs was to remove the headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and include all of the foundation courses under one heading of "Foundation Courses" with the message that states, "Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department."

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs housed in the College of Education. The revision will request to remove the specific foundation requirement headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and replace it with one heading titled, "Foundation Courses" with an 8 hour requirement. The revision will also request that all foundation course options be listed under the new heading with the additional phrase, "Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department." The purpose of this phrase is to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.

The revision will affect all master's degree programs housed in the College of Education (see below).

Curriculum & Instruction, CAS,

Curriculum & Instruction, EdM,

Curriculum & Instruction, MA,

Curriculum & Instruction, MS,

Early Childhood Education, EdM

Education Policy, Organization & Leadership, CAS

How Assessment Will Be Administered In The Department/Program

The learning outcomes assessment activities will be grounded in the overarching EPOL learning outcome, which is to foster a comprehensive academic identity of the EPOL department based on our core mission. In particular, EPOL programs will enable students to conduct high quality scholarly research and to commit to continuous improvement of equity, diversity, and social justice. Our programs also enable students to support and collaborate with multidisciplinary areas of concentrations, in order to identify synergies to address the most critical issues in PK-12, post-secondary, workplace learning, and lifelong learning and education contexts.

The administration of assessment will be conducted with a comprehensive and systematic approach. The goal of our assessment is to inform the continuous improvement of our curricular and instructional activities. Our assessment activities are described in Table 1 below.

Table 1. Administration of Learning Outcomes Assessment

Level	Goal	Data Sources	Frequency
Department	Ensure the learning outcomes at department level align with campus/college policies, operational resources, strategic trajectory, and faculty expertise	<ul style="list-style-type: none"> ● Student input ● Faculty input ● College Academic Program Committee ● Campus policies 	Once a month during department leadership meeting
Program	Ensure the learning outcomes at program level align with departmental policies and operational capacities	<ul style="list-style-type: none"> ● Student input ● Faculty input ● Departmental Graduate Program Committee (GPC) 	Once a month during department GPC meeting (AY)
Concentration	Ensure the learning outcomes at concentration level align with faculty expertise and operational capacities	<ul style="list-style-type: none"> ● Student input ● Faculty input 	Once a month during concentration faculty meeting (AY)

U Program Review Comments 8-13-2024

Education Policy, Organization & Leadership, MA, Key 210

1. Justification #1, brief description, consider being consistent with using either 'four' or '4'
2. Justification #3, brief description, for reviewer clarity, include where the change is occurring in the POS table.
3. POS Table, for clarity:
 - o we recommend separating the 400/500 row from the Independent study row.
 - o we recommend that the Independent Study info/limits be in their own row in the table with the 0-8 hour range, indented under the coursework line to show that those hours are counted within those hours.
 - o the concentration row really should be in the Other Requirements Table under the "concentration is not required" row and the overlap language would only need to appear once.
 - o If these changes are made, they should also be reflected in the Side by Side and in the Justification and Why sections.
 - o A sample is below.

400/500-Level Courses approved by Advisor (Independent Study can be applied up to a maximum of 8 hours)	16-22		400/500 Level Courses approved by the advisor	16-22
(Optional) Concentration Courses. May overlap with other coursework requirements: 16-22 hours			Independent Study (min/max) (optional)	0-8
Total Hours	32		Total Hours	32
Other Requirements			Other Requirements	
Requirements may overlap.				
A concentration is not required.			A concentration is not required.	
			Concentration Courses may overlap with other coursework requirements	

... continue as is.

4. Financial Resources, we added the tuition rate information because the field was blank.

No

Proposal Title

Effective Catalog Fall 2024

Term

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberal Arts and Sciences, include the Graduate College for Grad Programs)

Revise the Master of Education in Education Policy, Organization & Leadership in the College of Education and the Graduate College

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

Program Justification

Provide a brief description of what changes are being made to the program.

1. Revisions will include the elimination of the headings of the existing foundations requirement of four hours of Psychological Foundations Courses in Educational Psychology and four hours of Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and combine the existing course options into one Foundations category for eight hours. There will not be any additional course options added.

2. We have moved the text "Masters degree students must take a graduate level College of Education course outside their degree granting department" listed under the Other Requirements heading to the new Foundations Courses Requirement to now say, "Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department"

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1) Student feedback has resulted in these changes. EPSY Foundations courses were not offered online and thus were not accessible to students. By eliminating the requirement to take specific courses, students will have access to a greater variety of courses.

2) We have moved the statement, "Master's degree students must take at least one course outside of their degree-granting department" to the foundations requirement to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.

There will be no change in total hours for the program.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

Yes

Courses outside
of the sponsoring
department/interdisciplinary

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Upon the conclusion of the Ed.M. program in EPOL, students will be able to

- Demonstrate knowledge and skills in developing, implementing, and evaluating evidence-based programs and practices
- Comprehend current topics and trends in EPOL-wide fields that inform evidence-based practices to improve equity, diversity, and social justice across a wide range of educational, professional, and organizational contexts

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

The learning outcomes assessment activities will be grounded in the overarching EPOL learning outcome, which is to foster a comprehensive academic identity of the EPOL department based on our core mission. In particular, EPOL programs will enable students to conduct high quality scholarly research and to commit to continuous improvement of equity, diversity, and social justice. Our programs also enable students to support and collaborate with multidisciplinary areas of concentrations, in order to identify synergies to address the most critical issues in PK-12, post-secondary, workplace learning, and lifelong learning and education contexts. The administration of assessment will be conducted with a comprehensive and systematic approach. The goal of our assessment is to inform the continuous improvement of our curricular and instructional activities. Our assessment activities are described in attachment

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

To: Ostrosky, Michaelene <ostrosky@illinois.edu>

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hi Micki,

This email Lori sent is making a a correction we need to make through APC because of an error in how the approved foundations requirement change was translated to Senate last year.

Both of the APC co-chairs have approved, as have Sarah McCarthey and I.

Are you okay sending Lori your support as you did with the other version you were sent last year?

We are hoping to get this through as quickly as possible to get the foundations requirements working for all our on campus and online students.

If you have any questions, please let us know!

Thanks!

Karla

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hello everyone,

I wanted to let you know there was a misunderstanding with the recent revisions to the CoE master's degree foundation requirements changes that was approved originally by APC and campus last spring.

It is now my understanding that the intent of the original revision to the master's degree programs was to remove the headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and include all of the foundation courses under one heading of "Foundation Courses" with the message that states, **"Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department."**

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs housed in the College of Education. The revision will request to remove the specific foundation requirement headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and replace it with one heading titled, "Foundation Courses" with an 8 hour requirement. The revision will also request that all foundation course options be listed under the new heading with the additional phrase, **"Select two of the following courses, taken for four credit hours each. At least one of the two foundations**

courses must be a course from outside the degree granting department.” The purpose of this phrase is to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.

The revision will affect all master’s degree programs housed in the College of Education (see below).

- Curriculum & Instruction, CAS,
- Curriculum & Instruction, EdM,
- Curriculum & Instruction, MA,
- Curriculum & Instruction, MS,
- Early Childhood Education, EdM
- Education Policy, Organization & Leadership, CAS
- Education Policy, Organization & Leadership, EdM,
- Education Policy, Organization & Leadership, MA,
- Educational Psychology, EdM,
- Educational Psychology, MA,
- Educational Psychology, MS,
- Elementary Education, EdM,
- Secondary Education, EdM,
- Special Education, EdM,

The new degree requirements for the foundation courses will appear as follows. Please note, each program has additional requirements that will follow this section.

Foundation courses	
Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department.	8
Any 400 level EPSY course	
EPSY 553	Global Issues in Learning
EPOL 401	History of American Education
EPOL 402	Asian American Education
EPOL 403	Historical and Social Barriers
EPOL 405	School and Society

EPOL 406	Professional Ethics in Education
EPOL 407	Critical Thinking in Education
EPOL 408	Aesthetic Education
EPOL 409	Sociology of Education
EPOL 410	Racial and Ethnic Families
EPOL 412	Politics of Education
EPOL 413	Economics of Education
EPOL 480	Technology and Educational Reform
EPOL 552	Foundation of Higher Education
CI 446	Culture in the Classroom
CI 501	Curriculum Development for the 21st Century

Please indicate your support for this revision by replying to this email.

Subject: Letter of Support for the revision of the College of Education Master's Degree programs

Dear Sarah, Yoon, Kiel, and Michelle,

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs housed in the College of Education. The revision will request to remove the specific EPSY courses listed in the section: Psychological Foundations Courses in Educational Psychology and replace the courses with any 400 level EPSY course or EPSY 553. We are also requesting your support to add CI 446, CI 415, and CI 501 as optional courses listed under the new heading: Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction. These revisions are consistent with the discussion with the Executive Officers and Departmental DGS from EPSY, CI and EPOL during spring 2023. The revision will affect all master's degree programs housed in the College of Education (see below). Please indicate your support for this revision by replying to this email.

Hello everyone,

I wanted to let you know there was a misunderstanding with the recent revisions to the CoE master's degree foundation requirements changes that was approved originally by APC and campus last spring.

It is now my understanding that the intent of the original revision to the master's degree programs was to remove the headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and include all of the foundation courses under one heading of "Foundation Courses" with the message that states, "Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department."

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs housed in the College of Education. The revision will request to remove the specific foundation requirement headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and replace it with one heading titled, "Foundation Courses" with an 8 hour requirement. The revision will also request that all foundation course options be listed under the new heading with the additional phrase, "Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department." The purpose of this phrase is to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.

The revision will affect all master's degree programs housed in the College of Education (see below).

Curriculum & Instruction, CAS,

Curriculum & Instruction, EdM,

Curriculum & Instruction, MA,

Curriculum & Instruction, MS,

Early Childhood Education, EdM

Education Policy, Organization & Leadership, CAS

Education Policy, Organization & Leadership, EdM,

Education Policy, Organization & Leadership, MA,

Educational Psychology, EdM,

Educational Psychology, MA,

Educational Psychology, MS,

Elementary Education, EdM,

Secondary Education, EdM,

Special Education, EdM,

The new degree requirements for the foundation courses will appear as follows. Please note, each program has additional requirements that will follow this section.

Foundation courses

Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department.

Any 400 level EPSY course

Subject: Letter of Support for the revision of the College of Education Master's Degree programs

Dear Sarah, Yoon, Kiel, and Michelle,

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs housed in the College of Education. The revision will request to remove the specific EPSY courses listed in the section: Psychological Foundations Courses in Educational Psychology and replace the courses with any 400 level EPSY course or EPSY 553. We are also requesting your support to add CI 446, CI 415, and CI 501 as optional courses listed under the new heading: Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction. These revisions are consistent with the discussion with the Executive Officers and Departmental DGS from EPSY, CI and EPOL during spring 2023. The revision will affect all master's degree programs housed in the College of Education (see below). Please indicate your support for this revision by replying to this email.

Stealing Yoon's text (bc I wasn't actually sure what you needed from us!) (so thanks, Yoon!).

Hi,

I support and approve the revisions to change to "Foundations" and selecting two foundations courses with one outside the student's degree granting unit.

Thanks,

kiel

How Assessment Will Be Administered In The Department/Program

The learning outcomes assessment activities will be grounded in the overarching EPOL learning outcome, which is to foster a comprehensive academic identity of the EPOL department based on our core mission. In particular, EPOL programs will enable students to conduct high quality scholarly research and to commit to continuous improvement of equity, diversity, and social justice. Our programs also enable students to support and collaborate with multidisciplinary areas of concentrations, in order to identify synergies to address the most critical issues in PK-12, post-secondary, workplace learning, and lifelong learning and education contexts.

The administration of assessment will be conducted with a comprehensive and systematic approach. The goal of our assessment is to inform the continuous improvement of our curricular and instructional activities. Our assessment activities are described in Table 1 below.

Table 1. Administration of Learning Outcomes Assessment

Level	Goal	Data Sources	Frequency
Department	Ensure the learning outcomes at department level align with campus/college policies, operational resources, strategic trajectory, and faculty expertise	<ul style="list-style-type: none"> ● Student input ● Faculty input ● College Academic Program Committee ● Campus policies 	Once a month during department leadership meeting
Program	Ensure the learning outcomes at program level align with departmental policies and operational capacities	<ul style="list-style-type: none"> ● Student input ● Faculty input ● Departmental Graduate Program Committee (GPC) 	Once a month during department GPC meeting (AY)
Concentration	Ensure the learning outcomes at concentration level align with faculty expertise and operational capacities	<ul style="list-style-type: none"> ● Student input ● Faculty input 	Once a month during concentration faculty meeting (AY)

Major (ex. Special Education)

This proposal is
for a:
Revision

Administration Details

Official Program Name	Education Policy, Organization & Leadership, CAS (on campus & off campus)	
Diploma Title	Certificate of Advanced Study in Education Policy, Organization and Leadership	
Sponsor College	Education	
Sponsor Department	Education Policy, Organization and Leadership	
Sponsor Name	Karla Moller	
Sponsor Email	kjmoller@illinois.edu	
College Contact	Lori Fuller	College Contact Email
	harvey1@illinois.edu	
College Budget Officer	Amanda Brown	
College Budget Officer Email		

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

Laura Ketchum ketchum@illinois.edu

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Certificate of Advanced Study in Education Policy, Organization & Leadership in the College of Education and the Graduate College

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

no

Program Justification

Provide a brief description of what changes are being made to the program.

Program Justification

1. Revisions will include the elimination of the headings of the existing foundations requirement of four hours of Psychological Foundations Courses in Educational Psychology and 4 hours of Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and combine the existing course options into one Foundations category for 8 hours. There will not be any additional course options added.
2. We added the text "Select two of the following foundations courses, taken for four credit hours each. At least one of these two courses must be a course from outside the degree granting department" to the Foundations Courses requirement
3. We have reorganized the courses in alphabetical and numerical order in the "Foundations Courses" section. We are not adding existing courses to the program.
4. We removed the text, "If the student does not have a Master's degree from the University of Illinois Urbana-Champaign, the foundation courses listed below must be completed." which was listed above the POS twice and added the phrase "in the "Foundations Courses" section" directly under the "Foundations Courses" heading.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Student feedback has resulted in these changes. EPSY Foundations courses were not offered online and thus were not accessible to students. By eliminating the requirement to take specific courses, students will have access to a greater variety of courses.
2. We added the statement "Select two of the following foundations courses, taken for four credit hours each. At least one of these two courses must be a course from outside the degree granting department" to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.
3. We have reorganized the existing courses in alphabetical and numerical order in the "Foundations Courses" section to provide clarity to the viewer.
4. The text: If the student does not have a Master's degree from the University of Illinois Urbana-Champaign, the foundation courses listed below must be completed" was listed twice above the program of study table. We removed the text and listed it under the Foundations Courses heading. We would like for our students to take at least one foundations course outside their degree granting dept.

There will be no change in total hours for the program

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

Yes

Courses outside
of the sponsoring
department/interdisciplinary
departments

~~CI 446 - Culture in the Classroom~~

~~CI 501 - Curr-Dev for the 21st Century~~

Please attach any [Letter of Dept Support.pdf](#)

Instructional Resources consider faculty, students, and/or other impacted units as appropriate.

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Upon the conclusion of the program in EPOL, students will be able to

- Demonstrate knowledge and skills in developing, implementing, and evaluating evidence-based programs and practices
- Comprehend current topics and trends in EPOL-wide fields that inform evidence-based practices to improve equity, diversity, and social justice across a wide range of educational, professional, and organizational contexts

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

The learning outcomes assessment activities will be grounded in the overarching EPOL learning outcome, which is to foster a comprehensive academic identity of the EPOL department based on our core mission. In particular, EPOL programs will enable students to conduct high quality scholarly research and to commit to continuous improvement of equity, diversity, and social justice. Our programs also enable students to support and collaborate with multidisciplinary areas of concentrations, in order to identify synergies to address the most critical issues in PK-12, post-secondary, workplace learning, and lifelong learning and education contexts.

The administration of assessment will be conducted with a comprehensive and systematic approach. The goal of our assessment is to inform the continuous improvement of our curricular and instructional activities. Our assessment activities are described in attachment

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program Description and Requirements

[EPOL How When Assessment Will Be Administered In The Department.docx](#)

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses” (source: https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf). For proposals for new bachelor’s degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Will specialized accreditation be sought for this program?	No

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Admission Requirements

Desired Effective Admissions Term

Is this revision a change to the admission status of the program?

No

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

No changes to enrollment are expected.

Estimated Annual Number of Degrees Awarded

Year One Estimate

5th Year Estimate (or when fully implemented)

What is the matriculation term for this program? Fall

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

There will not be a financial impact as a result of this revision.

Will the unit need to seek campus or other external resources?

No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

[Graduate Base on-campus or online/off-campus rate](#)

Are you seeking a change in the tuition rate or differential for this program?

No

Is this program requesting self-supporting status?

No

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

There will not be an impact as a result of this revision.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this revision.

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hi Micki,

This email Lori sent is making a a correction we need to make through APC because of an error in how the approved foundations requirement change was translated to Senate last year.

Both of the APC co-chairs have approved, as have Sarah McCarthey and I.

Are you okay sending Lori your support as you did with the other version you were sent last year?

We are hoping to get this through as quickly as possible to get the foundations requirements working for all our on campus and online students.

If you have any questions, please let us know!

Thanks!

Karla

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hello everyone,

I wanted to let you know there was a misunderstanding with the recent revisions to the CoE master's degree foundation requirements changes that was approved originally by APC and campus last spring.

It is now my understanding that the intent of the original revision to the master's degree programs was to remove the headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and include all of the foundation courses under one heading of "Foundation Courses" with the message that states, **"Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department."**

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs housed in the College of Education. The revision will request to remove the specific foundation requirement headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and replace it with one heading titled, "Foundation Courses" with an 8 hour requirement. The revision will also request that all foundation course options be listed under the new heading with the additional phrase, **"Select two of the following courses, taken for four credit hours each. At least one of the two foundations**

courses must be a course from outside the degree granting department.” The purpose of this phrase is to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.

The revision will affect all master’s degree programs housed in the College of Education (see below).

- Curriculum & Instruction, CAS,
- Curriculum & Instruction, EdM,
- Curriculum & Instruction, MA,
- Curriculum & Instruction, MS,
- Early Childhood Education, EdM
- Education Policy, Organization & Leadership, CAS
- Education Policy, Organization & Leadership, EdM,
- Education Policy, Organization & Leadership, MA,
- Educational Psychology, EdM,
- Educational Psychology, MA,
- Educational Psychology, MS,
- Elementary Education, EdM,
- Secondary Education, EdM,
- Special Education, EdM,

The new degree requirements for the foundation courses will appear as follows. Please note, each program has additional requirements that will follow this section.

Foundation courses	
Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department.	8
Any 400 level EPSY course	
EPSY 553	Global Issues in Learning

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hello everyone,

I wanted to let you know there was a misunderstanding with the recent revisions to the CoE master's degree foundation requirements changes that was approved originally by APC and campus last spring.

It is now my understanding that the intent of the original revision to the master's degree programs was to remove the headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and include all of the foundation courses under one heading of "Foundation Courses" with the message that states, **"Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department."**

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs housed in the College of Education. The revision will request to remove the specific foundation requirement headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and replace it with one heading titled, "Foundation Courses" with an 8 hour requirement. The revision will also request that all foundation course options be listed under the new heading with the additional phrase, **"Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department."** The purpose of this phrase is to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.

The revision will affect all master's degree programs housed in the College of Education (see below).

Curriculum & Instruction, CAS,
Curriculum & Instruction, EdM,
Curriculum & Instruction, MA,
Curriculum & Instruction, MS,
Early Childhood Education, EdM
Education Policy, Organization & Leadership, CAS
Education Policy, Organization & Leadership, EdM,
Education Policy, Organization & Leadership, MA,
Educational Psychology, EdM,
Educational Psychology, MA,
Educational Psychology, MS,
Elementary Education, EdM,
Secondary Education, EdM,
Special Education, EdM,

The new degree requirements for the foundation courses will appear as follows. Please note, each program has additional requirements that will follow this section.

Foundation courses

Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department.

Any 400 level EPSY course

EPSY 553	Global Issues in Learning
EPOL 401	History of American Education
EPOL 402	Asian American Education
EPOL 403	Historical and Social Barriers
EPOL 405	School and Society
EPOL 406	Professional Ethics in Education
EPOL 407	Critical Thinking in Education
EPOL 408	Aesthetic Education
EPOL 409	Sociology of Education
EPOL 410	Racial and Ethnic Families
EPOL 412	Politics of Education
EPOL 413	Economics of Education
EPOL 480	Technology and Educational Reform
EPOL 552	Foundation of Higher Education
CI 446	Culture in the Classroom
CI 501	Curriculum Development for the 21st Century

Please indicate your support for this revision by replying to this email.

Subject: Letter of Support for the revision of the College of Education Master's Degree programs

Dear Sarah, Yoon, Kiel, and Michelle,

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs housed in the College of Education. The revision will request to remove the specific EPSY courses listed in the section: Psychological Foundations Courses in Educational Psychology and replace the courses with any 400 level EPSY course or EPSY 553. We are also requesting your support to add CI 446, CI 415, and CI 501 as optional courses listed under the new heading: Philosophical and Social Foundations

Courses in Education Policy, Organization and Leadership and Curriculum & Instruction. These revisions are consistent with the discussion with the Executive Officers and Departmental DGS from EPSY, CI and EPOL during spring 2023. The revision will affect all master's degree programs housed in the College of Education (see below). Please indicate your support for this revision by replying to this email.

How Assessment Will Be Administered In The Department/Program

The learning outcomes assessment activities will be grounded in the overarching EPOL learning outcome, which is to foster a comprehensive academic identity of the EPOL department based on our core mission. In particular, EPOL programs will enable students to conduct high quality scholarly research and to commit to continuous improvement of equity, diversity, and social justice. Our programs also enable students to support and collaborate with multidisciplinary areas of concentrations, in order to identify synergies to address the most critical issues in PK-12, post-secondary, workplace learning, and lifelong learning and education contexts.

The administration of assessment will be conducted with a comprehensive and systematic approach. The goal of our assessment is to inform the continuous improvement of our curricular and instructional activities. Our assessment activities are described in Table 1 below.

Table 1. Administration of Learning Outcomes Assessment

Level	Goal	Data Sources	Frequency
Department	Ensure the learning outcomes at department level align with campus/college policies, operational resources, strategic trajectory, and faculty expertise	<ul style="list-style-type: none"> ● Student input ● Faculty input ● College Academic Program Committee ● Campus policies 	Once a month during department leadership meeting
Program	Ensure the learning outcomes at program level align with departmental policies and operational capacities	<ul style="list-style-type: none"> ● Student input ● Faculty input ● Departmental Graduate Program Committee (GPC) 	Once a month during department GPC meeting (AY)
Concentration	Ensure the learning outcomes at concentration level align with faculty expertise and operational capacities	<ul style="list-style-type: none"> ● Student input ● Faculty input 	Once a month during concentration faculty meeting (AY)

U Program Review Comments 8-13-2024

Education Policy, Organization & Leadership, CAS, Key 207

1. Justification #1, brief description, consider being consistent with using either 'four' or '4'
2. Justification #3, brief description, for reviewer clarity, include where change is occurring in the POS table.
3. Justification #4, and Why, the text about the Foundations courses is part of the degree requirements and should stay in the POS. With this also remove the text from the Overview section so it isn't repeated.
4. Teacher Certification question, is this question answered correctly?
5. Financial Resources, we added the tuition rate information because the field was blank.

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberal Arts and Sciences, include the Graduate College for Grad Programs)

Revise the Master of Education in Early Childhood Education in the College of Education and the Graduate College

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

NO

Program Justification

Provide a brief description of what changes are being made to the program.

1. Revisions will include the elimination of the headings of the existing foundations requirement of four hours of Psychological Foundations Courses in Educational Psychology and four hours of Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and combine the existing course options into one Foundations category for eight hours. There will not be any additional course options added.
2. We have moved the text "Masters degree students must take a graduate level College of Education course outside their degree granting department" listed under the Other Requirements heading to the new Foundations Courses Requirement to now say, "Select two of the following foundations courses, taken for four credit hours each. At least one of these two courses must be a course from outside the degree granting department"
3. We have reorganized the courses in alphabetical and numerical order under the Foundations Courses section. We are not adding existing courses to the program.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Student feedback has resulted in these changes. EPSY Foundations courses were not offered online and thus were not accessible to students. By eliminating the requirement to take specific courses, students will have access to a greater variety of courses.
2. We have moved the statement, "Master's degree students must take at least one course outside of their degree-granting department" to the foundations requirement to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.
3. We have reorganized the existing courses under the Foundations Courses requirement section to provide clarity to the viewer.

There will be no change in total hours for the program.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

Yes

Courses outside of the sponsoring department/interdisciplinary departments

Please attach any [Letter of Dept Support.pdf](#) letters of support/acknowledgement for any Instructional Resources consider faculty, students, and/or other impacted units as appropriate.

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Students will acquire deep knowledge of child development as it relates to the field of education.

Students will effectively plan and implement relevant, culturally responsive, and developmentally appropriate instruction children from infancy to age eight.

Students will use assessment data to drive decisions and solve problems in and out of the classroom.

Students will display the expectations of professionalism related to success in the field of education and beyond (fairness, commitment to collaboration, community, reflective practice, and attention to 21st century skills and practices).

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

have transcribed concentrations?

Will you admit to the concentration directly? No

Is a concentration required for graduation? No

What is the typical time to completion of this program?
3 years

What are the minimum Total Credit Hours required for this program?
32

What is the required GPA? 3.0

CIP Code 131210 - Early Childhood Education and Teaching.

Is This a Teacher Certification Program?
Yes

Will specialized accreditation be sought for this program?
No

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Admission Requirements

Desired Effective Admissions Term

Is this revision a change to the admission status of the program?

No

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

No changes to enrollment are expected.

Estimated Annual Number of Degrees Awarded

Year One Estimate

5th Year Estimate (or when fully implemented)

What is the matriculation term for this program? Fall

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available? No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

There will not be a financial impact as a result of this revision.

Will the unit need to seek campus or other external resources? No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

[Graduate Base on-campus rate](#)

Are you seeking a change in the tuition rate or differential for this program? No

No

Is this program requesting self-supporting status? No

No

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

There will not be an impact as a result of this revision.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this revision.

Subject: Re: Letter of Support for the revision of the College of Education Master's Degree programs

Hi Karla

I support and approve the revisions to change the requirements to “Foundations” whereby students can select two foundations courses with one being outside the student’s degree granting unit.

Thanks,

Micki

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hi Micki,

This email Lori sent is making a a correction we need to make through APC because of an error in how the approved foundations requirement change was translated to Senate last year.

Both of the APC co-chairs have approved, as have Sarah McCarthey and I.

Are you okay sending Lori your support as you did with the other version you were sent last year?

We are hoping to get this through as quickly as possible to get the foundations requirements working for all our on campus and online students.

If you have any questions, please let us know!

Thanks!

Karla

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hello everyone,

I wanted to let you know there was a misunderstanding with the recent revisions to the CoE master's degree foundation requirements changes that was approved originally by APC and campus last spring.

It is now my understanding that the intent of the original revision to the master's degree programs was to remove the headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and include all of the foundation courses under one heading of "Foundation Courses" with the message that states, **"Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department."**

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs housed in the College of Education. The revision will request to remove the specific foundation requirement headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and replace it with one heading titled, "Foundation Courses" with an 8 hour requirement. The revision will also request that all foundation course options be listed under the new heading with the additional phrase, **"Select two of the following courses, taken for four credit hours each. At least one of the two foundations**

courses must be a course from outside the degree granting department.” The purpose of this phrase is to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.

The revision will affect all master’s degree programs housed in the College of Education (see below).

- Curriculum & Instruction, CAS,
- Curriculum & Instruction, EdM,
- Curriculum & Instruction, MA,
- Curriculum & Instruction, MS,
- Early Childhood Education, EdM
- Education Policy, Organization & Leadership, CAS
- Education Policy, Organization & Leadership, EdM,
- Education Policy, Organization & Leadership, MA,
- Educational Psychology, EdM,
- Educational Psychology, MA,
- Educational Psychology, MS,
- Elementary Education, EdM,
- Secondary Education, EdM,
- Special Education, EdM,

The new degree requirements for the foundation courses will appear as follows. Please note, each program has additional requirements that will follow this section.

Foundation courses	
Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department.	8
Any 400 level EPSY course	
EPSY 553	Global Issues in Learning
EPOL 401	History of American Education
EPOL 402	Asian American Education
EPOL 403	Historical and Social Barriers
EPOL 405	School and Society

EPOL 406	Professional Ethics in Education
EPOL 407	Critical Thinking in Education
EPOL 408	Aesthetic Education
EPOL 409	Sociology of Education
EPOL 410	Racial and Ethnic Families
EPOL 412	Politics of Education
EPOL 413	Economics of Education
EPOL 480	Technology and Educational Reform
EPOL 552	Foundation of Higher Education
CI 446	Culture in the Classroom
CI 501	Curriculum Development for the 21st Century

Please indicate your support for this revision by replying to this email.

U Program Review Comments 8-12-2024

Early Childhood Education, EDM, Key 202

1. Justification #1, brief description, consider being consistent with using either 'four' or '4'
2. Justification #3, brief description, for reviewer clarity, include where the change is occurring in the POS table.
3. Financial Resources, we added the tuition rate information because the field was blank.

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

Does this program have inter-departmental administration?
No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Master of Science in Curriculum and Instruction in the College of Education and the Graduate College

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

NO

Program Justification

Provide a brief description of what changes are being made to the program.

1. Revisions will include the elimination of the headings of the existing foundations requirement of four hours of Psychological Foundations Courses in Educational Psychology and four hours of Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and combine the existing course options into one Foundations category for eight hours. There will not be any additional course options added.

2. We have moved the text "Masters degree students must take a graduate level College of Education course outside their degree granting department" listed under the Other Requirements heading to the new Foundations Courses Requirement to now say, "Select two of the following foundations courses, taken for four credit hours each. At least one of these two courses must be a course from outside the degree granting department"

3. We have reorganized the courses in alphabetical and numerical order under the Foundations Courses requirement. We are not adding existing courses to the program.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Student feedback has resulted in these changes. EPSY Foundations courses were not offered online and thus were not accessible to students. By eliminating the requirement to take specific courses, students will have access to a greater variety of courses.

2. We have moved the statement, "Master's degree students must take at least one course outside of their degree-granting department" to the foundations requirement to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.

3. We have reorganized the existing courses under the Foundations Courses requirement to provide clarity to the viewer.

There will be no change in total hours for the program.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a

result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

Yes

Courses outside of the sponsoring department/interdisciplinary departments

Please attach any [Letter of Dept Support.pdf](#) letters of support/acknowledgement for any Instructional Resources consider faculty, students, and/or other impacted units as appropriate.

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Students will acquire deep knowledge of content in the field of education.

Students will display deep understanding of psychological foundations of learning.

Students will demonstrate a deep understanding of philosophical foundations of education.

Students will display a deep understanding of best pedagogical practices in K-12 classrooms, with attention to 21st century skills and practices.

Students will display deep knowledge of conducting a research study, including reviewing literature, collecting and analyzing data, and writing a thesis.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hi Micki,

This email Lori sent is making a a correction we need to make through APC because of an error in how the approved foundations requirement change was translated to Senate last year.

Both of the APC co-chairs have approved, as have Sarah McCarthey and I.

Are you okay sending Lori your support as you did with the other version you were sent last year?

We are hoping to get this through as quickly as possible to get the foundations requirements working for all our on campus and online students.

If you have any questions, please let us know!

Thanks!

Karla

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hello everyone,

I wanted to let you know there was a misunderstanding with the recent revisions to the CoE master's degree foundation requirements changes that was approved originally by APC and campus last spring.

It is now my understanding that the intent of the original revision to the master's degree programs was to remove the headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and include all of the foundation courses under one heading of "Foundation Courses" with the message that states, **"Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department."**

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs housed in the College of Education. The revision will request to remove the specific foundation requirement headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and replace it with one heading titled, "Foundation Courses" with an 8 hour requirement. The revision will also request that all foundation course options be listed under the new heading with the additional phrase, **"Select two of the following courses, taken for four credit hours each. At least one of the two foundations**

courses must be a course from outside the degree granting department.” The purpose of this phrase is to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.

The revision will affect all master’s degree programs housed in the College of Education (see below).

- Curriculum & Instruction, CAS,
- Curriculum & Instruction, EdM,
- Curriculum & Instruction, MA,
- Curriculum & Instruction, MS,
- Early Childhood Education, EdM
- Education Policy, Organization & Leadership, CAS
- Education Policy, Organization & Leadership, EdM,
- Education Policy, Organization & Leadership, MA,
- Educational Psychology, EdM,
- Educational Psychology, MA,
- Educational Psychology, MS,
- Elementary Education, EdM,
- Secondary Education, EdM,
- Special Education, EdM,

The new degree requirements for the foundation courses will appear as follows. Please note, each program has additional requirements that will follow this section.

Foundation courses	
Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department.	8
Any 400 level EPSY course

Subject: Letter of Support for the revision of the College of Education Master's Degree programs

Dear Sarah, Yoon, Kiel, and Michelle,

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs housed in the College of Education. The revision will request to remove the specific EPSY courses listed in the section: Psychological Foundations Courses in Educational Psychology and replace the courses with any 400 level EPSY course or EPSY 553. We are also requesting your support to add CI 446, CI 415, and CI 501 as optional courses listed under the new heading: Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction. These revisions are consistent with the discussion with the Executive Officers and Departmental DGS from EPSY, CI and EPOL during spring 2023. The revision will affect all master's degree programs housed in the College of Education (see below). Please indicate your support for this revision by replying to this email.

Subject: Letter of Support for the revision of the College of Education Master's Degree programs

Dear Sarah, Yoon, Kiel, and Michelle,

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs housed in the College of Education. The revision will request to remove the specific EPSY courses listed in the section: Psychological Foundations Courses in Educational Psychology and replace the courses with any 400 level EPSY course or EPSY 553. We are also requesting your support to add CI 446, CI 415, and CI 501 as optional courses listed under the new heading: Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction. These revisions are consistent with the discussion with the Executive Officers and Departmental DGS from EPSY, CI and EPOL during spring 2023. The revision will affect all master's degree programs housed in the College of Education (see below). Please indicate your support for this revision by replying to this email.

Stealing Yoon's text (bc I wasn't actually sure what you needed from us!) (so thanks, Yoon!).

Hi,

I support and approve the revisions to change to "Foundations" and selecting two foundations courses with one outside the student's degree granting unit.

Thanks,

kiel

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hello everyone,

I wanted to let you know there was a misunderstanding with the recent revisions to the CoE master's degree foundation requirements changes that was approved originally by APC and campus last spring.

It is now my understanding that the intent of the original revision to the master's degree programs was to remove the headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and include all of the foundation courses under one heading of "Foundation Courses" with the message that states, **"Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department."**

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs housed in the College of Education. The revision will request to remove the specific foundation requirement headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and replace it with one heading titled, "Foundation Courses" with an 8 hour requirement. The revision will also request that all foundation course options be listed under the new heading with the additional phrase, **"Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department."** The purpose of this phrase is to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.

The revision will affect all master's degree programs housed in the College of Education (see below).

Curriculum & Instruction, CAS,
Curriculum & Instruction, EdM,
Curriculum & Instruction, MA,
Curriculum & Instruction, MS,
Early Childhood Education, EdM
Education Policy, Organization & Leadership, CAS
Education Policy, Organization & Leadership, EdM,
Education Policy, Organization & Leadership, MA,
Educational Psychology, EdM,
Educational Psychology, MA,
Educational Psychology, MS,
Elementary Education, EdM,
Secondary Education, EdM,
Special Education, EdM,

The new degree requirements for the foundation courses will appear as follows. Please note, each program has additional requirements that will follow this section.

Foundation courses

Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department.

Any 400 level EPSY course

EPSY 553	Global Issues in Learning
EPOL 401	History of American Education
EPOL 402	Asian American Education
EPOL 403	Historical and Social Barriers
EPOL 405	School and Society

U Program Review Comments 8-12-2024

Curriculum and Instruction, MS, Key 203

1. Justification #1, brief description, consider being consistent with using either 'four' or '4'
2. Justification #3, brief description, for reviewer clarity, include where the change is occurring in the POS table.
3. Side by side, please either indent the Foundations courses or leave a blank line between EPSY 553 and 599 to show the 599 requirement is separate.
4. Financial Resources, we added the tuition rate information because the field was blank.

College Budget Officer	Amanda Brown	
College Budget Officer Email		

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

Does this program have inter-departmental administration?
No

Proposal Title

Effective Catalog Term	Fall 2024
------------------------	-----------

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Master of Arts in Curriculum and Instruction in the College of Education and the Graduate College

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

NO

Program Justification

Provide a brief description of what changes are being made to the program.

1. Revisions will include the elimination of the headings of the existing foundations requirement of four hours of Psychological Foundations Courses in Educational Psychology and four hours of Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and combine the existing course options into one Foundations category for eight hours. There will not be any additional course options added.

2. We have moved the text "Masters degree students must take a graduate level College of Education course outside their degree granting department" listed under the Other Requirements heading to the new Foundations Courses Requirement to now say, "Select two of the following foundations courses, taken for four credit hours each. At least one of these two courses must be a course from outside the degree granting department"

3. We have reorganized the courses in alphabetical and numerical order under the Foundations Courses requirement section. We are not adding existing courses to the program.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Student feedback has resulted in these changes. EPSY Foundations courses were not offered online and thus were not accessible to students. By eliminating the requirement to take specific courses, students will have access to a greater variety of courses.

2. We have moved the statement, "Master's degree students must take at least one course outside of their degree-granting department" to the foundations requirement to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.

3. We have reorganized the existing courses under the Foundations Courses requirement section to provide clarity to the viewer.

There will be no change in total hours for the program.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

Yes

Courses outside of the sponsoring department/interdisciplinary departments

Please attach any [Letter of Dept Support.pdf](#) letters of support/acknowledgement for any Instructional Resources consider faculty, students, and/or other impacted units as appropriate.

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Students will acquire deep knowledge of content in the field of education.

Students will display a deep understanding of psychological foundations of learning.

Students will demonstrate a deep understanding of philosophical foundations of education.

Students will display a deep understanding of best pedagogical practices in K-12 classrooms, with attention to 21st century skills and practices.

Students will display deep knowledge of conducting a research study, including reviewing literature, collecting and analyzing data, and writing a thesis.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program Features

Academic Level Graduate

Does this major have transcripted concentrations? Yes

Will you admit to the concentration directly? No

Is a concentration required for graduation? No

What is the typical time to completion of this program?
2 years

What are the minimum Total Credit Hours required for this program?
32

What is the required GPA? 3.0

CIP Code 130301 - Curriculum and Instruction.

Is This a Teacher Certification Program?
No

Will specialized accreditation be sought for this program?

No

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Admission Requirements

Desired Effective Admissions Term

Is this revision a change to the admission status of the program?

No

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

No changes to enrollment are expected.

Estimated Annual Number of Degrees Awarded

Year One Estimate

5th Year Estimate (or when fully implemented)

What is the matriculation term for this program? Fall

Budget

Are there budgetary implications for No

this revision?

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget
Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

There will not be a financial impact as a result of this revision.

Will the unit need to seek campus or other external resources?

No

Attach letters of
support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

[Graduate Base on-campus rate.](#)

Are you seeking a change in the tuition rate or differential for this program?

No

Is this program requesting self-supporting status?

No

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

There will not be an impact as a result of this revision.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this revision.

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hi Micki,

This email Lori sent is making a a correction we need to make through APC because of an error in how the approved foundations requirement change was translated to Senate last year.

Both of the APC co-chairs have approved, as have Sarah McCarthey and I.

Are you okay sending Lori your support as you did with the other version you were sent last year?

We are hoping to get this through as quickly as possible to get the foundations requirements working for all our on campus and online students.

If you have any questions, please let us know!

Thanks!

Karla

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hello everyone,

I wanted to let you know there was a misunderstanding with the recent revisions to the CoE master's degree foundation requirements changes that was approved originally by APC and campus last spring.

It is now my understanding that the intent of the original revision to the master's degree programs was to remove the headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and include all of the foundation courses under one heading of "Foundation Courses" with the message that states, **"Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department."**

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs housed in the College of Education. The revision will request to remove the specific foundation requirement headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and replace it with one heading titled, "Foundation Courses" with an 8 hour requirement. The revision will also request that all foundation course options be listed under the new heading with the additional phrase, **"Select two of the following courses, taken for four credit hours each. At least one of the two foundations**

courses must be a course from outside the degree granting department.” The purpose of this phrase is to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.

The revision will affect all master’s degree programs housed in the College of Education (see below).

- Curriculum & Instruction, CAS,
- Curriculum & Instruction, EdM,
- Curriculum & Instruction, MA,
- Curriculum & Instruction, MS,
- Early Childhood Education, EdM
- Education Policy, Organization & Leadership, CAS
- Education Policy, Organization & Leadership, EdM,
- Education Policy, Organization & Leadership, MA,
- Educational Psychology, EdM,
- Educational Psychology, MA,
- Educational Psychology, MS,
- Elementary Education, EdM,
- Secondary Education, EdM,
- Special Education, EdM,

The new degree requirements for the foundation courses will appear as follows. Please note, each program has additional requirements that will follow this section.

Foundation courses	
Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department.	8
Any 400 level EPSY course	
EPSY 553	Global Issues in Learning
EPOL 401	History of American Education
EPOL 402	Asian American Education
EPOL 403	Historical and Social Barriers
EPOL 405	School and Society

EPOL 406	Professional Ethics in Education
EPOL 407	Critical Thinking in Education
EPOL 408	Aesthetic Education
EPOL 409	Sociology of Education
EPOL 410	Racial and Ethnic Families
EPOL 412	Politics of Education
EPOL 413	Economics of Education
EPOL 480	Technology and Educational Reform
EPOL 552	Foundation of Higher Education

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hello everyone,

I wanted to let you know there was a misunderstanding with the recent revisions to the CoE master's degree foundation requirements changes that was approved originally by APC and campus last spring.

It is now my understanding that the intent of the original revision to the master's degree programs was to remove the headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and include all of the foundation courses under one heading of "Foundation Courses" with the message that states, "Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department."

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs

housed in the College of Education. The revision will request to remove the specific foundation requirement headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and replace it with one heading titled, "Foundation Courses" with an 8 hour requirement. The revision will also request that all foundation course options be listed under the new heading with the additional phrase, "Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department." The purpose of this phrase is to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.

The revision will affect all master's degree programs housed in the College of Education (see below).

Curriculum & Instruction, CAS,

Curriculum & Instruction, EdM,

Curriculum & Instruction, MA,

Curriculum & Instruction, MS,

Early Childhood Education, EdM

Education Policy, Organization & Leadership, CAS

Subject: Letter of Support for the revision of the College of Education Master's Degree programs

Dear Sarah, Yoon, Kiel, and Michelle,

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs housed in the College of Education. The revision will request to remove the specific EPSY courses listed in the section: Psychological Foundations Courses in Educational Psychology and replace the courses with any 400 level EPSY course or EPSY 553. We are also requesting your support to add CI 446, CI 415, and CI 501 as optional courses listed under the new heading: Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction. These revisions are consistent with the discussion with the Executive Officers and Departmental DGS from EPSY, CI and EPOL during spring 2023. The revision will affect all master's degree programs housed in the College of Education (see below). Please indicate your support for this revision by replying to this email.

U Program Review Comments 8-12-2024

Curriculum and Instruction, MA, Key 200

1. Justification #1, brief description, consider being consistent with using either 'four' or '4'
2. Justification #3, brief description, for reviewer clarity, include where the change is occurring in the POS table.
3. Side by side,
 - please either indent the Foundations courses or leave a blank line between EPSY 553 and 599 to show the 599 requirement is separate.
 - In the third column, the 599 row has been removed. Please add it back.
4. Financial Resources, we added the tuition rate information because the field was blank.

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Master of Education in Curriculum and Instruction in the College of Education and the Graduate College

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

NO

Program Justification

Provide a brief description of what changes are being made to the program.

1. Revisions will include the elimination of the headings of the existing foundations requirement of four hours of Psychological Foundations Courses in Educational Psychology and four hours of Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and combine the existing course options into one Foundations category for eight hours. There will not be any additional course options added.

2. We have moved the text "Masters degree students must take a graduate level College of Education course outside their degree granting department" listed under the Other Requirements heading to the new Foundations Courses Requirement to now say, "Select two of the following foundations courses, taken for four credit hours each. At least one of these two courses must be a course from outside the degree granting department"

3. We have reorganized the courses in alphabetical and numerical order under the Foundations Courses requirement section. We are not adding existing courses to the program.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Student feedback has resulted in these changes. EPSY Foundations courses were not offered online and thus were not accessible to students. By eliminating the requirement to take specific courses, students will have access to a greater variety of courses.
2. We have moved the statement, "Master's degree students must take at least one course outside of their degree-granting department" to the foundations requirement to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.
3. We have reorganized the existing courses under the Foundations Courses requirement section to provide clarity to the viewer.

There will be no change in total hours for the program.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

Yes

Courses outside of the sponsoring department/interdisciplinary departments

Please attach any [Letter of Dept Support.pdf](#) letters of support/acknowledgement for any Instructional Resources consider faculty, students, and/or other impacted units as appropriate.

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Students will acquire deep knowledge of content in the field of education.

Students will display a deep understanding of psychological foundations of learning.

Students will demonstrate a deep understanding of philosophical foundations of education.

Students will display a deep understanding of best pedagogical practices in K-12 classrooms, with attention to 21st century skills and practices.

Students will display deep knowledge of conducting a research study, including reviewing literature, collecting and analyzing data, and writing a thesis.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Hi Micki,

This email Lori sent is making a a correction we need to make through APC because of an error in how the approved foundations requirement change was translated to Senate last year.

Both of the APC co-chairs have approved, as have Sarah McCarthey and I.

Are you okay sending Lori your support as you did with the other version you were sent last year?

We are hoping to get this through as quickly as possible to get the foundations requirements working for all our on campus and online students.

If you have any questions, please let us know!

Thanks!

Karla

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hello everyone,

I wanted to let you know there was a misunderstanding with the recent revisions to the CoE master's degree foundation requirements changes that was approved originally by APC and campus last spring.

It is now my understanding that the intent of the original revision to the master's degree programs was to remove the headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and include all of the foundation courses under one heading of "Foundation Courses" with the message that states, **"Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department."**

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs housed in the College of Education. The revision will request to remove the specific foundation requirement headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and replace it with one heading titled, "Foundation Courses" with an 8 hour requirement. The revision will also request that all foundation course options be listed under the new heading with the additional phrase, **"Select two of the following courses, taken for four credit hours each. At least one of the two foundations**

courses must be a course from outside the degree granting department.” The purpose of this phrase is to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.

The revision will affect all master’s degree programs housed in the College of Education (see below).

- Curriculum & Instruction, CAS,
- Curriculum & Instruction, EdM,
- Curriculum & Instruction, MA,
- Curriculum & Instruction, MS,
- Early Childhood Education, EdM
- Education Policy, Organization & Leadership, CAS
- Education Policy, Organization & Leadership, EdM,
- Education Policy, Organization & Leadership, MA,
- Educational Psychology, EdM,
- Educational Psychology, MA,
- Educational Psychology, MS,
- Elementary Education, EdM,
- Secondary Education, EdM,
- Special Education, EdM,

The new degree requirements for the foundation courses will appear as follows. Please note, each program has additional requirements that will follow this section.

Foundation courses	
Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department.	8
Any 400 level EPSY course	
EPSY 553	Global Issues in Learning
EPOL 401	History of American Education
EPOL 402	Asian American Education
EPOL 403	Historical and Social Barriers
EPOL 405	School and Society

EPOL 406	Professional Ethics in Education
EPOL 407	Critical Thinking in Education
EPOL 408	Aesthetic Education
EPOL 409	Sociology of Education
EPOL 410	Racial and Ethnic Families
EPOL 412	Politics of Education
EPOL 413	Economics of Education
EPOL 480	Technology and Educational Reform
EPOL 552	Foundation of Higher Education
CI 446	Culture in the Classroom
CI 501	Curriculum Development for the 21st Century

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hello everyone,

I wanted to let you know there was a misunderstanding with the recent revisions to the CoE master's degree foundation requirements changes that was approved originally by APC and campus last spring.

It is now my understanding that the intent of the original revision to the master's degree programs was to remove the headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and include all of the foundation courses under one heading of "Foundation Courses" with the message that states, "Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department."

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs housed in the College of Education. The revision will request to remove the specific foundation requirement headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and replace it with one heading titled, "Foundation Courses" with an 8 hour requirement. The revision will also request that all foundation course options be listed under the new heading with the additional phrase, "Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department." The purpose of this phrase is to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.

The revision will affect all master's degree programs housed in the College of Education (see below).

Curriculum & Instruction, CAS,

Curriculum & Instruction, EdM,

Curriculum & Instruction, MA,

Curriculum & Instruction, MS,

Early Childhood Education, EdM

Education Policy, Organization & Leadership, CAS

U Program Review Comments 8-12-2024

Curriculum and Instruction, EDM, Key 201

1. Justification #1, brief description, consider being consistent with using either 'four' or '4'
2. Justification #3, brief description, for reviewer clarity, include where the change is occurring in the POS table.
3. Financial Resources, we added the tuition rate information because the field was blank.

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Certificate of Advanced Study in Curriculum and Instruction in the College of Education and the Graduate College

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

NO

Program Justification

Provide a brief description of what changes are being made to the program.

1. Revisions will include the elimination of the headings of the existing foundations requirement of four hours of Psychological Foundations Courses in Educational Psychology and four hours of Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and combine the existing course options into one Foundations category for eight hours. There will not be any additional course options added.
2. We have added the text "Select two of the following foundations courses, taken for four credit hours each. At least one of these two courses must be a course from outside the degree granting department" to the foundations requirement.
3. We have reorganized the courses in alphabetical and numerical order under the Foundations requirement. We are not adding existing courses to the program.
4. We revised the text about the POS to say, "If the student does not have a Master's degree from the University of Illinois Urbana-Champaign, Foundation Courses Requirement must be completed as prerequisites:" .

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Student feedback has resulted in these changes. EPSY Foundations courses were not offered online and thus were not accessible to students. By eliminating the requirement to take specific courses, students will have access to a greater variety of courses.

2. We have added the statement, "Select two of the following foundations courses, taken for four credit hours each. At least one of these two courses must be a course from outside the degree granting department" to the foundations requirement to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.

3. We have reorganized the existing courses to provide clarity to the viewer.

4. We revised the text about the POS to say, "If the student does not have a Master's degree from the University of Illinois Urbana-Champaign, Foundation Courses Requirement must be completed as prerequisites:" to provide clarity.

There will be no change in total hours for the program.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

Yes

Courses outside
of the sponsoring
department/interdisciplinary
departments

Please attach any [Letter of Dept Support.pdf](#)
letters of

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Students will acquire deep knowledge of content in the field of education.

Students will display a deep understanding of psychological foundations of learning.

Students will demonstrate a deep understanding of philosophical foundations of education.

Students will display a deep understanding of best pedagogical practices in K-12 classrooms, with attention to 21st century skills and practices.

Students will display deep knowledge of conducting a research study, including reviewing literature, collecting and analyzing data, and writing a thesis.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

3.0

Corresponding Degree CAS Certificate of Advanced Study

Program Features

Academic Level Graduate

Does this major have transcripted concentrations? Yes

Will you admit to the concentration directly? No

Is a concentration required for graduation? No

What is the typical time to completion of this program?
1.5 years

What are the minimum Total Credit Hours required for this program?
32

What is the required GPA? 3.0

CIP Code 130301 - Curriculum and Instruction.

Is This a Teacher Certification Program?
No

Will specialized accreditation be sought for this program?
No

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Admission Requirements

Desired Effective Admissions Term

Is this revision a change to the admission status of the program?

No

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

No changes to enrollment are expected.

Estimated Annual Number of Degrees Awarded

Year One Estimate

5th Year Estimate (or when fully implemented)

What is the matriculation term for this program?

Fall

Budget

Are there budgetary implications for this revision?

No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

There will not be a financial impact as a result of this revision.

Will the unit need to seek campus or other external resources?

No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base

Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

Are you seeking a change in the tuition rate or differential for this program?

No

Is this program requesting self-supporting status?

No

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

There will not be an impact as a result of this revision.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this revision.

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hi Micki,

This email Lori sent is making a a correction we need to make through APC because of an error in how the approved foundations requirement change was translated to Senate last year.

Both of the APC co-chairs have approved, as have Sarah McCarthey and I.

Are you okay sending Lori your support as you did with the other version you were sent last year?

We are hoping to get this through as quickly as possible to get the foundations requirements working for all our on campus and online students.

If you have any questions, please let us know!

Thanks!

Karla

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hello everyone,

I wanted to let you know there was a misunderstanding with the recent revisions to the CoE master's degree foundation requirements changes that was approved originally by APC and campus last spring.

It is now my understanding that the intent of the original revision to the master's degree programs was to remove the headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and include all of the foundation courses under one heading of "Foundation Courses" with the message that states, **"Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department."**

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs housed in the College of Education. The revision will request to remove the specific foundation requirement headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and replace it with one heading titled, "Foundation Courses" with an 8 hour requirement. The revision will also request that all foundation course options be listed under the new heading with the additional phrase, **"Select two of the following courses, taken for four credit hours each. At least one of the two foundations**

courses must be a course from outside the degree granting department.” The purpose of this phrase is to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.

The revision will affect all master’s degree programs housed in the College of Education (see below).

- Curriculum & Instruction, CAS,
- Curriculum & Instruction, EdM,
- Curriculum & Instruction, MA,
- Curriculum & Instruction, MS,
- Early Childhood Education, EdM
- Education Policy, Organization & Leadership, CAS
- Education Policy, Organization & Leadership, EdM,
- Education Policy, Organization & Leadership, MA,
- Educational Psychology, EdM,
- Educational Psychology, MA,
- Educational Psychology, MS,
- Elementary Education, EdM,
- Secondary Education, EdM,
- Special Education, EdM,

The new degree requirements for the foundation courses will appear as follows. Please note, each program has additional requirements that will follow this section.

Foundation courses	
Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department.	8

Subject: Letter of Support for the revision of the College of Education Master's Degree programs

Dear Sarah, Yoon, Kiel, and Michelle,

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs housed in the College of Education. The revision will request to remove the specific EPSY courses listed in the section: Psychological Foundations Courses in Educational Psychology and replace the courses with any 400 level EPSY course or EPSY 553. We are also requesting your support to add CI 446, CI 415, and CI 501 as optional courses listed under the new heading: Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction. These revisions are consistent with the discussion with the Executive Officers and Departmental DGS from EPSY, CI and EPOL during spring 2023. The revision will affect all master's degree programs housed in the College of Education (see below). Please indicate your support for this revision by replying to this email.

Subject: Letter of Support for the revision of the College of Education Master's Degree programs

Dear Sarah, Yoon, Kiel, and Michelle,

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs housed in the College of Education. The revision will request to remove the specific EPSY courses listed in the section: Psychological Foundations Courses in Educational Psychology and replace the courses with any 400 level EPSY course or EPSY 553. We are also requesting your support to add CI 446, CI 415, and CI 501 as optional courses listed under the new heading: Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction. These revisions are consistent with the discussion with the Executive Officers and Departmental DGS from EPSY, CI and EPOL during spring 2023. The revision will affect all master's degree programs housed in the College of Education (see below). Please indicate your support for this revision by replying to this email.

Stealing Yoon's text (bc I wasn't actually sure what you needed from us!) (so thanks, Yoon!).

Hi,

I support and approve the revisions to change to "Foundations" and selecting two foundations courses with one outside the student's degree granting unit.

Thanks,

kiel

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hello everyone,

I wanted to let you know there was a misunderstanding with the recent revisions to the CoE master's degree foundation requirements changes that was approved originally by APC and campus last spring.

It is now my understanding that the intent of the original revision to the master's degree programs was to remove the headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and include all of the foundation courses under one heading of "Foundation Courses" with the message that states, **"Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department."**

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs housed in the College of Education. The revision will request to remove the specific foundation requirement headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and replace it with one heading titled, "Foundation Courses" with an 8 hour requirement. The revision will also request that all foundation course options be listed under the new heading with the additional phrase, **"Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department."** The purpose of this phrase is to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.

The revision will affect all master's degree programs housed in the College of Education (see below).

Curriculum & Instruction, CAS,
Curriculum & Instruction, EdM,
Curriculum & Instruction, MA,
Curriculum & Instruction, MS,
Early Childhood Education, EdM
Education Policy, Organization & Leadership, CAS
Education Policy, Organization & Leadership, EdM,
Education Policy, Organization & Leadership, MA,
Educational Psychology, EdM,
Educational Psychology, MA,
Educational Psychology, MS,
Elementary Education, EdM,
Secondary Education, EdM,
Special Education, EdM,

The new degree requirements for the foundation courses will appear as follows. Please note, each program has additional requirements that will follow this section.

Foundation courses

Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department.

Any 400 level EPSY course

EPSY 553	Global Issues in Learning
EPOL 401	History of American Education

U Program Review Comments 8-12-2024

Curriculum and Instruction, CAS, Key 196

1. Justification #1, brief description, consider being consistent with using either 'four' or '4'
2. Justification #2 & #3, brief description, for reviewer clarity, include where change is occurring in the POS table.
3. Justification #4, and Why, the text about the Foundations courses is part of the degree requirements and should stay in the POS. With this also remove the text from the Overview section so it isn't repeated.
4. Teacher Certification question, is this question answered correctly?

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Master of Arts in Educational Psychology in the College of Education and the Graduate College

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

No

Program Justification

Provide a brief description of what changes are being made to the program.

1. Revisions will include the elimination of the headings of the existing foundations requirement of four hours of Psychological Foundations Courses in Educational Psychology and four hours of Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and combine the existing course options into one Foundations category for eight hours. There will not be any additional course options added.
2. We have moved the text "Masters degree students must take a graduate level College of Education course outside their degree granting department" listed under the Other Requirements heading to the new Foundations Courses Requirement to now say, "Select two of the following foundations courses, taken for four credit hours each. At least one of these two courses must be a course from outside the degree granting department"
3. We have reorganized the courses in alphabetical and numerical order under the Foundations Courses heading. We are not adding existing courses to the program.
4. We added an additional space in the side-by-side spreadsheet between the last course in the Foundations Courses heading and the 599 requirement.
5. We adjusted the elective hours range for accuracy, given the eight hours of foundations plus the range of 599 (2-8) to equal 32 due to mathematical error.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Student feedback has resulted in these changes. EPSY Foundations courses were not offered online and thus were not accessible to students. By eliminating the requirement to take specific courses, students will have access to a greater variety of courses.
2. We have moved the statement, "Master's degree students must take at least one course outside of their degree-granting department" to the foundations requirement to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.
3. We have reorganized the existing courses under the Foundations Courses heading to provide clarity to the viewer.
4. We added an additional space between the last course in the Foundations Courses heading and the 599 requirement on the side-by-side spreadsheet to limit confusion.
5. the elective hours were initially calculated incorrectly.

There will be no change in total hours for the program.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

Yes

Courses outside
of the sponsoring
department/interdisciplinary
departments

~~CI 446~~ - Culture in the Classroom

~~CI 501~~ - Curr-Dev for the 21st Century

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

Counseling Psychology Division

1. Counseling Psychology students will possess a broad knowledge of the core areas of psychology.
2. Counseling Psychology students will have an understanding of the basic statistical analytical methods, research designs, measurement models, and research approaches.³
3. Counseling Psychology students will demonstrate skills at independently designing, conducting, writing, and presenting research studies.
4. Counseling Psychology students will be skilled in psychological assessment in all aspects (design, psychometric evaluation, administering, and communicating results) as well as in a variety of contexts (e.g., both environmental and individual assessment).
5. Counseling Psychology students will have the ability to conceptualize clients from a variety of theoretical and scientifically-informed frameworks, present such a conceptualization to others and establish means and methods to evaluate its accuracy
6. Counseling Psychology students will possess theoretical and scientific knowledge regarding skills in the provision of interventions.
7. Counseling Psychology students will value and develop competence in aspects of diversity and individual differences.
8. Counseling Psychology students will have knowledge and appreciation of the ethical issues involved in being a psychologist.
9. Counseling Psychology students will adopt a critical, scientific approach to professional activities.

Developmental Sciences Division

1. Developmental Sciences students will obtain a broad knowledge of the core areas of developmental research across the lifespan. This includes but is not limited to: a) social and emotional development; b) language and mathematical development; c) academic motivation and future planning/orientation; d) bullying and peer harassment; and e) identity formation with respect to gender, race, and ethnicity.
2. Developmental Sciences students will develop a deep expertise in a relevant specialized topic within or across these core areas. This includes mastering research findings in a topic area selected by the student, understanding the relevant theoretical perspectives related to this topic and learning about the appropriate methodological approaches to understanding the core area.
3. Developmental Sciences students will obtain a sophisticated knowledge base of research approaches and analytic tools necessary for contribution to scholarly literature in Developmental Sciences broadly and their specialized topic in particular. Specifically, they will develop skills to independently design, conduct, write, and present/publish research studies related to their area of focus/career path.

Cognitive Science of Teaching and Learning (CSTL) Division

1. CSTL students will obtain a broad knowledge of the core areas related to the cognitive science of teaching and learning. This includes knowledge of theoretical perspectives, methodological approaches, and key research findings in the core areas of (a) cognition and learning across the lifespan, (b) learning and the psychology of language, (c) multimodal information processing, and (d) sociocultural dimensions of learning.
2. CSTL students will obtain a deep expertise in a relevant topic within or cutting

across these core areas. This involves mastering theoretical perspectives, methodological approaches, and key research findings in a topic selected by the student. In addition, they will develop skills at independently designing, conducting, writing, and presenting/publishing research studies.

3. CSTL students will obtain a sophisticated knowledge base of research approaches and analytic tools necessary for contribution to the professional literature and their chosen professional identity/career path. This involves understanding the basic statistical analytical methods, research designs, measurement models, and research approaches.

Studies in Interpretive, Statistical, Measurement, and Evaluative Methodologies for Education (QUERIES) Division

1. QUERIES students will obtain a broad basic knowledge of the core areas of educational research methodologies, quantitative, qualitative, and evaluative research methods.

2. QUERIES students will obtain a sophisticated knowledge base of quantitative and/or qualitative research approaches and analytic tools necessary for contribution to the professional literature.

3. QUERIES students in Measurement will become skilled in the development and use of techniques for collecting and analyzing 'test' data through the study of measurement methods.

4. QUERIES students in Statistics will be skilled in traditional and modern quantitative analytic methods.

5. QUERIES students in Evaluation will have the skills required for Evaluation scholars –in education, social welfare, health services, community development, human resource development, and other domains.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hi Micki,

This email Lori sent is making a a correction we need to make through APC because of an error in how the approved foundations requirement change was translated to Senate last year.

Both of the APC co-chairs have approved, as have Sarah McCarthey and I.

Are you okay sending Lori your support as you did with the other version you were sent last year?

We are hoping to get this through as quickly as possible to get the foundations requirements working for all our on campus and online students.

If you have any questions, please let us know!

Thanks!

Karla

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hello everyone,

I wanted to let you know there was a misunderstanding with the recent revisions to the CoE master's degree foundation requirements changes that was approved originally by APC and campus last spring.

It is now my understanding that the intent of the original revision to the master's degree programs was to remove the headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and include all of the foundation courses under one heading of "Foundation Courses" with the message that states, **"Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department."**

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs housed in the College of Education. The revision will request to remove the specific foundation requirement headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and replace it with one heading titled, "Foundation Courses" with an 8 hour requirement. The revision will also request that all foundation course options be listed under the new heading with the additional phrase, **"Select two of the following courses, taken for four credit hours each. At least one of the two foundations**

courses must be a course from outside the degree granting department.” The purpose of this phrase is to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.

The revision will affect all master’s degree programs housed in the College of Education (see below).

- Curriculum & Instruction, CAS,
- Curriculum & Instruction, EdM,
- Curriculum & Instruction, MA,
- Curriculum & Instruction, MS,
- Early Childhood Education, EdM
- Education Policy, Organization & Leadership, CAS
- Education Policy, Organization & Leadership, EdM,
- Education Policy, Organization & Leadership, MA,
- Educational Psychology, EdM,
- Educational Psychology, MA,
- Educational Psychology, MS,
- Elementary Education, EdM,
- Secondary Education, EdM,
- Special Education, EdM,

The new degree requirements for the foundation courses will appear as follows. Please note, each program has additional requirements that will follow this section.

Foundation courses	
Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department.	8
Any 400 level EPSY course	
EPSY 553	Global Issues in Learning
EPOL 401	History of American Education
EPOL 402	Asian American Education
EPOL 403	Historical and Social Barriers
EPOL 405	School and Society

EPOL 406	Professional Ethics in Education
EPOL 407	Critical Thinking in Education
EPOL 408	Aesthetic Education

Subject: Letter of Support for the revision of the College of Education Master's Degree programs

Dear Sarah, Yoon, Kiel, and Michelle,

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs housed in the College of Education. The revision will request to remove the specific EPSY courses listed in the section: Psychological Foundations Courses in Educational Psychology and replace the courses with any 400 level EPSY course or EPSY 553. We are also requesting your support to add CI 446, CI 415, and CI 501 as optional courses listed under the new heading: Philosophical and Social Foundations

Courses in Education Policy, Organization and Leadership and Curriculum & Instruction. These revisions are consistent with the discussion with the Executive Officers and Departmental DGS from EPSY, CI and EPOL during spring 2023. The revision will affect all master's degree programs housed in the College of Education (see below). Please indicate your support for this revision by replying to this email.

Subject: FW: Letter of Support for the revision of the College of Education Master's Degree programs

Hello everyone,

I wanted to let you know there was a misunderstanding with the recent revisions to the CoE master's degree foundation requirements changes that was approved originally by APC and campus last spring.

It is now my understanding that the intent of the original revision to the master's degree programs was to remove the headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and include all of the foundation courses under one heading of "Foundation Courses" with the message that states, "Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department."

I am writing on behalf of the college to request a letter of support for the revision of the master's degree programs

housed in the College of Education. The revision will request to remove the specific foundation requirement headings of Psychological Foundations Courses in Educational Psychology and Philosophical and Social Foundations Courses in Education Policy, Organization and Leadership and Curriculum & Instruction and replace it with one heading titled, "Foundation Courses" with an 8 hour requirement. The revision will also request that all foundation course options be listed under the new heading with the additional phrase, "Select two of the following courses, taken for four credit hours each. At least one of the two foundations courses must be a course from outside the degree granting department." The purpose of this phrase is to encourage critical thinking and consider multiple perspectives through different disciplinary lenses.

The revision will affect all master's degree programs housed in the College of Education (see below).

Curriculum & Instruction, CAS,

Curriculum & Instruction, EdM,

Curriculum & Instruction, MA,

Curriculum & Instruction, MS,

U Program Review Comments 8-13-2024

Educational Psychology, MA, Key 215

1. Consider revising Justification #1 to be consistent with using either 'four' or '4'
2. Justification #3, brief description - for reviewer clarity, include where change is occurring in the POS table.
3. Side by Side,
 - a. Either indent the Foundations courses or leave a blank line between EPSY 553 and 599 to show the 599 requirement is separate.
 - b. In the left and middle columns, courses should be in the same row in both columns. Insert blanks where needed.
 - c. If these changes are made, please add points about them to both the Justification and Why sections.
4. POS Table,
 - a. The Elective range of hours should be 16-22.
8 foundations+2 Thesis= 10; 32-10=22.
8 foundations+8 theses =16; 32-16 = 16
 - b. If these changes are made, please add points about them to both the Justification and Why sections.

Proposal Title

Effective Catalog Fall 2024
Term

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Bachelor of Fine Arts in Theatre in the College of Fine and Applied Arts

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

The BFA Theatre is being revised (key 146), along with the 9 BFA Theatre concentrations (keys 679, 680, 681, 682, 683, 684, 685, 686, 950).

Program Justification

Provide a brief description of what changes are being made to the program.

(1) The formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) has been modified to adhere to the campus General Education Template; (2) Move General, Non-Theatre Electives to its own table and further toward bottom; (3) Delete footnote; (4) Create concentration table; (5) In summary of credits table: Update title and remove credit hours from Gen Ed and open electives; remove Language; remove parentheses about concentration requirements.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Inputting new campus gen ed requirement template per office of the provost initiative for transparency and accessibility.
2. The General, Non-Theatre electives requirement was previously part of the Gen Ed table and since that was reformatted, it needed its own table and is more sensible towards the bottom.
3. Deleting footnotes for accessibility purpose.
4. Concentration table links directly to all concentrations for this major.
5. Minor updates to summary of credits table for standardization.

Note: Question from office of the provost regarding General Non-Theatre Electives is that they are anything outside of the THEA rubric, which is correct.

No changes to total major or degree hours.

Advanced Hours in Theatre Core = 7 hours

THEA 304 (3 hrs)

THEA 364 (3 hrs)

THEA 404 (1 hrs)

Concentration = range from 18 - 36 hours of 300/400 level

Acting- 36 hrs

Arts & Entertainment Tech - 18 hrs with 15 remaining from 'select 12 credits category' or general non-theatre electives (9 hrs) or free electives (est. up to 18 hrs within degree)

Costume Design - 33 hrs

Lighting Design & Tech - 29 hrs with 4 remaining from free electives (this concentration estimates 11 hours of free electives available) or General Non-Theatre electives (9 hrs required)

Scenic Design - 29 hrs with 4 remaining from 'choose 3 credit hours category' or free electives (this concentration estimates 8 hours of free electives available) or General Non-Theatre Electives (9 hours required)

Scenic Tech - 30 hrs with 3 remaining from '6 credits category' or general non-theatre electives (9 hrs) or free electives (10 hrs estimated for this concentration)

Sound Design & Tech- 26 hrs with 7 remaining from up to 6 hours in 1st 'choose 9 credits from category' or general non-theatre electives (9 hrs) or free electives (this concentration estimates 8 hours of free electives available)

Stage Mngmt - 34 hours

Theatre Studies - 25 hours with 8 remaining from supporting professional electives (9 hrs) or general non-theatre electives (9 hrs) or free electives (this concentration estimates 11 hours of free electives available)

Regarding feedback from UProgramReview:

The 40 hour upper division breakouts were reviewed for each concentration and aligned here in the major program.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

For the BFA in Theatre we have established the following Learning Objectives:

- Demonstrates a mature, effective ability to analyze, interpret, write critically and creatively, and discuss thoughtfully in the field of theatre.
- Demonstrates the practical application of learned methodologies including the ability to communicate ideas, concepts, and requirements in order to successfully fulfill the work of a theatre artist.
- Demonstrates necessary skills and knowledge to acquire an entry-level position in the theatre field (with additional training for area-specific tracks) showing the capacity to work and solve problems independently and with initiative.
- Demonstrates practical application of learned methodologies including the ability to communicate ideas, concepts, and outcomes of creative research.

Learning Objectives specific to the BFA Core Curriculum will be assessed in the following ways:

- Instructors of BFA Core Classes will review the progress of each BFA student through semester evaluations of course achievements and the assignment of grades as established by each of the core course syllabi.
- The Departmental Area Heads will annually review the BFA Core curriculum courses evaluating the progress and standing of each of their area students.
- Departmental Administration (Head, Associate Head, Producer) will annually review feedback from students regarding the BFA Core Curriculum as well as annually solicit feedback from instructors of the BFA Core Curriculum classes.
- The Departmental Curriculum Committee will annually review the progression and success rate (via grades, student feedback, faculty feedback and reports from the Area Heads and Administration Team) for evaluation of the BFA Core Curriculum.

Metrics Used for Assessment will include:

- Student grades from each semester
- Review of semester ICES forms
- Formal feedback from Area Heads, Departmental Administration, and the Departmental Curriculum Committee (process mentioned above)
- Formal feedback from each specific BFA Track's semester reviews (please see BFA Track Learning Outcomes and Evaluations included below)
- Evaluation of student progress towards degree completion and graduation rates.
- A longer-term evaluation of graduates two and five years post-graduation via departmental alumni survey.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Revised programs [Theatre BFA sample schedule FA 24 no changes.docx](#)

Attach a revised Sample Sequence (for undergraduate program) or college-level forms.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

All students must audition (if Acting) or present a portfolio (all other concentrations) to be admitted to the major.

Statement for

Programs of

Study Catalog

Graduation Requirements

Minimum hours required for graduation: 128 hours.

~~A minimum of 128 hours of credit is required for the degree.~~ Twelve hours of 300 and 400-level courses in the major must be taken on this campus.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in the program.

Does this major have transcripted concentrations? [Yes](#)

Will you admit to the concentration directly? [Yes](#)

Is a concentration [Yes](#)

required for graduation?

What is the typical time to completion of this program?

4 years

What are the minimum Total Credit Hours required for this program?

128

CIP Code 500501 - Drama and Dramatics/Theatre Arts, General.

Is This a Teacher Certification Program?

No

Will specialized accreditation be sought for this program?

No

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Admission Requirements

Desired Effective Fall 2024
Admissions Term

Is this revision a change to the admission status of the program?

No

Provide a brief narrative description of the admission requirements for this program. Where relevant, include information about licensure requirements, student background checks, GRE and TOEFL scores, and admission requirements for transfer students.

No changes.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

No impact.

Estimated Annual Number of Degrees Awarded

Year One Estimate

5th Year Estimate (or when fully implemented)

What is the matriculation term for this program? Fall

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

No changes to current operations. The BFA is a professional training program in theatre, and as such it generally includes a mix of small, hands-on courses and larger courses offering history and theory, as well as quite large courses for non-majors. Most of the courses submitted for new consideration or revisions in this set of course revisions are of the smaller nature. We have worked extensively with the College of Fine and Applied to assure a responsible use of departmental resources, to allow us to maintain the integrity of degree programs and at the same time operate sustainably. The department has specifically worked with the college and determined that the AET new concentration will allow us to recruit additional new undergraduates with current staffing as part of a comprehensive strategic plan for responsible growth.

Will the unit need to seek campus or other external resources?

No

Attach letters of support

What tuition rate do you expect to charge for this program? e.g, Undergraduate Base Tuition, or Engineering Differential, or Social Work Online (no dollar amounts necessary)

[FAA Differential](#)

Are you seeking a change in the tuition rate or differential for this program?

No

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

No impact.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this program revision.

U Program Review Comments KEY 146 8_14_2024

1. Review the justification, 40 hour breakout of upper division coursework for the concentrations to ensure it aligns with the concentration breakouts. For example, in the Scenic Design concentration, the 40 hour upper division breakout in the justification doesn't align with the summarized breakout for that concentration in the major CIM-P record.

[KR Dean](#)

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Concentration in Stage Management in the Bachelor of Fine Arts in Theatre in the College of Fine and Applied Arts

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

The BFA Theatre major is being revised (key 146), along with the 9 BFA Theatre concentrations (keys 679, 680, 681, 682, 683, 684, 685, 686, 950).

Program Justification

Provide a brief description of what changes are being made to the program.

1. The formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) has been modified to adhere to the campus General Education Template.
2. Adding in THEA core, General Non-THEA electives, and summary of credits table to POS.
3. Changes to major that are also reflected here include
 - 3a. Move General, Non-Theatre Electives to its own table and further toward bottom;
 - 3b. Delete footnote
 - 3c. In summary of credits table: Update title and remove credit hours from Gen Ed and open elective
 - 3d. Remove Language
 - 3e. remove parentheses about concentration requirements.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Per Office of the Provost General Education initiative for transparency and accessibility.
2. Previously the concentration page only listed the concentration requirements and it will now list all requirements to earn a degree with the concentration.
3. The office of the provost requested that all changes to the major be reflected here. Deleting footnotes for accessibility purpose. Minor updates to summary of credits table for standardization.

Note: Question from office of the provost regarding General Non-Theatre Electives is that they are anything outside of the THEA rubric, which is correct.

No change to concentration or major or degree hours or requirements.

Advanced Hours in Theatre Core = 7 hours

THEA 304 (3 hrs)

THEA 364 (3 hrs)

THEA 404 (1 hrs)

Stage Management Concentration = 34 hours of 300/400 level

THEA 300 (6 hrs)

THEA 359 (8 hours)

THEA 400 (4 hrs)

THEA 406 (3 hrs)

THEA 408 (3 hrs)

THEA 450 (4 hrs)

THEA 451 (3 hrs)

THEA 452 (3 hrs)

Regarding feedback from UProgramReview:

1. All major requirements are now included in description and justification of changes.
2. Sample sequence was corrected

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring

department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

~~See BFA Theatre, key146.~~ Student Learning Outcomes

- o Demonstrates the ability to analyze, interpret, write critically and creatively, and discuss thoughtfully in the field of theatre and performance.
- o Demonstrates an understanding of general professional production practices in rehearsal, design, construction and performance across the theatre, musical theatre, opera and dance. ~~o Demonstrates practical application of learned methodologies including the ability to communicate ideas, concepts and requirements in order to successfully fulfill a role related to stage management of a stage production.~~
o Demonstrates practical application of learned methodologies including the ability to communicate ideas, concepts and requirements in order to successfully fulfill a role related to stage management of a stage production.
- o Demonstrates necessary skills and knowledge to acquire an entry-level position in professional stage management.

Assessment

- o Instructors in each curricular area review the progress of undergraduate students majoring in the areas annually. As part of this review, faculty assess the effectiveness of the curriculum to meet the department's mission, the needs of the field, and to maintain rigor.
- o Semester reviews with each studio student.
- o Annual reviews of progression towards graduation (including course grade reviews.)

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Revised programs [Theatre BFA Stage Mngmt Conc sample schedule FA 24.docx](#)

Attach a revised Sample Sequence (for undergraduate program) or college-level forms.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

Level 21 reflects the design, technology and management disciplines in theatre arts. It has seven unique yet inter-related concentrations in: Arts + Entertainment Technology, Costume Design + Technology, Lighting Design + Technology, Scene Design, Scenic Technology, Sound Design + Technology, and Stage Management. Freshman and sophomore students learn the foundations of theatrical production with a focus on acquiring practical skills for application in advanced course work and in theatre productions. Junior and senior students participate in advanced study in their chosen discipline supported by one-on-one faculty mentoring of assigned projects. Students in this area are the designers, technicians, managers, artisans and crew for over a dozen theater, musical theater, dance and opera productions at Krannert Center for the Performing Arts and work on these shows in various roles throughout their entire course of study.

Statement for Programs of Study Catalog

Graduation Requirements

Minimum hours required for graduation: 128 hours.

Twelve hours of 300 and 400-level courses in the major must be taken on this campus.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in the program.

1. In the justification prompts, include the revisions that you are making to the major as well. Senate EPC has previously asked for those to be included when the major and the concentration records are moving through workflow together.
2. Sample sequence has additional 3 hours of General Non-Theatre Elective. The POS table only has 9 hours but this sequence shows 12 hours. Please review and revise accordingly.

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

The BFA Theatre major is being revised (key 146), along with the 9 BFA Theatre concentrations (keys 679, 680, 681, 682, 683, 684, 685, 686, 950).

Program Justification

Provide a brief description of what changes are being made to the program.

1. The formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) has been modified to adhere to the campus General Education Template.
2. Adding in THEA core, General Non-THEA electives, and summary of credits table to POS.
3. Changes to major that are also reflected here include
 - 3a. Move General, Non-Theatre Electives to its own table and further toward bottom;
 - 3b. Delete footnote
 - 3c. In summary of credits table: Update title and remove credit hours from Gen Ed and open elective
 - 3d. Remove Language
 - 3e. remove parentheses about concentration requirements.

4. Fixed THEA 200-level course requirement issue with linking to THEA 200 and standardized description
5. Adding THEA rubric to any 300 or 400-level theatre course requirement
6. Adding THEA, DANC, and MUS/MUSC rubrics to supporting professional electives requirement

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Per Office of the Provost General Education initiative for transparency and accessibility.
2. Previously the concentration page only listed the concentration requirements and it will now list all requirements to earn a degree with the concentration.
3. The office of the provost requested that all changes to the major be reflected here. Deleting footnotes for accessibility purpose. Minor updates to summary of credits table for standardization.
4. Removing the link so that THEA 200 is not linked when the requirement is any 200-level and also standardizing it to say theatre course (THEA) to identify the department and rubric.
- 5 and 6. To identify the department and rubric.

Note: Question from office of the provost regarding General Non-Theatre Electives is that they are anything outside of the THEA rubric, which is correct.

No change to concentration or major or degree hours or requirements.

Advanced Hours in Theatre Core = 7 hours

THEA 304 (3 hrs)

THEA 364 (3 hrs)

THEA 404 (1 hrs)

Theatre Studies Concentration = 25 hours of 300/400 level

THEA 391 (2 hrs)

THEA 392 (2 hrs)

THEA 400 (3 hrs)

Choose 6 credits from (6 hrs)

Choose 12 credits from (12 hrs)

Supporting professional electives (9 hrs) or General non-theatre electives (9 hours)

Free electives (11 hrs estimated for this concentration) = 8 hours of 300/400 level

Regarding feedback from UProgramReview:

1. All major requirements are now included in description and justification of changes.
2. Free electives number specified
- 3a and 3b. These changes were made

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

~~See BFA Theatre, key 146~~ Student Learning Outcomes

- o Demonstrates a mature, effective ability to analyze, interpret, write critically and creatively, and discuss thoughtfully in the field of theatre and performance.
- o Demonstrates ability to actively engage in the collaborative process in preparation, construction, and performance of works for the stage.
- o Demonstrates comprehension of theory and application of practices in areas of emphasis through production related activities.
- o Demonstrates necessary skills and knowledge to acquire an entry-level position in the theatre showing the capacity to work and solve problems independently and with initiative (demonstrated through participation in a professional internship.)
- o Demonstrates practical application of learned methodologies including the ability to communicate ideas, concepts, and outcomes of creative research (demonstrated in public presentation of a senior thesis project.)

Assessment

- o Instructors in each curricular area review the progress of undergraduate students majoring in the areas annually. As part of this review, faculty assess the effectiveness of the curriculum to meet the department's mission, the needs of the field, and to maintain rigor.
- o Semester reviews with each studio student.
- o Annual reviews of progression towards graduation (including course grade reviews.)

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Revised programs [Theatre BFA sample schedule Theatre studies no changes.docx](#)

Attach a revised Sample Sequence (for undergraduate program) or college-level forms.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

The theatre studies concentration focuses on the practical applications of theatre and explores theatrical productions as a collaborative art form that is grounded in practice, theory, criticism, history, research and writing. The theatre studies concentration is intended to lay the foundation for students planning to pursue professional careers in the areas of theatre for which advanced training or specialization at the graduate level is normally required. These areas include, but are not limited to: directing, dramaturgy, playwriting, arts management, social issues theatre and theatre history and criticism. Emphasis is given to a comprehensive study of theatre practices of the past, participation in theatre practices of the present and the discovery and development of theatre practices for the future.

Corresponding Program(s)

Theatre, BFA

Program Features

Academic Level Undergraduate

Is This a Teacher Certification Program?

No

Will specialized accreditation be sought for this program?

No

Additional concentration notes (e.g., estimated enrollment, advising plans, etc.)

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

No impact.

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

No changes to current operations. The BFA is a professional training program in theatre, and as such it generally includes a mix of small, hands-on courses and larger courses offering history and theory, as well as quite large courses for non-majors. Most of the courses submitted for new consideration or revisions in this set of course revisions are of the smaller nature. We have worked extensively with the College of Fine and Applied to assure a responsible use of departmental resources, to allow us to maintain the integrity of degree programs and, at the same time, operate sustainably.

Will the unit need to seek campus or other external resources?

No

Attach letters of support

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

No impact.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this concentration revision.

U Program Review Comments KEY 686 8_14_2024

1. In the justification prompts, include the revisions that you are making to the major as well. Senate EPC has previously asked for those to be included when the major and the concentration records are moving through workflow together.
2. Justification, 40 hour upper division coursework – consider including the total amount of free electives available to students in your statement where you note that Free electives could count towards this
3. Program of Study –
 - a. for student transparency, consider including the rubrics in the statement “Any 300 or 400 level Theatre courses” and “Supporting Professional Electives: theatre, dance or music courses..”. If you do this, include a numbered item in the Justification prompts to note that you made this addition, and the reasoning could be for student transparency/clarity.
 - b. Should THEA 200 be linked in the statement ‘Other THEA 200-level course’? If not, connect with the Office of the Registrar (cmss-catalog@illinois.edu) to discuss removing that hyperlink if needed.

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Concentration in Acting in the Bachelor of Fine Arts in Theatre in the College of Fine and Applied Arts

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

The BFA Theatre major is being revised (key 146), along with the 9 BFA Theatre concentrations (keys 679, 680, 681, 682, 683, 684, 685, 686, 950).

Program Justification

Provide a brief description of what changes are being made to the program.

1. The formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) has been modified to adhere to the campus General Education Template.
2. Adding in THEA core, General Non-THEA electives, and summary of credits table to POS.
3. Changes to major that are also reflected here include
 - 3a. Move General, Non-Theatre Electives to its own table and further toward bottom;
 - 3b. Delete footnote
 - 3c. In summary of credits table: Update title and remove credit hours from Gen Ed and open elective
 - 3d. Remove Language
 - 3e. remove parentheses about concentration requirements.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Per Office of the Provost General Education initiative for transparency and accessibility.
2. Previously the concentration page only listed the concentration requirements and it will now list all requirements to earn a degree with the concentration.
3. The office of the provost requested that all changes to the major be reflected here. Deleting footnotes for accessibility purpose. Minor updates to summary of credits table for standardization.

Note: Question from office of the provost regarding General Non-Theatre Electives is that they are anything outside of the THEA rubric, which is correct.

No change to concentration or major or degree hours or requirements.

Advanced Hours in Theatre Core = 7 hours

THEA 304 (3 hrs)

THEA 364 (3 hrs)

THEA 404 (1 hrs)

Acting Concentration = 36 hours of 300/400 level

THEA 371 (1 hr)

THEA 372 (2 hrs)

THEA 323 (2 hrs)

THEA 374 (3 hrs)

THEA 375 (1 hr)

THEA 376 (2 hrs)

THEA 377 (2 hrs)

THEA 378 (3 hrs)

THEA 400 (4 hrs)

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

~~See BFA Theatre, key146.~~ Student Learning Outcomes

- o Demonstrates a mature, effective ability to analyze, interpret, write critically and creatively, and discuss thoughtfully in the field of theatre and performance.
- o Demonstrates ability to creatively engage in the collaborative process in rehearsal, construction, and performance of works for the stage.
- o Demonstrates an ability to analyze, prepare, and perform in dramatic material including works from contemporary theatre, modern classics, Shakespeare, musical theatre, and film.
- o Demonstrates increasing ability to recognize and adjust voice, speech, and movement skills (including stage combat techniques) in application to performance for the stage.
- o Demonstrates an understanding of the expectations of auditioning for and working in professional theatre, film and television.

Assessment

- o Instructors in each curricular area review the progress of undergraduate students majoring in the areas annually. As part of this review, faculty assess the effectiveness of the curriculum to meet the department's mission, the needs of the field, and to maintain rigor.
- o Semester reviews with each studio student.
- o Annual reviews of progression towards graduation (including course grade reviews.)

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

The acting concentration provides intensive training in a wide variety of performing media. In the first and second years, students take introductory courses in movement, voice and acting. In their second year of study in this concentration, students must audition for acceptance into the studio in acting. In addition to successful completion of all classes in their first and second years, acceptance will be based on an evaluation of each student's potential for professional-caliber performance, commitment to theatre and the necessary discipline for intensive study. Third and fourth year students meet in daily four-hour sessions, each of which includes sections in dynamics, voice and speech, movement and acting. Semester-long acting sections include advanced scene study, musical theatre, Shakespeare and acting for the camera. Students in the professional studio in acting must audition for department productions and perform as cast.

Program(s):

Corresponding Program(s)

Theatre, BFA

Program Features

Academic Level Undergraduate

Is This a Teacher Certification Program?

No

Will specialized accreditation be sought for this program?

No

Additional concentration notes (e.g., estimated enrollment, advising plans, etc.)

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

No impact.

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

No changes to current operations. The BFA is a professional training program in theatre, and as such it generally includes a mix of small, hands-on courses and larger courses offering history and theory, as well as quite large courses for non-majors. Most of the courses submitted for new consideration or revisions in this set of course revisions are of the smaller nature. We have worked extensively with the College of Fine and Applied to assure a responsible use of departmental resources, to allow us to maintain the integrity of degree programs and, at the same time, operate sustainably.

Will the unit need to seek campus or other external resources?

No

Attach letters of support

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

No impact.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this concentration revision.

U Program Review Comments KEY 679 8_14_2024

1. In the justification prompts, include the revisions that you are making to the major as well. Senate EPC has previously asked for those to be included when the major and the concentration records are moving through workflow together.
2. Justification, 40 hour upper division coursework – The total included from the concentration adds up to 31 hours. Please review and revise to ensure that you have information that would equal at least 40 hours.
3. Sample Sequence
 - a. Please review to ensure the coursework and requirements match the Program of Study table. For example, THEA 479 is not in your POS table but it appears in your Sample Sequence.

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

KR Dean

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Concentration in Costume Design & Technology in the Bachelor of Fine Arts in Theatre in the College of Fine and Applied Arts

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

The BFA Theatre major is being revised (key 146), along with the 9 BFA Theatre concentrations (keys 679, 680, 681, 682, 683, 684, 685, 686, 950).

Program Justification

Provide a brief description of what changes are being made to the program.

1. The formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) has been modified to adhere to the campus General Education Template.
2. Adding in THEA core, General Non-THEA electives, and summary of credits table to POS.
3. Changes to major that are also reflected here include
 - 3a. Move General, Non-Theatre Electives to its own table and further toward bottom;
 - 3b. Delete footnote

3c. In summary of credits table: Update title and remove credit hours from Gen Ed and open elective

3d. Remove Language

3e. remove parentheses about concentration requirements.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Per Office of the Provost General Education initiative for transparency and accessibility.
2. Previously the concentration page only listed the concentration requirements and it will now list all requirements to earn a degree with the concentration.
3. The office of the provost requested that all changes to the major be reflected here. Deleting footnotes for accessibility purpose. Minor updates to summary of credits table for standardization.

Note: Question from office of the provost regarding General Non-Theatre Electives is that they are anything outside of the THEA rubric, which is correct.

No change to concentration or major or degree hours or requirements.

Advanced Hours in Theatre Core = 7 hours

THEA 304 (3 hrs)

THEA 364 (3 hrs)

THEA 404 (1 hrs)

Costume Design & Tech Concentration = 33 hours of 300/400 level

THEA 300 (4 hrs)

THEA 400 (4 hrs)

THEA 414 (3 hrs)

THEA 442 (3 hrs)

THEA 445 (3 hrs)

THEA 446 (3 hrs)

THEA 447 (4 hrs)

THEA 448 (3 hrs)

Choose 6 credits from (6 hrs)

Regarding feedback from UProgramReview:

1. All major requirements are now included in description and justification of changes.
2. Sample sequence is corrected.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

See BFA Theatre, key146. Student Learning Outcomes

- o Demonstrates a mature, effective ability to analyze, interpret, write critically and creatively, and discuss thoughtfully in the field of theatre and performance
- o Demonstrates ability to actively engage in the collaborative process in preparation, construction, and performance of works for the stage.
- o Demonstrates practical application of learned methodologies including the ability to communicate ideas, concepts, and requirements in order to successfully fulfill a role related to costume design and technology for a stage production
- o Demonstrates working knowledge of professional practices across genres of theatre, musical theatre, opera and dance.
- o Demonstrates necessary skills and knowledge to acquire an entry-level position in the field of costume design and technology including significant technical mastery, showing the capacity to produce work and solve problems independently.

Assessment

- o Instructors in each curricular area review the progress of undergraduate students majoring in the areas annually. As part of this review, faculty assess the effectiveness of the curriculum to meet the department's mission, the needs of the field, and to maintain rigor.
- o Semester reviews with each studio student.
- o Annual reviews of progression towards graduation (including course grade reviews.)

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

Statement for

Programs of

Study Catalog

Graduation Requirements

Minimum hours required for graduation: 128 hours.

Twelve hours of 300 and 400-level courses in the major must be taken on this campus.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in the program.

U Program Review Comments KEY 680 8_14_2024

1. In the justification prompts, include the revisions that you are making to the major as well. Senate EPC has previously asked for those to be included when the major and the concentration records are moving through workflow together.
2. Sample Sequence
 - a. has THEA 100 in what appears to be repeated in the same term. Is it that students would take THEA 100 for 2 credit hours? Is the placement of the THEA 100 requirements in the correct terms? Or is it that they would take it twice in the same term, two different sections? Also, in looking at the CIM-C record for THEA 100, I am not sure that the repeatability information is accurate/updated since it has that the course is repeatable but then has 'no' responses in both if the student can register more than once in the same term and repeated in separate terms. Consider reviewing and revising the CIM-C as needed for the course repeatability information.
 - b. Includes THEA 444 called out specifically but I don't see that course in the POS table other than in the Choose 6 credits course, which already is accounted for in the sequence.

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

KR Dean

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term Fall 2024

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Concentration in Scenic Technology in the Bachelor of Fine Arts in Theatre in the College of Fine and Applied Arts

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

The BFA Theatre major is being revised (key 146), along with the 9 BFA Theatre concentrations (keys 679, 680, 681, 682, 683, 684, 685, 686, 950).

Program Justification

Provide a brief description of what changes are being made to the program.

1. The formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) has been modified to adhere to the campus General Education Template.
2. Adding in THEA core, General Non-THEA electives, and summary of credits table to POS.
3. Changes to major that are also reflected here include
 - 3a. Move General, Non-Theatre Electives to its own table and further toward bottom;
 - 3b. Delete footnote

3c. In summary of credits table: Update title and remove credit hours from Gen Ed and open elective

3d. Remove Language

3e. remove parentheses about concentration requirements.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Per Office of the Provost General Education initiative for transparency and accessibility.
2. Previously the concentration page only listed the concentration requirements and it will now list all requirements to earn a degree with the concentration.
3. The office of the provost requested that all changes to the major be reflected here. Deleting footnotes for accessibility purpose. Minor updates to summary of credits table for standardization.

Note: Question from office of the provost regarding General Non-Theatre Electives is that they are anything outside of the THEA rubric, which is correct.

No change to concentration or major or degree hours or requirements.

Advanced Hours in Theatre Core = 7 hours

THEA 304 (3 hrs)

THEA 364 (3 hrs)

THEA 404 (1 hrs)

Scenic Tech Concentration = 33 hours of 300/400 level

THEA 300 (4 hrs)

THEA 400 (4 hrs)

THEA 419 (4 hrs)

THEA 421 (4 hrs)

THEA 422 (3 hrs)

THEA 426 (3 hrs)

THEA 427 (3 hrs)

THEA 430 (3 hrs)

THEA 495 (2 hrs)

Remaining 3 hours: Choose 6 credits category (6 hrs) or general non-theatre electives (9 hrs) Free electives (estimated 10 hours for this concentration)

Regarding feedback from UProgramReview:

1. All major requirements are now included in description and justification of changes.
2. Free electives number specified

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a

result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

See BFA Theatre, key146. Student Learning Outcomes

- o Demonstrates practical application of learned methodologies to successfully fulfill a leadership role for a stage production.
- o Demonstrate proficiency in technical, managerial and leadership skills required to attain professional, entry-level positions in the live entertainment industry.
- o Demonstrate the ability to effectively communicate ideas, concepts and outcomes through the build, load in, tech and performance of a stage production.
- o Demonstrate the ability to synthesize independently acquired knowledge through the successful execution of a capstone project.
- o Demonstrates the ability to analyze and interpret creative, critical and theoretical works in the field of theatre and performance, both past and present.

Assessment

- o Instructors in each curricular area review the progress of undergraduate students majoring in the areas annually. As part of this review, faculty assess the effectiveness of the curriculum to meet the department's mission, the needs of the field, and to maintain rigor.
- o Semester reviews with each studio student.
- o Annual reviews of progression towards graduation (including course grade reviews.)

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

Level 21: Design, Technology and Management Concentrations

Level 21 reflects the design, technology and management disciplines in theatre arts. It has seven unique yet inter-related concentrations in: Arts + Entertainment Technology, Costume Design + Technology, Lighting Design + Technology, Scene Design, Scenic Technology, Sound Design + Technology, and Stage Management. Freshman and sophomore students learn the foundations of theatrical production with a focus on acquiring practical skills for application in advanced course work and in theatre productions. Junior and senior students participate in advanced study in their chosen discipline supported by one-on-one faculty mentoring of assigned projects. Students in this area are the designers, technicians, managers, artisans and crew for over a dozen theater, musical theater, dance and opera productions at Krannert Center for the Performing Arts and work on these shows in various roles throughout their entire course of study.

Statement for

Programs of

Study Catalog

Graduation Requirements

Minimum hours required for graduation: 128 hours.

Twelve hours of 300 and 400-level courses in the major must be taken on this campus.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in

the Academic Catalog.

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in the program.

Theatre, BFA

Program Features

Academic Level Undergraduate

Is This a Teacher Certification Program?

No

Will specialized accreditation be sought for this program?

No

Additional concentration notes (e.g., estimated enrollment, advising plans, etc.)

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

No impact.

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available? No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

No changes to current operations. The BFA is a professional training program in theatre, and as such it generally includes a mix of small, hands-on courses and larger courses offering history and theory, as well as quite large courses for non-majors. Most of the courses submitted for new consideration or revisions in this set of course revisions are of the smaller nature. We have worked extensively with the College of Fine and Applied to assure a responsible use of departmental resources, to allow us to maintain the integrity of degree programs and, at the same time, operate sustainably.

Will the unit need to seek campus or other external resources? No

No

Attach letters of support

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

No impact.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this concentration revision.

U Program Review Comments KEY 683 8_14_2024

1. In the justification prompts, include the revisions that you are making to the major as well. Senate EPC has previously asked for those to be included when the major and the concentration records are moving through workflow together.
2. Justification, 40 hour upper division coursework – consider including the total amount of free electives available to students in your statement where you note that Free electives could count towards this

No

Proposal Title

Effective Catalog Fall 2024
Term

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Concentration in Lighting Design & Technology in the Bachelor of Fine Arts
in Theatre in the College of Fine and Applied Arts

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

The BFA Theatre major is being revised (key 146), along with the 9 BFA Theatre concentrations (keys 679, 680, 681, 682, 683, 684, 685, 686, 950).

Program Justification

Provide a brief description of what changes are being made to the program.

1. The formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) has been modified to adhere to the campus General Education Template.
2. Adding in THEA core, General Non-THEA electives, and summary of credits table to POS.
3. Changes to major that are also reflected here include
 - 3a. Move General, Non-Theatre Electives to its own table and further toward bottom;
 - 3b. Delete footnote

3c. In summary of credits table: Update title and remove credit hours from Gen Ed and open elective

3d. Remove Language

3e. remove parentheses about concentration requirements.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Per Office of the Provost General Education initiative for transparency and accessibility.
2. Previously the concentration page only listed the concentration requirements and it will now list all requirements to earn a degree with the concentration.
3. The office of the provost requested that all changes to the major be reflected here. Deleting footnotes for accessibility purpose. Minor updates to summary of credits table for standardization.

Note: Question from office of the provost regarding General Non-Theatre Electives is that they are anything outside of the THEA rubric, which is correct.

No change to concentration or major or degree hours or requirements.

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

~~See BFA Theatre, key146.~~ Student Learning Outcomes

- o Demonstrates working knowledge of professional practices across genres of theatre, musical theatre, opera, dance and non-traditional venues and styles of design.
- o Gain the practical ability to see their designs come to life from concept through realization by collaborating on current productions with peers, faculty, staff and guest artists.
- o Demonstrates necessary skills and knowledge to acquire an entry-level position in the field of lighting design and technology including significant technical mastery, showing the capacity to produce work and solve problems independently.
- o Communicate design and production ideas to collaborators through graphic skills, language and research and the ability to analyze and interpret creative, critical and theoretical works.
- o Demonstrates the practical application of learned methodologies including the ability to communicate ideas, concepts, and requirements in order to successfully fulfill a role related to lighting design for a stage production.

Assessment

- o Instructors in each curricular area review the progress of undergraduate students majoring in the areas annually. As part of this review, faculty assess the effectiveness of the curriculum to meet the department's mission, the needs of the field, and to maintain rigor.
- o Semester reviews with each studio student.
- o Annual reviews of progression towards graduation (including course grade reviews.)

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program(s):

Corresponding Program(s)

Theatre, BFA

Program Features

Academic Level Undergraduate

Is This a Teacher Certification Program?

No

Will specialized accreditation be sought for this program?

No

Additional concentration notes (e.g., estimated enrollment, advising plans, etc.)

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

No impact.

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

No changes to current operations. The BFA is a professional training program in theatre, and as such it generally includes a mix of small, hands-on courses and larger courses offering history and theory, as well as quite large courses for non-majors. Most of the courses submitted for new consideration or revisions in this set of course revisions are of the smaller nature. We have worked extensively with the College of Fine and Applied to assure a responsible use of departmental resources, to allow us to maintain the integrity of degree programs and, at the same time, operate sustainably.

Will the unit need to seek campus or other external resources?

No

Attach letters of support

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

No impact.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this concentration revision.

U Program Review Comments KEY 681 8_14_2024

1. In the justification prompts, include the revisions that you are making to the major as well. Senate EPC has previously asked for those to be included when the major and the concentration records are moving through workflow together.
2. Justification, 40 hour upper division coursework – consider including the total amount of free electives available to students in your statement where you note that Free electives could count towards this
3. Sample Sequence
 - a. First Year, Second Semester has missing credit hour amount with General Education Course, which affects the semester total.
 - b. Consider revising the list of courses that is longer than 3 to something like ‘Choose 3 credit hours from list’

List the role for rollbacks (which role will edit the proposal on questions from EPC, e.g., Dept Head or Initiator) and/or any additional stakeholders. Purpose: List here who will do the editing work if proposal needs rolled back. And any other stakeholders.

KR Dean

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Fall 2024
Term

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Concentration in Sound Design & Technology in the Bachelor of Fine Arts in Theatre in the College of Fine and Applied Arts

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

The BFA Theatre major is being revised (key 146), along with the 9 BFA Theatre concentrations (keys 679, 680, 681, 682, 683, 684, 685, 686, 950).

Program Justification

Provide a brief description of what changes are being made to the program.

1. The formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) has been modified to adhere to the campus General Education Template.
2. Adding in THEA core, General Non-THEA electives, and summary of credits table to POS.
3. Changes to major that are also reflected here include
 - 3a. Move General, Non-Theatre Electives to its own table and further toward bottom;
 - 3b. Delete footnote

3c. In summary of credits table: Update title and remove credit hours from Gen Ed and open elective

3d. Remove Language

3e. remove parentheses about concentration requirements.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Per Office of the Provost General Education initiative for transparency and accessibility.
2. Previously the concentration page only listed the concentration requirements and it will now list all requirements to earn a degree with the concentration.
3. The office of the provost requested that all changes to the major be reflected here. Deleting footnotes for accessibility purpose. Minor updates to summary of credits table for standardization.

Note: Question from office of the provost regarding General Non-Theatre Electives is that they are anything outside of the THEA rubric, which is correct.

No change to concentration or major or degree hours or requirements.

Advanced Hours in Theatre Core = 7 hours

THEA 304 (3 hrs)

THEA 364 (3 hrs)

THEA 404 (1 hrs)

Sound Design & Tech Concentration = 26 hours of 300/400 level

THEA 300 (4 hrs)

THEA 400 (4 hrs)

THEA 451 (3 hrs)

THEA 454 (3 hrs)

THEA 497 (3 hrs)

2nd 'Choose 9 credits from' (9 hrs)

7 remaining 300/400 level courses will come from:

- A. Up to 6 hours in 1st 'choose 9 credits from category'
- B. Free electives (this concentration estimates 8 hours of free electives available)
- C. General Non-Theatre electives (9 hrs required)

Regarding feedback from UProgramReview:

1. All major requirements are now included in description and justification of changes.
2. Free electives number specified
3. Sample schedule did not need to be revised. THEA 100 embedded properly based on currently approved repeatability and longer list that specifies requirements is desired.

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

~~See BFA Theatre, key146.~~ Student Learning Outcomes

- o Demonstrates a mature, effective ability to analyze, interpret, write critically and creatively, and discuss thoughtfully in the field of theatre and performance.
- o Demonstrates ability to actively engage in the collaborative process in preparation, construction, and performance of works for the stage.
- o Demonstrates practical application of learned methodologies including the ability to communicate ideas, concepts, and requirements in order to successfully fulfill a role related to sound design for a stage production.
- o Demonstrates working knowledge of professional practices across genres of theatre, musical theatre, opera and dance.
- o Demonstrates necessary skills and knowledge to acquire an entry-level position in the field of sound design and technology including significant technical mastery, showing the capacity to produce work and solve problems independently.

Assessment

- o Instructors in each curricular area review the progress of undergraduate students majoring in the areas annually. As part of this review, faculty assess the effectiveness of the curriculum to meet the department's mission, the needs of the field, and to maintain rigor.
- o Semester reviews with each studio student.
- o Annual reviews of progression towards graduation (including course grade reviews.)

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program

Description and

Requirements

Attach Documents

Is the career/profession for graduates of this program regulated by the State of Illinois?

No

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Revised programs [Theatre BFA sound Design & Technology sample sched no changes.docx](#)

Attach a revised Sample Sequence (for undergraduate program) or college-level forms.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

Statement for

Programs of

Study Catalog

Graduation Requirements

Minimum hours required for graduation: 128 hours.

Twelve hours of 300 and 400-level courses in the major must be taken on this campus.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in the program.

U Program Review Comments KEY 684 8_14_2024

1. In the justification prompts, include the revisions that you are making to the major as well. Senate EPC has previously asked for those to be included when the major and the concentration records are moving through workflow together.
2. Justification, 40 hour upper division coursework – consider including the total amount of free electives available to students in your statement where you note that Free electives could count towards this
3. Sample Sequence
 - a. Consider revising the list of courses that is longer than 3 to match the requirement text in the Program of Study table.
 - b. has THEA 100 in what appears to be repeated in the same term. Is it that students would take THEA 100 for 2 credit hours? Is the placement of the THEA 100 requirements in the correct terms? Or is it that they would take it twice in the same term, two different sections? Also, in looking at the CIM-C record for THEA 100, I am not sure that the repeatability information is accurate/updated since it has that the course is repeatable but then has 'no' responses in both if the student can register more than once in the same term and repeated in separate terms. Consider reviewing and revising the CIM-C as needed for the course repeatability information.

KR Dean

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Fall 2024
Term

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Concentration in Scenic Design in the Bachelor of Fine Arts in Theatre in the College of Fine and Applied Arts

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

The BFA Theatre major is being revised (key 146), along with the 9 BFA Theatre concentrations (keys 679, 680, 681, 682, 683, 684, 685, 686, 950).

Program Justification

Provide a brief description of what changes are being made to the program.

1. The formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) has been modified to adhere to the campus General Education Template.
2. Adding in THEA core, General Non-THEA electives, and summary of credits table to POS.
3. Changes to major that are also reflected here include
 - 3a. Move General, Non-Theatre Electives to its own table and further toward bottom;
 - 3b. Delete footnote

3c. In summary of credits table: Update title and remove credit hours from Gen Ed and open elective

3d. Remove Language

3e. remove parentheses about concentration requirements.

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Per Office of the Provost General Education initiative for transparency and accessibility.
2. Previously the concentration page only listed the concentration requirements and it will now list all requirements to earn a degree with the concentration.
3. The office of the provost requested that all changes to the major be reflected here. Deleting footnotes for accessibility purpose. Minor updates to summary of credits table for standardization.

Note: Question from office of the provost regarding General Non-Theatre Electives is that they are anything outside of the THEA rubric, which is correct.

No change to concentration or major or degree hours or requirements.

Advanced Hours in Theatre Core = 7 hours

THEA 304 (3 hrs)

THEA 364 (3 hrs)

THEA 404 (1 hrs)

Scenic Design Concentration = 29 hours of 300/400 level

THEA 300 (4 hrs)

THEA 400 (4 hrs)

THEA 415 (3 hrs)

THEA 416 (3 hrs)

THEA 426 (6 hrs)

THEA 427 (3 hrs)

THEA 438 (3 hrs)

THEA 458 (3 hrs)

2nd 'Choose 3 credits from' category or Free electives (this concentration estimates 8 hours) or General Non-Theatre Electives (9 hrs required) = 4 hours of 300/400 level

Regarding feedback from UProgramReview:

1. Comma removed
2. All major requirements are now included in description and justification of changes.
3. Free electives number specified/corrected and advanced hours corrected
4. Sample sequence updated

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

~~See BFA Theatre, key146.~~ Student Learning Outcomes

- o Demonstrates a mature, effective ability to analyze, interpret, and discuss creative and theoretical works.
- o Demonstrates necessary knowledge of materials, tools, techniques, methodologies, and safe working habits of all essential theatrical production environments.
- o Demonstrates practical application of learned methodologies including the ability to communicate ideas, concepts, and requirements in order to successfully fulfill a collaborative role related to scenic design for a stage production.
- o Demonstrates working knowledge of professional practices across genres of theatre, musical theatre, and opera.
- o Demonstrates necessary skills and knowledge to acquire an entry-level position in the field of scenic design including significant technical mastery, showing the capacity to produce work and solve problems independently.

Assessment

- o Instructors in each curricular area review the progress of undergraduate students majoring in the areas annually. As part of this review, faculty assess the effectiveness of the curriculum to meet the department's mission, the needs of the field, and to maintain rigor.
- o Semester reviews with each studio student.
- o Annual reviews of progression towards graduation (including course grade reviews.)

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Program of Study

Baccalaureate degree requires at least 120 semester credit hours or 180 quarter credit hours and at least 40 semester credit hours (60 quarter credit hours) in upper division courses" (source: <https://www.ibhe.org/assets/files/PublicAdminRules2017.pdf>). For proposals for new bachelor's degrees, if this minimum is not explicitly met by specifically-required 300- and/or 400-level courses, please provide information on how the upper-division hours requirement will be satisfied.

Revised programs [Theatre BFA sample schedule Scenic Design FA 24.docx](#)

Attach a revised Sample Sequence (for undergraduate program) or college-level forms.

Catalog Page Text - Overview Tab

Description of program for the catalog page. This is not official content, it is used to help build the new catalog page for the program. Can be edited in the catalog by the college or department.

Level 21: Design, Technology and Management Concentrations

Level 21 reflects the design, technology and management disciplines in theatre arts. It has seven unique yet inter-related concentrations in: Arts + Entertainment Technology, Costume Design + Technology, Lighting Design + Technology, Scene Design, Scenic Technology, Sound Design + Technology, and Stage Management. Freshman and sophomore students learn the foundations of theatrical production with a focus on acquiring practical skills for application in advanced course work and in theatre productions. Junior and senior students participate in advanced study in their chosen discipline supported by one-on-one faculty mentoring of assigned projects. Students in this area are the designers, technicians, managers, artisans and crew for over a dozen theater, musical theater, dance and opera productions at Krannert Center for the Performing Arts and work on these shows in various roles throughout their entire course of study.

Statement for

Programs of

Study Catalog

Graduation Requirements

Minimum hours required for graduation: 128 hours.

Twelve hours of 300 and 400-level courses in the major must be taken on this campus.

University Requirements

Minimum of 40 hours of upper-division coursework, generally at the 300- or 400-level. These hours can be drawn from all elements of the degree. Students should consult their academic advisor for additional guidance in fulfilling this requirement.

The university and residency requirements can be found in the Student Code (§ 3-801) and in the Academic Catalog.

General Education Requirements

Follows the campus General Education (Gen Ed) requirements. Some Gen Ed requirements may be met by courses required and/or electives in the program.

Program(s):

Corresponding Program(s)
Theatre, BFA

Program Features

Academic Level Undergraduate

Is This a Teacher Certification Program?

No

Will specialized accreditation be sought for this program?

No

Additional concentration notes (e.g., estimated enrollment, advising plans, etc.)

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

No impact.

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

No changes to current operations. The BFA is a professional training program in theatre, and as such it generally includes a mix of small, hands-on courses and larger courses offering history and theory, as well as quite large courses for non-majors. Most of the courses submitted for new consideration or revisions in this set of course revisions are of the smaller nature. We have worked extensively with the College of Fine and Applied to assure a responsible use of departmental resources, to allow us to maintain the integrity of degree programs and, at the same time, operate sustainably.

Will the unit need to seek campus or other external resources?

No

Attach letters of support

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

No impact.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this concentration revision.

U Program Review Comments KEY 682 8_14_2024

1. In the Proposal Title, remove the comma after 'Scenic Design'
2. In the justification prompts, include the revisions that you are making to the major as well. Senate EPC has previously asked for those to be included when the major and the concentration records are moving through workflow together.
1. Review the 40 hour upper division breakout in the justification to ensure that it is accurate regarding free electives available. Also, consider including the total amount of free electives available to students in your statement where you note that Free electives could count towards this
3. Sample Sequence
 - a. Consider revising the list of courses that is longer than 3 to match the requirement text in the Program of Study table.
 - b. THEA 125 and THEA 204 are in the sample sequence but not in the Program of Study table. Please review and revise.

Does this program have inter-departmental administration?

No

Proposal Title

Effective Catalog Term	Fall 2024
------------------------	-----------

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberals Art and Sciences, include the Graduate College for Grad Programs)

Revise the Concentration in Arts & Entertainment Technology in the Bachelor of Fine Arts in Theatre in the College of Fine and Applied Arts

Does this proposal have any related proposals that will also be revised during the next 6 weeks? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently. Example: If you are revising the BS proposal and one related concentration within the next 6 weeks, "This BS proposal (key 567) is related to the Concentration A proposal (key 145)."

The BFA Theatre major is being revised (key 146), along with the 9 BFA Theatre concentrations (keys 679, 680, 681, 682, 683, 684, 685, 686, 950).

Program Justification

Provide a brief description of what changes are being made to the program.

1. The formatting of the POS and additional text (e.g., graduation requirements, university requirements, and general education requirements) has been modified to adhere to the campus General Education Template.
2. Adding in THEA core, General Non-THEA electives, and summary of credits table to POS.
3. Changes to major that are also reflected here include
 - 3a. Move General, Non-Theatre Electives to its own table and further toward bottom;
 - 3b. Delete footnote
 - 3c. In summary of credits table: Update title and remove credit hours from Gen Ed and open elective
 - 3d. Remove Language
 - 3e. remove parentheses about concentration requirements.
4. Removed general education notes from POS in 'choose 12 credits' elective list

Did the program content change 25% or more in relation to the total credit hours, since the 2020-2021 catalog. (<http://catalog.illinois.edu/archivedacademiccatalogs/2020-2021/>)

No

Why are these changes necessary?

1. Per Office of the Provost General Education initiative for transparency and accessibility.
2. Previously the concentration page only listed the concentration requirements and it will now list all requirements to earn a degree with the concentration.
3. The office of the provost requested that all changes to the major be reflected here. Deleting footnotes for accessibility purpose. Minor updates to summary of credits table for standardization.
4. This change was requested by the office of the provost.

No change to concentration or major or degree hours or requirements.

Advanced Hours in Theatre Core = 7 hours

THEA 304 (3 hrs)

THEA 364 (3 hrs)

THEA 404 (1 hrs)

AET Concentration = 33 hours of 300/400 level

THEA 300 (4 hrs)

THEA 400 (4 hrs)

THEA 495 (2 hrs)

THEA 496 (2 hrs)

Choose 6 credits from (6 hrs)

Remaining 15 hours from:

- A. 'Choose 12 credits from' category
- B. Free electives (15 hours estimated for this concentration)
- C. Non-Theatre Electives (9 hours required)

Regarding feedback from UProgramReview:

1. All major requirements are now included in description and justification of changes.
2. Free electives listed.
3. Removed general education notes from POS.

Instructional Resources

Will there be any reduction in other course offerings, programs or concentrations by your department as a result of this new program/proposed change?

No

Does this new program/proposed change result in the replacement of another program?

No

Does the program include other courses/subjects outside of the sponsoring department impacted by the creation/revision of this program?

No

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

List the program's student learning outcomes. Each outcome should identify what students are expected to know and/or be able to do upon completing this program.

See BFA Theatre, key146. Art and Entertainment Technology concentration

- Student Learning Outcomes

- o Demonstrates the ability to analyze, interpret, write critically and creatively, and discuss thoughtfully in the field of theatre, performance and other genres of live entertainment.
- o Demonstrates an understanding of professional practices in project conception, technical design, construction, equipment specification, programming and show control and run protocols in the performing arts and live entertainment.
- o Demonstrates the ability to synthesize independently acquired knowledge through the successful execution of a capstone project.
- o Demonstrates proficiency and practical application of learned methodologies including the ability to communicate ideas, articulate concepts and project requirements, and execute problem-solving strategies in order to successfully fulfill a skilled technology role in a stage production.
- o Demonstrates necessary skills and knowledge including significant technical mastery to acquire an entry-level skilled technologist position in professional live entertainment.

- Assessment

- o Instructors in each curricular area review the progress of undergraduate students majoring in the areas annually. As part of this review, faculty assess the effectiveness of the curriculum to meet the department's mission, the needs of the field, and to maintain rigor.
- o Semester reviews with each studio student.
- o Annual reviews of progression towards graduation (including course grade reviews.)

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Arts & Entertainment Technology Concentration

Course List

Code	Title	Hours
Required Courses:		32
<u>THEA 100</u>	Practicum I (in addition to the <u>THEA 100</u> credits required in the theatre core)	1
<u>THEA 119</u>	BFA Production Seminar (repeated for 4 total hours)	4
<u>THEA 126</u>	Stagecraft	3
<u>THEA 153</u>	Introduction to Theatre Sound	3
<u>THEA 220</u>	Survey of Theatrical Design	3
<u>THEA 223</u>	Introduction to Stage Rigging	3
<u>THEA 231</u>	Intro to Lighting Design	3
<u>THEA 300</u>	Practicum III (repeated for 4 total hours)	4
<u>THEA 400</u>	Practicum IV (repeated for 4 total hours)	4
<u>THEA 495</u>	Capstone Project (repeated for 2 total hours)	2
<u>THEA 496</u>	Professional Exploration (repeated for 2 total hours)	2
Choose 6 credits from the following courses:		6
<u>THEA 419</u>	Theatrical CAD Drafting	2
<u>THEA 421</u>	Welding for the Stage	4
<u>THEA 424</u>	Automation for the Stage	3
<u>THEA 429</u>	Scenic Technology Topics	2
<u>THEA 435</u>	Professional Lighting Systems	2

Code	Title	Hours
THEA 497	Audio Engineering I	3
Choose 12 credits from the following courses:		12
THEA 151	Introduction to Digital Audio Workstations	3
THEA 419	Theatrical CAD Drafting (in addition to 6 cr requirement)	2
THEA 420	Shop Practice	4
THEA 421	Welding for the Stage (in addition to 6 cr requirement)	4
THEA 422	Structures for the Stage	3
THEA 424	Automation for the Stage (in addition to 6 cr requirement)	3
THEA 429	Scenic Technology Topics (may be repeated for various topics)	2
THEA 430	Technical Direction I	3
THEA 435	Professional Lighting Systems (in addition to 6 cr requirement)	2
THEA 437	Software for Lighting Design	2
THEA 461	Introduction to Media Design	3
THEA 492	Digital Rendering for Lighting	3
THEA 494	Advanced Problem Solving for Lighting Designers	3
THEA 497	Audio Engineering I (in addition to 6 cr requirement)	3
THEA 498	Audio Engineering II	3
RST 460	Event Management in Recreation, Sport and Tourism	3
RST 465	Event Implementation and Evaluation in Recreation, Sport and Tourism	3
PHYS 102	College Physics: E&M & Modern	5
PHYS 193	Physics of Music	2
PHYS 211	University Physics: Mechanics	4
PHYS 212	University Physics: Elec & Mag	4

Program Features

Academic Level Undergraduate

Is This a Teacher Certification Program?

No

Will specialized accreditation be sought for this program?

No

Additional concentration notes (e.g., estimated enrollment, advising plans, etc.)

~~We anticipate to initially role 2-3 students in the first year and enroll 4-6 students in subsequent years. Advising will continue to be offered by Theatre office staff and a designated Chair of Art & Entertainment Technology.~~

Delivery Method

This program is available:

On Campus - Students are required to be on campus, they may take some online courses.

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

No impact.

Budget

Are there budgetary implications for this revision? No

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Additional Budget Information

Attach File(s)

Financial Resources

How does the unit intend to financially support this proposal?

No additional financial resources are required beyond what has already been planned by the unit and college to pursue growth within the theatre department.

The BFA is a professional training program in theatre, and as such it generally includes a mix of small, hands-on courses and larger courses offering history and theory, as well as quite large courses for non-majors. Most of the courses submitted for new consideration or revisions in this set of course revisions are of the smaller nature. We have worked extensively with the College of Fine and Applied to assure a responsible use of departmental resources, to allow us to maintain the integrity of degree programs and, at the same time, operate sustainably. The department has specifically worked with the college and determined that the AET program will allow us to recruit additional new undergraduates with current staffing as part of a comprehensive strategic plan for responsible growth.

Will the unit need to seek campus or other external resources?

No

Attach letters of support

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

No impact.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

Library collections, resources and services are sufficient to support this concentration revision.

U Program Review Comments KEY 950 8_14_2024

1. In the justification prompts, include the revisions that you are making to the major as well. Senate EPC has previously asked for those to be included when the major and the concentration records are moving through workflow together.
2. Justification, 40 hour upper division coursework – consider including the total amount of free electives available to students in your statement where you note that Free electives could count towards this
3. Program of Study table
 - a. Remove the Gen Ed references that are comments on several courses in the Choose 12 credits elective list. Please include this change in the justification responses as a numbered item.
