Proposal Title

Proposal Title (either Establish/Revise/Eliminate the Degree Name in Program Name in the College of XXXX, i.e., Establish the Bachelor of Science in Entomology in the College of Liberal Arts and Sciences, include the Graduate College for Grad Programs)

Eliminate the Concentration in Public Policy and Law in the Bachelor of Science in Agricultural & Consumer Economics in the College of Agricultural, Consumer and Environmental Sciences

Does this proposal have any related proposals that will also be revised at this time and the programs depend on each other? Consider Majors, Minors, Concentrations & Joint Programs in your department. Please know that this information is used administratively to move related proposals through workflow efficiently and together as needed. Format your response like the following "This BS proposal (key 567) is related to the Concentration A proposal (key 145)"

This concentration deactivation proposal (Key: 595) is related to the following other concentration deactivation proposals:

- Agricultural & Consumer Economics: Agribusiness Markets & Management, BS (Key: 588)
- Agricultural & Consumer Economics: Consumer Economics & Finance, BS (Key: 598)
- Agricultural & Consumer Economics: Environmental Economics and Policy, BS (Key: 599)
- Agricultural & Consumer Economics: Farm Management, BS (Key: 601)
- Agricultural & Consumer Economics: Finance in Agribusiness, BS (Key: 597)
- Agricultural & Consumer Economics: Financial Planning, BS (Key: 602)
- Agricultural & Consumer Economics: Policy, International Trade and Development, BS (Key: 600)

The deactivation of this concentration is also contingent on the following proposals (this concentration shouldn't be deactivated until the following new programs/revisions have been implemented):

- Consumer Economics and Finance, BS (Key: 1370)
- Environmental and Resource Economics and Policy, BS (Key: 1371)
- Financial Planning, BS (Key: 1304)
- Food and Agribusiness Management, BS (Key: 1372)
- Public Policy and Law, BS (Key: 1373)
- Agricultural & Consumer Economics, BS (Key: 74)
- Agricultural & Consumer Economics: Agri-Accounting, BS (Key: 587)
- Agricultural & Consumer Economics: Agricultural and Applied Economics, BS (Key: 1392)
- Agricultural & Consumer Economics, BS and Agricultural & Applied Economics, MAAE (Key: 886)

Program Justification

Provide a brief description, using a numbered item list, of the proposed changes to the program.

We are removing the following concentrations from the ACE major:

- Agribusiness Markets & Management (AMM)
- Consumer Economics & Finance (CEF)
- Environmental Economics & Policy (EEP)
- Farm Management (FM)
- Finance in Agribusiness (FIA)
- Financial Planning (FP)
- Policy, International Trade & Development (PITD)
- Public Policy & Law (PPL)

And turning them into their own majors:

- The Consumer Economics & Finance concentration will become the Consumer Economics and Finance, BS major
- The Financial Planning concentration will become the Financial Planning, BS major
- The Public Policy & Law concentration will become the Public Policy and Law, BS major
- The Environmental Economics & Policy concentration will become the Environmental and Resource Economics and Policy, BS major
- The Agribusiness Markets & Management, Farm Management, Finance in Agribusiness, and Policy, International Trade & Development concentrations will become the Food and Agribusiness Management, BS

However, the Agri-Accounting concentration will remain and we will be adding an Agricultural and Applied Economics concentration.

Provide the reasoning for why each change was necessary, using a corresponding numbered item list as it relates to the brief description numbered list above.

Creating a standalone Public Policy and Law major reflects the department's long history of integrating law and policy into the curriculum and responds to student demand for clearer academic and professional pathways in these fields. The major offers a focused curriculum grounded in policy analysis, legal principles, and evidence-based decision-making, with a distinctive emphasis on issues related to food, agriculture, and natural resources.

A dedicated major improves advising, strengthens program identity, and better prepares students for careers in public service, advocacy, law, and policy analysis, as well as for graduate study in public policy, law, public administration, and related fields. It also builds on the department's nationally recognized expertise to train students as strategic, ethical, and data-informed policy leaders.

Last 5 years of PPL enrollment:

FA25: 64

FA24: 64

FA23: 63

FA22: 65

FA21: 67

Program Regulation and Assessment

Plan to Assess and Improve Student Learning

Illinois Administrative Code: 1050.30(b)(1)(D) Provision is made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their degree objectives and appropriate academic record keeping.

Student Learning Outcomes

ACE students will acquire broad and deep knowledge of Agricultural and Consumer Economics.

ACE students will develop a critical and reflective orientation toward global systems (such as natural, environmental, social, cultural, economic, and political) and cultural differences (such as race, indigeneity, gender, class, sexuality, language, and disability).

ACE students will develop critical thinking and problem solving skills.

ACE students will develop their ability to communicate in a variety of settings.

ACE students will build and sustain productive relationships to be effective leaders who can respond to civic and social challenges at local, national, and global levels, creating positive change in their communities.

Students in Public Policy and Law become expert in the economics of public policy in general and in its application to specific areas of interest. This concentration will expose students to the legal and institutional structures in which policies are developed, the analysis of the economics impacts of policies, and special circumstances of public policy and law pertaining to the environment, consumers, the agricultural sector, international relations, and other.

Describe how, when, and where these learning outcomes will be assessed.

Describe here:

Identify faculty expectations for students' achievement of each of the stated student learning outcomes. What score, rating, or level of expertise will signify that students have met each outcome? Provide rating rubrics as necessary.

Explain the process that will be implemented to ensure that assessment results are used to improve student learning.

Delivery Method

This program is
available:

On Campus - Students are required to be on campus, they may take some online courses.

Enrollment

List the prerequisites including course titles and number of credit hours for each prerequisite course, and whether or not these prerequisites count in the total hours required for the minor.

Phase Down/Elimination Enrollment

Does this program
currently have
enrollment? Yes

If so, what is the
anticipated term of
completion?

Describe how this revision or phase down/elimination will impact enrollment and degrees awarded. If this is an elimination/phase down proposal include the plans for the students left in the program.

Since this program is keeping its original name, there likely won't be much impact on enrollment, degrees awarded, or finances, as there will be almost no visible difference for prospective students, except in the details of how each program is structured. The Policy and Law concentration accounts for another 8.3% of our students, so just under 60% of our majors will experience only minor changes when moving from concentrations to majors.

All students currently enrolled in the affected concentrations will be allowed to complete their degrees under existing requirements. No student will be required to change majors or concentrations. These concentrations will be closed to new students beginning with the Fall 2027 application cycle, after which students will be directed to the five new majors. Specifically, for students interested in this concentration, they would be directed towards the new Public Policy and Law, BS major.

The anticipated term of completion for this program is Fall 2031 at the earliest.

Budget

Will the program or revision require staffing (faculty, advisors, etc.) beyond what is currently available?

No

Financial Resources

How does the unit intend to financially support this proposal?

Resources are already available for this.

Will the unit need to seek campus or other external resources?

No

Attach letters of support

Faculty Resources

Please address the impact on faculty resources including any changes in numbers of faculty, class size, teaching loads, student-faculty ratios, etc.

Because this concentration is being repurposed into a new major, faculty teaching load, class sizes, student-faculty ratios, etc. will remain roughly the same.

Library Resources

Describe your proposal's impact on the University Library's resources, collections, and services. If necessary please consult with the appropriate disciplinary specialist within the University Library.

After consulting with Sarah Williams, the proposal to transition from a concentration to a major will have no impact on the University Library's resources. Current library resources are sufficient to cover the requirements of this transition. No new or additional resources will be necessary to support this transition.
