

Proposals Approved with Altered Workflow For General Education Template

In the spring of 2024, the Office of the Provost began implementing a new template for general education requirements in the program of study tables for undergraduate degrees. Although these changes had to be processed through CIM-P, there were no substantive changes to the programs beyond formatting. Consequently, the Senate Committee on Educational Policy delegated responsibility for reviewing and approving these changes to the Director of General Education (altered workflow), and periodically reporting such updates to the committee. Revisions deemed to involve more than mere changes in formatting were referred to the committee (regular workflow).

The following programs made updates in CIM-P to adhere to the campus general education template and following a review by the Office of the Provost were approved using altered workflow.

Aerospace Engineering, BS KEY 111

Lyric Theatre, BMA, BS KEY 523

Lyric Theatre: Creative, BMA, BS KEY 678
